INSTRUCTIONS FOR USE

Charging Instructions:

1. The speaker comes with a built-in rechargeable battery.
2. Before using it for the first time we recommend you charge the battery fully. The device can also be used whilst powered & is charging.
3. Connect the USB charger cable to computer USB port or a USB wall charger (not included). Connect the other side to the USB charging slot of the Speaker, the battery charging LED indicator will illuminate red.
4. When the battery is fully charged, the LED indicator will switch off.
5. When the battery is running low, you will hear a tone to indicate the battery needs charging.

SPEAKER SPECIFICATIONS

Bluetooth version JL 5.0;
Speaker power: 3W;
Battery: 1200mAh;
Speaker: 52mm,
Operating distance: 10 meters(max.)

Pairing the speaker

Switch to power on / off button to on, you'll hear a tone and the Bluetooth mode will turn on automatically, the blue LED indicator will light, select the pairing name "U-Light Groove" from the list of available Bluetooth devices (phone/music device), you will hear a tone indicating pairing successful.

Listening to Music

Once the speakers are paired with your device you can stream music wirelessly through the speaker. Select the track you wish to listen to and it will be streamed to your Bluetooth speaker. Should you encounter any problems while streaming please refer your device's user manual for further information.

Using AUX-in

After the speaker is turned on, connect one end of the 3.5mm AUX cable into AUX in jack, the other end of the Cable to connect MP3 / Smartphone to play music. When inserted the 3.5mm AUX cable to the AUX in jack, the Bluetooth will be disconnected automatically. **(AUX cable not included)**

Using the LED Function

Bluetooth Speaker LED Table Lamp can be used independently of the speaker and be used as a regular table lamp.

Note: Touch power button to power ON/OFF. Short touch to change between 3 brightness levels.

Please Note: Not all mobile phones support all the functions listed above. Please refer to your cell phone's user's manual for further information.

Cleaning & Maintenance

Unplug the product from the supply if it is left unattended and before cleaning. NEVER immerse the product into water and use a dry cloth for cleaning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
