## Access T-Mobile 4G LTE Mobile HotSpot

You can access your 4G LTE Mobile Hotspot device information, using an Internet browser.

To access via Wi-Fi, do the following:

1. Connect to your hotspot device via Wi-Fi using the network connection software on your computer. Enter the Wi-Fi network password if requested.
2. Open a browser and enter <http://Mobile.Hotspot> in the address bar. The T-Mobile 4G Mobile Hotspot login screen appears.
3. Enter your **Password** in the field provided. The default password is **admin**.

4. Select the **Save Password** checkbox if you wish to bypass the login screen in the future.
5. Click **Login**. If you entered the correct password, the Dashboard screen appears.

To access via USB cable, do the following:

1. Connect your hotspot device to the PC with the USB cable.
2. Power on your device.
3. Your computer's operating system detects and recognizes new hardware (your hotspot device) and finishes the installation automatically. After successful

installation, the icon  will appear on your desktop.

NOTE: If the system does not launch installation automatically, you can run the installation program in path of **My Computer > Mobile Hotspot**.

4. Double-click the icon to open the login screen.
5. Enter your **Password** in the field provided. The default password is **admin**.
6. Select the **Save Password** checkbox if you wish to bypass the login screen in the future.
7. Click **Login**. If you entered the correct password, the Dashboard screen appears.

## Change Mobile Hotspot Admin Password

1. Access <http://Mobile.Hotspot>
2. Click **Settings** in the navigation area.
3. Select the **Device Settings** tab.

4. Follow the steps under Account Management to update your **Password**.
5. Click **Apply**. If everything is entered correctly, the Admin Password Changed dialog appears indicating the password was successfully changed.

## Change Mobile Hotspot Network Name (SSID)

1. Access <http://Mobile.Hotspot>.
2. Click **Settings** in the navigation.
3. Select the **Wi-Fi Settings** tab.
4. Change the name that appears in the **Network Name (SSID)** field in the **SSID** area.
5. Select or deselect the **Broadcast Network Name (SSID)** checkbox to enable or disable broadcasting the hotspot's Network Name (SSID).
6. Click **Apply** to save your changes on the Wi-Fi Settings tab of the Settings screen.

## Change Mobile Hotspot Wi-Fi Password

1. Access <http://Mobile.Hotspot>.
2. Click **Settings** in the navigation area.
3. Select the **Wi-Fi Settings** tab.
4. Change the value that appears in the **Password** field in the **SSID** area.
5. Click **Apply** to save your changes on the Wi-Fi Settings tab of the Settings screen.
