Installation

1. Handset

Connect phone set and handset with the phone cord.

2. Antenna

Install the antenna to antenna connector **ANT**. Hold the plastic stick of the antenna and rotate the metal screw cap in clockwise direction to fix it up. **Do not rotate antenna directly.**

3. External power adapter

Plug the external power adapter to the external AC socket.

How to Power on/off

- ◆ Switch the power toggle switch **BATT** (which located at the phone's back) to "｜" side.
- ◆ Press the $\bigcirc$/EXIT **key** for about 3 seconds to power on the phone.
- ◆ In state of power-on, press and hold $\bigcirc$/EXIT **key** to power off the phone.

※ **As usual, suggest make use of external power supply. When power down or unavailable power supply nearby, you can use battery for backup.**

How to Make a Call

- ◆ Pick up the handset or press the **HAND-FREE** key.
- ◆ Enter the telephone number by using the **Number keys** (add area code when making a long distance call) or select from Contacts, or press **CALL/REDIAL Key** to enter the recent calls list, select a number.
- ◆ Press the **CALL/REDIAL Key** to make the call.

Voice Mail

Before using *Voicemail*, please consult with service provider to confirm that the voice mailbox has been activated.

The system automatically sends a message to your phone informing a new voice message. Read the message and then dial voice mail box number to listen to your voice message.

To read your voice mail, hold *"1" key* to dial voice mail box number in standby state.

Message

Select **Short Messages** in **Menu**.

➢ Select **New message** to write and edit message text, select **Options** to send or save the message.
➢ Select **Inbox** to view messages received.
➢ Select **Outbox** to view the sent messages.
➢ Select **Draftbox** to view draft messages.
➢ Select **Msg settings** to make some necessary short message settings.
➢ Select **Voicemail** to **Get voicemail**, or set the **Voicemail No.**.

Phone Lock Code

Phone code could prevent your phone from illegal use. The default phone lock code is 1234. Change it to your own phone password as soon as possible.

PIN Code and PUK Code

◆ **PIN** Code: PIN Code could prevent your SIM Card from illegal use. When PIN lock is on, you should enter the PIN code when opening the phone again. Change the default PIN code password to your own PIN Code password as soon as possible.

◆ **PUK** Code: Consecutive inputting wrong PIN code for several times can cause locking of SIM Card. To unlock, you need PUK code.

PIN code and PUK Code may be offered together with the SIM Card. If not, contact with network operator.

Text Input

Warning and Maintenance

- Keep the phone out of the reach of little children. The phone may cause injury if used as a toy.
- Use original accessories or accessories that are authorized by the manufacturer.
- Keep the phone dry and store in shady and cool place.

8

- Do not expose your phone to direct sunlight or store it in hot areas. High temperatures can shorten the life of electronic devices.
- Prevent liquid from seeping into your phone.
- Do not drop, knock or harshly treat the phone. Rough handling can break internal circuit boards.
- Do not connect the phone with other unauthorized peripheral equipments. Do not attempt to disassemble the phone and battery by yourself.
- Power off your phone before clean the phone. Use clean fabric that is anti-static to clean your phone.
- As your phone can produce electromagnetic field, do not use the phone near electrical appliances.
- Do not charge the phone without battery.
- Be aware of the usage limitation when using a phone at places such as oil warehouses or chemical factories.
- The user is cautioned that changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Warranty terms

The warranty does not apply to defects or errors in the product caused by:

(a) Reasonable abrasion.

(b) Misuse including mishandling, physical damage, improper installation, unauthorized disassembly of the product.

(c) Water or any other liquid damage.

(d) Any unauthorized repair or modification.

(e) Power surges, lightning damage, fire, flood or other events outside ZTE's reasonable control.

(f) Use of the product with any unauthorized third party products such as generic chargers.

(g) Any other cause beyond the range of normal usage for products.

End User shall have no right to reject, return, or receive a refund for any product from ZTE under the above-mentioned situations.

This warranty is end user's sole remedy and ZTE's sole liability for defective or nonconforming items, and is in lieu of all other warranties, expressed, implied or statutory, including but not limited to the implied warranties of merchantability and fitness for a particular purpose, unless otherwise required under the mandatory provisions of the law.

Limitation of Liability

ZTE shall not be liable for any loss of profits or indirect, special, incidental or consequential damages resulting from or arising out of or in connection with using this product, whether or not ZTE had been advised, knew or should have known the possibility of such damages.

Declaration

We, ZTE Corporation, declared that:

■ The user is cautioned that changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

■ The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter.

■ This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

■ NOTE:This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

10

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/ TV technician for help.

Troubleshooting

If your phone appears following phenomenon in the process of application, read following relative information at first. If the problems still can not be solved, please contact with the distributor or service provider.

Problem	Check Point
When switching on the phone, it prompts "Enter PIN".	Input your PIN Code which offered with SIM card together. If you have changed PIN code, input the new PIN Code.
When switching on the phone, it prompts "Insert SIM card".	Check whether valid SIM card is inserted or not.
When switching on the phone, it prompts "Emergency Only".	"Enter lock code" you set already to Unlock the phone.
No ring tone prompt for a incoming call.	Check volume setting of ring tone.
No display on screen when disconnect external power supply.	Check whether the battery switch is turn to "|", whether the battery has electricity, or it is damaged; or power on the phone again.
Press CALL/REDIAL key, but no number is sent.	Check whether you have set Network Call Bar.
Certain call cannot be received.	Check whether the number is restricted to come.
Cannot send short message.	Check the network condition, or message centre setting.

Other abnormal phenomenon.	First refer to user manual, then check whether the power is connected correctly or not, if there are no problems, please power off and re-start the phone again.

Declaration of RoHS Compliance

To minimize the environmental impact and take more responsibility to the earth we live, this document shall serve as formal declaration that the ZTE WP623H manufactured by ZTE CORPORATION are in compliance with the Directive 2002/95/EC of the European Parliament - RoHS (Restriction of Hazardous Substances) with respect to the following substances:

（1）Lead (Pb)

（2）Mercury (Hg)

（3）Cadmium (Cd)

（4）Hexavalent Chromium (Cr (VI))

（5）Polybrominated biphenyls (PBB's)

（6）Polybrominated diphenyl ethers (PBDE's)

The ZTE WP623H manufactured by ZTE CORPORATION, meet the requirements of EU 2002/95/EC; however, some assemblies are customized to client specifications. Addition of specialized, customer-specified materials or processes which do not meet the requirements of EU 2002/95/EC may negate RoHS compliance of the assembly. To guarantee compliance of the assembly, the need for compliant product must be communicated to ZTE CORPORATION in written form.

This declaration is issued based on our current level of knowledge. Since conditions of use are outside our control, ZTE CORPORATION makes no warranties, express or implied, and assumes no liability in connection with the use of this information.
