THUNDER TUMBLER OPERATING INSTRUCTIONS

KEEP THIS INSERT FOR REFERENCE SINCE IT CONTAINS IMPORTANT INFORMATION.

OPERATING INSTRUCTIONS
Operation requires 2 "AA" 1.5V alkaline batteries (not included) for car and 1 9V battery (included) for remote control.

1. Carefully remove items from package.
2. Locate the battery compartment on the back of each item (see diagram on right).
3. Carefully insert the battery in car to release battery pack and replace batteries.
4. Switch both car and remote buttons to "ON" position.
5. Not recommended to operate on carpet as functions cannot be performed.

- Remove all batteries when not in use to avoid accidental operation.
- Adult supervision is recommended when operating the car.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio-frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

BATTERY WARNING:

- Do not use other than alkaline batteries and rechargeable batteries (these items apply).
- Do not use old and new batteries.
- Do not mix different brands of batteries.
- Do not mix different types of batteries.
- Do not use damaged or recalled batteries.
- Do not use batteries that are not marked with the appropriate safety and performance information.
- Do not use batteries that are not marked with the appropriate safety and performance information.
- Do not use batteries that are not marked with the appropriate safety and performance information.
- Do not use batteries that are not marked with the appropriate safety and performance information.

KEEP THIS PACKAGE FOR REFERENCE AS IT CONTAINS IMPORTANT INFORMATION.

However, there is no guarantee that interference will not occur in particular installations. If this equipment does cause harmful interference to radio or television reception, you can try to correct the interference by turning the equipment off and on, or by one or more of the following measures:

- 1) Reorient or relocate the receiving antenna.
- 2) Increase the separation between the equipment and receiver.
- 3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4) Consult the dealer or an experienced radio/TV technician for help.
