# 1. Introduction

## 1.1 Acknowledgements

Many thanks for you choosing this product. The product belongs to MID(Mobile Internet Device), which is a kind of mobile internet device, delicate, small and exquisite, and also portable. It is also equipped with a piece of touch LCD of high definition, which can be used to watch vedios and pictures of high definition. It supports installation of multiple application programs on office and entertainment. The fantastic operation interface will give you a brand-new user experience.

This manual systematically introduces diversified functions, using skills and matters needing attention of this MID, please read this manual carefully before using it.

## 1.2 Safety Notice

Before using MID, please read information in this section, and make your children learn about the information. About more detailed information, please refer to safety instructions and matters needing attention.

- Please don't use MID when you are driving, for fear of hindering safe driving.
- In medical places, please observe relevant stipulations and regulations. And in regions near the medical devices, please shut down MID.
- Please shut down MID or enable the airplane mode when boarding, so that the wireless signals will not interfere control signal of the airplane.
- Please shut down MID neighboring electronic equipments with high accuracy, otherwise, breakdown of electronic equipments may be brought about.
- Please don't dismantle the MID and its accessories on yourself, and only the authorized agency can maintain this MID.
- Please keep MID far away from magnetic equipment, radiation from MID will erase information stored on the magnetic equipment.

- Please don't use MID in places with high temperature and inflammable gas (such as nearby gas station).
- Please put MID and its accessories in places beyond children's touch, please don't let children use MID without supervision.
- During using of this MID, please observe related laws and regulations, respect privacy and legitimate rights of others.
- Please strictly abide by relevant explanations in this manual when using USB data line, otherwise, MID or personal computer may be damaged.
- Please don't use the MID in humid environment such as bathroom, etc., and the MID being soaked or rinsed by liquid must be avoided.

### 1.3 Abbreviation/term

| Abbreviation/term | Full name                            | Explanations   |
|-------------------|--------------------------------------|--|
| MID               | Mobile Internet Device               | Mobile internet terminal                                   |
| WIFI              | Wireless Fidelity                    | Wireless Local Area Network based on IEEE 802.11b standard |
| TF                | Trans Flash                          | Alternate name Micro SD, superminiature storage card       |
| HDMI              | High Definition Multimedia Interface | High definition multi-media interface                      |

## 2. Brief introduction for MID product

### 2.1 Wireframe for MID complete machine

### 2.2 MID state and notice

#### Iconograph for notification

When a prompt message shows on your notice panel, please click the column box and slide on the screen with your finger to open the notice list. Click options needing to check to see

detailed information. Then you may click the message box and slide upwards to close the message window. The following are iconography for icons in status bar:

|   |   |   |   |
|---|---|---|---|
|    | Mail notice                                     |    | Mute  |
|    | Gmail notice                                    |    | Without SD card                                 |
|    | Computer and MID are connected through USB line |    | Uploading/Downloading                           |
|    | Events waiting to be done                       |    | Downloading finished                            |
|    | Alarm clock opening                             |    | General notice (for example: synchronous error) |
|    | Playing music                                   |    | In data synchronism                             |
|   | Insufficient space of SD card                   |   | More  |
|  | WIFI service is connected, network is available |  | Battery symbol                                  |
|  | Airplane mode                                   |  | Charging  |
|  | Bluetooth is already connected                  |   |   |

### 3. Quick start

#### 3.1 Key function

**Descriptions for key function:**

|              |  |
|--------------|--|
| Power key    | <ul style="list-style-type: none"> <li>● Press this key for a long time to start up</li> <li>● Under starting up state, press this key for a long time to pop up shutdown option</li> <li>● Under starting up state, press this key to close the screen</li> <li>● Under starting up state or when breakdown appears, press the power key for 7 seconds to make your device enter into shutdown state</li> </ul> |
| Menu key     | <ul style="list-style-type: none"> <li>● Press this key to open menu of the current interface</li> </ul>   |
| Return key   | <ul style="list-style-type: none"> <li>● Press this key to return the last operating step or the previous operating interface</li> </ul>   |
| Homepage key | <ul style="list-style-type: none"> <li>● Press this key to return back main function interface from any interface</li> </ul>   |

## 3.2 Starting up and turning off

### Starting up

Press the power key for 3 seconds, you can see the starting up picture. After the system is started, the machine enters into screen lock state, please unlock according to direction indication of sliding icon on the interface.

### Turning off

1. After pressing the **power key** for a long time, the shutdown option will pop up.

## 8. Troubleshooting

| Problem   | Solution  |
|---|---|
| The device will turn itself off after a few seconds                     | Check that the battery is charged.  |
| No volume is heard  | Adjust the volume level<br>Check if audio file is broken  |
| Screen is hard to see in bright light.                                  | Adjust the screen brightness in the system menu.<br>Avoid using the reader in direct sunlight.  |
| Data on the screen is corrupted or a program is not responding properly | keep power button for long time to restart your Tablet PC   |
| Can't copy file into the device   | Check if the device is connected to the computer correctly.<br>Check if the memory space is full.<br>Check if the USB cable is broken |

### FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
