DO'S AND DON'TS

- ✓ Watch your pet, talk to your pet from afar and listen carefully what he or she has to say to you.
- ✓ Play with your pet using a safe built-in laser toy. Keep your pet fit and have lots of fun.
- ✓ Share access to your Petcube with friends, family or anyone within Petcube network.
- ✗ Don't drop, hit, shake, or tumble your Petcube Camera.
- ✗ Don't stain, scratch, or otherwise damage the front panel.
- ✗ Avoid prolonged direct eye contact with Petcube Camera laser.
- ✗ Don't use Petcube Camera laser in combination with optical instruments. Note that glasses and some watches have magnifying properties as well.
- ✗ Don't point Petcube Camera laser at people. Do not use the laser to guide your pet in any direction that may cause harm to the pet, which includes windows, stores etc. Beware, pointing Petcube Camera laser at valuable objects may cause your pet to damage or break them.
- ✗ Don't expose to liquid, moisture, dust, excessive heat, or naked flame.
- ✗ Protect the power cord from being walked on or pinched.
- ✗ To avoid overheating, don't leave your Petcube Camera in direct sunlight.

Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.

European Union Regulatory Conformance

The equipment complies with the RF Exposure Requirement 1999/519/EC; Council Recommendation of 12 July 1999 on the limitation of exposure of the general public to electromagnetic fields (0–300 GHz).

Changes or modifications to this product not authorized by our company could void the EMC compliance and negate your authority to operate the product. This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices.

This equipment meets the following conformance standards:

EN 301489-1/-17;

EN 300328, EN 60950-1;

EU Declaration of Conformity

Hereby, Shenzhen YITOA Digital Appliance Co., Ltd. declares that this smart phone is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
