

YI Home Camera 1080P User Manual

Front

Thank you for choosing YI Home Camera 1080P

1. Download the app

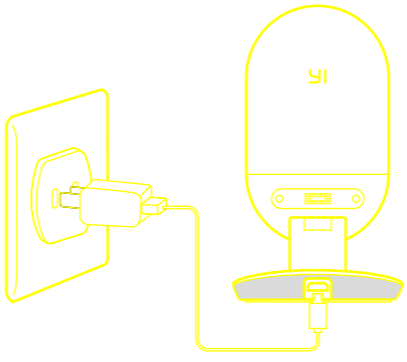

Scan the YI Home app QR code below to complete the installation. You can also download it on the App Store™ or Google Play store by searching for YI Home app.

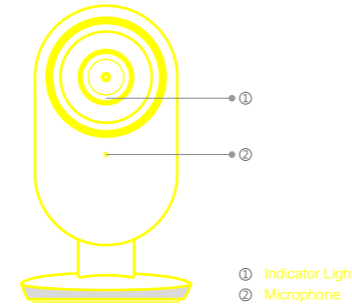

YI Home app QR Code

2. Get Started

1. Place the camera close to the router, and make sure Wi-Fi access is available, then connect the cable to the Micro USB port on the back of the camera to the power outlet as shown.

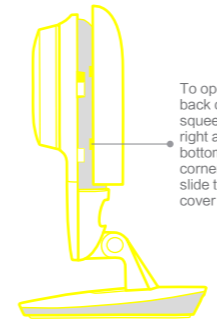

2. Wait a few seconds until the yellow light starts to blink on the front of the camera. If the yellow light does not blink, use a clip to press the reset button on the back of the camera, and wait until the yellow light comes on again.

① Indicator Light
② Microphone

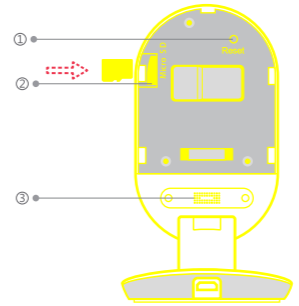

3. Open The Back Cover

To open the back cover, squeeze the right and left bottom corners and slide the cover up.

4. Inserting SD Card

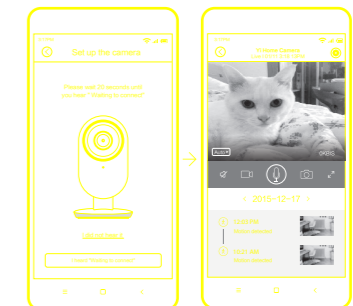

Note: To enable local recording of video clip, please insert a Micro SD card* (not included) in the slot as shown below
*support minimum of 8GB up to 32GB, class4 & above Micro SD card

① Reset Button
② Micro SD Card Slot
③ Speaker

5. Connect the camera to your phone

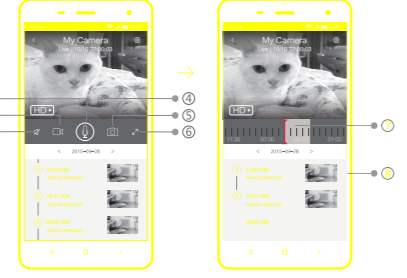

1. Ensure that the camera is on and a yellow light is blinking on the front of the camera.
2. Follow the simple setup instruction on the app. You can configure multiple cameras one at a time.

Back

6. Preview live footage

1. Use the YI Home app to watch real-time video on your phone.
Attention: It is illegal in many jurisdictions to record an audio conversation without the consent of all individuals. Please comply with all laws when using your YI Home Camera.

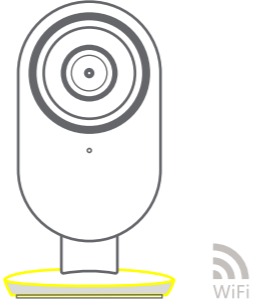

① Hold to talk
② Record Videos
③ Mute
④ Show timeline
⑤ Take photos
⑥ Full screen
⑦ Playback history
⑧ Alerts

7. Switch Wi-Fi Networks

When you need to switch Wi-Fi networks or update your Wi-Fi password, follow the instructions below:

- Use a clip to press the reset button on the back of the camera, and wait until the yellow light comes on.
- Open the YI Home app on your phone and complete the simple Add Camera instructions. Your videos stored on your Micro SD card will not be affected.

Recommendations

- Place the camera in open areas with Wi-Fi signals and away from metal objects.
- Avoid placing the camera behind furniture, near microwaves, or in locations with cables twisted together.

This product is designed, manufactured, and assembled in China. The safe and intended operating environment of this product is limited to United States. As such, part or all of the services and functionalities are not guaranteed to be available when this product is used outside the United States.

FAQ

IMPORTANT SAFETY GUIDELINES

- READ these instruction.
- CLEAN ONLY with dry cloth.
- This camera is for indoor use only.
- ONLY USE attachments/accessories specified by the manufacturer.
- UNPLUG this apparatus during lightning storms or when unused for long periods of time.
- To get the best usage out of this product, please consistently update to the latest versions of our app and firmware.

WARNING:
Open flame sources such as candles should not be placed near or on the product.

This device complies with Part 15 of the FCC Rules / Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Congratulations!
Your YI Home Camera is ready to use.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émission par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'attention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (P.I.R.E.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

MPE Requirements
To satisfy FCC / IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation. To ensure compliance, operators at closer than this distance is not recommended.
Les antennes installées en dehors de la situation de façon à ce que la population ne puisse être exposée à une distance de moins de 20 cm, installer les antennes de façon à ce que le personnel ne puisse approcher à 20 cm ou moins de la position centrale de l'antenne.
La FCC des États-Unis stipule que cet appareil doit être en tout temps éloigné d'au moins 20 cm des personnes pendant son fonctionnement.
