2. Charging the headset

When the headset is low power, the headset emits three “Battery low” and the red LED flashes. Please recharge the battery of the headset.

The way of charging as following:

Using USB cable

1. Plug USB charging cable into the USB port of computer
2. Plug another side of USB cable to the headset

Red light on: Charging

Blue light on: Finish charging

3. It will takes about 3 hours to finish charging

Remarks:

- 1) The battery is recyclable.
- 2) Batteries (battery pack or batteries installed) shall not be exposed to excessive heat place, such as sunshine, fire or the like.

■ Getting started

1. Turning on/off the headset

Functions	Operation	Prompt tone
Turning on	Press and hold MFB button for 3~4 seconds until blue LED flashes	Power on
Turning off	Press and hold MFB button for 3~4 seconds until red LED flashes	Power off

Remark: In order to save power, the headset will turn off automatically if no devices can be connected after 5 minutes.

2. Pairing the headset with Bluetooth devices

1) How to enter pairing mode

Functions	Operation	Prompt tone
Enter pairing mode	Ensure the headset is off, and then press and hold MFB button for 5~6 seconds until red and blue LED flash alternately	Pairing

Remark: Pairing mode will last 2 minutes. If no devices can be connected after 2 minutes, it will return to standby mode automatically.

2) Pairing the headset with a Bluetooth cell phone via Bluetooth

Prior to using the headset for the first time, you have to pair it with a Bluetooth-enabled cell phone. The pairing procedures are subject to different models of cell phones. Please refer to your cell phone user's manual for further information. The general pairing procedures are as follows:

- 1) Keep your headset and phone within 1 meter when pairing;
- 2) Press MFB button for 6 seconds and release it until red LED and blue LED flashes alternately. Then your cell phone enter pairing mode.
- 3) Activate your cell phone's Bluetooth function and set your cell phone to search for Bluetooth devices within range, and select "BTH033L" from the list of devices shown; After successful connecting, the headset emits "your headset is connected" and blue LED flashes twice every 4 seconds.

Remarks:

- ◆ According to the indication, enter password or PIN No: "0000"(If the mobile phone supports Bluetooth V2.1, password is not required.);
- ◆ If pairing is failed, please turn off the headset first and then re-pair according to steps 1~6 mentioned above.
- ◆ After pairing is successful, the headset and the cell phone will remember each other, they will no need to re-pair next time. The headset can remember 8 paired devices, when the number of paired devices exceeds 8, the first one will be replaced.
- ◆ Every time the headset is turned on, not connected, press any button, it will connect to last connected device automatically.

3) Pairing headset with a Bluetooth cell phone via NFC

BTH033L support NFC function, it can quickly connect with Bluetooth cell phone via NFC, hereby take Samsung S3(Android 4.0) (Not included in accessory) for example.

The general pairing procedures are as follows:

- 1) Please activate the Bluetooth and NFC function of cell phone; Please refer to following pictures:

Remarks:

- ◆ When the cell phone is in sleep or lock screen status, you can't active NFC function to connect.
- ◆ Prior to pairing the headset for the first time, you need use your cell phone to touch the NFC area until enter pairing mode.
- ◆ When active the NFC function, try to make the cell phone and the headset keep touch for longer. Otherwise it may fail to pair.
- ◆ When the headset is disconnect (in standby mode), you can active NFC function to fast connect. If the headset has connect, use your cell phone to touch NFC zone, it will disconnect automatically.

4) Pairing the headset with a Bluetooth transmitter via Bluetooth

You can connect the headset to a Bluetooth transmitter to enjoy music wirelessly. Hereby take BTT005 (Bluetooth transmitter, not included in accessories) for example. The pairing steps are as follows:

- 1) Keep your headset and transmitter within 1 meter when pairing;
- 2) Make the headset enter pairing mode (Please refer to “How to enter pairing mode);
- 3) Turn on the Bluetooth transmitter and make it enter pairing mode. It will search for Bluetooth devices automatically and send a pairing request;
- 4) When the headset requests to enter a PIN No., the transmitter will response “0000” automatically;
- 5) After successful pairing and connecting, blue LED of the headset flashes twice every 4 seconds.

Remarks:

- ◆ The pairing password of BTH033L is “0000”. So, the headset can only pair with a Bluetooth transmitter whose pairing password is “0000”.
- ◆ If pairing still fails after several tries, please refer to the Bluetooth transmitter’s user’s manual for further information.

5) Pairing headsets with Multi-devices via Bluetooth

The headset can connect with two Bluetooth devices at most. If you want to finish the multi-pairing, please refer to the following steps:

- 1) Firstly, pair and connect the headset with Bluetooth device one (refer to “pairing the headset with a Bluetooth cell phone);
- 2) Turn off the headset and make it enter pairing mode again, pair and connect with Bluetooth device two(refer to “pairing the headset with a Bluetooth cell phone);
- 3) Operate Bluetooth device one to connect with headset. The headset has already connected with Bluetooth device one and two, the headset also can connect with these two devices automatically next time.

Remarks:

- ◆ The steps of turn on/off the multi-pair function as follows:
Turn off multi-pair function: the headset in standby mode, not connect with device, press MFB and volume down button for 3~5 seconds simultaneously and release it until hear a prompt tone.
Turn on multi-pair function: the headset in standby mode, not connect with device, press MFB and volume up button for 3~5 seconds simultaneously and release it until hear a prompt tone.
- ◆ To improve the stabilization of headset, we suggest you turn off the multi-pair function when you only connect with one cell phone.

3. Re-connecting with a Bluetooth device

1) Automatic connecting

Every time the headset is turned on, it will connect to last connected device automatically.

2) Manual connecting

When the headset is in standby mode and not connect with device, short press any button of headset, it will try to connect to last connected device.

Remarks:

- ◆ Before connecting to a Bluetooth device, please turn on the Bluetooth function of Bluetooth device.
- ◆ On some Bluetooth devices, take some Nokia cell phones for example, you have to allow automatic connecting in the cell phone’s settings. Please refer to your cell phone’s manual for further information.

4. Making a call with the headset

1) Basic operation

Functions	Status of headset	Operation	Prompt tone	
Cancel call	a	Calling	Short press MFB once	One short tone
Answer call	a	Incoming ringing	Short press MFB once	Answer

Reject a call	Incoming ringing	Long press MFB for 2 seconds and release it until listen a tone	Reject
End a call	During a call	Short press MFB once	One short tone
Volume up	During a call	Short or long press + button	No prompt tone
Volume down	During a call	Short or long press — button	No prompt tone
Transfer conversation to mobile phone	During a call	Long press MFB for 2 seconds	Transfer audio
Transfer conversation to headset	During a call	Long press MFB for 2 seconds	Transfer audio
Microphone mute	During a call	Double click MFB	Mute on
Cancel mute	During a call (microphone mute)	Double click MFB	Mute off
