9

How to sync With Amazon Echo

1.Link Smart Life account to Echo

>>Go to Home menu on Alexa App.

10

>>Select "Skills" in Home menu, search "Smart Life" on search window, select "Smart Life" and tap "Enable" to enable the Smart Life skill.

11

>>In link page, type in your Smart Life account & password and tap "link now" to link your Smart Life account.

12

>>Wait until "Alexa has been successfully linked with Smart Life" shows up.

13

2.Control smart devices through Echo

>>Echo needs to discover your smart devices before it controls them. You can say "Alexa, discover devices" to Echo, Echo will discover devices in about 20 seconds.

Now, you can control your smart devices through Echo: "Alexa, turn on/off bedroom light"

Note:

>>If you change the device's name on Smart Life APP, Echo must re-discover it before you control them.
>>You can set up groups on Alexa App to control.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To comply with FCC RF exposure compliance requirements, this grant is applicable to only mobile configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.
