Warning

Please be careful when resetting the Link for the keyboard. Objects with sharp point may break and leave behind shards.

Troubleshooting

Please visit our On-Line FAQ section for help.

FCC Statement on CLASS B

This equipment has been tested and found to comply with the limits foe a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful

6

interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into and outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

Mandatory repair charges are required for the following conditions, even within the guarantee period:

7

(1) Malfunction or damage is due to misuse or improper alteration or repair.
(2) Malfunction or damage is caused by the movement or fall during installation after the purchase.
(3) Malfunction or damage is caused by a fire, salt, gas, earthquake, lightning, wind, water or other natural calamities, or abnormal voltage.
(4) The manual is not presented.
(5) Date of purchase, customer's name, name of the shop are not filled in or are altered.
(6) Malfunction or damage is caused by other devices connected to the BT-660.

To get the repair service, please disconnect BT-660 from other devices connected.
