

“**Component(s)**” means HDMI-equipped displays and sources, such as a DVD player or flat-panel display.

“**Cable**” means a genuine Monster HDMI cable product (i) that included a “Cable for Life” medallion, (ii) that You bought from an Authorized Dealer new and in its original packaging, and (iii) whose serial number, if any, has not been removed, altered, or defaced.

“**You**” means the first individual person that purchased the Cable in its original packaging from an Authorized Dealer. This Upgrade Program does not apply to persons or entities that bought the Cable (i) in used or unpackaged form, (ii) for resale, lease or other commercial use, or (iii) from someone other than an Authorized Dealer.

## Monster® Lifetime Cable Upgrade

Monster has designed this advanced HDMI® cable to exceed current HDMI standards and provide the best in performance not only from today’s components, but also tomorrow’s. The performance of this cable meets a minimum specification that has been verified by Simplay Labs™.

As digital sources and displays continue to improve, the bandwidth requirements of the cables will increase. If the equipment you purchase in the future ever surpasses the bandwidth of this Monster Cable, Monster will upgrade your cable.

## HDMI CABLE FOR LIFE: HOW IT WORKS

Under the HDMI Cable for Life Program, the purchase of this Cable entitles You to HDMI cable upgrades should this Cable not meet the data capacity demands of HDMI-equipped Components You may purchase in the future.

### Upgrade Eligibility:

You are eligible for upgrades, if in the future, Your Components' requirements for HDMI connectivity outstrip this Cable's performance capabilities. Like in home networking, changes in data speed require changes in cable capacity. Monster commits to be ahead of the HDMI technology curve and guarantees that performance to You.

The data rates required by Your Components are easily obtained by reviewing Your Components' specifications, such as "1080p," "Deep Color," and other feature sets that manufacturers incorporate into their components.

If you experience no picture, or artifacts, such as dropped pixels and snow, as a result of Your Cable's inability to transfer data at Your Component's required data rate, please visit our Web site, consult your dealer, or call our help desk. Please refer to [MonsterCable.com/CableforLife](http://MonsterCable.com/CableforLife) to easily check if you have a cable capacity problem.

### How to Request Your Cable for Life Upgrade:

1. Call **1-877-800-8989** and ask for a Monster Cable for Life representative, or contact us on the Web at **MonsterCable.com/CableforLife**, or see your dealer.
2. Tell us which components You are connecting, and we will advise You if the specifications of the components You own have advanced beyond the cable's performance capabilities. If your Cable capacity is adequate, Your Connectivity issue may not be the result of the Cable. If the problem lies elsewhere in Your connectivity chain, Your dealer should be able to help You troubleshoot Your system.
3. Obtain a Return Merchandise Authorization (RMA) Number from your Monster Cable for Life representative.
4. Return the Product, shipping prepaid by You with the RMA number clearly on the outside of the package, and Monster will send You an upgraded cable that will meet Your Components' requirements.

Thank you for Your purchase and confidence in Monster Cable products.

### Descriptions of Terms:

**"Authorized Dealer"** means any distributor, reseller or retailer that (i) was duly authorized to do business in the jurisdiction where it sold the Product to You, (ii) was permitted to sell You the Cable under the laws of the jurisdiction where You bought the Cable, and (iii) sold You the Cable new and in its original packaging.
