Common problems and solving method

1. Connecting for many times still unsuccessful?

(1) Check the speaker whether is on Bluetooth searching mode.

(2) If there are too many Bluetooth receivers around, it may cause the difficulty on searching. Please turn off other Bluetooth receivers.

(3) Open the Bluetooth settings on your phone, cancel pairing and reconnect.

2. The volume of speaker is too low or appear distortion? Please check the volume settings of your phone and adjust the volume.

3. Discontinuities appear when playing music? Please check the distance whether is out of effective range or there are barriers between your phone and the speaker.

4. The buttons have no effect to the speaker? Please try to use the player on phone or other players.

NOTE:

1. If connected to tablet, please refer to the phone connection method.

2. Laptop connection: Due to having many laptop's Bluetooth versions, the connecting method would be various. If fail to connect or play at the first time, please download the latest Bluetooth driver.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1)this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body
