Trademarks

ZTE and the ZTE logos are trademarks of the ZTE Corporation. Google and Android are trademarks of Google, Inc. The *Bluetooth*® trademark and logos are owned by the Bluetooth SIG, Inc. and any use of such trademarks by ZTE Corporation is under license.

microSDHC Logo is a trademark of SD-3C, LLC.

Qualcomm® Snapdragon™ processors are products of Qualcomm Technologies, Inc.

Qualcomm and Snapdragon are trademarks of Qualcomm Incorporated, registered in the United States and other countries. Used with permission.

License Notice and Trademark Acknowledgment Required for Licensed Products.

Manufactured under license from Dolby Laboratories. Dolby, Dolby Audio, and the double-D symbol are trademarks of Dolby Laboratories.

Other trademarks and trade names are the property of their respective owners.

We offer self-service for our smart terminal device users. Please visit the ZTE official website (at www.ztedevice.com) for more information on self-service and supported product models. Information on the website takes precedence.

Visit <http://www.ztedevice.com> to download the user manual. Just click **Support > Manuals** from the home page and then select your location, product type, and name to search for related support information.

Version No.: R1.0

Edition Time : Dec 11, 2015

Manual No. : 07958450xxxx

Product Safety Information

	Don't make or receive phone calls while driving. Never text while driving.
	For body-worn operations, maintain a separation of 10 mm.
	Small parts may cause choking.
	Your phone can produce a loud sound.
	To prevent possible hearing damage, do not listen at high volume levels for long periods.
	Avoid contact with anything magnetic.
	Keep away from pacemakers and other electronic medical devices.
	Turn off when asked to in hospitals and medical facilities.
	Turn off when told to on aircraft and at airport.
	Turn off when near explosive materials or liquids.
	Don't use at gas stations.

	Your phone may produce a bright or flashing light.
	Don't dispose of your phone in fire.
	Avoid extreme temperatures.
	Avoid contact with liquids. Keep your phone dry.
	Do not attempt to disassemble your phone.
	Only use approved accessories.
	Don't rely on your phone as a primary device for emergency communications.

Getting to Know Your Phone

Before Getting Started

Installing the nano-UIM / nano-SIM / microSDHC Card

Power off your phone before installing or removing the nano-UIM / nano-SIM or microSDHC card.

1. Insert the tip of the tray eject tool into the hole on the nano-UIM / nano-SIM card tray or microSDHC card tray.

2. Pull out the nano-UIM / nano-SIM card tray or microSDHC card tray and place the nano-UIM / nano-SIM card or microSDHC card on the tray, as shown. Then carefully install the tray back.

! CAUTION:

To avoid damage to the phone, please do not use other kinds of nano-UIM / nano-SIM cards, and do not use a non-standard nano-UIM / nano-SIM / card cut from a (U)SIM card. You can get the standard nano-UIM / nano-SIM / card from your service provider.

📌 Note:

Slot2 only supports microSDHC card.

Charging the Battery

Your phone's battery should have enough power for the phone to turn on, find a signal, and make a few calls. You should fully charge the battery as soon as possible.

WARNING!

Use only ZTE-approved chargers and cables. The use of unapproved accessories could damage your phone or cause the battery to explode.

CAUTION:

Do not change the built-in rechargeable battery in your phone by yourself. The battery can only be changed by ZTE or ZTE authorised service provider.

1. Connect the adapter to the charging jack. Ensure that the adapter is inserted in the correct direction.

2. Connect the charger to a standard AC power outlet.
3. Disconnect the charger when the battery is fully charged.

**NOTE:**

- If the battery is extremely low, you may be unable to power on the phone even when it is being charged. In this case, try again after charging the phone for at least 30 minutes. Contact customer service if you still cannot power on the phone after prolonged charging.
- The battery is not removable, do not remove the rear cover please.
- Press and hold the power key for about 10 seconds to force the mobile phone restart.

FCC Regulations

The 15.19 statement is used. They should have used the one for Licensed devices: "This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference."

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not

installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:

This wireless phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Mobile Phone (FCC ID: SRQ-ZTEB2016) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use close to human Head is 0.82W/kg, close to human body is 0.72W/kg. This device was tested for typical

body operations at 1.0cm from the body. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-Worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 1.0 cm must be maintained between the user's body and the device, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

FCC RF exposure information (SAR)

This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The exposure standard for wireless devices employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.

Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value.

While there may be differences between the SAR levels of various devices and at various positions, they all meet the government requirements.

The FCC has granted an Equipment Authorization for this model device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model device is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/ea/fccid> after searching on the FCC ID for your device, which can be found on the back of the device.
