Charging Pad

Quick Start Guide

1 Getting to Know Your Charging Pad

The Zmodo Charging Pad is a wireless charger used by Snap indoor IP camera. This quick guide will help you to configure your charging pad for initial use.

1

1 3 LED Indicators

2 Charging Zone

3 Power Adapter Input

4 Anti-slip Rubber Feet

2 Charging your Snap

You will receive an alert on your smartphone through the Zmodo app whenever your Snap needs to be recharged. Please follow the steps below to charge your Snap:

1 Unscrew the camera and remove it from the bracket.

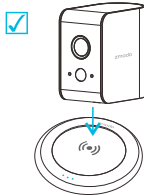

2 Plug in the wireless charging pad to a power outlet using the included USB power adapter.

3 Place the body of the camera on the charging pad. The LED indicator on your charging pad will blink blue if your Snap is placed incorrectly, and it will illuminate solid blue when it is placed correctly and charging.

4 Once charging is finished, you will receive an alert notifying you that your camera is charged. Remove the camera, and mount or place the camera back in the original position.

3 Status Light Definitions

 **Blinking blue**

The camera has not been placed properly and is not charging.

 **Solid blue**

The camera is placed correctly and charging. Please do NOT move your Snap.

 **Solid red**

The charging pad is powered on, but no camera has been placed on the pad.

3 Statement

1 Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

2 The Charging Pad doesn't interfere other equipment.

3 Please turn off the power when not charging.

4 Support

Having difficulty?

You can use the Live Chat function in Zmodo app if you have any technical problems.
Please follow the steps below:
Swipe to the right in Zmodo app, and select Live Chat under "Support".
