Change Your Password

To ensure your access to the AOD Portal remains safe and secure we recommend you change your password upon first login (and subsequently on a regular basis).

To change your password:

1. Click on the profile icon located at the top right-hand corner (next to your name) and select *Profile*.

2. Scroll down to the *Change Password* form at the bottom and complete the required fields.

For increased security the AOD Portal requires a complex password of a minimum of 8 characters and must include at least 1 lowercase letter, 1 uppercase letter, 1 number, and 1 special character (eg t@K\$%^&4).
