Power Key

- Press and hold to power on, select phone modes, turn on/off airplane mode, restart, or power off.

- Press to wake up your phone.

Home Key

- Touch to return to the Home Screen from any application or screen.

- Hold to see Google search.

Menu Key

Touch and hold to see recently used applications.

Back Key

Touch to go to the previous screen.

Volume Key

Press or hold to turn the volume up or down.

Starting Up

Switch off your phone before installing or replacing the battery or the SIM card. The microSDHC™ card is optional and can be installed and removed while the phone is turned on. Unmount the microSDHC card before removing it.
1. Place your finger in the slot at the bottom of the back cover to lift and remove the cover.

2. Hold the SIM card with its cut corner oriented as shown and slip it into the card holder.

micro-SIM card

3. Hold your microSDHC card with the metal contacts facing down and slide it into the microSDHC card slot.

microSDHC card

4、Align the connectors on the phone and the battery and slide the battery into the compartment. Then gently press the battery down until it is secured.

5、Align the back cover with the back of the phone and press the cover back into place. Make sure all the tabs are secure and there are no gaps around the cover.

Charging the Battery

1. Connect the adapter to the charging jack. Ensure that the adapter is inserted with the correct orientation. Do not force the connector into the charging jack.

2. Connect the charger to a standard AC power outlet.

3. Disconnect the charger when the battery is fully charged.

Powering On/Off Your Phone

Make sure the battery is charged before powering on.

- Press and hold the **Power Key** to turn on your phone.

- To turn it off, press and hold the **Power Key** to open the options menu. Touch **Power off**.

Product Safety Information

🚗	Do not use hand-held while driving	⛽	Do not use while re-fuelling
📱	For body-worn operation maintain a separation of 10 mm	☀	This device may produce a bright or flashing light

	Switch off when instructed in aircrafts and airports		Only use approved accessories
	Switch off in explosive environments		Do not rely on this device for emergency communications

12

§ 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be

determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:

Body Operation

This device was tested for typical body support operations. To comply with RF exposure requirements, a minimum separation distance of 1.0 cm must be maintained between the user's body and the device, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body accessories that do not meet these

requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
