Troubleshooting

- Make sure that you have paired your keyboard with your device. For more information, see “Installation Procedure” on page 6.
- Make sure that your operating system is compatible with your keyboard. For more information, see “Operating System Support” on page 4.
- Make sure that the anode(+) and cathode(–) symbols on the batteries match the anode(+) and cathode(–) symbols in the battery compartment.

Battery Low

- Low-battery is indicated by illumination on the top case of keyboard. Please replace the batteries when the indicator lights up.
- We recommend using alkaline batteries for the keyboard.
- You may need to reset the connection after replacing new batteries for the keyboard.
- Do not mix old and new batteries, or mix different types of batteries. This can cause rupture or leakage, resulting in personal injury or property damage.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference and
- (2) this device must accept any interference received, including interference that may cause undesired operation
