Charging Your Headset

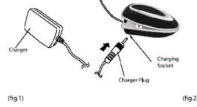

Fig.1) Fig.2)

The headset comes with a built-in rechargeable battery. Prior to using the headset, it is recommended to charge the battery fully for the first time.

Page 4

ENGLISH

Connect the charger to an AC wall outlet and the charger plug to the headset's charging socket (Fig.1). The LED will be red while charging.

IMPORTANT Charging indication will be delayed for a few seconds if the headset has not been used for a long time or the battery is drained.

Nominal Charging Time:
Charging the battery fully is normally within 1 hour. When the battery is fully charged, the LED will turn blue and remain on for 30 minutes. Disconnect the charger from AC wall outlet and the headset. Press and hold the MFB for 2 seconds to turn the headset on. Please refer to "Turning Your Headset On and Off" on the next page.

Talk & Standby Time
The fully charged battery offers up to 200 hours talk time and up to 1000 hours standby time. When no call is in progress, the headset remains turned on in standby mode.

Low Battery
When the headset is on and the battery becomes low, the LED flashes red and the headset emits a beep every 1 minute. Please recharge the battery as described above.

ENGLISH

Turning Your Headset On and Off

Turning On the Headset
Press and hold the MFB for 2 seconds until you hear a short beep. The LED will flash blue.

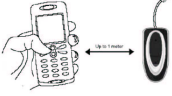

IMPORTANT Press the MFB again each time you turn on the headset to establish pairing or to fix the connection between the headset and the mobile handset is required. For pairing, please refer to "Pairing Your Headset" on page 7.

Turning Off the Headset
Press and hold the MFB for 3 seconds until you hear a long beep. The LED will stop.

ENGLISH

Pairing Your Headset

Prior to using the Headset for the first time, you must pair it with a Bluetooth-enabled mobile handset.

The information on the next page describes pairing instructions for a typical Bluetooth-enabled mobile handset. Headset pairing procedures are subject to different models of mobile handsets.

Page 7

Pairing Your Headset

1. Place the headset and the mobile handset where they are easily viewable by no more than 1 meter apart.
2. Ensure the headset is OFF.
3. Press and hold the MFB until the headset LED alternately flashes blue and red.
4. Activate your mobile handset's Bluetooth function by referring to your mobile handset user guide for details.
5. Set the mobile handset to search for Bluetooth devices within about 1 meter as instructed in the mobile handset user guide and select "Tech Clip" from the list.
6. Enter the personal identification number (PIN) and press "OK" to pair your headset and mobile handset. When the pairing is complete, the headset LED will flash blue rapidly for 3 times followed by a long beep.
7. Go back to your mobile handset's main menu. For certain mobile handset models, a headset icon will be shown on the screen. You should now be able to make and receive calls using your headset.

IMPORTANT If the pairing cannot be completed within 2 minutes while the pairing mode is activated, the headset LED flashes purple red with 3 beeps and the headset is turned off. Please repeat steps 2 to 7 to pair the headset and the mobile handset again.

Using Your Headset

Answering a Call
To answer a call sent for the headset and the buzzer to ring, then press the MFB to accept the call or answer the call via your mobile handset in the normal way.
If you want to stop the buzzer from ringing, press the Volume Key once. The headset continues to ring.

Ending a Call
Press the MFB to end your call or end the call via your mobile handset in the normal way.

dialling from Your Mobile Handset
Simply make calls on your mobile handset in the normal way.

Using Your Headset

Voice Dialling from Your Headset
If your mobile handset is equipped with a voice dialling function, simply press the MFB on your headset and when you hear a beep, say the voice tag.

IMPORTANT Please make sure to record voice tags into the mobile handset first before using voice dialling function.

Last Number Redialling from Your Headset
Press the MFB on your headset twice.

IMPORTANT The above functions are only available to mobile handsets with Bluetooth Handsfree Profile. Functionality varies depending on the mobile handset model you have. Please refer to your mobile handset user guide for additional information.

ENGLISH

Page 10

Adjusting the Volume
Press the Volume Key repeatedly until you reach the desired volume level.

Resetting the Headset
You may want to reset the headset to its original settings. This also clears all current pairings.

1. Ensure the headset is OFF.
2. Press and hold the Volume Key until the LED alternately flashes blue and red rapidly.
3. Release the Volume Key.
4. Press and hold the Volume Key again until you hear 2 beeps.
5. Release the headset for a few seconds.

The headset is turned off and returns to the original settings. All current pairings are cleared.
