Warning

Any malfunction, damage or personal injury caused by the malfunctioning or damage of the user's personal computer or misuse of this product.

Do not dismantle, change or modify this product in any way.

Warning

Please do not use this product in ashy, wet, or oily environments. Failure to do so may shorten the life of this product and may cause bodily harm. Please keep this product as far away from Radio Frequency interruption areas as possible.
This is not an outdoor product. Exposing this product to the elements may cause damages to the product and bodily harm to its users. Please do not use petroleum, benzene or thinner-based solution to clean this product.

Laser Mouse

International standards and safety. This Laser device complies with International Standard IEC 60825-1:2001-08, Class 1 Laser Product, and also complies with 21 CFR 1040.10 and 1040.11, except for deviations pursuant to Laser Notice No. 50, dated July 26, 2001: 1) Emission of a parallel beam of infrared user-invisible light; 2) Maximum Power of 716 microwatts CW, wavelength range 832-865 nanometers; 3) Operating temperature between 0°C (32°F) to 40°C (104°F).

CAUTION: This Laser device has no serviceable parts. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

Safety and Usage Guidelines

- 1) Do not point infrared beam at eye.
- 2) In the absence of proper operation and if customer-initiated troubleshooting is unsuccessful, switch off device and call technical support.
- 3) Do not disassemble your product or expose it to liquid, humidity, moisture, or temperatures outside the specified operating range of 0°C (32°F) to 40°C (104°F). 4) If your product is exposed to out-of-range temperatures, switch it off and allow the temperature to return to the normal operating range.

Specifications**Keyboard**

- ☞ Dimensions: 430 x 162x 20 mm
- ☞ Weight: 620 +/- 20g (with Battery)
- ☞ Key Number: 104 Keys (By language)
- ☞ Battery: 2 x AAA batteries
- ☞ Battery Life: 3 Month (Base on average usage)
- ☞ Channel: 78 Channels automatically switch.
- ☞ ID: unique ID for each keyboard
- ☞ Radio Frequency: 2.4 GHz
- ☞ Hot Keys : previous page, next page, WWW home, stop, refresh, my favorite, search, e-mail, mute, previous, play/pause, next, stop, volume down, volume up, wake up, sleep, power

Mouse

- ☞ Dimensions: L 105 x W 55.5 x H 35.5 mm
- ☞ Weight: 80.7 +/- 25g (with Battery)
- ☞ Key Number: 3 Keys
(Wheel button on middle button)
- ☞ Battery: 2 x AAA batteries
- ☞ Battery Life: 1 Month (Base on average usage)
- ☞ Channel: 78 Channels
- ☞ ID: Unique ID for mouse
- ☞ Radio Frequency: 2.4 GHz

Dongle Receiver

- ☞ Dimensions: L70xW22.7xH12.3mm
- ☞ Weight : 10.9g +/-25g
- ☞ Interface: USB 1.1

Installation Procedure

Before installing this product please make sure you have one available USB port reserved for the dongle receiver.

A. Setting up the Dongle Receiver

1. Plug the dongle receiver (FIG. 3) into an available USB port.
2. Wait for Windows to install drivers for the dongle receiver, keyboard and mouse.
3. When the dongle receiver has been properly initialized, its LED light will stay alit.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the installation instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

Consult the dealer or an experienced radio / TV technician for help

B. Setting up the Keyboard and Mouse

1. Open the battery compartment covers of the keyboard & mouse (FIG.1) (FIG.2) and insert the batteries. Make sure they are properly installed.
2. Replace the battery compartment covers.
3. Usually the keyboard and mouse have been set up in the factory. If the system cannot recognize the keyboard and mouse, please follow step 4~7 to bind keyboard and mouse.
4. Move the keyboard and mouse close to the receiver (within 30 cm).
5. Press the receiver ID button (FIG.3), then press the keyboard ID button (FIG.1).
6. Press the receiver ID button again, then press the mouse Reset button (FIG.2). The system will automatically recognize the Mouse.
7. The LED indicator on the receiver will turn green when the keyboard and mouse are connected and working properly.

Battery Low

1. Low-Battery is indicated by the illumination of the keyboard LED indicator "Batt.Low". Please replace the battery when the LED lights up.
2. Low-Battery is indicated by the illumination of the Mouse Scroll. Please replace the battery when the LED lights up.
3. We recommend using alkaline batteries for the keyboard.
4. You may need to reset the ID's after replacing new batteries for the keyboard and mouse.

Warning

Please be careful when resetting the ID's for the keyboard, mouse and dongle receiver. Objects with a sharp point may break and leave behind shards.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) This device must accept any interference received, including interference that may cause undesired operation

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

1. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
