## Description of Parts:

1	Power / Phone Button
2	Volume Increase / Next Track
3	Decrease Volume / Previous Track
4	LED Light Indicator
5	Charging Port
6	Built-In Microphone

### INSTRUCTIONS FOR USE

#### Charging Instructions

The BT earphone comes with a built in rechargeable battery. Before using it for the first time we recommend you charge the battery fully. Only use the supplied USB Cord to charge the BT Earphone. Please charge for about 2 hours

Connect the USB cable to a computer USB port and the Micro USB plug to the charging slot of the device. The Red LED illuminates while the device is charging. It takes around 2 to 3 hours for the unit to fully charge. When the battery is fully charged the LED will glow off.

#### Turning on/off the device

Press and hold the **POWER** button for 2-3 seconds to turn ON or OFF the device.

### Pairing the device with Bluetooth devices (phone or music device)

Ensure the device is turned off, then press and hold the **POWER** button for 3-5 seconds until the LED flashes red and blue. Place the Bluetooth Earphone and Bluetooth device (phone or music device) so that they are no further than 1 meter apart;

Activate the Bluetooth function on your Bluetooth device (phone or music device). Please refer to the manufacturer's instructions for instructions on enabling Bluetooth on your device.

Once you have activated Bluetooth on your device, select the " **BT-H06** " from the list of available Bluetooth devices.

If required, enter the password '0000' to confirm & finalize pairing.

Once paired successfully, beep sound will be heard and the LED flashes blue quickly for a few times while paired.

You can now start to use the device.

Please note pairing mode on the device will last for around 2.5 minutes. If no devices are paired within around 2.5 minutes the device will automatically return to standby mode.

If pairing is unsuccessful, turn off the device first and then re-pair following the above steps.

Once you have paired the bluetooth earphone with a device, the earphone will remember this device and will pair automatically when the device's Bluetooth is activated and in range. You do not need to re-pair any previously connected devices.

The bluetooth earphone will attempt to automatically connect to the last device it was paired with when switched on. If you want to pair it with a new device, please follow the steps outlined above.

Once the BT Earphone is paired with your device the music will transmit through the BT Earphones. Please refer to your device's user manual for further information.

### Function Summary

#### Listening to Music

Once the earphones are paired with your device you can stream music wirelessly through the bluetooth earphone. Should you encounter any problems while streaming please refer your device's user manual for further information.

#### Control Function

### Care and Maintenance

Read the following recommendations before using the BT Earphone. Following these you will be able to enjoy the product for many years.

- Do not expose the BT Earphone to liquid, moisture or humidity to avoid the product's internal circuit being affected.
- Don't use abrasive cleaning solvents to clean the device.
- Do not expose the device to extremely high or low temperature as this will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.
- Don't dispose of the device in a fire as it will result in an explosion.
- Don't expose the device to contact with sharp objects as this will cause scratches and damage.
- Don't let the device fall on the floor. The internal circuit might get damaged.
- Don't attempt to disassemble the device as it may get damaged if you are not professional.

In case the device doesn't function properly, send it to the store you bought it. The staff will help you to the problem.

### Specifications

Bluetooth specification	Bluetooth 3.0+EDR

Charging input voltage	DC 5V
Charging time	About 2~3 hours
Speaker Power	2 x 2mW
Built-In Battery	100mAh
Cable Length	62cm

(Note: Battery life & charging time may vary based on usage & types of devices used.)

## **FCC Statement:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note: Modifications to this product will void the user's authority to operate this equipment.**
