

CAUTION
RISK OF EXPLOSION IF BATTERY IS REPLACED
BY AN IN CORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING
TO THE INSTRUCTIONS

PUTTING ON THE TRANSMITTER

- Attach one end of the adjustable elastic strap to the transmitter
- Moisten the rubber electrodes of the belt with either water or saliva as shown
- Position the transmitter on the chest just below the breastbone,
with the Cardiosport logo the right way up.
- Pass the elastic strap around your chest and attach to the other end of the transmitter.
- Adjust the strap to give a close but comfortable fit.

CARDIOSport®

ANT+ Heart Rate Transmitter Specification

Special Features

- **ANT+ interoperable wireless technology**
- **Best-in-class interference immunity**
- **Ideal in group or gym environments**
- **Signal filtering algorithm for noise rejection**
- **Soft, flexible and comfortable fabric design**
- **Long battery life**

ANT+ is an ultra-low power wireless sensor network protocol that provides reliable digital data communications in the license free 2.4GHz global transmission band.

Heart rate monitors that use the defined ANT+ Device Profile to transmit the wearer's heart rate data can communicate with remote host products such as watches, bike computers, cell phones and fitness equipment.

The polymer electrodes are integrated with a soft fabric delivering maximum performance and comfort. The elastic strap adjustment provides a wide range of sizes from a single strap to reduce the requirement for different size versions.

Medical grade corrosion resistant stainless steel poppers connect the Heart Pod to the chest strap.

Fully water resistant to 30M and machine washable, the elastic strap has a loop connector that eliminates buckle irritation.

Technical Specification

- Heart rate range: 30 – 240 BPM.
- Storage Temperature: -40~ 85 °C.
- Average Active current: typical 65uA.
- Peak Active current: 12 mA (for RF)
- Stand-by Current: less than 2uA
- Battery: CR2032
- RF operating Frequency: 2457 MHz
- Maximum Output Power 0~4dBm
- RF Duty Cycle: 0.0008 (ANT+ Sport Protocol):

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes / modifications not approved by the responsible party could void the user's authority to operate the equipment.
