

Operation Instructions for HV-800 Bluetooth Earphone

Introduction to function:

With novel headset design, this product adopts renowned CSR BC05 stereo Bluetooth chip, which guarantees high fidelity, stable performance and excellent communication effect. This product supports Bluetooth V3.0, Bluetooth A2DP and call.

- 1. Key [NEXT]
- 2. Key [PREV]
- 3. Switch
- 4. Multi-function key

Introduction to functional keys:

1. Key [NEXT]: Bluetooth music play status; pressing it shortly to play next song; if pressing and holding it, the volume will increase fast.
2. Key [PREV]: Bluetooth music play status; pressing it shortly to play previous song; if pressing and holding it, the volume will decrease fast.
3. Switch: move the switch to position ON to enter the status of matching, and red & blue lights will flash; move switch to OFF to shut down the earphone.
4. Multi-function key: pressing and holding it for 5 sec to clear originally matched equipment and enter the matching status again, and red & blue lights will flash; when playing music, pressing it shortly to play/pause; when a call comes in, pressing it shortly to answer the phone or pressing and holding it 2 sec to refuse the call;

when answering a call, pressing and holding it for 2 sec to switch between the modes of mobile phone and Bluetooth earphone; redial by pressing the multi-function key for two times.

5. Under matching status, if failing to connect within 3 min, the earphone will withdraw the matching status automatically; during matching, red & blue lights will flash fast alternately; under non connection status, the blue light will flash once every 2.5 sec; after connecting with mobile phone, the blue light will flash two times every 5 sec; during charging, Bluetooth will reset and shut down, and the switch shall be moved to OFF and then ON to connect with previous matched equipment; during charging, the red light will always light until charging is completed.

Product operation:

For the first time of use, the switch shall be moved to ON to enter matching status, and red & blue lights will flash fast; open your Bluetooth equipment (such as mobile phone) to search until finding the name HV-800 for matching; if password is required, input 0000, confirm it, and this product will be connected successfully; after connection, the blue light will flash two times every 5 sec. To play music, press the play key shortly, or open the music player of Bluetooth equipment. When a call comes in, press the answering key shortly to answer it; if pressing and hold it, the call will be refused.

Product performance parameters:

1- Charging voltage:	MICRO USB 5V
2-Working current:	25-30mA
3- Bluetooth Working range:	10M
4-Output power:	2x20mW
5-Frequency range:	2.402-2.480GHz
6- Distortion factor:	≤1%
7-Frequency response:	20Hz-20KHz
8-Working Time:	Music state 7 H
9-SNR:	S/N≥95
10- Charging Time:	2-3h
11-Bluetooth name:	HV-800

FCC warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio Frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
