

小蚁运动相机使用指南英文版

Thank you for choosing Yi Action Camera

1. Camera Kit

2. Getting to know the camera

- Power/Mode button
- Battery LED light
- Lens
- Shutter button
- Status LED light
- Microphone
- Wi-Fi LED light
- Wi-Fi/Bluetooth button

The camera uses Wi-Fi to connect to mobile phone. Once connected, you can remotely control your camera and transfer files between camera and mobile phone.

3. Battery charging

You can charge the camera through USB cable from power adapter or laptop/PC.

- Status LED light
- Micro USB port
- MicroSD card slot
- Micro HDMI port
- Battery slot
- Status LED light
- Speaker
- Tripod socket

Tip: For better usage of your camera, we recommend a 16GB-32GB micro SD card (class 10 or UHS-I).

4. How to use the camera

- Turn on the camera:** Click on the Power/Mode button. The LED light will blink two times. Press the Power/Mode button for 3 seconds. The LED light will blink 3 times.
- Turn off the camera:** Click on the Wi-Fi button. The Wi-Fi LED light will start to blink. Click on the Wi-Fi button again. The Wi-Fi LED light will blink 5 times before turn off.

By using the camera app, you can control the camera remotely from your mobile phone or make clips on your mobile phone. It is also possible to control the camera by a Bluetooth remote control (sold separately).

3) Switching camera modes

Click on the Power/Mode button quickly to switch between photo and video mode.

Photo: By default, the camera will always start in photo mode. You can change the configuration on the App.

Video: Click the Power/Mode button again to switch mode to video. Click the Shutter button to start recording. Click the Shutter button again to stop recording.

5) Download the camera app

Scan the following QR Code and download the Xiaoyi Action Camera App to preview videos, record and save pictures through your mobile phone.

Tip: You can also download it at the App Store/Google Play searching for "YiAction".

9) Accessories (Optional)

Tip: More accessories are being launched. Stay tuned via www.xiaoyi.com.

10) Camera Information

Product Name: Yi Action Camera
Lens: F2.8 30X OIS
Focal length: 21.3-63.9mm
Video Specifications: Support up to 1080P 60FPS
Sensor: 1/2.3" 1.1um pixel CMOS
Weight: 23g (Camera + Battery)
Storage: Supports MicroSDHC and MicroSDXC memory card | Typical Power Consumption: 2W

Model: YD6X101V
Input Current: 1A
Input Voltage: 5V
Operating Temperature: 0°C-40°C
Operating Humidity: 10-85%RH
Storage Temperature: -20°C-40°C

Manufacturer: Xiaoyi Technology Co., Ltd.
Address: 6F, Building E, Changce Square, No.3889 Jinxia Road, Pudong, Shanghai, China
Website: www.xiaoyi.com
Tel: +86-021-6165 8722

Thank you for choosing Yi Action Camera. Please read this manual carefully and save it for future needs.

The device complies with Part 15 of the FCC Rules / Industry Canada Interference Radio Standards. Operation is subject to the following two conditions: (1) the device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil ne conforme aux CNE (Industry Canada) applicables aux appareils radio exempts de licence. L'utilisation est autorisée aux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'appareil doit accepter tout brouillage radioélectrique qu'il recevra, y compris le brouillage qui pourrait nuire à son fonctionnement.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum gain approved for the transmitter by Industry Canada. Operation is subject to the following two conditions: (1) the antenna type and its gain must not exceed the maximum authorized antenna power (MAP) in dBm more than that necessary for successful communication.

Conformément à la réglementation d'Industry Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain autorisés par Industry Canada. L'utilisation est soumise aux conditions suivantes: (1) le type de l'antenne et son gain ne doivent pas dépasser la puissance autorisée de l'émission radioélectrique (PRE) en dBm de plus que ce qui est nécessaire pour assurer une communication réussie.

The device complies with RF modification when used near your head or body. The device is also designed to meet the requirements for wireless to radio waves compliance by the Federal Communications Commission (FCC). The SAR limit applied for the USA is 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported by the FCC for this device is 0.98 W/kg. The highest SAR value reported by the FCC for the device (per gram) is 1.6 W/kg. The highest SAR value reported by the FCC for the device (per gram) is 1.6 W/kg. The highest SAR value reported by the FCC for the device (per gram) is 1.6 W/kg.

FCC ID: 2AFB-E1906A
