Yealink

Smart Media Phone
### SIP-T58V & SIP-T58A

SIP-T58V

Quick Start Guide (V80.10)

Packaging Contents

The following items are included in your package. If you find anything missing, contact your system administrator.

| Handset Cord | Ethernet Cable (2m CAT5E FTP cable) | Stand | CAM50 |

| IP Phone | Handset | Quick Start Guide | Power Adapter (Optional) | Wall Mount Bracket (Optional) |

Note: The Yealink USB camera CAM50 is an optional accessory for the SIP-T58A IP phone.
We recommend that you use the accessories provided or approved by Yealink. The use of unapproved third-party accessories may result in reduced performance.
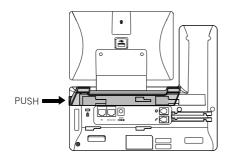

Assembling the Phone

**1. Insert the camera, as shown below:**

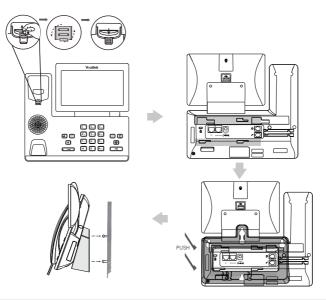

Adjust Shutter Switch

Adjust Camera Angle

Note: The camera can only be connected to the USB port on the top of the phone. And the IP phone only supports the Yealink original USB camera CAM50.

**2. Attach the stand, as shown below:**

PUSH

### 3. Attach the optional wall mount bracket, as shown below:

Note: The hookswitch tab has a lip which allows the handset to stay on-hook when the IP phone is mounted vertically. For more information, refer to Yealink Wall Mount Quick Installation Guide for Yealink IP Phones.

4. Connect the handset and optional headset, as shown below:

Note: The headset should be purchased separately.

5. Connect the optional USB flash drive, as shown below:

Note: The USB port (on the rear of the phone) can also be used to connect color-screen expansion module EXP50 or USB headset. For more information on how to use EXP50, refer to Yealink EXP50 User Guide. For more information on how to use USB headset, refer to the documentation from the manufacturer.

6. Connect the AC power or PoE, as shown below:

Power Adapter
(DC 5V)

Ⓐ
AC Power Option

Ⓑ
PoE (Power over
Ethernet) Option

IEEE 802.3af compliant
PoE Hub/Switch

Note: The IP phone should be used with Yealink original power adapter (5V/2A) only. The use of the third-party power adapter may cause the damage to the phone.

7. Connect to the network, as shown below:

You have two options for network connection. You can select one of them according to the current office environment.

a) Connect to the wired network:

PC

PC Connection
(Optional)

Note: If you are connecting a PC to your phone, we recommend that you use the Ethernet cable provided by Yealink.
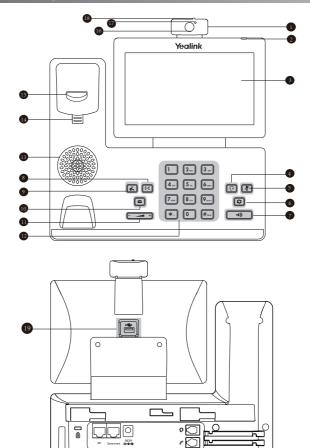

b) Connect to the wireless network:

1) Swipe down from the top of the screen to enter the control center.

2) Tap **Settings**->**Basic**->**Wi-Fi**.

3) Tap the **On** radio box in the **Wi-Fi** field.

The phone will automatically search for available wireless networks in your area.

4) Select an available wireless network from the list of networks.

5) If the network is secure, enter its password in the **Password** field.

6) Tap **Connect** to connect to the wireless network.

Hardware Component Instructions

	Item		Item		Item
1	Camera	8	TRANSFER Key	15	Hookswitch
2	Power Indicator LED	9	HOLD Key	16	Camera Lens
3	Touch Screen	10	MESSAGE Key	17	Camera Indicator LED
4	HEADSET Key	11	Volume Key	18	Shutter Switch
5	MUTE Key	12	Keypad	19	USB2.0 port
6	REDIAL Key	13	Speaker		
7	Speakerphone Key	14	Hookswitch Tab		

Startup

After the IP phone is connected to the network and supplied with power, it automatically begins the initialization process. After startup, the phone is ready for use. You can configure the phone via web user interface or phone user interface.

Welcome

Initializing... Please wait

Configuring Your Phone

Configuring via web user interface

Accessing the web user interface:

1. Swipe down from the top of the screen to enter the control center.

2. Tap **Settings**->**Status** to obtain the IP address of the phone.

3. Open a web browser on your computer, enter the IP address into the address bar (e.g., "http://192.168.0.10" or "192.168.0.10"), and then press **Enter**.

4. Enter the user name (default: admin) and password (default: admin) in the login page and click **Confirm**.

Network Settings: Click on **Network**->**Basic**->**IPv4 Config**

You can configure the network settings in the following ways:

DHCP: By default, the phone attempts to contact a DHCP server in your network to obtain its valid network settings, e.g., IP address, subnet mask, gateway address and DNS address.

Static IP Address: If the phone cannot contact a DHCP server for any reason, you need to configure IP address, subnet mask, gateway address, primary DNS address and secondary DNS address for the phone manually.

PPPoE: If you are using an xDSL modem, you can connect your phone to the Internet via PPPoE mode. Contact the ITSP for the PPPoE user name and password.

Note: The IP phone also supports IPv6, but IPv6 is disabled by default.
The wrong network settings may result in inaccessibility of your phone and may have an impact on the network performance. Contact your system administrator for more information.

Account Settings: Click on **Account**->**Register**->**Account X** (X=1,2,3...15,16)

Parameters of the account:

Register Status:	It shows the register status of the current account.
Line Active:	You can select Enabled/Disabled to enable/disable the account.
Label:	It is shown on the touch screen to identify the account.
Display Name:	It is shown as Caller ID when placing a call.
Register Name:	It is an authenticated ID for authentication provided by ITSP (required).
User Name:	It is provided by ITSP for registration (required).
Password:	It is provided by ITSP for registration (required).
Server Host:	It is provided by ITSP for registration (required).

Register status icons on the touch screen:

(Green) Registered   (Gray) Register Failed   (Green and Flashing) Registering

Note: Check with your system administrator if any error appears during the registration process or a specific configuration is required for your registration.

Configuring via phone user interface

Network Settings:

1. Swipe down from the top of the screen to enter the control center.
2. Tap **Settings**->**Advanced** (default password: admin)->**Network**->**WAN Port/VLAN /Webserver Type/802.1x/VPN/LLDP/CDP/NAT** to configure the network.

Account Settings:

1. Swipe down from the top of the screen to enter the control center.
2. Tap **Settings**->**Advanced** (default password: admin)->**Accounts** to configure the account.

Using Your Phone

- To adjust the screen brightness, drag the slider.

Notification Center
Notification center displays the list of Notification, Missed Calls, Voice Mail and Forwarded.
- To delete all notifications, tap ☷⊗ .
- To delete a specific notification, swipe left or right.
- To view the details, tap the desired notification message.

Android keys.

Swipe up from the bottom of the screen to hide this screen.

Entering and Updating Data

To use onscreen keyboard:

1.Tap the input field, the onscreen keyboard will display on the touch screen:

Tap to backspace.

Label automatically to identify the context-sensitive features.
- Tap **Next** to go to next field.
- Tap **Done** to confirm the settings.
- Tap **Send** to dial out the number.
- Tap **Go** to browse the web page.

Tap to switch to the uppercase input mode.

Tap to switch to the numeric&symbolic input mode.

Tap to access input options to configure Input Languages or Android Keyboard Settings(AOSP).

2.When you finish entering, tap ⌄ to hide the onscreen keyboard.

To use keypad:
Dial or enter number.

To select a field option:
Tap the field name, tap the desired option in the pop-up dialog box.

Basic Call Features

Placing a Video/Voice Call

Using the handset:
1. Pick up the handset.
2. Enter the number, and then tap **Send**.

Using the speakerphone:
1. With the handset on-hook, press 🔊 .
2. Enter the number, and then tap **Send**.

Using the headset:
1. With the headset connected, press 🎧 to activate the headset mode.
2. Enter the number, and then tap **Send**.

Answering a Video/Voice Call
Using the handset:
Pick up the handset.

Using the speakerphone:
Press 🔊 .

Using the headset:
Press 🎧.

Controlling Video During a Call

To change the video view:

- Tap **Full Screen** to display the video in full screen.

- Tap ◁ to return.

To turn on/off near-site video during a call:

Swipe down from the top of the screen to enter the control center, tap **Video** to turn on/off the near-site video.

Ending a Video/Voice Call

Using the handset:

Hang up the handset or tap the **EndCall** soft key.

Using the speakerphone:

Press 🔘 or tap the **EndCall** soft key.

Using the headset:

Tap the **EndCall** soft key.

Redial

• Press 🔘 to enter the **Placed Calls** list, and then tap the desired entry.

• Press 🔘 twice when the phone is idle to dial out the last dialed number.

Call Mute and Un-mute

• Press 🔘 to mute the microphone during a call.

• Press 🔘 again to un-mute the call.

Call Hold and Resume

To place a call on hold:

Press 🔘 or tap the **Hold** soft key during an active call.

To resume the call, do one of the following:

• If there is only one call on hold, press 🔘 or tap the **Resume** soft key.

• If there is more than one call on hold, tap the call you want to resume, and press 🔘 or tap the **Resume** soft key.

Call Transfer

You can transfer a call in the following ways:

Blind Transfer

1. Press 🔘 or tap the **Transfer** soft key during a call. The call is placed on hold.

2. Enter the number you want to transfer to.

3. Press 🔘 .

Semi-Attended Transfer

1. Press 🔘 or tap the **Transfer** soft key during a call. The call is placed on hold.

2. Enter the number you want to transfer to, and then press 🔘 .

3. Press 🔘 or tap the **Transfer** soft key when you hear the ring-back tone.

Attended Transfer

1. Press 🔘 or tap the **Transfer** soft key during a call. The call is placed on hold.

2. Enter the number you want to transfer to, and then press 🔘 .

3. Press 🔘 or tap the **Transfer** soft key when the second party answers.

Call Forward

To enable call forward:

1. Swipe down from the top of the screen to enter the control center.

2. Tap **Settings**->**Features**->**Call Forward**.

3. Select the desired forward type:

    Always Forward----Incoming calls are forwarded unconditionally.

    Busy Forward----Incoming calls are forwarded when the phone is busy.

    No Answer Forward----Incoming calls are forwarded if not answered after a period of time.

4. Enter the number you want to forward to. For **No Answer Forward**, tap the **After Ring Time** field, and then tap the desired ring time to wait before forwarding.

5. Tap ✔ to accept the change.

Call Conference

1. Tap the **Conference** soft key during an active call. The call is placed on hold.
2. Enter the number of the second party, and then press `#` or tap **Conference**.
3. Tap the **Conference** soft key again when the second party answers. All parties are now joined in the conference.
4. Tap the **EndCall** soft key to disconnect all parties.

Note: You can split the conference call into two individual calls by tapping the **Split** soft key.

Voice Message

Message waiting indicator on the idle screen indicates that one or more voice messages are waiting at the message center. The power indicator LED slowly flashes red.

To listen to voice messages: (Ensure the voice mail code is already configured on the phone.)
1. Do one of the following:
   - Press `✉`.
   - Swipe down from the top of the screen to enter the notification center, tap **Voice Mail** and then select the desired item.
2. Follow the voice prompts to listen to your voice messages.

Customizing Your Phone

Call History

1. Tap 📞, and then select the desired call list on the left.

2. Drag up and down to scroll.

3. Tap ⓘ after the desired entry, and then you can do the following:
 - Tap **Send** to place a call.
 - Tap **Add** to add the entry to the local directory.
 - Tap **Edit** to edit the phone number of the entry before placing a call.
 - Tap **Blacklist** to add the entry to the blacklist.
 - Tap **Delete** to delete the entry from the list.

Contact Directory

To add a contact:

1. Tap 👤, and then select the desired group on the left.
2. Tap ➕ to add a contact.
3. Enter a unique contact name in the **Name** field and contact numbers in the corresponding fields.
4. Tap ✔ to accept the change.

To edit a contact:

1. Tap 👤, and then select the desired group on the left.
2. Tap ⓘ after the desired contact.
3. Edit the contact information.
4. Tap ✔ to accept the change.

To delete a contact:

1. Tap 👤, and then select the desired group on the left.
2. Tap ⓘ after the desired contact and then tap **Delete**.
3. Tap **OK** when the touch screen prompts "Delete selected item?".

Note: You can add contacts from call history easily. For more information, refer to **Call History** above.

Volume Adjustment

- Press `[- —— +]` during a call to adjust the receiver volume of the handset/speakerphone/headset.
- Press `[- —— +]` when the phone is idle or ringing to adjust the ringer volume.
- Press `[- —— +]` to adjust the media volume in the corresponding screen.

About us

Founded in 2001, Yealink, a leading provider of VoIP Phone and IP communication solutions, has been focusing on VoIP products characterized by reliable quality, easy deployment and affordable price for more than a decade. Today, customers from over 140 countries rely on Yealink as the backbone of global collaboration to extend the value of network communications.

More about Yealink

Since 2001, Yealink has continued to develop state-of-the art, hi-tech VoIP communication terminals that include IP video phones, IP phones and USB phones. With a worldwide market in more than 140 countries, the company has also established a first-class international service network.

Our priorities are quality, functionality, ease-of-use, customer support and competitive pricing. To provide new solutions for the future in this fast-evolving sector, Yealink's large, talented and highly-experienced VoIP R&D team is totally purcommitted to the suit of excellence.

To date, we have passed more than 80 interoperability tests and meet certification requirements set by leading VoIP system and platforms. Yealink works in close partnership with T-Mobile, Telefonica, Portugal Telecom and other leading telecommunication service providers.
