<div><p>Smart Vent Quick Start Guide</p></div>	<p>1 Getting to know your Smart Vent</p> <p>Zmodo Smart Vent is designed to work with Zmodo Tune and Room Sensor to make each room have the exactly temperature as you like. It helps to delivery the comforts to each room and also reduce the energy cost by regulating each room's temperature.</p> <div><p>① Status Light ② Battery Pop up Tab ③ Battery Cover ④ Fan Blade</p></div> <div><p>Pair and Reset Button</p></div> <p>1</p>	<p>What's in the box:</p> <div><p>Smart Vent Controller</p><p>Rechargeable Battery(2)</p><p>Charging Pad</p><p>Power Adapter</p><p>Quick Start Guide</p><p>Screwdriver</p><p>Anchors & Screws(3)</p></div> <p>2</p>	<p>2 Preparations before configuring:</p> <p>Charge the battery:</p> <p>Smart Vent is powered on by the included rechargeable battery. Before you configure the Smart Vent, please make sure the battery is fully charged.</p> <p>You will be able to view the battery status from the Zmodo app when the Smart Vent is in use.</p> <div><p>① Plug in the charging pad to a power outlet using the included USB power adapter.</p><p>② Place the rechargeable battery onto the charging pad. Refer to the status light on the Charging Pad to make sure the rechargeable battery is properly placed and charging.</p><p><i>Note:</i> Align the battery with the grooves on the charging pad.</p></div> <div><p>3</p></div>
<p>Charging Pad Status Light Definitions</p> <ul style="list-style-type: none">Solid Red The charging pad is powered on.Blinking Blue The battery is charging.Solid Blue The battery is fully charged. <p>Insert the battery to the Smart Vent</p> <p>① Remove the magnetic faceplate. Please open the faceplate of Smart Vent from the side which you can find a 2 cm length slot and then remove it.</p> <div><p>4</p></div>	<p>② Insert the battery. Open the battery cover by pressing down on the tab as shown. Insert the battery, making sure that the battery contacts are properly aligned, press the battery down to make sure is been properly placed and then close the battery cover. Once the battery is installed, the status light on the Smart Vent will be solid green.</p> <div><p>5</p></div>	<p>③ Mobile Setup</p> <p>Open the Zmodo App, access your Tune's Device Settings page, and choose the "Accessories" option. Select the + Add Accessory option and follow the on-screen instructions. When the app prompts you to press a button, please press the button at the back of the Smart Vent as shown to pair it with your Tune.</p> <div><p>6</p></div>	<p><i>Note:</i> If you want to take out the battery from Smart Vent to recharge, open the battery cover by pressing down on the tab, and then pull up the tab as shown, the battery will pop up a little so that you can take it out.</p> <div><p>③ Mobile Setup</p><p>Open the Zmodo App, access your Tune's Device Settings page, and choose the "Accessories" option. Select the + Add Accessory option and follow the on-screen instructions. When the app prompts you to press a button, please press the button at the back of the Smart Vent as shown to pair it with your Tune.</p><div><p>7</p></div></div>

Front Side

<p>Once you see the status light shows solid purple, Smart Vent is successfully paired with Tune.</p> <p>If you have paired multiple Smart Vent with Tune, please make sure to add each Smart Vent to Tune or to corresponding Room Sensor. For more information, please see the "How to add each Smart Vent to corresponding Room Sensor?" FAQ on the Zmodo Support Page.</p> <p>4 Install the Zmodo Smart Vent</p> <p>① Remove the existing floor, wall, or ceiling vent where you want to install your Smart Vent.</p> <div><p>8</p></div>	<p>② Insert your Smart Vent in place of your old vent, and mark the appropriate holes. Drill two holes slightly smaller than the wall anchors and use a hammer to gently insert the anchors into the wall. Fasten the two screws through the holes on the Smart Vent bracket and into the anchors as shown.</p> <div><p>9</p></div>	<p>③ Put the faceplate back to the Smart Vent securely.</p> <div><p>10</p></div>	<p>5 Status Light Definition</p> <ul style="list-style-type: none">Solid Green The battery is properly installed.Flashing Green & Flashing Purple Smart Vent is trying to pairing with Tune, it will flashing green twice and then flashing Purple.Solid Purple Smart Vent is successfully paired with Tune.Flashing Orange When HVAC is set in heating mode, the status light will flashing Orange for around 5 seconds, then off.Flashing Blue When HVAC is set in cooling mode, the status light will flashing blue for around 5 seconds, then off.Flashing White When HVAC is set in fan only mode, the status light will flashing white for around 5 seconds, then off. <p>11</p>
<p>If you were unable to pair Smart Vent with Tune, please try to reset Smart Vent and try again, please hold the button at the back of Smart Vent as shown for over 3 seconds to reset it.</p> <div><p>12</p></div>	<p>6 Support</p> <p>Having difficulty?</p> <p>You can use the Live Chat function in Zmodo app if you have any technical problems.
