

VIVITAR®

WIRELESS BLUETOOTH SPEAKER

User Manual

Instruction

Thanks for choosing this product. This product is designed to provide high quality wireless sound for your iPad, iPhone, iPod, computer, PDA or other Bluetooth audio device.

Caution

- Do not use or leave the product at very high temperatures (such as in a hot car). Otherwise the performance will degrade and its longevity will decrease. It can even start a fire in worst case scenarios.
- Do not use unit in a location where static electricity is great, otherwise the safety circuits may be damaged, which can cause lots of various problems.
- The unit should be stored at room temperature.
- Do not use and leave the product near a heat source like a fireplace or heater or under direct sunlight.
- Do not strike or throw the product.

Operation Instruction

Switch on speaker

Switch on/off the button ON/OFF at the back of the speaker. it will make a beep sound when it is turned on. The blue LED will flash to indicate that the speaker has entered its pairing mode.

BT pairing

Switch on your music player's (such as the iPhone, iPod touch etc.) Bluetooth function and search for BT devices. Select the "Vivitar WL Speakers" and connect to it. When you hear the beep sound, the bluetooth pairing is successful. Once your Bluetooth speaker has been paired to a specific mobile device, they will remain paired and automatically recognize each other whenever they are within range.

Speaker Overview

• Aux-in play

Plug in 3.5mm audio cable (included) to the speaker's AUDIO IN port and the other end of plug to the music player device.

• BT pairing LED indicator

When the speaker is turned on, the blue LED light flashes rapidly. Once connected, the LED light will flash slowly.

• Charging LED indicator

Connect the Micro USB cable (included) to the charging port and the LED light will turn red. The red LED light turns off when the unit is fully charged.

Specification

Product: Wireless Bluetooth Speaker

BT version: Bluetooth V4.1

Receiver Distance: ≤10M

Power Supply: 400 mAh/3.7V Li-ion Battery Voltage DC=5V

Driver Diameter: 52mm

Output: 4Ω3W

Package Contents

Speaker 1pc
Micro USB cable 1pc
Manual & Warranty Card 1pc
3.5mm Audio cable 1pc

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
