## My Life's Vision- Example

**God**—I am totally connected to GOD and the universes' awesome intelligence. Every moment, I feel GOD guiding me in creating a masterpiece for others and for myself. I have TOTAL faith and trust in GOD that everything happens for a reason in which to serve me and help me grow spiritually. I meditate daily to increase my awareness and connection to the source and I visualize the outcomes for everything I am manifesting.

**Health**—I now weigh 195 lbs with a body fat percentage of is 10-12%. I have an abundance of physical and mental energy and I feel and look great. I am the healthiest I have ever been. Being spiritually-grounded, emotionally-centered, happy and healthy are my highest priorities..

**Financial**—I am now earning \$10 million a year or more from my Income, Investments, and Praxis Now and The NeuroGym. My net worth is now at least \$100 million and I am now saving at least \$2,000,000 per year after taxes. We are NOW totally debt free and I love it!

**Business**—I am happily building Praxis Now and The NeuroGym into the #1 brain retraining company in the world. People love our evidence-based research, products and services and we have raving fans and companies who recommend us to all their friends, clients and associates.

**Family/Relationships**—I love and absolutely enjoy my relationships with Keenan and Noah immensely. They are my shining and loving lights. Maria is an angel and we are having the best relationship ever. My family and I love each other totally and we get along great! My friendships are phenomenal and I am totally fulfilled with them!

**Charity**- I am now happily giving at least \$1,000,000 or more per year to the charities and causes that our family chooses and we feel so blessed to be able to make such a positive impact and give so much of our time and money to the causes we believe in.

**Lifestyle**-I love living in total luxury and comfort, driving the cars I choose to drive, travelling first class to the places I want to explore, and the absolute feeling of abundance, happiness, gratitude. I love being able to do what I want to do, with whom I want to do it with, when I want to do it.

Living life on my terms is amazing!

# What is a Revenue Plan?

**Think of a revenue plan as a road map to your desired business destination. It is a forecasting document of how many products/services you need to sell to reach your revenue goals**

# Why Have a Revenue Plan?

You **MUST** have a revenue plan if you:

- **Expect to generate a certain and consistent business income**
- **Want to measure how your business is doing on a regular basis**
- **Desire to develop a working model you can tweak to improve**
- **Work less and earn more**
- **Know exactly what you need to do to HIT your revenue targets**

# DISC

# Advanced Insights “Values”

# The 6 Hats Required For Building A Successful Business

## Visionary

The visionary is responsible for creating the big picture of where your business is going. What products or services should you create? Most entrepreneurs are visionaries and need help fulfilling the other roles of running a business.

# The 6 Hats Required For Building A Successful Business

## Marketer

Some people are natural marketers whereas others are not. The marketer is responsible for all aspects of the brand and generating interest in your products and services. Who is best suited to define your brand and can maintain it? Who can efficiently generate enough leads and manage your communications until a sale is made? What do people in your niche want and need?

# The 6 Hats Required For Building A Successful Business

## Salesperson

A great salesperson has the skill to interact with your prospects and present your products and services. The salesperson is able to assess which product or service will benefit your customers and help them overcome any objections they may have during the buying process. They understand the sales process and master persuasion techniques.

# The 6 Hats Required For Building A Successful Business

## Engineer

Engineers make sure that all your systems and processes are in place. They understand how all the pieces of your business work together so that you can maximize your efficiency. They create the procedures that keep your business running like a well-oiled machine.

# The 6 Hats Required For Building A Successful Business

## Manager

Once your business has In-house or Outsource employees, you need managers to make sure that they are focused on the right tasks. Managers watch over the processes and systems to make sure that everything and everyone are working toward your overall goals.

# The 6 Hats Required For Building A Successful Business

## Driver

Who is out there everyday making sure that everything you want to achieve is being done? The driver motivates the team, whether it's in marketing, sales, or any other department, to move toward the vision of your company.

# The Power of Neuro-Marketing & Neuro-Sales

## **What is Neuro-Marketing & Neuro-Sales?**

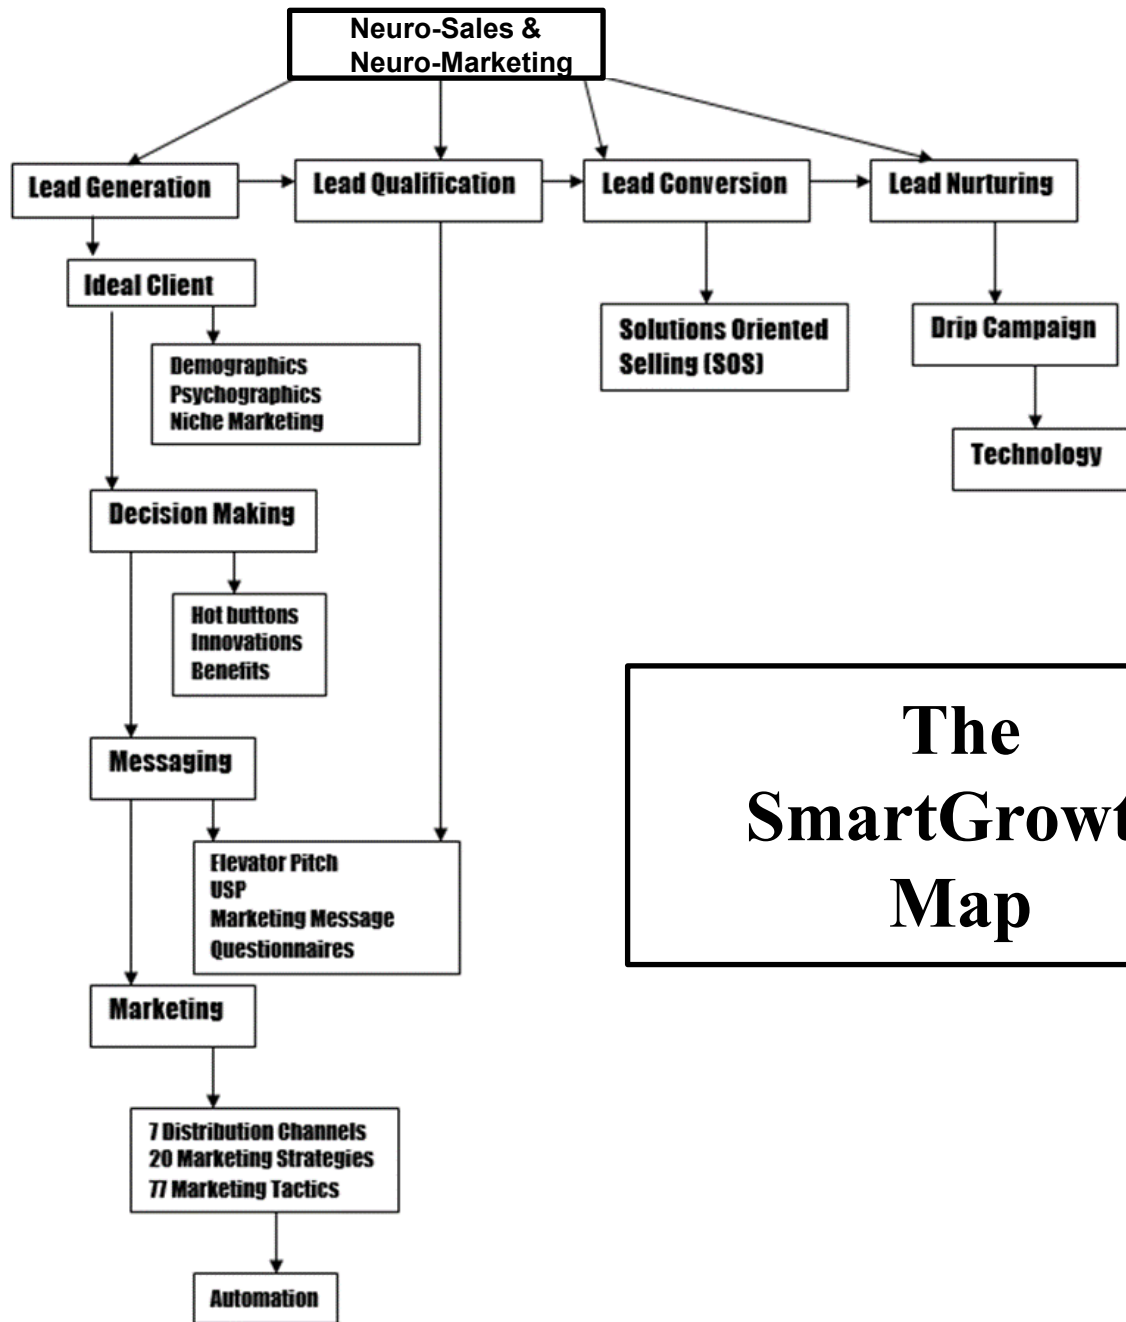

**The ability to understand and lead a prospect through your sales process by understanding how their brain processes information, messages, trust, fear, and call to actions. In addition, it's the ability to persuade them to behave in a way that leads to a higher conversion during the marketing and sales process.**

# The SmartGrowth Map

# Perfect Client Profile

# Why Do People Buy?

**Features** – the *physical* components of the product or service

**Advantages** – the *result* components produced by the features

**Benefits** – the *emotional* components produced by features and advantages

# Why Do People Buy?

**Are you more likely to buy something you need or want?**

**Features Tell and Benefits Sell**

**The Benefit of the Benefit Sells the Fastest!**

People Buy:

- The Benefit Of The Benefit
- The Promise
- The Transformation
- Release Of Pain, Fear, And Anxiety And/Or A Problem
- They Buy To Meet An Emotional Need
- They Justify Logically

# Identify your Perfect Client Profile

## **The #1 MUST**

- **What type of client do you want to do business with?**
- **Who is going to give you the greatest return on your marketing investment?**
  - **Who will be the easiest to find?**
  - **Who will be the easiest to sell to?**
- **Who will require the least customer service?**
  - **Who will stay with you the longest?**
- **Who will spend the most with you over the longest period of time?**

# Identifying Your Perfect Client's Demographics

**Demographics are characteristics that define a client who NEEDS what you sell**

## **Benefits of Demographics**

- **Creates a picture as to who your 'current' client is**
- **Allows you to discern who you really WANT to be doing business with over the long term**
- **Assists you in determining your target market**

**Age, Gender, Income, Education,  
Marital Status, Children and Ages,  
Geographic Information**

# Example: Day Care Company Demographics

Who is our perfect client and how do we reach them?

- Female
- Age 21-45
- Married, 1-2 children
- Employed, Homeowner
- Total Annual Household income 60K-150K

**Now you know who to look for when you want additional clients and this can help you determine where to find them. But what do they want...**

# Identifying Your Perfect Client's Psychographics

**Psychographics are characteristics that define a client who WANTS what you sell**

## Benefits of Psychographics:

- **Know why clients buy your products...or why they don't**
- **Know clients wants and in turn how to target these hot buttons**

**Personality, Attitude,  
Values, Lifestyle, Interests**

# Example: Day Care Company Psychographics

What does our perfect client want?

- 5 days per week service or 1-2?
- Do they want to be informed? Webcams?
  - General baby-sitting?
- Educational classes to teach their children?
  - Certified care givers/teachers?
  - Playful, light hearted environment?
- Low child to staff ratio for personal attention?

**It is imperative that this daycare decide what it wants to be & which group it wants to attract. Once it makes this decision, resources should be allocated to create & market a daycare that cannot be matched based on the specific wants of the ideal client the business owner WANTS to work with.**

# Categories of Perfect Clients

In our example, the ideal clients of this day care were mostly focused on the foundational loving, safe and caring environment.

You may have different categories of ideal clients, for example...

- Good** 1. Working mother, children 1 - 5 years: wants best price for average day care service (might prefer annual service contract, less client support needs, more likely to pay in full)
- Better** 2. Working mother, children 6 months - 3 years: wants a loving, caring environment with lots of one-on-one time and attention to each child (might be more selective, appreciate check-in messages, want bios on staff working directly with child, likely to share with friends their experience)
- Best** 3. Working mother, children 3 - 5 years: wants an educational day care specializing in playful educational opportunities (might be highly selective, want progress updates, appreciates latest educational innovations, likely to send referrals)

**You will begin to attract the type of client that is willing to pay a higher price for a product/service that specializes in their wants**

## Sample of Core Message Through To Sales

## Developing Your Core Marketing Message

A Core Marketing Message Is The Nucleus And Foundation For All Your Marketing And Sales Material And Process. It Takes Into Consideration The Psychology Of Your Ideal Clients And Connects With Them At A Deeper Level Of Trust And Rapport.

# Sample of Marketing Message

## Day Care

**We (or I) work with: busy working mothers looking for a daycare that's both safe and affordable**

**Who struggle with: the fear that they may select the wrong one resulting in their child receiving poor supervision by uncaring staff members with questionable or possibly criminal backgrounds, being served lousy meals by staff that consider macaroni and cheese one of the major food groups and resulting in poor nutrition, and a lazy uncaring staff that neglects the kids by plopping them in front of the television and making them watch Barney for eight hours each day**

**And would like to: find an affordable daycare with staff members that will treat their child with love and care, are required to annually undergo thorough and complete drug screens and criminal background checks, provide nutritious and delicious meals that are approved by the parents rather than our staff, and in essence, treat your child as if he or she were their own.**

**What makes my: daycare**

**Different from: the other 10 daycares in this area**

**Is that we (or I): provide the care, the skills and the unmatched support and communication that busy parents demand and that their children deserve**

**As a result, our (or my) clients receive: a daycare experience that is unmatched, untouched, and unequaled anywhere else in the country.**

# No Platitudes

**Educate with specifics. Don't confuse with platitudes or generalities such as:**

- **We're the best**
- **We have the highest quality**
- **We offer outstanding customer service**
- **We have the lowest prices and the greatest selection**
- **We've been in business the longest**

**Everyone says these things, and as a result, prospects don't believe any of it or expect it anyway!**

# Format of an Effective EP

15 seconds – Plumber

Start with “Do you know how...?”

**Do you know how most people who have leaky faucets or a plumbing problem don't have a plumbing service they view as trustworthy or reliable?**

Next, finish with “Well, what we/I do is...”

**Well, what we do is offer a guarantee that we will arrive within 15 minutes of our appointment time and fix the problem properly and quickly at the best price possible.**

# Sample of an Effective EP

**15 seconds – Business Coaching**

**Start with “You know how...?”**

**Do you know how 85% of all businesses go out of business within four years...half of them in the first year alone?**

**Next, finish with “Well, what we/I do is...”**

**Well, what we do is help business owners attract more clients and increase their revenue and profits so they can achieve complete financial freedom and live an extraordinary life.**

# What is Lifetime Value?

**Life time value refers to the amount of income you can expect to generate over the time you expect to do business with a client, including referrals**

## **What You Must Know to Determine Lifetime Value:**

- **The cost of acquiring perfect clients**
- **The length of time a perfect client buys from you**
- **The amount of money clients invest over time in your products/services**
- **The profit you earn each time a client buys your product or service**
- **The amount of times they buy from you**

# **What Will It Do For You?**

- **Drastically increase your sales, revenue and profit!**
  - **Get clear on the cost of acquiring new clients**
  - **Determine budget for acquiring new clients**
- **Determine lead generation and marketing strategies**
  - **Plan and Implement a marketing budget**
- **Avoid making major marketing mistakes and wasting time**

# Basic Formulas

Here are a few, simple mathematical formulas to help you calculate your Life Time Value and Profit!

- **Life Time Value Formula**
- **Costs of Goods Sold Formula**
- **Life Time Profit Formula**

# Lifetime Value

## Lifetime Value (LV) Formula:

**LV = ( Retail price of product/service) X (Number of purchases you estimate clients will make per year) X (Number of years)\***

**Example: Retail Price of Product: \$150.00 for teeth cleaning every 6 months**

$$\text{LV} = \$150 \times 2 \times 5 \text{ years} \qquad = \$300 \times 5 \qquad = \$1,500$$

**\$1,500 is what a dentist can expect to make for regular teeth cleaning for one client over a 5 year period. If there are upsells, downsells, or other revenue opportunities add those in.**

# Cost of Goods

## Costs of Goods Sold Formula - CGS

**Cost of Selling, Creating and Delivering your product (i.e. Product costs, sales person/people you employ, marketing costs) including any expense you incur to make it saleable.**

$$\text{CGS} = (\text{Cost per sale}) \times (\text{\# of purchases per year}) \times (\text{total \# of years})$$

**So let's say teeth cleaning costs \$40 to deliver.**

**Example:**

$$\text{CGS} = \$40 \times 2 \times 5 \text{ years}$$

$$\text{Costs of Goods Sold} = \$400.00$$

$$\text{Gross profit} - \$1500 - \$400 = \$1,100$$

# Lifetime Profit Formula

## Lifetime Profit Formula - LPF

**LPF = LV – Cost of Goods Sold (CGS) – Cost of Sales & Marketing expenses (CSM)**

**Let's use the dentist again:**

- **\$400.00 Cost of Goods sold and delivered**
- **\$50.00 Sales/Marketing to acquire new client**
- **\$100.00 additional marketing (\$25 per year over next 4 years)**

**\$1,500 (LV) - \$400 - \$50 - \$100 (\$25 per year for 4 years)**

**LPF = \$950 net profit for one client over 5 year period**

**What would you invest to get 100 more of these clients?**

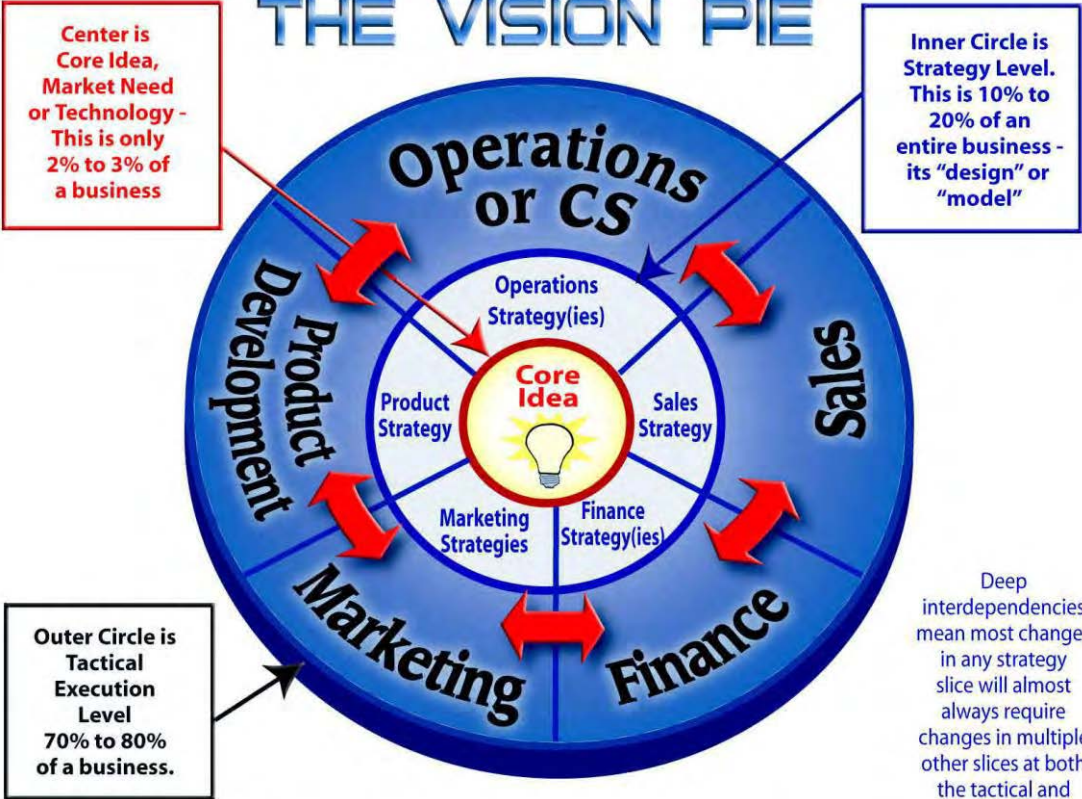

# Lifetime Value Worksheet

**When we create products and services that match our perfect clients TRUE wants and needs, the result is a longer lifetime value, which equates to more profit!**

# of Clients	Retail Value	# Purchases/year	# of Years	Lifetime Revenue
-----	Cost Per Sale	# Purchases/year	# of Years	Cost of Goods Sold
-----	Lifetime Revenue	Cost of Goods Sold	Cost of Sales & Marketing	Lifetime Profit

**These formulas will give you the numbers and real cost in both acquiring new clients and keeping existing clients.**

# THE VISION PIE

Deep interdependencies mean most changes in any strategy slice will almost always require changes in multiple other slices at both the tactical and strategic levels.

# Effective Marketing

If you are going to spend money doing multiple marketing activities, finding those that actually produce a result is imperative. Start with your goals then:

- Step 1: Start with your goals
- Step 2: Core Messaging
- Step 3: Perfect client profile
- Step 4: Identify the most Effective Distribution Channels
- Step 5: Determine your Exact Marketing and Sales Strategies and Tactics
- Step 6: Map Out Your Sales Process
- Step 7: Create Compelling Offers
- Step 8: Measure the effectiveness of your marketing and sales strategies and tactics
- Step 9: Know Your Metrics
- Step 10: Track, Tweak & Edit until profitable

**Channels → Strategies → Tactics = \$**

# Step 1: Distribution Channels

1. **Direct Sales**
2. **Online**
3. **Retail (Brick & Mortar Locations)**
4. **Mail Order**
5. **Sales Agents (Independent, Wholesale, Franchise, License, Affiliates/JVs)**
6. **Phone Sales**
7. **Call Centers**
8. **Telemarketing**
9. **Live & Online Events**

# How To Capture Leads

# **Step 2: Strategies & Tactics**

**Before you can outline your specific Marketing and Sales strategies and tactics, you must know the difference between the two!**

# Strategies vs. Tactics

## Goal:

**Take Control of Hill**

## Strategies:

**#1: Artillery Fire to soften position**

**#2: River approach under tree cover**

**#3: Sneak Attack from rear**

## Tactics:

- Move artillery into position
  - Assign troop personnel
  - Fuel vehicles
  - Force concentration
- Exploit prevailing weather
  - Maintenance of reserves
    - Economy of force
    - Force protection
  - Military camouflage
    - Deception
    - False flag
- Conduct countermeasures
  - Maintain Radio silence
    - Build entrenchments
      - Build Foxholes
- Supplying platoon / armory
  - Feeding soldiers (mess)
    - Set up field hospital
      - Build Manholes
      - Transport supplies
        - Dig Spider holes
  - Identify Strong points
    - Establish Protection

# Facebook Advertising 101

How to Build Effective Facebook Ad Campaigns  
That Bring Instant ROI

**Why Consider  
Paid Advertising  
For Your Business?**

- **It's Fast** – Joint ventures, organic search, back links can take days, weeks or months to generate traffic. With paid traffic you can have traffic to your site within minutes.
- **It's measureable and can be tracked**- Organic traffic is harder to track. Paid traffic you can track a sale all the way up to the individual ad that the buyer clicked on.
- **It's predictable** – once you set the system up effectively and establish a few key metrics, you can observe trends and know how the traffic is expected to perform.
- **It's scalable** – Increase budget can increase volume.
- **It's highly targeted** - You can get very precise on who you want to target based on demographic and psychographic info and more.
- **It's Multi-Channel** – You can use a variety of options, including Facebook, Google, Bing & Other Ad Networks. You ad can appear almost anywhere online. This training focuses on the Facebook channel.

## Step 1: Acquire The Right Mindset For Paid Advertising

The key difference between getting **big wins** and avoiding **big losses** is learning and consistently applying the right strategies and tactics.

The foundation starts with having the **right mindset and understanding the psychology** with paid advertising.

The 4 Main Outcomes Of Any Ad Campaign

Big Wins

Big Losses

Little Wins

Little Losses

Little wins and little losses cancel themselves out over time.

## 7 Mindset Pieces For Successful Ad Campaigns

**Don't make emotional decisions.** Use data from your ad tests to drive your decisions.

**Everything is a test & most tests will fail.** The ones that fail you kill quickly. The ones that don't fail you optimize.

**Paid traffic does not convert like social media, referral or affiliate traffic.** The warmth of the traffic is different.

**Understanding and relating to the deep subconscious conversations** in the prospects' head, the better your ads

**Cheap traffic does not mean converting traffic.** Always go after **QUALITY** traffic.

**It's one consistent message** - Your entire sequence from ad to sale must be consistent and congruent

**You're not spending or losing money.** You're always buying data. With data you can analyse what is working vs not working

## Step 2: What is Your Ad Campaign's Objective? (Check box)

**Research (Directed to surveys, questionnaires etc.)**  
Goal: How many form submissions and by when?

**Brand Awareness (Putting you, your company's name, offer, idea or concept in front many)**  
Goal: How many people see & interact with your message and by when?

**Direct Offer (sales page, video sales letter)**  
Goal: How many units to sell and by when?

**Capture Leads (via opt-in offer)**  
Goal: How many opt-ins and by when?

**Gain Subscribers (on FB Fan Page, Podcast or YouTube)**  
Goal: How many subscribers and by when?

# Step 3: Get Specific On Who You Are Targeting By Crafting Your IDEAL CLIENT PROFILE (that your ads will speak directly to...)

## Choose the right audience

One of the biggest advantages to advertising on Facebook is your ability to target specific groups of highly engaged people. In fact, compared to the average online reach of 38% for narrowly targeted campaigns, Facebook is 89% accurate.<sup>1</sup>

Try using more targeting options in the ads create tool to help:

- Find the right customers across devices, including desktop, mobile and tablets
- Deliver relevant messages to specific people
- Get the most value from your ad spend by reaching only the people that matter to you

Watch the video on the right to learn how to target your ads in the [ads create tool](#).

<https://www.facebook.com/business/a/online-sales/ad-targeting-details>

## Step 5: Setup Your Bidding

**CPC** = Cost Per Click – You pay only when someone clicks on your ad

**CPM** = Cost Per Thousand – You pay for every 1000 times your ad is seen

# CPC

## Use When:

- Testing images & copy
- Driving traffic to opt-in
- Targeting small audiences (usually 100k or less)
- Offer is not extremely time sensitive
- On a tight budget
- 

# CPM

## Use When:

- Ad is proven with CPC testing
- Branding, driving traffic to event or Fan page
- Targeting large audiences (example 500k, 1 million)
- Offer is time sensitive and needs to reach many in limited time
- With a larger budget for testing, tweaking & scaling
-

## Step 6: Measure Performance

There are a few critical metrics you need to monitor daily to keep within budget, optimize ads and to determine if your ad campaign is a success or not.

## Click-Through Rate (CTR)

- Clicks divided by how often your ad is shown aka impressions. E.g. if your ads were shown 1,000 times and clicked on 50 times, your CTR would be 5%.
- Great performing ads benchmarks from our tests:
  - in the Facebook newsfeed - 3-8% CTR
  - in the Facebook sidebar - .8% CTR

## Cost Per Click (CPC)

- The average amount you pay for each click -  $\text{Total spent} / \text{total clicks}$

## Opt- In Rate

- $\text{Total number of unique visitors to a page} / \text{total number of opt-ins}$
- We've found for paid ads a good benchmark is usually 25%-40% opt-in conversion. If lower than 20% you may have your targeting wrong or need to improve landing page copy

## Total Spent For Ads

- Add total spent for each ad campaign between launch and end dates

## Total Sale Revenues

- Total Sales generated between launch and end dates of ad campaigns

## ROI for Every Dollar

- $\text{Revenue} - \text{Spent} / \text{Spent}$  (Should always be +)

## Earnings per Click

- $\text{Revenue} / \text{Clicks}$  (Should always be higher than CPC)  
This will give you a good idea the max you can bid for a click

## Cost per Lead

- $\text{Total spent} / \text{opt-ins}$ . Allows you to budget and predict scalability

## Acquisition Cost (CPA)

- Cost for a new customer. Allows you to budget and predict scalability.  $\text{Total spent} / \text{number of sales}$  (Should not exceed cost of the product or service you are selling unless there's a converting backend system in place)

## Step 7: Setup Retargeting

Retargeting is typically used when prospects or even customers who visited your website left with or without performing a certain action. They are then followed up with via Facebook and other sites with specific and relevant messages based on their previous action or non action.

**Retargeting Tools to Use:**

Using *Facebook Custom Audience* you can generate “pixels” to place on any page of your website; example a landing page, sales page or shopping cart. When a prospect or customer visit or don’t visit that page, Facebook knows. Using this data you can then target & follow up with him/her via ads (only on Facebook) to elicit a specific action.

# Sample Landing Page

The landing page features a wooden background. At the top left is the logo 'YOUR LOGO' with a gear icon. To its right are navigation links: 'Manual' (with a book icon), 'Experiences' (with a speech bubble icon), 'Course' (with a shopping cart icon), and 'Contact' (with an envelope icon). The main content area is split into two columns. The left column shows a 3D rendering of an orange book titled 'THE BOOK'. The right column contains the following text: 'FREE: USER MANUAL FOR THE INTERACTIVE OFFER' in orange, followed by the main headline 'Download This Manual To Learn How To Use The Interactive Offer Today' in bold black. Below the headline is a white input field with the placeholder text 'Enter a valid email here'. Underneath the input field is an orange button with the text 'Click Here To Get The Manual For Free »'. Below the button is a link in orange: 'I want to get the Manual for The Interactive Offer'. At the bottom of the right column, there is a lock icon followed by the text 'You Information is 100% Secure And Will Never Be Shared With Anyone.' and a link for 'Privacy Policy'.

## BLOG

A Blog is the central hub in social media that serves to convert community/traffic into Sales.

### SocMedia Imbeds

- Facebook Fan Box (get from fan page - under edit under John's pic) or Tab at top (like Joel Comm) direct to Facebook
- Twitter, LinkedIn, LIVE Tabs

- Ask John - Lead and Content Capture Box?
- RSS to youtube, Blog
- JV or Product line highlights

## 2) Communications Plan

Plans:

- a) Identify Target Market, find them and build community
- b) The Conversation: Content and Delivery
- c) Engagement
- c) Automate, Measure & Track

# Social Media

**TM: Identify Target Market, Find TM and Build Community**

Adults 25+ with an interest in Law of Attraction, The Secret, Entrepreneurs, lifestyle (Health, Quantum Physics, Brain Research, Prosperity, Affirmations, personal and professional development, professional coaching, nlp (neuro linguistic programming), spirituality, author, speaker, business coach, trainer, keynote speaker

**TOTAL GOAL: Twitter: 100,000 Fan Page: 50,000 (based on budget allocated to growth)**

**Facebook:**

- \* Include Fan Page Widget on Blog and link in emails
- \* Ensure all Power to Achieve and One Coach students are Fans & followers - send email
- \* Email 2000 friend requests on profile and move them over to Fan Page
- \* Transformational Leadership Council (150) and their followers, Facebook Friends
- \* Search facebook conversation threads for above search terms - invite to fan page
- \* Search facebook groups and fan pages and invite to fan page
- \* Invite Friends on current profile over to Fan Page
- \* Exclusive offer to email list (35,000) and invite to become a fan
- \* Facebook Ads - keyword search - become a fan - John?

**GOAL: 2300 Friends waiting - convert to fans then  
100 fans per day / 500 per week through organic search**

# Social Media

TM: Identify Target Market, Find TM and Build Community

Twitter:

- \* Twellow, Twitter Search and Localtweeps.com (need zipcode) for keyword terms
- \* Transformational Leadership Council (authors, speakers and experts in John's field and sphere of influence) and their followers, FB Friends
- \* Blog Directory sites - blogcatalog, mybloglog, technorati - search by keyword
- \* Blog Aggregator - google reader

GOAL: 300 per day / 1500 per week (can increase pace depending on budget allocated)

"Whatever your industry, make sure that you're not just building followers but building those relationships and networks too."

"It's one thing to read the tweets written by other people in your field but getting the most out of the site means taking part in the conversation and using your tweets and to make friends. Of course, those friends won't be like the relationships you can create in real life. But they can lead to partnerships, joint ventures, sales, loyal customer bases and a whole host of new opportunities."

- Joel Comm-

## Content & Delivery

The Content is the most important part - what do you want to share, teach, inspire people to be and do? What Vision do you have for your Legacy? Share it. Lead the message.

- 1) *Having it all: 40% Money, Health, Wealth, Spirituality, Relationships, Career, Business (Sell 20%)*
- 2) *Quantum Physics / Neuro Research 20% (of that soft sell 20% of the time)*
- 3) *Vision Boards and Affirmations: 20% (soft sell 20%)*
- 4) *Change the World: 10%*
- 5) *Inspirational #Quotations: 10%*

#FFridays - Top JV Partners, Affiliates, students, service providers, Friends, Transformational Leadership Council members, Authors, Coaches, Speakers/Trainers

**Events:** Calendar of speaking, interviews, webinars, personal (outings) and biz schedule agenda that is appropriate for sharing

\*\*\*\*\*RT & DM's - Daily:

Promote your students and affiliates and their work with at least couple of tweets per week.

Let them know you are tweeting about them and likely they will promote you to

\*Link to a specific landing page for events / JV / Affiliates

**Frequency:** Twitter: 10 posts per day (Hootsuite scheduling)

Facebook: 1-2 post per day (Ping FM)

Blog: 3-4 times per week (weekly schedule - video and written - create tweets & Facebook links to post from scheduled blog posts)

# Social Media

## ENGAGEMENT

**Engagement:** John to carve out 15 minutes per day to do the following activities daily

**Facebook:** 10 minutes Morning

- Post a short personal video (lets plan this - have fun with this - inspire the world for for 1-2 min everyday!) message on Facebook about: Having it All, Changing the World, or Neuro Science or a personal note
- Check FB Email and respond to any personal important direct messages - this will get cleaned out weekly /deleted
- Skim News feed - identify relevant content and make appropriate comment(s) & share appropriate posts - friend & important contact lists for peeps U want to communicate with
- Check notifications and respond to relevant activities
- Birthday wishes

**Twitter:** 10 minutes Morning

- Tweet a personal message (know that your Facebook post will also stream into twitter now and visa-versa)
- Think professional and personal activities, insights, thoughts, questions, tips
- Retweet friends, experts in your field, authors, speakers JV Partners or alliances, service providers, affiliates and students. Many reasons to do this starting from the very essence of the Twitter etiquette, the added value you will give your followers, as well as the credit and reciprocity that you are giving the original person who tweeted the content.
- Read Direct Messages and respond to those you want to
- Check your @johnassaraf to see who is re-tweeting and promoting you

**Blog:** 3-4 posts per week (Video's take less time)

- respond to comments - very important interaction medium - these are "your community = your SPACE = your revenue"

A timely Neuro-Tip from the Praxis Now page - how many of you are willing to try this, or practice this already?

NEURO-TIP: INTENSE PRAYER IMPROVES YOUR BRAIN.

In a 2011 study, called "Pray for Those Who Mistreat You: Effects of Prayer on Anger and Aggression," when irritated people prayed for a stranger, they reported less anger than participants who only thought about a stranger. And when people prayed for the person who angered them, they acted with less aggression toward them, especially when compared to people who only thought about the person who angered them.

## **Lumina Dental Spa** **∞ The Home of Healthy, Confident, Beautiful Smiles ∞**

Attn: Houston, Texas Residents in Need of Cosmetic Dentistry, Preventive Dental Care, or General Dental Services

### **Get Ready for a NEW Kind of Dental Experience, for All Your General and Cosmetic Needs...**

It's no secret: many Americans avoid going to the dentist. Are YOU one of them?

**Maybe you've procrastinated because:**

- You think dental care is **too expensive**
- You feel that maintaining your dental health is **unnecessary**
- You loathe the dentist's office, because it makes you feel **nervous**
- You worry that procedures will be **painful or uncomfortable**
- You're **embarrassed** about your smile
- **You have no idea how to begin** taking the steps toward improving your smile

If you'd rather avoid going to the dentist altogether, you're not alone.

**But the fact is, the longer you wait to take care of your teeth and gums, the more at risk you are for experiencing further complications and expense.**

Did you know that, according to the Centers for Disease Control and Prevention, almost **half** of American adults aged 30 or older have some form of periodontal disease, but don't even know it until they visit a dentist?

Even worse, untreated cavities, gum disease, and Gingivitis (inflammation of the gums) have been linked to more serious health problems such as **diabetes, heart disease, and even stroke!**

**We understand that many people fear the dentist** – usually due to pain-related memories of prior experiences – and so they forego basic dental care that is critical to their overall health and well-being.

And that's part of why **Lumina Dental Spa** does dentistry differently

## Here's the great news:

Modern dentistry is safe and virtually pain-free. Ongoing technological advances have made it possible to treat teeth and gums with minimal to zero discomfort – and since we pride ourselves on being your Houston dentists committed to remaining on the cutting edge of technology, we utilize these modern advances, so you don't have to worry about pain or discomfort while you visit our office.

The result? A beautiful, healthy smile – with minimal discomfort.

**Our #1 priority is to provide our patients with a relaxing, soothing, and enjoyable overall experience... so they feel totally at ease, while receiving the best dental care available.**

From the moment you walk through our doors, whether your visit is for general or cosmetic purposes, **our team treats you like a celebrity, and you will receive VIP treatment.** You have access to everything you could possibly need to make your visit more enjoyable, including:

- ✓ Complimentary facials
- ✓ Nutritious beverages
- ✓ A selection of relaxing music and over 50 movies you can watch or listen to during your appointment (sanitized goggles and iPads provided for your convenience)
- ✓ Comfy pillows, warm blankets, and scented hot towels to make your stay more enjoyable
- ✓ Optional spa services such as microdermabrasion, chemical peels, and even Botox treatment!

While we work on your smile, it won't feel like you're at the dentist's office at all – instead, you'll be pampered – spa-style!

## Finally – a Dentist in Houston You Can't WAIT to Visit!

<<insert testimonial>>

We are **Lumina Dental Spa** – Houston's finest team of expertly trained general and cosmetic dentists, including an implant dentistry specialist and sedation specialist. In addition, our very own Dr. Jean Morency has been **voted "Best Houston Cosmetic Dentist" four years in a row** by "H" Magazine of Houston, Texas (2009-2012)! Our team is highly trained and experienced in general and cosmetic dentistry, resulting in **beautiful smiles** that actually change lives. In fact, many of our clients have cried *tears of joy* after their treatments – because their new smiles brought them increased confidence and

greater pleasure in their appearances – essentially transforming their lives. (Many regret not having visited us sooner!)

**That's the kind of transformation we love!**

## **We offer:**

- ✓ Complimentary “before and after” smile makeover pictures, so you know exactly what your new smile will look like
- ✓ Preventive dental care (teeth-cleaning, check-ups/exams, screenings, digital x-rays) tailored to each individual’s unique needs
- ✓ Cosmetic dentistry, including veneers and lumineers (to improve the shape, color, and appearance of teeth)
- ✓ Invisalign (invisible braces to correct imperfections)
- ✓ Implants, crowns, surgical procedures, and restorative treatments (fillings)
- ✓ Nitrous oxide and intravenous sedation (to induce a sleep state, for those who experience extreme anxiety) under the supervision of an expert anesthetist

PLUS we offer a **100% Lifetime Warranty** on all our cosmetic dentistry in Houston services, as long as you continue your dental care program with us or another dentist.

We also accept **insurance plans** (most cosmetic offices don’t) and offer **financing** to make paying for your dental care a breeze.

Dr. Jean Morency is a cosmetic dentist who wholeheartedly believes in the power of a beautiful smile to transform your life professionally, socially, and personally. He's on a mission to help his patients experience this transformation, while focusing on the comforts of modern dentistry – thus appeasing the all-too-common fear many people have about going to the dentist.

A Harvard graduate, Dr. Morency has spent more than 25 years instructing other dentists in the art, science, and technique of dentistry, via a teaching fellowship awarded to him during his post-doctoral training. He earned his Doctor of Dental Medicine (D.M.D.) degree from Harvard School of Dental Medicine, and his Master of Science degree in Prosthetic Dentistry from Harvard. He obtained his undergraduate degree from Roosevelt University in Chicago.

One of the most unique experiences of Dr. Morency's career was being Navy dentist on an aircraft carrier. From 1979 to 1983, Dr. Morency served as an officer in the U.S. Navy Dental Corps, earning the title of Chief Prosthodontist and rank of Lt. Commander. His leadership skills, expertise, and unique, friendly personality continue to make him a trusted resource in the field of dentistry today.

After many years serving in a private dental practice in Houston, Dr. Morency has joined Lumina Dental Spa. He is married with four children, and a beloved cocker spaniel named **NAME**. In his free time, he enjoys traveling, so much so that he has lived in Panama, Costa Rica, England, France and Kenya, in addition to several states here in the U.S. He is also passionate about photography.

## 7 Questions You MUST Ask Before Hiring a Cosmetic Dentist

by Arif Balagam  
CEO of Lumina Dental Spa  
<http://www.luminadentalspa.com/>

Hiring a cosmetic dentist is an extremely important life decision. After all, your smile is one of the first things people notice about you! The appearance of your smile can “make or break” a first impression, and affect your social, personal, and professional life in many different ways.

When you hire a cosmetic dentist, you do so in the hopes of improving the quality of your smile AND of your life - as you gain the confidence and joy that comes along with finally getting the smile of your dreams.

So how do you know who to entrust with this life-changing decision?

If you're considering a cosmetic dental procedure, it's important to hire someone who is not only trained, educated, and experienced in **cosmetic dentistry** (which is completely different from **general dentistry**) – but who also consistently delivers to his patients their exact desired outcomes.

So to help you hire THE perfect cosmetic dentist for you, we've put together this special report, outlining the 7 essential questions you MUST ask your potential cosmetic dentist, before committing to give him your business.

**Question #1: I'm nervous about the potential pain/discomfort associated with cosmetic procedures. How will you make my visit more relaxing and enjoyable?**

If you're nervous about undergoing a dental procedure, you're certainly not alone!

The good news: advances in modern dentistry have made it possible to eliminate pain and discomfort during procedures, so that you can feel totally at ease.

At Lumina Dental Spa, we offer sedation dentistry, which provides you with different options for ensuring your comfort. You can choose from oral conscious sedation medication (if you prefer to stay awake) or intravenous sedation anesthesia, which allows you to “sleep” through your procedure. By the time you wake up, your treatment is finished and you have a beautiful smile!

Sedation is 100% safe, gentle, and effective at calming even the most persistent of fears.

Plus, our relaxing, “spa style” atmosphere and comfort-enhancing amenities will help you feel even *more* comfortable during your visit.

### **Question #2: Cosmetic procedures are expensive, aren't they? Can I really afford the smile of my dreams?**

Improving the appearance of your smile is an investment... and you're so worth it! Your smile plays a role in how you are perceived by others – from potential employers to spouses, friends, and colleagues. If you're self-conscious about your smile in any way, it undoubtedly affects the way you live your life.

Cosmetic dentistry allows you to *feel* as beautiful as you really are!

Lumina Dental Spa is dedicated to providing you with the smile you've always imagined for yourself – and we have options available to you that will make paying for it as easy as possible!

- ✓ We offer **outside financing** via a third party to qualified applicants. Upon approval, monthly payment plans allow you to make payments over a period of time, instead of having to pay all at once.
- ✓ We take **insurance** (most cosmetic dentistry offices do not), which reduces your out-of-pocket costs.

At the end of the day, when you look in the mirror, are you 100% satisfied with the appearance of your smile? If the answer is no, then it's time to give yourself the life-enhancing gift of a beautiful smile... without breaking your wallet!

### **Question #3: Porcelain veneers... lumineers... denture implants... Which cosmetic dental treatment option is right for me? How do I know I'll be satisfied with the results?**

Not all smiles are alike, and you may not know which treatment is the perfect match for you. Each of the options available (lumineers, veneers, denture implants, invisible braces, teeth whitening, etc.) – are intended for a specific outcome.

During your free initial consultation at our office, one of our cosmetic dentists will examine your smile and recommend the best treatment(s) for you. We take our time to review the options available, and answer each and every question you might have. You'll never feel rushed through an appointment with us! Together, we will choose the best course of action for YOU - based on your desired outcome, unique comfort level, and financial situation. Don't worry – there's a perfect solution for everyone!

We understand why you'd rather not take a “leap of faith” when it comes to something as important as beautifying your smile. To help you know exactly what you can expect

your new smile to look like, we take “before and after” photos – PRIOR TO undergoing the actual procedure. When you choose Lumina Dental Spa, you’ll view these “before and after” pics on a large screen TV, **and** take home a printed copy, so you can check out your new smile whenever you’d like, as you get ready to make your dream a reality.

We take your peace of mind very seriously – so if you’re pleased with your “after” picture so much so that you decide to undergo the recommended procedure, the next step we take is to allow you to “test drive” your new smile. Yes – you read that right! You will actually get to try out your new smile *before* the procedure itself.

Here’s how it works: we’ll take an impression of your teeth and send it to a lab, where they’ll create “temporaries” for you to wear. The temporaries are designed to look and feel like the actual final product. You can try out your new smile, and if for some reason something feels “off” and/or there is any aspect of your new smile you don’t love, we’ll make modifications/changes before your actual procedure. This is a low-risk way to test drive your new smile before you fully commit!

We have thousands of previous patients who have LOVED their smile makeovers. Lives have been changed. In fact, it’s not uncommon for our patients to cry tears of joy and express extreme gratitude regarding how their new smiles have improved the overall quality of their lives. **You are welcome to view some of our patients’ testimonials and “before and after” pictures on our website, [www.luminadentalspa.com](http://www.luminadentalspa.com), or in our office in Houston, Texas.**

#### **Question #4: I’m self-conscious about my smile. Will anyone be able to tell I’ve had cosmetic dental work done?**

The wonderful thing about cosmetic dentistry is that when it’s done correctly – and with the right amount of artistic flair – you’re left with a beautiful, natural-looking smile. No one will notice if you’re wearing dental implants, lumineers, or veneers. They’ll simply notice how amazing your smile looks!

You’ll feel more comfortable and less self-conscious with your new and improved smile. Plus, rest assured, your teeth will still feel “natural” too! The materials we use are light and comfortable to wear, yet extremely durable.

No matter what your circumstances are, or what your smile currently looks like, Lumina Dental Spa can work with you to create a customized treatment plan that results in the smile you have always longed for. Even if you think your smile is “unfixable,” we encourage you stop by for a free consultation anyway – you will be pleasantly surprised.

#### **Question #5: What are your qualifications as a cosmetic dentist?**

All dentists are required by law to undergo general dentistry training. However, to work as a “cosmetic dentist,” one must undergo additional specialized training.

Cosmetic dentists must be licensed through their state’s dental board. **Although it’s not required**, they also have the option to be accredited through the American Academy of Cosmetic Dentistry (AACD).

At Lumina Dental Spa, our dentists:

- Are certified, trained, and accredited through the world-renowned LV Institute of Dentistry (a post-graduate dental training center known for producing some of the best dentists in the world) via the Elite continuing education group
- Were voted “Best Houston Cosmetic Dentist” for four years in a row by *Edge Magazine* of Houston, Texas (2009-2012)
- Include a board certified Periodontist (gum doctor) and an Implantologist
- Have decades of combined experience in general and cosmetic dentistry – bringing you premier services like teeth whitening, implants, sedation dentistry, Lumineers, Invisalign (invisible braces), smile makeovers, and more
- Are expertly trained to transform patients’ lives, by creating beautiful smiles!

We believe in the value of continuing education, so each of our dentists frequently take classes, workshops, programs, etc. to add to their ever-growing knowledge base pertaining to the *art and science* of cosmetic dentistry.

Aside from training and education, each of our cosmetic dentists has a certain “artistic flair” for creating a beautiful smile (it’s not just about the science of dentistry!)

We have served thousands of happy, more-than-satisfied patients. It’s as exciting for us to provide you with a life-changing smile as it is for you to receive it!

### **Question #6: Do you offer a satisfaction guarantee for your cosmetic dentistry procedures?**

The last thing you want to do is pay for a procedure, and end up with shoddy results. So be sure to ask whether the cosmetic dentist you’re considering offers a warranty or guarantee to protect your investment.

For advanced procedures such as lumineers, veneers, and denture implants, materials such as porcelain and titanium may need to be added to your teeth. What will happen if, five years from now, a piece of porcelain comes loose? What is your cosmetic dentist’s policy regarding materials that break or get damaged?

At Lumina Dental Spa, we offer a lifetime warranty on ALL cosmetic procedures – as long as you continue receiving regular, ongoing dental care, either through us or another dentist. As long as you visit a general dentist for regularly scheduled checkups, you’re backed by our 100% lifetime warranty.

Our success ultimately depends upon our clients' long-term happiness, and we are so confident in our ability to provide you with the smile you've always longed for, we are happy to offer this guarantee.

**Question #7: So what makes you different from all the other cosmetic dentists in Houston?**

Other than being voted "Best Houston Cosmetic Dentist," we pride ourselves on being a cut above our competition.

First, our spa services allow you to relax and feel pampered, in a luxurious environment designed to help you all but forget you're actually at the dentist! You receive a complimentary facial during your first visit, plus access to optional Botox treatment, chemical peels, and microderm abrasion – all of which are gentle and safe treatments designed to give your face and skin a beautiful, glowing, youthful appearance. Our licensed, friendly on-staff esthetician can answer any questions you might have about these spa treatments and services.

To further your enjoyment, iPads are available for you to listen to your favorite music during procedures. We also offer an array of refreshing beverages.

We care about your smile – and we care about YOU, too! You'll never be treated like a number at Lumina Dental Spa. When you choose our office, you enjoy celebrity VIP status!

And remember, our dentists possess a unique combination of extensive training, experience, and talent for creating beautiful smiles our patients LOVE.

We hope this report has given you insight into exactly what to look for when hiring a cosmetic dentist. You're now armed with 7 powerful questions you MUST ask before hiring a cosmetic dentist, to ensure you have made the best choice.

We wish you the very best in your journey toward the smile of your dreams!

Sincerely,  
Arif Balagam, CEO  
and the Team at Lumina Dental Spa

**7 Questions You MUST Ask  
Before Hiring a Cosmetic Dentist!**

## That Beautiful, Perfect Smile is Closer than Ever - with Lumineers!

Referred to as “no-prep veneers,” **lumineers** are a quick and easy dental treatment option resulting in a beautiful, wow-ing smile.

Deceptively light and thin, and made up of specially reinforced porcelain, Lumineers can instantly transform your smile, hiding chips, cracks, discoloration, and remedying misaligned teeth. Hence the “no-prep” name, lumineers do not require any teeth preparation – that means no drilling, no shots, and no loss of natural tooth structure! This is a great option for sensitive patients who want to obtain that dazzling smile **and** improved functionality.

Unlike veneers, which are permanent, lumineers are reversible (in most cases). And thanks to modern dental technologies, the procedure is convenient, free of discomfort, and relatively quick – requiring as little as 2 weeks to be completed.

Plus, as long as you maintain your dental health through regular ongoing care, lumineers can last up to 20 years!

## Why are Lumineers a Favorite Treatment Among our Houston Dental Patients?

### INSERT TESTIMONIAL

At **Lumina Dental Spa**, our Houston dentists, Dr. Morency, Dr. Timm and Dr. Nguyen are recognized experts at creating perfect smiles utilizing lumineers. We take advantage of the latest digital photography equipment, including an intra-oral camera, to craft lumineers that perfectly complement your face and mouth, while enhancing your smile.

Our lumineers are:

- ✓ Placed over the front surface of your teeth, transforming your smile
- ✓ Comfortable to wear, made of reinforced porcelain material that is deceptively light and thin
- ✓ Reversible (unlike traditional veneers)
- ✓ Known for their strength, elasticity, and convenience
- ✓ Completed in as little as 2 weeks, and capable of lasting up to 20 years, provided you receive ongoing regular dental care

You'll be fitted during your first visit, and your perfectly crafted lumineers will be ready within 2 weeks.

100% Risk-Free – Backed by Warranty

Getting your lumineers at Lumina Dental Spa means you're backed by a full lifetime warranty, as long as you continue undergoing regular dental care with us or another dentist.

**It's Not Just About Creating Beautiful Smiles – It's About Changing Patients' Lives!**

*"Today, getting that beautiful, perfect smile is easier than ever with Lumineers. It is a safe, effective treatment that delivers the 'WOW factor' patients are yearning for every time." -Dr. Nguyen of the Houston Cosmetic Dentistry team at Lumina Dental Spa*

Are you considering getting lumineers to improve the appearance of your smile? If so, contact us today for a free, no-obligation consultation. We'll help you determine if this treatment is right for you, so you can finally **LOVE** the smile you see in the mirror!

## **If Your Journey to a Beautiful Smile Will Likely Include Braces... Guess What?**

### **Now, No One Even Has to Know You're Wearing Them!**

Are you thinking of getting braces to correct your teeth – but the thought of wearing unsightly metal bands and brackets has been holding you back?

**Invisalign** offers a wonderful, discreet alternative to traditional orthodontic treatments. It's easy, fast, comfortable – and invisible!

With Invisalign:

- ✓ A clear, custom-made plastic aligner or tray is placed over your teeth
- ✓ Aligners are comfortable, easy to wear, and effective in correcting imperfections
- ✓ Your teeth are gently and gradually moved into the desired position over a period of time
- ✓ You can temporarily remove the aligner or tray for eating, cleaning, or picture-taking

Lumina Dental Spa Offers Premier Houston Invisalign Services for patients who desire a beautiful smile *without* the noticeability and discomfort of traditional braces.

**[INSERT TESTIMONIAL]**

Invisalign effectively corrects issues such as:

- ✓ Crooked teeth
- ✓ Overly-crowded teeth
- ✓ Widely-spaced teeth
- ✓ Overbites
- ✓ Crossbites
- ✓ Mild relapsing after braces are removed
- ✓ Simple bite irregularities

Today, it's easier than ever to get Invisalign (invisible) braces. When you walk into our dental spa, we'll take just one set of photographs and one set of impressions of your mouth. These will be used to create a computer projection of how your teeth move incrementally. This projection becomes the **blueprint** for designing your customized Invisalign aligners or trays.

It's important to note that *Invisalign is only effective if it's consistently used*. The trays are not meant to be left out of your mouth for longer than a single meal. However, this usually isn't a problem for most patients, as trays are very comfortable to wear, compelling gentle pressure to gradually shift your teeth into the correct position over time – typically about one year.

**Ready to get a beautifully straight smile without anyone knowing?**

We'll discuss:

- ✓ Your personal teeth-whitening goals and how quickly you want to reach them
- ✓ The specific level of discoloration in your teeth
- ✓ Your sensitivity level, to ensure your maximum comfort
- ✓ The exact post-whitening maintenance and care routines are required to keep your smile healthy and bright

Then, we'll help you determine which whitening option is best – e.g., Zoom, Advanced Power, or other services.

**Brilliant, bright and beautiful; when it comes to your smile, you shouldn't settle for less.**

Are you ready to brighten your smile with the best services available for teeth-whitening? Houston, TX, residents are invited to contact us today for a free, no-obligation consultation. We'll help you determine which whitening treatment is right for you, so you can finally get that dazzling, head-turning smile you've always imagined!

## Your Natural Teeth are a Priceless Asset – Restore Them Back to Beauty with Dental Crowns

The dentists of Houston’s Lumina Dental Spa understand that *tooth loss is the LAST thing you ever want to experience!* That’s why our primary goal is helping you achieve optimal dental health, while saving you from painful tooth loss.

**Dental crowns** (also known as “dental caps” or “tooth crowns”) are one of our most popular dental treatment options. Made of porcelain and designed to perfectly imitate the shape and color of your natural teeth, a crown covers and encases a damaged tooth, and becomes the tooth’s new outer surface. **The result is a strengthened tooth that looks indistinguishable from its neighboring teeth.**

If your teeth are broken, cracked, chipped or decayed, dental crowns may be an ideal treatment for you. Crowns are durable, natural-looking, and allow damaged teeth to be restored back to their natural usefulness and beauty. Best of all, no one will ever be able to tell you have them!

[INSERT TESTIMONIAL]

At Lumina Dental Spa, our dedicated cosmetic and restorative dentists, Dr. Morency, Dr. Timm and Dr. Nguyen are expertly trained and experienced to restore your teeth back to their original beauty.

We believe the best way to care for teeth is through a practical, effective dental care routine. That’s why we strive to help you reach your goals using the most conservative treatment possible.

Our dentists:

- ✓ Take the time to learn about your unique dental concerns
- ✓ Devise a custom plan tailored to your individual needs and goals
- ✓ Use the most advanced dentistry techniques to create durable, beautiful, natural looking crowns that will protect your smile for years to come

Unlike fillings, crowns are not made in your mouth – rather, they’re created in a dedicated laboratory. During your first visit, our dentists will gather information needed to shape and mold a crown that perfectly fits your tooth and entire mouth. Your crown(s) will then be carefully crafted at our lab (usually within 3 weeks). You’ll receive a temporary crown to wear while your permanent crown is being created. Finally, you’ll return to Lumina Dental Spa to have the crown placed and to ensure it’s perfect fit.

Ready to restore your teeth back to beauty? Call our office at 713-523-2328 or email us for a free consultation to see if crowns are right for you. After visiting Dental Lumina Spa, you’ll LOVE your new smile.

## Could You Be One of the 50% of Americans Who Has Periodontal Disease, But Doesn't Even Know It?

The answer is YES!

According to survey data by the Centers for Disease Control and Prevention, almost **half** of American adults aged 30 years or older have some form of periodontal disease (AKA gum disease) – yet many of them don't even know they have it.

And why is this a cause for concern? Periodontal disease, a seemingly “small” issue you aren't even aware of, can actually lead to more serious and much more costly health concerns. In fact, poor dental health has been linked to serious health problems such as diabetes, heart disease, and even stroke!

But the good news is...

### Regular, Ongoing Dental Care Will Help You Avoid More Serious Health Concerns Down the Road

Here at Lumina Dental Spa, we are strongly committed to providing you with the best, most comprehensive continuous dental care, so you can enjoy healthy teeth and gums all throughout your life.

We know *every mouth is different*, and everyone has unique needs when it comes to caring for their teeth and gums. That's why we take the time to educate you on what it REALLY means to care for your mouth. You must first have the **knowledge** – and then we'll help you implement it.

Working together, we'll take care of any embarrassing bad breath you may be experiencing – most likely due to periodontal problems. Plus, we can rid your teeth of unsightly plaque and tartar build-up – both of which have been linked to serious dental health problems and heart concerns.

At Lumina Dental Spa, our professional dental hygienists:

- ✓ Act as caring instructors, teaching you how to best care for your unique teeth and gums
- ✓ Work with you to develop a custom, tailor-made, comprehensive treatment plan based on your specific periodontal health
- ✓ Will help you determine your course for follow-up care, depending on your current level of dental health
- ✓ Help you establish healthy habits that lead to excellent dental health, thus effectively cutting back the need for subsequent costly dental services.

Best of all, we deliver top-notch dental care in a “spa style” setting that makes it easy and enjoyable for you to continue your oral care. Our approach is truly second-to-none!

## Eat, Drink, Laugh, and Speak with Confidence!

*Our Dental Implant Service Provides You with Fully Restored Teeth –  
And a Healthy, Beautiful, Natural-Looking Smile*

Did you know that untreated dental conditions can lead to tooth loss?

If you've experienced:

- Tooth decay
- Gum disease
- Accident, injury, or trauma
- Excessive wear and tear
- Root canal problems
- Congenital defects

... you may be at risk for *losing* one or more of your teeth.

Left untreated, these conditions can have a detrimental effect on your ability to talk and eat – with **bite irregularities** likely to develop. When a bite becomes misaligned or irregular, temporomandibular joint disorders (*TMJ*) can develop. TMJ shows up in the form of chronic and painful symptoms, and the subsequent result may be permanent tooth and bone loss.

If you've lost a tooth or experienced any of these conditions, **dental implants** may be an ideal solution for restoring your smile back to its original beauty.

## Amazingly Natural-Looking Dental Implants Give You a Reason to Smile Again!

At Lumina Dental Spa, we understand the value of a beautiful smile. We also know how devastating it can be to lose a tooth. That's why our highly trained cosmetic dentists, Dr. Morency, Dr. Timm and Dr. Nguyen, are **committed** to creating a healthy, restored smile for each of our patients, boosting their confidence and truly giving them a reason to smile again.

Our dentists work with leading oral surgeons, and tap into the very latest dental technologies to provide Houston with dental implant solutions that are **effective and comfortable for our patients**.

### How Dental Implants Work

A small metal implant is inserted into the optimum position, thereby creating a superlative tooth restoration. Once the implant is placed, it's completed with a custom-made porcelain crown

bonded over the dental implant. The result is a natural-looking, fully functional **tooth replacement** that looks and feels like one of your own teeth!

The procedure is comfortable, and our patients have loved the results.

### **INSERT TESTIMONIAL**

Lumina Dental Spa implants:

- ✓ Are strong and durable
- ✓ Offer the potential for a permanent solution to tooth loss
- ✓ Preserve both the beauty and the health of your smile
- ✓ May be used in conjunction with other restorative or cosmetic dentistry procedures to bring you the most beautiful smile possible

Plus, dental implants are considered one of the most successful procedures in dentistry. They are safe, comfortable, and effective in providing patients with a beautiful smile they can be proud of.

**Are you ready to stop feeling self-conscious – and start showing off your smile again?**

Drop by our office and let us show you all the benefits of this long-lasting, advanced smile solution. Call us at 713-523-2328 or email us for a free consultation, or to learn more about dental implants. Houston, Katy, Sugar Land, Spring, Galveston, Texas, residents will LOVE their new smiles.

## **Eliminate the Fear and Anxiety Surrounding Your Next Visit to the Dentist**

If you dread going the dentist, fear no more!

At Lumina Dental Spa, you can count on our relaxing, “spa style” atmosphere and comfort-enhancing amenities to help you feel happy and at ease during your visit.

And for those who exhibit extreme nervousness, so much so that you actually avoid the dentist altogether, we offer gentle **sedation dentistry** options to calm even the most persistent fears.

Whether you’re visiting our office for considerable dental work or surgery, or a simple routine teeth-cleaning, our sedation dentistry options ensure your visit is free of discomfort.

### **At Lumina Dental Spa, sedation dentistry:**

- ✓ Is safe and comfortable, providing even the most fear-prone patients a chance to rest easy while receiving the dental care you need
- ✓ Allows you to remain alert enough to answer questions - yet relaxed enough to feel 100% at ease during your entire procedure
- ✓ Enables our dentists to be more productive, completing more dental work in less time (this is a great benefit if you need to undergo multiple treatments at once, or have an extended visit)
- ✓ Allows you to relax during your visit and “wake up” to a beautiful smile, upon the completion of your procedure

Using the latest in sedation dentistry techniques and equipment, our Houston cosmetic dentists, Dr. Morency, Dr. Timm and Dr. Nguyen will put your fears to rest. Our team is dedicated to providing you the VERY best in dental care, while making your visit comfortable and enjoyable. We strive to make every visit the best it can be!

Your **new, exceptional** dental experience is waiting – with sedation dentistry.

Call us at 713-523-2328 or email us for a free consultation, or to learn more about sedation dentistry. Houston, Katy, Sugar Land, Spring, Galveston, Texas, residents will feel totally relaxed at their next dental appointment!

### Get the Security and Confidence to Smile Again with Denture Implants!

Have you lost several (or all) of your teeth due to tooth decay, periodontal disease, accidents, etc?

If so, **denture implants** offer a unique solution for restoring your smile back to its full beauty and functionality. Unlike traditional dentures (which are removable and can cause discomfort and inconvenience to those who wear them), denture implants provide a more secure, permanent, and comfortable solution to your tooth loss.

#### We know how important your smile is to you.

That's why at Lumina Dental Spa, our highly trained and skilled dentists *work with you* to create a customized treatment plan resulting in exactly what you're looking for with your new smile. You'll enjoy a flawless, natural-looking, beautiful smile. Best of all, no one will know you're wearing denture implants, except you!

Because this process is a permanent solution to tooth loss, it generally takes longer to complete than traditional dentures. However, it'll be well worth the wait!

#### INSERT TESTIMONIAL

#### Our denture implants:

- ✓ Are safe and comfortable, providing you with a natural-looking smile that looks and feels amazing
- ✓ Allow you to eat, speak, smile, and enjoy other activities with confidence, knowing your teeth will always remain securely in place (provided you maintain excellent, ongoing dental hygiene)
- ✓ Can be completed in 2-5 months, depending on the condition and health of your jaw, and your specific needs
- ✓ Give you a fantastic reason to smile again!

Utilizing THE most advanced techniques and equipment, our Houston denture implant specialists make it possible for you to enjoy a beautiful smile again WITHOUT the discomfort. We will do everything possible to make sure you are comfortable during the procedure. Our team is dedicated to giving you the best dental treatment possible, while making your visit extra enjoyable.

Let us show you how denture implants will give you the confidence to smile again, with our complimentary "before and after" pictures!

To find out more, give us a call at 713-523-2328 or email us for a free consultation regarding denture implants. Houston, Katy, Sugar Land, Spring, Galveston, Texas, residents will love your new smiles!

## Imagine: A Visit to the Dentist That Feels Like a Visit to the SPA!

It's no secret that many Americans avoid going to the dentist.

But that doesn't have to be the case for you – because the team at Lumina Dental Spa has created **a relaxing, luxurious environment** combining all the best elements of a soothing spa with the latest in modern dental technologies.

Now, you can enjoy the highest quality dental care AND comfort-enhancing spa style services – all at the same location! Wake up excited for your appointment, because we are dedicated to making sure you feel pampered and relaxed...

We not only offer complimentary:

- ✓ Nutritious beverages
- ✓ Selections of relaxing music and over 50 movies you can watch or listen to during your appointment (sanitized goggles and iPads provided for your convenience)
- ✓ Comfy pillows
- ✓ Warm blankets
- ✓ Scented hot towels
- ✓ And more...

We ALSO have a licensed, friendly on-staff **esthetician** and a fully equipped **spa room** to provide you with a variety of additional spa treatments and services, such as:

- ✓ **Facials** – a common and popular spa service, your face will be gently cleansed, exfoliated, and/or massaged, and you'll experience a more beautiful, glowing appearance. (**\*New patient? As a “thank you” for choosing Lumina Dental Spa, enjoy one complimentary facial during your first appointment!**)
- ✓ **Microderm abrasion** – known as the “anti-aging treatment” of choice for many, this procedure is a gentle method of refreshing and rejuvenating your skin. Reverse light scarring, wrinkles, large pores, discoloration, acne, age spots, and sun damage, with this popular and safe technique.
- ✓ **Chemical peels** – a safe treatment to smooth out the texture and appearance of your skin, while virtually eliminating wrinkles! If you'd love to eliminate those fine lines under your eyes and/or around the mouth, decrease the appearance of mild scars, treat your acne (depending on the type you have), reduce the appearance of sun damage, age spots, freckles and/or dark spots, or just improve the overall appearance and feel of your facial skin, this may be the perfect choice for you!
- ✓ **Botox** – a popular cosmetic procedure similar to a “face lift” in its results, you'll quickly notice an improved appearance of your skin. Used commonly to decrease the appearance of wrinkles and “tighten” the skin, this procedure will quickly revive your youthful appearance, and results typically last for approximately 6 months.

Not sure which choice is right for you? No problem – we'll consult with you about each of the options and fully assist you in making the perfect choice **for you**.

The team at Lumina Dental Spa will do everything we can to ensure you feel relaxed and beautiful when you leave our office!

**INSERT TESTIMONIAL**

Whether you're in need of general or cosmetic dentistry, expect to **receive VIP treatment** the moment you walk into our Houston dental spa.

So what are you waiting for? Isn't it time you enjoyed a day at the spa, while we work on your smile?

Call us at 713-523-2328 or email us to schedule your appointment at Lumina Dental Spa. We guarantee you'll finally have a reason to love going to the dentist!

## Have You Ever Dreamt of Having a Beautiful “Hollywood Smile”?

If you’ve ever looked in the mirror and felt less than happy about your smile, then **veneers** may be the perfect dental treatment option for you.

A popular solution to gaps, severe crowding, and other imperfections, a “veneer” is simply a thin layer of restorative material placed over the surface of a tooth, improving the tooth’s appearance and/or protecting the tooth (if it’s been damaged). Without adding any thickness or bulkiness to your teeth, the material can be shaped and molded to change almost anything (and everything) about the appearance of your teeth, allowing you to alter as much or as little as needed. You’ll feel completely comfortable and natural flashing your new, gorgeous smile!

At **Lumina Dental Spa**, our Houston dentists, Dr. Morency, Dr. Timm and Dr. Nguyen are recognized experts at creating perfect smiles utilizing porcelain veneers. We take advantage of the latest digital photography equipment, including an intra-oral camera, to determine exactly how to craft your veneers, so they perfectly complement your face and mouth, while enhancing your smile.

And thanks to modern dental technologies, the procedure for getting veneers is **convenient, free of discomfort, and relatively quick** – requiring as little as 2 weeks to be completed.

### You’ll Be Surprised by How Easy the Process is, and Amazed by the Results!

#### INSERT TESTIMONIAL

We offer the following high-quality veneer treatment options to meet your specific, individualized needs:

- **Traditional (i.e., porcelain) veneers**, which are extremely effective at correcting severe tooth crowding, filling in gaps or spaces, and leaving you with a beautifully symmetrical “Hollywood smile.” Some tooth preparation may be required, with an anesthetic administered to ensure you’re 100% comfortable during the procedure.
- **Ceramage veneers**, which are a popular alternative to porcelain veneers, as they are less abrasive than porcelain. Ceramage is a bonding material that contains porcelain and can be expertly manipulated to replicate your tooth’s natural surface. It’s light-activated, reflecting and transmitting light to make your teeth sparkle and shine. This option allows for a more conservative treatment plan.
- **Empress and lava porcelain veneers**, known for their durability and ability to enhance texture and color.

No matter which option you choose, you’ll be left with a beautiful, dazzling smile! Contact us for a free consultation to discover which treatment is best for you.

## Discover Why Lumina Dental Spa Provides the Best Houston Porcelain Veneers

At Lumina Dental Spa, your veneers are:

- ✓ Completed in as little as 2 weeks
- ✓ Light and comfortable
- ✓ Capable of lasting up to 20 years, provided you receive ongoing regular dental care
- ✓ Backed by warranty, as long as you continue undergoing regular dental care

Don't forget, you get to "test drive" your new smile by wearing temporary veneers for 3 weeks, while we craft your permanent veneers. This way, you'll be able to see how they feel before receiving your permanent veneers.

100% Risk-Free – Back by Warranty

Getting your veneers at Lumina Dental Spa means you're backed by a full warranty, as long as you continue undergoing regular dental care.

If you're considering getting the best Houston porcelain veneers, contact us today for a free, no-obligation consultation. We'll help you determine if which treatment is right for you, so you can finally **LOVE** the smile you see in the mirror!

## Reaching Your Perfect Customer

Marketing is about more than identifying your perfect customer: it's also about crafting precisely the right message and finding precisely the right communication to convey it.

It can seem complicated sometimes, though, can't it? Creating a constant stream of leads and converting them into customers can feel like the unsolvable mystery unless you create the ideal marketing strategy for your business.

But how do you do that? How do you create the ideal marketing strategy and tactics for your business?

**You test, research, tweak and test some more.**

And that's what this informational report, *"Guaranteed Proven Way to Never Struggle to Attract New Customers Ever Again!"* is all about.

### **READ IT AND DISCOVER:**

- The **one critical step you must take before you begin any marketing campaign** (if you don't, your chances of finding qualified leads are low to nonexistent)
- The **distribution channels available to you** when sending your message to your perfect customers
- An exercise for determining **exactly where to find your perfect customers**
- **16 different marketing strategies** to consider
- And more

If you're ready to super-charge the productivity of all your marketing efforts by determining where your perfect customers are and how to reach them, it's time to get started!

# Chapter 2

## Identifying Your Perfect Customer

### ➔ STEP 1: CREATE A PERFECT CLIENT PROFILE

---

Answer these questions:

- What type of client do you want to do business with?
- Who is going to give you the greatest return on your marketing investment?
- Who will be the easiest to find?
- Who will be the easiest to sell to?
- Who will require the least customer service?
- Who will stay with you the longest?
- Who will spend the most money with you over the longest period of time?

### ➔ STEP 2: IDENTIFY YOUR PERFECT CLIENT'S DEMOGRAPHIC

---

Demographics are characteristics that define a client who NEEDS what you sell. Determine your client's:

- Age
- Gender
- Income
- Education
- Marital Status
- Children and Ages
- Geographic Information

### ➔ STEP 3: IDENTIFY YOUR PERFECT CLIENT'S PSYCHOGRAPHICS

Psychographics are characteristics that define a client who WANTS what you sell.

*Know why clients buy your products...or why they don't; know clients wants and how to target their hot buttons through:*

- Personality
- Attitude
- Values
- Lifestyle
- Interests

When you know who your ideal customers are and what they want, it's time to explore how to best reach them by creating the ideal marketing plan for your business.

Marketing is about improving the odds of successful communication: crafting just the right message and finding the right channels and forms of communication to convey your message to the right people.

There are several ways to do this. You can get expert opinions on what you should do. You can start with an intuitive sense of how you've acquired your customers. Or you might reason it out. However you arrive at your initial strategies and tactics, your next step is phase marketing: **test, research, tweak, and test some more.**

# Chapter 3

## Looking For Your Customers Where They Are

You may have heard the joke about the guy outside the bar who is scuffling around on the ground under a corner streetlight.

*A policeman asks him what he's doing. "I lost my keys," the man replies.*

*The policeman helps him look, but after ten minutes they find nothing. Exasperated, the policeman asks the man, "Are you sure you dropped them here?"*

*"No, I dropped them way over there, by my car," the man replies, pointing at a parked car twenty yards away, "but the light's better over here."*

No matter how hard he looks, this fellow is never going to find his keys. The same thing applies to your business: no matter how much money or effort you put into a marketing campaign, you're not going to attract your ideal customers unless you go looking for them where they actually are, not just where the light happens to be.

We once worked with a chiropractor seeking to expand his business. He talked with other chiropractors in his area to see what they were doing to attract more clients. He learned they were sending flyers in the mail. One colleague he talked with had rented a mailing list, printed up flyers, and sent out mailings to five thousand names.

*"How did it work?" our friend asked.*

*"Not that great," said the colleague, "I got two leads."*

The total cost of his campaign was \$600. Those were two wildly-expensive leads – and neither of them actually became a client!

Before doing anything, our client asked himself, "**Where** is my ideal client?"

**Where is my  
ideal client?**

Most of his best clients came to him suffering from back pain. In many cases, the pain would keep them up late at night. While the pain was rarely so agonizing that it would send them to the hospital, it was bad enough that they couldn't sleep. They couldn't do things that required focus, like reading. So they ended up watching television late into the night.

Our client researched the cost of advertising on the local cable TV network, found it reasonable, and ran a series of inexpensive late-night cable TV ads. He got 125 leads in just 4 days! Total cost of the campaign: \$500.

That's 4 bucks per lead—and dozens of those leads became paying clients.

**That's the difference a little planning can make.**

# Chapter 4

## Choosing the Right Distribution Channel

Our chiropractor client understood that the first step in thinking about how to reach an ideal customer is to decide where they're most likely to be found. Another way to look at this is to ask yourself this:

### **What is the right distribution channel for my business?**

A distribution channel is the way your customers will make their transactions with your business. The particular channel you choose will also determine where your ideal customer is most likely to hear your message. Below is a list of the seven basic distribution channels.

- **Direct sales**
- **Sales agents**
- **Phone sales**
- **Mail order**
- **Online**
- **Retail**
- **Events**

Your business may take advantage of one or more of these channels. Each will require a distinct communication strategy. For example, when a friend of mine went to work for *Telecommunications Terminal Systems* in the early 80s, the company wanted to create a coast-to-coast telecom enterprise that would be the first national organization of its kind. Previously, telecom companies had operated only within individual provinces. My friend knew they would never achieve the objective through direct sales (at least, not on their timetable), so they went with sales agents and set up a national network of dealers. Using these dealerships as local service providers, his team was able to create a national presence that helped the company generate \$60 million in revenue within a fairly short time.

Think back to what you learned when you created your ideal customer profile – when you put yourself in your ideal customers' shoes in the same way the chiropractor did.

- **Where are they?**
- **What are they doing?**
- **When are they most likely to be experiencing that need or want that would bring them to your business?**
- **What do their days look like, or their nights?**
- **Which magazines do they read?**
- **What are their media habits?**
- **If yours is a B2B business, what trade publications and other business media are your customers using to inform themselves and stay current?**

With your ideal customer's everyday lifestyle in mind, walk through the list of seven distribution channels; which one is most likely to reach your customer with your marketing message?

**Which distribution channels are most likely to reach your ideal customers?**

# Chapter 5

## Choosing the Right Channel For Daycare

Let's look at an example of a daycare service to see how we could choose the ideal distribution channel for reaching their ideal customers.

We researched and found that the ideal customer for a typical daycare service is a woman, age 21 to 45, married, with one to three children, employed, a homeowner, with a total annual household income of \$70,000 or more. Her wants: a safe, affordable daycare that will provide an educational component within a nurturing, loving environment.

Now, where will we reach her?

Let's look through the seven major distribution channels.

Our ideal customer's age range suggests that she is probably Internet-savvy, making the online channel a good possibility. Because she is a homeowner with young kids, chances are good that she spends the majority of her nonworking hours in the home, which makes reaching her on the phone through a telemarketing service a good possibility, too. And given the nature of the service, most parents would probably want to come visit the daycare center in person before making their decision about using the services, which puts us in the direct sales channel.

What about the rest of the list?

We can eliminate retail and mail order right off the bat, because daycare service isn't something we can move through either of those channels. The last two channels, sales agents and events, don't seem appropriate, either. This leaves us with three options: *direct sales, phone sales, and online sales.* (By the way, this is the typical number of distribution channels to consider at this stage.

Although there are seven distribution channels to choose from, you'll almost always find that only a few apply to a given business. And by prioritizing these and examining them more closely, we can often narrow our options down to one.)

So which of these channels is most likely to reach the daycare's ideal customer?

The best way to answer this is to put yourself in your customer's shoes and imagine walking through her typical day. Like virtually all parents of young kids, she's probably swamped early in the morning as she hurries to dress herself and her kids, make breakfast for the family, drop the kids at daycare, and get to her job on time. She's probably just as busy in the evening, too, not to mention completely exhausted by then.

If we're going to reach her by using a call center, the only times we can reach her at home are in the early-morning and evening hours. Given her hectic schedule and state of mind during these hours, how receptive is she likely to be to a telemarketing call? So scratch phone sales!

What about the online channel? This sounds logical, but take another look at the day we just walked through. How much time is she spending surfing the Web? Because she has so little free time, chances are good that she just gets online for the essentials—paying bills, making quick purchases, and possibly catching up with friends and family via email.

What's more, she is probably not even looking for a new daycare provider because she already has daycare. Your daycare may offer substantial advantages over her present provider, but she doesn't know that (yet).

We need to reach her with a message that will inform her about the superior benefits your daycare offers, but trying to generate leads online by creating a website is probably not going to work.

In less than five minutes, we've narrowed the field of distribution channels to one: direct sales. You are now one of the few daycare owner/operators in your area, perhaps the only one, who already knows which distribution channel has the greatest chance of success of promoting and selling your service.

You know where you'll have your greatest chance to increase customer response rates, which will allow you to spend your marketing dollars with confidence and

certainty as you increase your revenue and your profits.

And imagine what your competition is doing! They are spending a small fortune designing, creating, and implementing an expensive website that their ideal customer isn't looking for and will never find. They are hiring the services of an expensive call center that will annoy their prospects.

But not you. You know which distribution channel has the greatest chance of success based on the careful work you've done creating clarity and focus.

You're hiring some local moms whose kids have already left the nest to work for you part-time as salespeople, getting out the word about this unique, well-run, learning-oriented daycare center that allows parents to see their kids via webcam anytime they choose.

# Chapter 6

## Choosing the Right Marketing Strategy

Now that you know where to reach your ideal customer, it's time to consider the marketing strategies you might use to get your message across. Here is a list of 16 strategies to consider.

- **Advertising (television, radio, print)**
- **Affiliate and joint venture**
- **Affinity marketing**
- **Barter**
- **Catalog marketing**
- **Direct marketing**
- **Event marketing**
- **Frequent-buyer programs**
- **Internet**
- **Outdoor media**
- **Point of purchase (POP) and point of sale (POS)**
- **Place-based media**
- **Promotions and cross-promotions**
- **Public relations (PR)**
- **Referrals**
- **Signage**

That's a lot of choices! Fortunately, you won't need all of them. In fact, just as with the seven distribution channels, you'll typically find that just one or two of these methods will be the most effective for your business and situation, in terms of cost and response. And with the information you've assembled, the decision will now be a lot easier to make!

For the daycare operation, the marketing method that makes the most sense to us is direct marketing. This looks promising. We could purchase a highly-defined list from a list broker and refine it further, using our specific demographic profile information. We could target homeowners who live within a 5-mile radius of our daycare center and narrow that down to families who have one or more kids and an income range of \$70,000 and above.

The specificity of this list will yield a smaller but highly-targeted direct-mail list that will be inexpensive to buy, so we might be able to afford a whole series of mailings.

Now that you have your lead-generating strategy in place, you need to develop a tactical plan for the process.

# Chapter 7

## Choosing the Right Marketing Tactics

Since we've decided direct mail is the best option for reaching our ideal customer, we need to decide on our tactical plan of action to implement this strategy. Choosing our distribution channel tells us where we'll reach our best prospects; choosing the strategy tells us what we'll do to reach them; and choosing our specific tactics tells us how we'll reach out to them.

**Distribution Channel = Where**  
**Marketing Strategy = What**  
**Marketing Tactic = How**

Following is a fairly long list of marketing tactics. This isn't a complete list, because new tactics evolve and emerge constantly, but it is certainly extensive enough to offer you a wide range of ideas to choose from.

- 800/900 Phone Number
- Ad Sense by Google
- Ad Words by Google
- Ad Tracking
- Animation
- Articles
- Auctions
- Audio Marketing
- Auto-responders
- Award Recognition
- Backend Marketing
- Banner Ads
- Barter
- Blogging
- Bonus Offers
- Business Cards
- Case Studies

- Mini Sites
- Network Marketing
- News Feeds
- Newsletters
- And more!

When considering direct mail, we have several options. We could send a sales letter, a brochure, or a postcard. A sales letter might work – if it gets opened. These days, that’s a long shot. Most people easily recognize business-related sales letters and many will toss our letter, unopened.

What about a brochure? A brochure might work if we design it as a self-mailer (a piece mailed by itself instead of being placed inside an envelope). Here again, though, we have a problem: A brochure is also easily recognized as promotional and discarded before anyone reads the information.

And these mailings differ significantly in cost. Before you make any decision about how much to spend, consider the factors that are all too often ignored:

- *What is your buyer’s decision-making process?*
- *How can you quickly interrupt their pattern to get your message in front of them in a compelling, emotional way so they pay attention and take the action you want them to follow?*

# Chapter 8

## Conclusion

When it comes to reaching your perfect customer, you have myriad options.

Although narrowing them down to the right one(s) can seem confusing and overwhelming, you can follow a simple process to create the ideal marketing plan for your business. **How?** *Figure out where your customers are, what you can do to reach them, and how to do it most effectively.*

Here are some **action steps** you can take now to begin creating your ideal marketing plan:

1. Spend a few minutes imagining a day in the life of your perfect customer. What does she do when she wakes up? Does she commute? Does she have kids to get ready for school? Does she work? Does she listen to the radio, watch TV, surf the Web? Where can you reach her?
2. Examine the lists of resources in the report, and then...
3. Put yourself in your perfect customer's mindset. When and how will she be most receptive to hearing your message?
4. How can you deliver your message during those times and in those places where she is receptive to hearing it?

By following these steps, you'll be well on your way to attracting more qualified leads than ever, faster than ever.

# Chapter 9

## Summary

Before you begin any marketing campaign, ask yourself where you can find your ideal client. The most effective way to answer this question is to spend a day in her shoes. Walk through everything she does, and imagine where she will be when she is thinking about the product or service you offer.

With this in mind, consider the distribution channels available to you – direct sales, sales agents, phone sales, mail order, online, retail and events – and decide which will be most effective in reaching your perfect customer. Then determine how to most effectively use the channel to reach her.

Follow these steps each time you begin a marketing campaign and you'll easily attract more qualified leads, more quickly.

## THE VISA REPORT:

The Smartest, Most Reliable Path to U.K. Immigration

**DID YOU KNOW?** Innocently saying the wrong thing or omitting crucial facts in an immigration application can get your applicant banned from applying again from between one to ten years!

**WE HAVE A 95% SUCCESS RATE FOR  
Getting Our Clients Their Visa!**

The immigration law environment is changing fast. Don't get caught out by the new Immigration Act 2014 which removes your crucial right to appeal a decision in most cases. Make sure your application is spot on the first time!

Here is Your Free Visa Report

Are you busy working and juggling in the UK, but feeling lonely for the person or people you left behind—the loved ones who are keen to join you?

Even though you feel safe and secure where you are, you **worry** about the wellbeing of those who *aren't* with you yet—a fiancé, a spouse, a parent, or children.

It can be hard to sleep at night when the ones you love are living so far away. Even during the day, when you should be counting your blessings, you're counting the days until you can become part of a family unit again.

Settling in the UK is an exciting prospect, but the complex and confusing immigration process can leave you feeling exhausted, unhappy and unfulfilled no matter how pleased you are to be here. It's time to enlist the help of a specialist UK immigration solicitor, one who knows how to keep advancing your goal day after day so you can put an actual date on your calendar and start making plans to enjoy quality time again with the people who make your life feel more complete.

## 2

## THE FRIGHTENING FACTS ABOUT GETTING YOUR FIRST APPLICATION WRONG

The Immigration Act 2014 removes a safety net that applicants have long enjoyed: it removes your right to appeal a decision in a large number of cases. So it's prudent to make sure the first application is spot on to minimise the risk of refusal. By getting it right the first time, you can avoid unnecessary delays and costly additional application fees, which are approximately 1000 GBP each time. Best of all, in hiring a professional, you're far more likely to avoid disappointment while welcoming your partner to your side sooner.

The Internet may have you believing that completing a first-time application is easy. But we've seen the sad consequences of people who have tried to do it themselves. There is a lot that can catch you out, and with the new Law being rolled out, being caught out can dash any hope of reconnecting with your loved one any time soon in the UK. Saying the wrong thing innocently in an immigration application can get the applicant banned from making another application from between one to ten years!

At UKML we research, prepare and share with you what you will need to do in your specific situation. We lodge the application for you (for those inside the UK), inform you of the decision as soon as we receive it, and liaise with the home office if anything more is required. We are thorough, fast and practical.

Every client is different, so your particular needs and time frame are uniquely yours. This is why we'll be happy to tailor our service to meet your precise conditions. Our goal: give you professional guidance and peace of mind at every stage of your case so you can concentrate on other things while the immigration process unfolds over a period of days, weeks or months (depending on the complexity of your situation).

At UK Migration Lawyers, we're **immigration experts**. We help achieve your goals by going after the results you want using every tool available to us.

**Specialists in UK Immigration law, we've helped thousands** of people from **all over the world** gain entry or leave to remain in the United Kingdom. And with a remarkable track record for securing first-time visas, helping you with yours will be our pleasure.

## HERE ARE THE TOP QUESTIONS OUR CLIENTS ASK!

- ◆ **Can you help me? *In most cases, yes.*** We'll do everything in our power to help, no matter how bleak your situation. We'll provide a preliminary consultation to **assess your case**. If we then don't take you on, you won't owe us any fees.
- ◆ **How much will it cost?** Depending on the complexity of your case, we offer a fixed fee service. No hidden costs or surprise charges.
- ◆ **How long will it take?** If you're eligible for the Home Office **same-day service**, we will process your application and have your visa processed and **approved on the same day you submit it!** In more complex cases, the process can take a few months.
- ◆ **When can we start?** Right now! Call us (020 3051 1433) to start your application.
- ◆ **What happens if I get refused?** If you're eligible for a right of appeal, we'll advise you on the best course of action, whether it is to pursue an appeal, lodge a fresh application, or an application for Judicial Review.

- ◆ **Do I need to pay more if I get a refusal?** We charge fixed fees based on which stage your case is in. Before we begin a new stage, we'll explain the fees and what's included so you know exactly what to expect.
- ◆ **What if I am not given a right of appeal? Can you still help me?** Yes. We can discuss a fresh application or Judicial Review if your case is eligible.
- ◆ **What happens if I get detained?** We can help. We will visit you and lodge either (further) representations, an application, an appeal, bail, or pursue an injunction and a Judicial Review, depending on the nature and status of your case.
- ◆ **I am an overstayer. Can you still help me?** Usually, yes, depending on your circumstances including your ties to the UK, your family background, and your immigration history.
- ◆ **Do you guarantee the visa?** We guarantee that we will conscientiously and responsibly submit the right application at the right time and at a fixed fee. We naturally cannot guarantee success, as the decision-making process is out of our hands.

- ◆ **What if the application doesn't work?** This occasionally happens—but it's rare. In the *unlikely event* that this happens in your case, we'll work hard to find a solution. We'll tackle your case from another angle and discuss a fresh application, appeal (if available), judicial review, or other legal challenge.
- ◆ **What if it doesn't work a second time?** We will continue to work closely with you. We'll pursue realistic avenues to get you the result you want! Our goal is to make sure you receive conscientious, committed service.

## FREE REPORTS

### **14 CRITICAL Questions You MUST Ask Before Hiring a Moving Company (So You Don't Pay More For Less!)**

Congratulations on your upcoming move! We are so glad you're taking the time to read this report – it's an important first step in helping ensure you have as stress-free and easy a move as possible (and we want that for you as much as you do!).

Moving can be a stressful part of life – there's no two ways about it. But the moving company you hire should serve to alleviate that stress as much as possible. Part of that service includes their having proper customer service skills, the utmost respect for you as their client, and the patience, willingness, and ability to answer any and all of your questions.

While cost is always a consideration, you cannot base your hiring decision solely on pricing – there are so many other critical points to consider when choosing the right removalists for you!

#### **Sometimes Paying less, Costs You More**

To ensure you're able to make as informed a decision as possible when hiring a moving company, read on for 14 key questions you MUST ask them (and why!) before you make your final decision.

#### **Question #1: What is your damage and insurance policy?**

Damage can occur during a move for a variety of reasons – sometimes, a moving company hires cheap and inexperienced labourers who are careless with your belongings. Sometimes, accidents happen, regardless of the skill level of the workers. Either way, it's important to know you'll be protected and covered if any damage is incurred.

So, first up: Ask your potential moving company if they have insurance, and then ask them to show you their proof of policy. This is critical! Most companies claim they have insurance, but actually don't – and if you don't ask, you'll risk discovering this important bit of information AFTER a problem occurs. Plus, many companies – those with insurance and those without – will resort to “bully” tactics to get out of paying for damage. They'll blame the damage on the customer, claiming it was already there before they had arrived. They will simply deny it completely, going so far as to even ignore your attempts to contact them, or to file a claim.

But when you request the company show you a Certificate of Currency to prove you are indeed covered by their insurance, you'll know you can stand your ground against the company should an accident occur. Make sure you are thoroughly clear as to what the insurance actually covers (e.g., insurance should cover more than damage to the vehicle; you'll want to make sure it covers your belongings, as well). Accidental damage and all-risk insurance will ensure YOU don't get stuck paying out of pocket if a removalist drops and breaks your expensive TV or family heirloom!

**BONUS TIP:** If you are not the sole decision-maker in your move – whether you have a spouse or roommate – make sure you are BOTH present when you interview a potential removalist, so you're both fully aware first-hand of all pertinent details related to and included in the quote (damage and insurance policies and considerations, any extra services, guarantees, price quoting, and so on). This will minimize the chance of any “misunderstandings” between all parties, and you have a “witness,” too!

At Complete Removals, we provide a copy of our Certificate of Currency to you, so you know exactly how you're protected, and to go one step further, we Guarantee our work, meaning if we mess up, your move is on us!

**Question #2: Do you perform background checks on your employees? How can I rest assured I will be dealing with professional removalists?**

When you first call a moving company to discuss your needs, you often speak with a sales person or manager. Be sure to inquire about the actual workers who will be in your home, handling your possessions. Unfortunately, some moving companies cannot support fulltime workers, so they hire temporary labourers who are not properly trained, and who may be unreliable and/or untrustworthy. In fact, the removalist industry is one of the worst when it comes to hiring transient workers – from the unskilled to the overall uninterested and uninvested – who may just be showing up for a day's pay.

Wouldn't you want to know if the removalist standing in your bedroom ready to transport your valuable possessions has been convicted of assault, theft or other crimes? Unknowingly hiring criminals may not be the intention of the moving company, but it isn't uncommon.

A professional removalist will go above and beyond the call of duty in all aspects to make sure you are comfortable and satisfied with the process, including having the willingness to provide you with all of the information you need, so don't be afraid to ask about the people who will be entrusted with your family's belongings.

**At Complete Removals, we ...**

**Question #3: How many theft claims have been filed against your company?**

Theft is another major issue with moving companies, because of the transient nature of many of the workers. It's your right to know if the people entrusted with your belongings have had theft claims filed against them, so don't be shy!

**BONUS TIP:** We recommend you also use the greatest free resource you have available to you to do a little background research on the company you're considering: the World Wide Web! Do a few quick searches online – customers who have had to file theft claims against companies will often post reviews online, and it won't take you long to find them, if they have.

At Complete Removals, we are proud to say we have never had a theft claim filed against our company.

**Question #4: How much experience does your company and team have?**

Moving companies may tell you they have decades of experience – meaning they've been in business a long time – but that doesn't necessarily tell you anything about how experienced the specific removalists assigned to your move are. Being a professional, expert removalist doesn't happen in a day – it takes experience, physical strength and stamina, reliability, and strong people skills, to name just a few important qualities. You want to avoid a dropped box of poorly packed glassware, or a table leg broken because it wasn't properly secured in the truck, right? So ask to be provided with the names of the individuals who will be present on your moving day, and find out how long they've been removalists. You should know who will be handling your valued possessions! And, if names can't be provided, beware – this is an indication that the moving company is too big or scattered to personalize their business or provide you with the care you deserve.

**Bottom line:** You can't expect your removalist to take special care of your items - to know HOW to transport them safely and carefully, if they don't have formal training and extensive experience.

**BONUS TIP:** Don't be fooled by professional-sounding accreditations. Some moving companies will boast being accredited by AFRA (the Australian Furniture Removalist Association). However, like some other industry-accrediting organizations, they can be manipulated and worked around. AFRA does not closely monitor their accredited companies, ensure any standards are being met, or enforce adherence to any set of rules or procedures – in fact, they don't do much other than collect annual member fees!

At Complete Removals, we are more than happy to provide you with the names and backgrounds of our professional removalists. We want you to feel safe and confident when you choose us for your moving needs.

**Question #5: What is your quoting process, and what specific additional costs can I anticipate?**

Nothing is more stressful on moving day than a last minute price change or “renegotiation”! Unfortunately, it's become an all too common practice for a moving company to underquote (aka purposely mislead) customers in an effort to win their business at any cost. Never trust a number that is only given verbally (see Question #5 for more on this topic)! If you do, you'll more than likely receive a costly surprise on moving day, when the removalists suddenly ups the price. And worse, this is also another opportunity for those less-than-reputable removalists to utilize those bully tactics again, demanding a new and higher payment. (There was once a case where a removalist refused to unload a large flat screen TV until the customer agreed to pay the increased fee.)

Purposeful underquoting also occurs when a removalist offers an hourly rate, and intentionally tells you the job will take less time than they know it will. Or, they may add on “extra” fees for fuel or stair-climbing, only sharing that information with you after they arrive and the move is underway! On average, a three-bedroom house will be purposely underquoted by up to \$500!

The companies that resort to undermining their customers this way do so because they don't have the skills or experience to back up the level of service they claim you will receive.

When you know purposeful underquoting exists, you can be armed with the knowledge you need to ensure you don't get taken advantage of when you least expect it.

**BONUS TIP:** Don't get a quote from an online company or website that offers instant quotes from multiple removalists – this is not to be trusted! Such websites operate by making their profit by selling your lead to whichever moving company “buys” your business from them, with no guarantee or indication of quality or assurance.

At Complete Removals, we pride ourselves on our customer service. We will never purposefully underquote, and you'll know well before moving day what your exact costs are going to be. No surprises here!

**Question #6: Can I get that in writing?**

First and foremost, once you've received all the information you've asked for from a removalist – including price quote, time estimate, date of move, insurance policies, and more – the company should provide you with written confirmation covering ALL these details. Unfortunately, there are moving companies out there that will cancel on clients the week or day of a move (perhaps offering a fibbed excuse) if they're able to schedule a

better-paying job. So, written confirmation of your booking will help ensure your appointment is met – and met to your satisfaction.

Then, upon your decision to hire, a written contract is absolutely necessary to protect you completely. Without a contract, technically no formal agreement exists – so all bets are off when the removalists are standing in your home and calling the shots (if they even show up!). You can't sue them or take legal action without one, because you only have your word against theirs, and the cost and hassle of filing a legal claim under such circumstances only adds additional stress and money loss.

It's worth repeating: Get EVERYTHING in writing! You need a clear, black-and-white contract that spells out every component of the moving process, including any potential "extra" fees or services. When you have every detail in writing, up-front, you will have fewer surprises on the big day itself.

At Complete Removals, we take the time to go over our contracts with our clients, making sure all details are accounted for and our clients have a clear and thorough understanding of our agreement.

#### **Question #7: What size trucks do you have in your fleet?**

Most moving companies don't have a large or varied fleet of trucks to offer an appropriately-sized vehicle for your move, and sending undersized trucks to your move is another very costly way for some companies to take advantage of you. In fact, such companies will tell you in your initial conversations that their truck can fit an "average size move," even though they know there is a strong possibility that one truck will not cover the job. On moving day, they suddenly require a second trip – which will no-doubt cost you an additional 25-50% over your preliminary quote. Ask upfront about the moving company's fleet, and how they've managed other moves of a similar size to yours – the more information they share, the better you can gauge how well-equipped they may or may not be to meet your particular needs.

**BONUS TIP:** If the moving company you're considering won't come out to your house to provide you an accurate estimate, you're almost guaranteed to run up against problems. (More in Question 12.)

At Complete Removals, our trucks ...

#### **Question #8: What kind of equipment do you use to transport my belongings?**

Dented refrigerators. Scratched furniture. Broken dishes. As if moving day wasn't stressful enough, right? You should not have to be worried about these added potential additional stresses, but unfortunately, many companies are ill-equipped to properly transport your possessions – resulting in all sorts of problems for you.

Protect your possessions by asking your prospective removalists exactly how they plan to safely transport your belongings, and with what equipment. Large corporate companies may send trucks with shipping containers – which cannot properly stabilize your belongings – and smaller companies may send trucks with little to no proper padding to protect your furniture and valuables. Specifically, find out how they will secure your items in the truck, if they use professional-grade tape, rope and ties for doing so, what they use for padding to prevent damage, and if their trolleys are sturdy enough to hold your heaviest items.

At Complete Removals, we ...

#### **Question #9: How can you offer such low rates?**

Chances are, a company offering steeply discounted rates compared to others really is too good to be true! Even if they seem to “talk the talk” on the phone, certain removalists who position themselves at a competitive price point do so only by cutting inappropriate corners in other important areas, such as by paying low wages to unskilled workers, buying insufficient moving equipment or trucks, and/or undertraining their staff (if they have any training, at all). These companies often don't implement processes to ensure a stress-free moving experience for their clients, either. They will avoid writing contracts and terms and conditions, refuse to provide written quotes, and sometimes require cash payments (so they cannot be traced back to the job should something go awry).

How do they get away with this? They take advantage of first-time movers . And in the end, the only person who suffers is the customer. Of course you'll want to price-shop, but your cost is only one part of the moving puzzle ... and in this case, cheaper does not mean better and may actually end up costing you more! The old bait and switch is something you must completely stay away from.

**At Complete Removal , we ...**

#### **Question #10: Packing and unpacking – what do I need to know?**

You may feel more comfortable handling and packing your personal items yourself. However, it's also important to consider (especially if you haven't undergone a substantial move before) that there really IS a “method to the madness,” and true professionals know exactly how to effectively and safely box your items so everything that is delivered to your new home arrives unscathed.

Simply wrapping something in paper and putting it in a box is not how you want to go about packing an entire house. Packing champagne glasses and plates and other breakables requires skill and finesse! You have to manage the weight of the box whilst managing the weight of items that neighbor other items within the box, and find the balance between over- and under-packing each box – not to mention the need for new, consistently-sized, sturdy boxes (which are very different than what you can pick up at a local supermarket!).

Our experience and research suggests proper moving boxes/containers can increase the efficiency of a move by up to 40%, saving considerable time whilst drastically increasing the protection of your goods. In fact – a properly and professionally packed box of breakable glassware can be dropped from overhead without a single item breaking! However, this is only possible when the packing is done with professional precision .

One more thing to think about here – on moving day, do you really want to be faced with the task of unpacking everything yourself once it's delivered to your new home? There is nothing more annoying, exhausting and inconvenient than having to unpack your boxes after a long day of moving, when the only thing you want to do is put your feet up, enjoy a meal and relax! Imagine waking up with your belongings carefully unpacked, everything in its place ... imagine all the hard-work you'll be saved !

Be sure to ask what packing and unpacking services are covered in your cost . The right removalists will take care of all of this for you!

At Complete Removals, we offer a complete packing and unpacking package , so you can sit back and relax while we do all the work !

#### **Question #11: Can you provide me any additional helpful resources, such as a moving checklist?**

A professional moving company will have standard processes and procedures in place to ensure a seamless moving experience for you, and this starts WAY before moving day. Ask if they have any resources for you, like a checklist outlining important moving considerations, such as :

- Items you should pack with specific materials, to ensure their safekeeping
- Items you should leave unpacked so you can access them on moving day
- How to mark your boxes so the transporting of your belongings goes as smoothly as possible
- Who should be notified of your move
- Etc.
- 

Such advice not only makes your packing and preparation easier, but streamlines the complete moving process in a way that allows your removalists to get their job done not just more efficiently, but more quickly.

Bonus TIP: No contracts, no confirmation, no systems, no processes, no checklists? If this is what you're discovering while interviewing a potential moving company, understand that you're dealing with a sketchy, unethical company.

At Complete Removals, we have a ... checklist, carefully designed to ...

#### **Question #12: Will you do a site-check at my home? Do you need a list of all items to be moved?**

The removalist should answer with a resounding “yes” – in fact, they should be the ones to offer this to you! Without a prospective removalist inspecting your home and its contents, they cannot provide you with an accurate quote – even if you share many details about your house via conversation. And without an accurately gauged quote, you're much more likely to be faced with a price increase on moving day due to increased labour and time. And more money equals more stress, which you certainly don't need.

The moving company should also provide you with a sample inventory list from which you can create your own to share with them – also helpful in securing as accurate a quote as possible.

BONUS TIP: Hold a garage sale before you move, not after. You could save yourself hundreds of dollars, if not more, in moving costs just by getting rid of things you aren't planning to hold onto after your move!

At Complete Removals, we come to your home for a complimentary estimate , so you know exactly how many trucks it's going to take to complete your move , and there are no surprises on moving day.

#### **Question #13: Do you work with any professional property stagers?**

If you own the home you currently living in and are looking to sell, this seemingly small step could pay you back tremendously – in time, money and sanity! Properly staging your home prior to putting it on the market can entice prospective buyers on a very personal level. There are different approaches to staging, from bringing in different furniture to better showcase the potential of your home, to setting up entertainment or playroom areas with decorative touches to help a potential buyer envision living in the home.

Not only can staging your home help sell it faster, it can even increase the likelihood of getting a better price.

You may want to choose a moving company that has aligned itself with a reputable property stager with cost-effective options. They can help you de-clutter and store items from your home to help it have a broader sales appeal, and this may be bundled into a single package deal with your relocation costs – which may work so well that your moving fee could be nearly FREE if executed properly, compared to if you had not worked with a professional property stager.

At Complete Removals, we ...

**Question #14: I'd like to speak with one of your recent clients – would that be possible?**

Never choose a moving company without investigating their recent client testimonials and background, which will help you gauge their legitimacy. The best way to get the real story is to ask to speak with a client of theirs (preferably from a job that occurred that same week), which a removalist should be able to arrange , to ask how they felt about the service they experienced. Testimonials on a company's website are not always to be trusted – the more firsthand the review, the better.

At Complete Removals, we have a long list of happy clients who are happy to share their great experience with our company with you !

\*\*\*

Going over all of these questions with a prospective removalist will allow you to make as informed a decision as possible when hiring a moving company, so you can rest assured that your needs (and your rights) will be met and protected.

Remember – moving does not need to be a stressful experience!

At Complete Removals, we treat you like family and guarantee a perfect stress-free move. You won't be left with damaged furniture, missing possessions, unexpected price increases or impersonal customer service. All you have to do is get yourself to your new home – and leave the rest to us!

*"This is an amazing program that helped me just surpass our best sales year ever in a business that has been around since 1976. John is a "master" at building businesses. This is a unique opportunity that I was so glad that I've been a part of. A real blessing. If you are committed to your business growth and success, this is a great way to go. Have a great 2014."*

*Reuben Salazar, Owner of a Welding Business*

### **Before working with John Assaraf:**

- Economic downturn nearly destroyed his business
- On the brink of bankruptcy
- Stress was pervasive among employees and family
- People did not like to be around him
- Felt like a failure and was making bad decisions
- Didn't trust his judgement and had lost self-confidence

### **Results After working with John Assaraf:**

- Family, friends and employees noticed a major difference in his attitude
- Business revenues increased over 100% from \$400,000 to over \$1,000,000 a year
- Today his business is generating over \$100,000 per month
- Vacationed in Hawaii, Caribbean and San Diego
- Purchased a new car
- His wife loves the positive changes and their marriage is stronger
- He has total freedom, fulfillment and control over his future!

From the Desk of John Assaraf:

Dear Potential "Cloning of Business Success" Business Owner,

**Have you ever** felt that running your business is getting in the way of building your business?

**Do you ever** feel like you're working SO hard, only to achieve average results? You feel like with the amount of energy, time and resources you're putting in (sweat equity), your business should be growing much faster than it is.

**But instead**, it flounders and grows slower than you'd like or even at a snails pace, leaving you frustrated, disappointed, and maybe even exhausted. Not to mention on the edge of burnout.

**Even worse**, you probably know someone who isn't as smart as you are, yet earns more money than you do in the same type of business...

**And if you** think about it, you probably know someone who IS smarter than you are yet earns less money in business than you do, right?

**So what lies** at the root of this problem? How can you – a smart, hard-working person – continue to achieve less than your potential despite all your best efforts, while others – less smart, less hard-working people – succeed?

**The answer to this mystery** is simple. Business success is never the birthright of intelligent people – it's reserved for those who go beyond theoretical knowledge to the application of practical and proven formulas just like playing a song on the piano or playing a sport that requires a step by step, systematic process. In addition, based on the latest neuroscience, everyone's internal business and financial success thermostats are set at different levels of success.

Here is the GREAT NEWS. You can CLONE BUSINESS SUCESS. And THAT, my friend, is the real secret to the business growth you're working so hard for.

# How Would You Like To Significantly Increase Your Revenues, Profits and Business Value in 2014?

The first key to hitting explosive growth is your mindset. It requires thinking about EXPONENTIALLY, rather than linearly.

## **Here Is What It Is Costing You To NOT Fix The Holes In Your Business:**

Arif Balagam owned 2 dental practices that were both doing less than \$50,000 per month in revenues. This caused him to consistently be frustrated knowing that there was more business he could be doing yet wasn't. No matter how hard he tried, he kept generating the same amount of revenues monthly with many peaks and valleys along the way.

The biggest "Aha's" he discovered once we started helping him was that he didn't have a consistent lead generation strategy or a proper sales process plan nor the proper sales training for his front desk staff who were handling all the incoming prospects who were calling in and asking money related questions.

After Arif started our program, his revenue more than doubled and the amount of new patients went through the roof. Here is what Arif has to say in his own words:

*Hi John,*

***What an amazing transformation my dental practice has seen! We will end up with \$110,000 in revenues for the month plus an additional \$130,000 in collections. A total of \$240,000! This is THE Best production month for the year and the best collections month ever for Lumina Dental Spa.***

*In addition, we already have \$84,000 in new revenue booked for Next Month... another record! We have 5 new patients scheduled tomorrow so we will end up with 45 new patients for the month. Before we started following your advice on growing my dental practice we were averaging just 24 new patients per month.*

*John you and your team have made such a huge difference in my business and obviously in my personal life, Thank you so much!*

*With love and respect*

*- Arif Balagam*

I receive letters and videos like this from successful business owners every time they install the systems, tools, strategies and tactics contained within The exclusive Cloning of Business Success training program.

Unfortunately, experience shows right now your business is virtually guaranteed to have serious holes in it. Holes, which are leaking money every month. Holes costing you the ability to retire early and retire rich and the ability to live your life on your own terms.

Without truly understanding all the ways to drive more prospects and revenue forward you lose time and money. The time to scale your business. The time you spend running your business when you could be having it run by systems and processes that in many cases can be automated.

Without seeing these holes in your business it also costs you the full potential of what your business could be. What if you made 2 little tweaks and had a 68% increase in your revenue, without taking any more of your time or costing you any additional money? What if you made 1 move and doubled the number of leads you received, literally overnight?

At Cloning of Business Success little adjustments like what I just mentioned have happened. The results you can achieve once you gain these multi-million dollar and even billion dollar business building secrets I've been privy to, will enable you to take your business to the highest levels of success.

Ultimately, this means living your life on your own terms. Being able to do what you want, when you want, with whom you want, without compromise and certainly without financial limitations. And when you do things the way I show you, you'll have such an abundance of time freedom, you will never be stuck chained to your business again.

So ask yourself...

## **How Much Would Your Business**

# **Grow if a Mega-Successful Serial Entrepreneur Were Guiding You?**

Through the school of hard knocks and the good fortune of having incredible mentors of my own, I discovered a revolutionary way to build 5 multi-million-dollar companies from scratch. Over the years, I've also worked with thousands of companies just like yours, fine-tuning sales and marketing campaigns to generate more leads, convert more prospects into buyers, and exponentially grow revenues. Each time I applied the process I consistently propelled these businesses to unimaginable heights of revenues, profits and value.

This experience has given me powerful insights and the unique ability to quickly access what is working in your business and what is not. Once we uncover the gaps, I show you proven systems to close the gaps and significantly increase your revenue.

My passion is business growth, I love helping business owners increase their revenues, profits and business value. It doesn't matter if your company is currently doing \$100,000, \$500,000, \$2 million, \$10 million or more in sales. I've been there, know what to do, and I can help you exponentially grow your business while living a balanced life.

Now on August 14th-16th 2014 I am personally going

to teach a maximum of 100 business owners how to exponentially growth their business revenues and profits in 2014 and beyond.

This is the starting point in developing your thinking, strategies, tactics and plan to explode your revenues and your profits.

## **How Will “The Cloning Business Success” Live Event Work For Your Business?**

The “Cloning” Process has 3 time tested proven steps to it. Steps that will show you the quickest changes you can make to experience the most powerful, and profitable, gains in your business.

You will be exposed to exact financial answers

**Solutions Which Produce HIGHER Revenues Inside Your Business.**

Our 3 step process to grows your business with:

**1. Strategic Planning** - From my experience, many business owners have never defined the difference between a tactic and a strategy, so let's be sure we're clear. A tactic is participating in a trade show and offering a 15% discount, using direct mail to generate leads or sales, a website on an in-person sales call, etc.

A strategy is the intelligent plan including a sales process through which your tactics are aligned and tweaked to work together, and optimized to maximize your efficiency and effectiveness.

# A well designed strategy is one of the few, remaining competitive advantages you have.

My estimation is that less than 1% of businesses in North America have an effective master strategy and plan.

[SHOW IMAGE OF ONE STRATEGIC MAP/PLAN]

Yet

- *It alone can catapult you to the top of your industry in less than 6-12 months.*
- *It alone can put more cash in your pocket in the next few months alone than you may have earned in the last few years combined.*
- *It alone will guarantee your company value is 5-10 times that of your competitors for when you do finally decide to sell.*
- *It alone is the difference between a \$1 million dollar buyout versus a \$10 million dollar buyout.*

Strategy alone is the one single area that I can guarantee your competitors have never even thought of in this light.

Why?

Because there are very few people in the world who understand strategy design and implementation. If you wanted to count the number of strategy training courses that have been held in the past decade – it is dismal to say the least.

So if you are looking for that edge that makes your company a leader

and makes you a lot more money, strategy is one of the most important things you will ever learn about.

At The Cloning of Business Success live event, I will show you exactly how to discover and implement effective market domination strategies specifically for your business.

**2. Implementation** - Speed of implementation is the fastest way to grow a company. It has been determined to be the single biggest indicator of rapid business growth or being stuck in the mud, unable to lift your revenue.

At Cloning of Business Success we show you how to increase your implementation rate so more gets done every day.

Much of this is done by finding quick windfall profits laying dormant in your business right now. When you have a quick windfall of cash, which you will uncover how to find at Cloning of Business Success, you can use this cash influx to have quality experts and hired help implement more for your business success.

Plus, you will uncover how to save vast quantities of your own personal time with

**3. Automation** - What that means is you fly or drive to San Diego and after you have our 3 days completed together, you have

Processes Producing Profit.

Systematic processes which become completely automated and crank out cash flow on a weekly basis. You will see what we do to create profit automation and how you can do the same with your business.

Having automated revenue generation ultimately lowers your stress levels because cash flows in, profits generate in greater amounts, and your life has more money with less of your daily stressful effort going into daily actions to make a buck.

With this in place you are often able to skip out on two hours of your current schedule of activities daily and regain your time for your lifestyle enjoyment or to put back into your business in higher revenue production.

Ultimately, at your higher levels of implementation, you have automated

processes of profit production. So when you look into your daily life and your weekly schedule, you have everyday and every week income production on autopilot.

## **Here Are Some Of The Results My Clients Have Achieved Following what I have Taught Them**

*I have already started making changes in my business with mind-boggling effects in just the first 2 weeks of implementation. I feel this is the Universe telling me to “trust” and to believe in “setting the intention” and to never again worrying about “the how” .I am so looking forward to working with you and I am totally committed to change, continuous growth. We have now had 3 record back to back months since we starting working with you.*

*As COO of a small medical device company, your process helped the company grow annual revenues from \$5M to \$17M in one year. The buyers decision making process and sales process you taught me proved to be instrumental!*

*- Guy Sohie*

*Dear John*

*My partner and I started Paris Bakery, a French Bakery and Patisserie in Dublin Ireland from scratch with virtually no financing. We started with the two of us and four employees and existed hand-to-mouth. We had no credit and no loans, just enthusiasm and a deep self-belief. Every penny I inherited from my mother went into the business. Almost three years later, we've expanded the business to incorporate a restaurant, wine bar, delicatessen and wholesale deliveries and employ 70 employees, have a yearly revenue approaching 3 million euros ( \$4 million US ) and have been voted one of the best 100 restaurants in Ireland. Thanks to John's Consulting, I also won Network Dublin's Businesswoman of the Year 2013 Award in June!*

*Whatever that magic ingredient is that special people have, John has it in bucket-loads. Sell your car, mortgage your house and take that leap of faith in John Assaraf. You will not be disappointed.*

*- Ruth Savill, Founder, Paris Bakery, Dublin, Ireland*

*As one of the highest paid celebrity voice coaches in the world I was hesitant to hire you at what I thought were crazy fees. After just two hours with you I now feel that you're actually under-priced! In just minutes you had an intuitive and very accurate feel for my industry, my competitors and the feelings of my ideal clients. I was in awe of the way you got into the minds of my clients with*

*a crystal clear articulation of their fears, desires and needs. Your focus, passion and enthusiasm was inspiring and I truly feel like a better vocal coach as a result of seeing myself through your eyes.*

*That alone was worth the money. The bonus is the fact that you nailed an elevator pitch, took apart and restructured the home page of my website including the header, copy, opt-in and color scheme. Thought of a new name for my methodology, the name of a free report to give away to my opt-ins a marketing plan and drip campaign, key visualizations and a clear vision for my business.*

*Now I have clarity, a plan of action, a strong vision and tools to get me where I want to go. I now have certainty. What a privilege to work with you. This is the best money I've EVER spent on my business and my self. You totally over-delivered. It may look like a big investment at first, however, the truth is; If you really want to spend a lot of money, hire somebody who doesn't know what they're doing! Thank you John for your sincere passion, generosity and expertise.*

*- Michael Goodridge, Founder, Activation Voice Control*

*My business growth process starts by re-conditioning the way you think and then getting you to focus on and understand the areas of growth that are common to all businesses; Marketing, Finance, Sales and Understanding their Key success metrics. I've proven over and over again, in many different industries, that the "Cloning of Business*

*Success” process works.*

## **How IS The Cloning of Business Success Program Different From ANYTHING Else Out There?**

### **We Focus On Using The Latest Advanced Brain Research In Neuro-Marketing and Neuro-Sales To Help You Skyrocket Your Sales And Revenues**

Using the latest in scientific brain technology, called Neuro-Marketing and Neuro-Sales, The Cloning of Business Success event teaches you how the human brain is wired to buy and how you can use this knowledge in your marketing and sales to inspire more prospects to engage with your marketing message and into a predetermined sales process that will significantly increase your chances that they will buy from you.

It's a truly unfair advantage. Once you understand how, specifically, you can tap into the wiring of people's brains, you can gear your communications toward what gets results easier and faster. What that means is higher sales revenue in your company, and what that ultimately means to you is greater peace of mind knowing your sales are growing and confidence your business will continue to flourish over the long haul.

Additionally, when you apply Neuro-Marketing to your marketing efforts you will find leads skyrocketing. Plus, they are warmer and hotter leads because you are speaking to the part of their brain that wants to buy, which creates something called Neural Resonance, which you will learn how to create in yourself and prospects at The Cloning of Business Success Training Program.

## **How You Will Stand Out From Your Competition With What You Gain From Cloning Of Business Success**

First of all, please remember this process has produced 5 multi-million dollar businesses for me. One of those businesses actually became a multi-BILLION dollar company. So what you learn in Cloning of Business Success is truly proven and has generated success for me as well as all the business owners who have applied the process to business.

It has worked for businesses in all walks of life.

When you experience the systems, tools, strategies, tactics and mindsets of a Cloned Business, you will find segments of your marketplace your competitors never even thought about filling.

You will connect with prospects and turn them into clients like never before and leave your competition wondering "what happened?" as you take more and more of the market share.

This is done by applying some of the most successful technologies and proven processes to connect with your ideal clients, nurture them, create sales with them, and get them to buy over and over again.

Ultimately, this means your competitors don't have a chance to compete with you when they go up against the proven processes and brain technology you gain inside of The Cloning of Business Success program.

### **The Difference Between Interruption Based Marketing and Search Marketing - Plus, How This Increases Your Sales**

Interruption marketing is when you are putting an Ad on somebody's newsfeed, for example, on Facebook. Here they are being interrupted and asked to focus their attention on you.

Search Marketing is when someone is already searching on Google. They already have an interest and are looking for you.

You market to these two groups of people very differently.

You have to understand there is a different psychology when you are interrupting them vs. their search for you.

In every sales process, you must learn how to quickly identify exactly what the prospect wants or needs, and deliver it to a part of the unconscious brain that is filtering all incoming information to get attention, engagement and the desired

actions you want the prospect to take.

Not understanding how to do this costs business owners MILLIONS of dollars and thousands of lost opportunities every single month.

At Cloning of Business Success, you will uncover how to use both Interruption & Search marketing to grow your leads and sales significantly. We will give you a look into our own campaigns producing profit, how to lower your cost per lead, plus how to increase your revenue per lead.

Once you have these insider secrets you will see how much faster and easier you really can double or triple your revenue. And you will always be able to grow business revenues to a much higher level with this exclusive information.

### **The 4 Things Every Business Needs to Have:**

There are 4 processes every business must have if you want it to grow significantly. They are:

**1. A lead generation system** - This is a formula that generates leads day in, day out. A system which works tirelessly to bring your new prospects interested in buying from your company.

**2. A way to quickly qualify those leads** - Without effectively qualifying your leads and prospects, you will waste tremendous amounts of time with non-qualified prospects who are just kicking the tires and never going to buy from you.

By installing a formal process you will notice greater efficiency and also a higher closing percentage with the better prospects because you're formalizing the way they are communicated with. By formalizing your qualification process people consciously and unconsciously know you have a way to solve their problems and ultimately get them what they want.

**3. A process to convert those leads** - What is your current process to convert leads into sales? Do you have it documented? Is it easy for someone to look at your process and see exactly how your prospects will be talked with in communications to buy from your company?

Without one of these you aren't able to see true scalable growth. And even if you do have one currently, chances are extremely high that you're leaving pieces out of your conversion process which will dramatically increase your conversion rate.

When you add in tweaks you learn about at The Cloning of Business Success program, you're virtually guaranteed an increase in your conversions because if you're not using the latest in Brain Technology and Neural Resonance then you aren't getting the highest number of people to buy from you that you can.

**4. A nurturing system to keep the leads that don't buy right away in a process to buy at a later date** - How do you nurture your prospects over time right now? Do you have systems in place so they will be automatically interacted with every week, every month and even two years from now?

If not, you're leaving money on the table. In a database study, it was found over 20% of people buy after having had communications from the company for over 12 months. And over 20% more buy after 6+ months of communications. That means, if you're not consistently reaching out to your prospects and following up in an automated way, then you're losing money and that can be up to 40% or more of the business you would have otherwise.

At The Cloning of Business Success you will see effective follow up systems and learn how to adopt the best of the best to your business and profit from it immediately and long term.

Now you can start to see why this is an extremely effective process for growing your business. Yet there is more. Here is...

### **Even More Inside The Cloning of Business Success Training**

Here is even more you're going to learn about at The Cloning of Business Success event:

- How to build trust and rapport quickly with your ideal clientele
- **Secrets to speak to your prospects biggest pains, fears or frustrations immediately**
- How to offer your prospects a solution that is viable and affordable for them
- **Why you must give your prospects social proof that your product or service is the right choice for them**
- Steps to giving your prospects a guarantee and a risk reversal that inspires FAR more sales and how you must deliver upon your promise to generate repeated upsells and cross sales which make every customer significantly more valuable to you.
- **Changes in google, social media, and other online platforms - how to use the latest technologies to leverage your brand, your products, and your services.**
- How do you differentiate yourself from the competition? (and sell WAY MORE than you ever imagined)
- **How do you become the go to expert for your type of product or service? (Nail this and you're destined to have more business than you can handle)**

- How to develop the Key Performance Indicators (KPI's) that drive every business so you can be more of the Captain of the ship looking at the view ahead, instead of the engineer of the ship fixing what is wrong.

- **And much more!**
