Please note

During the compilation of this technical documentation, great care has been taken to ensure the accuracy of the information contained in it. However, despite our constant effort to ensure the highest degree of accuracy and comprehensiveness possible, the information provided cannot be guaranteed to be absolutely error-free.

Trademarks

This documentation may contain representations of registered product or service trademarks owned by Kaba GmbH or third parties, as well as references to proprietary know-how protected by copyright laws or other legal provisions. In any case the intellectual property rights remain exclusively with their respective owners.

FCC 15.21:

IMPORTANT:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The final product should contain labelling according to FCC requirements.

For example:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device contains FCC ID NVI-WRU05.

This label will be placed on the final product, clearly visible to all persons exposed to the transmitter.

General

WRU 05 is a RFID Reader Module which is designed for installation in equipment by Kaba GmbH only.
The module is not to be sold as an individual product.
