### **Voice Assistant Operation**

AudioLux Voice Assistant is a built-in interactive feature that allows you to Start Conversation with Your Siri or Google Assistant, with a click of a button on your AudioLux device.

This feature enables you to ask questions and seek assistance on a number of things from your Voice Assistant, even when you're several feet away from your phone. Below are some of the many examples listed below.

Note: Google Assistant is available on eligible Android 5.0 devices or later. Works on Lollipop, Marshmallow and Nougat Android Phones with Google Play Services, >1.5GB of memory and 720P or higher screen resolution. Please ensure Google Assistant App is downloaded and made as default Voice Assistant on your mobile device.

**While the speaker is paired using Bluetooth, press the Voice Assistant button to start conversation with your Siri or Google Assistant. An indication tone would be heard before you speak into the speaker.**

- Example 1: Press the Voice Assistant button and then speak into the speaker, how's the weather today?  
Voice Assistant will reply with something like: mainly cloudy with a few showers.
- Example 2: Press the Voice Assistant button, and then speak into the speaker, what's the time now?  
Voice Assistant will reply with something like: it is 8pm now.
- More examples:  
Set an alarm for 7am tomorrow.  
Play some music.  
What's in the news?

### **Tips:**

When the speaker is not in use, turn it OFF in order to save the battery power.

## **FCC Instructions**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If the product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the product and receiver.
- Connect the product into an outlet on a circuit different from that to which the receiver is connected.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
