

Warning for units equipped with the WLAN radio option:

The following section only applies when the PS2100T terminal has FCC ID: I2821224121 on the the serial number label. (This label is on the underside of the terminal.)

Warning: Use of the PS2100T as a handheld terminal with FCC ID: I2821224121 meets the FCC requirements for radio frequency (RF) radiation exposure. To minimize exposure the user should avoid holding the terminal, especially the scanner end, up to his/her head or torso. The terminal with this radio option has been SAR tested. The maximum SAR value measured was 0.78 W/kg averaged over 1 gram.

Warning: Use of the PS2722 printer with the above PS2100T terminal docked in the cradle meets the FCC requirements for radio frequency (RF) radiation exposure. To minimize exposure the user should avoid leaning over the docked terminal, especially the scanner end. The PS2722 with this terminal/radio option has been SAR tested. The maximum SAR value was 0.17 W/kg averaged over 1 gram.
