**Basic Features of i.Tech Clip Ile Headset**

Figure 1

- 1 Built-in Microphone
- 2 Volume Button
- 3 LED Indicator
- 4 Built-in Buzzer
- 5 Built-in Rechargeable Battery
- 6 Charging Socket
- 7 Multi-function Button (MFB)
- 8 Earpiece

**Getting Started (Page 2)**

To use your i.Tech Clip IIe Headset (“the headset”), please start with the following steps below:

1. Charge your headset, and
2. Pair your headset with a Bluetooth-enabled mobile phone.

Figure 2

(Page 3)  
**Charging Your Headset**

Figure 3

The headset comes with a built-in rechargeable battery. Prior to using the headset for the first time, it is recommended to fully charge the battery first.

(Page 4)

Insert the charger plug into the headset's charging socket (refer to Figure 3) and plug the charger to an AC wall outlet. The LED indicator will stay red during charging.

**IMPORTANT: Charging indication will be delayed for a few seconds if the headset has not been used for a long time or the battery is drained.**

#### **Normal Charging Time**

It takes about three hours to fully charge the battery. When the battery is fully charged, the LED indicator will turn blue and remain on. Unplug the charger from the AC wall outlet and the charger plug from the headset. Press and hold the MFB (refer to Figure 1) for two seconds to turn on the headset. Please refer to "Turning Your Headset On and Off" on the next page for details.

#### **Talk and Standby Time**

The fully charged battery can offer up to 10 hours of talk time and up to 200 hours of standby time. When there are no calls the headset should remain turned on in standby mode.

#### **Battery Low Indication**

When the battery has become low when the headset is on, the **LED** indicator will flash red and the headset will emit a beep\* every minute. Please follow the instructions describe above to recharge the battery.

*\*If you are setting up the headset and your mobile phone in a noisy environment, we advise you to put on the earphone first so that the beep will be more audible.*

(Page 5)

### Turning Your Headset On and Off

#### Turning On the Headset

Press and hold the **MFB** for two seconds until you hear a short beep. The LED indicator will then flash blue.

**IMPORTANT:** Press the **MFB** again each time when you want to turn on the headset to re-activate pairing so as to resume the connection between the headset and the mobile phone. For pairing, please refer to “Pairing Your Headset” on page 6-7.

#### Turning Off the Headset

Press and hold the **MFB** for three seconds until you hear a long beep. The **LED** indicator will stop flashing.

**IMPORTANT:** To disconnect the Bluetooth connection, press the **MFB** firmly to turn off your headset. If you will not be using the headset for a while, you should consider turning off the Bluetooth function on your mobile phone as well.

(Page 6)  
**Pairing Your Headset**

Figure 3

The headset works with Bluetooth-enabled mobile phones only. Prior to using and pairing your headset for the first time, please check if your mobile phone is Bluetooth-enabled.

The pairing instructions for a typical Bluetooth-enabled mobile phone is explained on the next page. The headset pairing procedure may vary depending on the model of your mobile phone. Please contact the manufacturer of your mobile phone or its agent for further information.

(Page 7)

### Pairing Your Headset

1. Place the headset and the mobile phone where they are no more than one metre apart.
2. Ensure the headset is off. (The LED indicator does not flash.)
3. Press and hold the MFB until the headset's LED indicator flashes blue and red alternately.
4. Activate your mobile phone's Bluetooth function. Please refer to your mobile phone user guide for details.
5. Set the mobile phone to search for Bluetooth devices within the one metre range, as instructed in the mobile phone user guide, and select "i.Tech Clip IIe" from the list.
6. Enter the pre-programmed passkey "0000" and press "OK" to pair your headset and mobile phone. When the pairing is completed, the headset's LED indicator will flash blue rapidly for five times followed by a long beep.
7. Go back to your mobile phone's main menu. For certain mobile phone models, once the headset is activated, a headset icon will be shown on the screen. You should now be able to make and receive calls using your headset.

**IMPORTANT:** If the pairing cannot be completed within two minutes after the pairing mode has been activated, the headset's LED indicator will flash purple-red with three beeps, the headset will then turn off automatically. Please repeat step 2 to 7 above to pair the headset and the mobile phone again.

(Page 8)

## Using Your Headset

### Answering a Call

When there is an incoming call, you will hear the buzzer ring through the earphone. Press the **MFB** once to accept the call or answer the call via your mobile phone in the normal way.

### Rejecting a Call

If you do not wish to answer an incoming call, you can stop the buzzer ringing by pressing the volume key once. The buzzer will ring again when there is another incoming call.

If you do not wish to be disturbed at all, you may consider resetting the mobile phone setting to restrict incoming calls. Please refer to your mobile phone user guide for set up details.

### Ending a Call

Press the **MFB** once to end your call, or end the call via your mobile phone in the normal way.

### Dialling from Your Mobile Phone

Simply make calls on your mobile phone in the normal way.

(Page 9)

### **Using Your Headset**

#### **Voice Dialling from Your Headset**

If your mobile phone is equipped with the voice dialling function, simply press the **MFB** on your headset, and when you hear a beep say the voice tag.

**IMPORTANT: For voice dialling, you must record the voice tag (the person's name) into your mobile phone first before using the voice dialling function. Please refer to your mobile phone's user guide on how to record the voice tag.**

#### **Last Number Redialling from Your Headset**

Press the **MFB** on your headset twice.

**IMPORTANT: The above functions are only applicable to mobile phones with Bluetooth Handsfree Profile. Functionality varies depending on the mobile phone model you have. Please refer to your mobile phone user guide for additional information.**

(Page 10)

### **Adjusting the Volume**

Press the volume key repeatedly until you reach the desired volume level. The listening volume may be affected by the volume setting of the caller's phone as well. Re-adjust the listening volume again when necessary.

### **Resetting or Removing Pairing**

You may reset the headset to its original settings anytime. To do this you also clear all current pairing settings.

1. Ensure the headset is off.
2. Press and hold the volume key until the LED indicator flashes blue and red alternately and rapidly.
3. Release the volume key.
4. Press and hold the volume key again until you hear two beeps.
5. Recharge the headset for a few seconds.

The headset is then turned off and returned to its original settings. All previous pairing settings are cleared.

(Page 11)

## Care and Maintenance

### Headset

- ✧ Turn off your headset before placing it in your pocket or bag. If the MFB is accidentally depressed, your mobile phone may place an unintended call.
- ✧ Do not expose the headset to liquid, moisture or humidity as it is not waterproof.
- ✧ Do not use abrasive cleaners to clean the headset.
- ✧ Do not expose the headset to extremely high or low temperatures.
- ✧ Do not leave your headset under the hot sun for a long time.
- ✧ Do not leave your headset near open flames such as cooking burners.
- ✧ Do not dispose of the headset in a fire as it will result in explosion.
- ✧ Do not bring your headset into contact with any sharp objects as this will cause scratches and damage.
- ✧ Do not stick anything inside the headset as this may damage internal components.
- ✧ Do not attempt to disassemble the headset as it does not contain serviceable components.
- ✧ Do not pull or drag the earphone-wire with force.
- ✧ If you will not use the headset for a long period, please store it in a dry place that is free from extreme temperatures and dust.

(Page 12)

**Built-in Battery**

- ✧ Do not attempt to replace the headset's battery as it is in-built and is not changeable.
- ✧ Charge the battery in accordance with the instructions supplied with this user guide.
- ✧ Use only the charger supplied by the headset's original manufacturer to charge the battery..

**Charger**

- ✧ Use only the charger supplied by the headset's original manufacturer to charge the headset. Other chargers may look the same, but they could be dangerous.
- ✧ Do not attempt to disassemble the charger as it may expose you to dangerous voltages or other risks. Incorrect reassembly can cause electric shock when the headset is subsequently used.
- ✧ Do not use the charger outdoors or in damp areas.
- ✧ Only charge the headset's built-in battery in accordance with the instructions described in this user guide.
- ✧ Avoid charging the headset in extremely high or low temperatures.

(Page 13)

### Safety Information

- ✧ Check and observe local laws regarding the use of a mobile phone and headset while driving. If you use the headset while driving, ensure your full attention and focus. It is your responsibility to drive safely. Consider to pull off the road before making or answering a call.
- ✧ Never leave your headset above any air bag deployment area inside your car as serious injury may result when an air bag deploys.
- ✧ Never allow children to play with the headset – small parts may be of choking hazard.
- ✧ Observe all signs and displays that require an electrical device or RF radio product to be switched off in designated areas. These could include hospitals, blasting areas, and potentially explosive atmospheres.
- ✧ Turn off your headset prior to boarding an aircraft. Do not use your headset inside an aircraft.
- ✧ To prevent damage to your hearing, please do not set the listening volume too high.
- ✧ Never use the headset while taking a bath.
- ✧ Do not use the headset in a sauna or steam room.
- ✧ Do not keep your headset near a wash basin or other wet places.
- ✧ Do not use the headset outdoors in the rain.
- ✧ Do not clean the headset while it is being charged. Always unplug the charger first before cleaning the headset.
- ✧ Do not attempt to modify the headset for other purpose.
- ✧ Do not attempt to force open or mutilate the built-in battery.
- ✧ Replace the earphone when it shows signs of breaking from the wire.
- ✧ Dispose of the battery according to local regulations. Do not dispose of the battery with household waste.
- ✧ Disposal of the packaging and the headset should be done in accordance with the local regulations.

(Page 14)

### **Troubleshooting**

If you are unable to connect your headset and mobile phone, please try the following:

- ✧ Ensure your the battery is fully charged. Turn off your headset, and then turn it on again.
- ✧ Ensure the headset is paired with your mobile phone.
- ✧ Ensure your mobile phone's Bluetooth function is activated. (For some phone models, a headset icon will appear on the phone's screen.) Please refer to your mobile phone user guide for specific instructions.
- ✧ Ensure the headset is within 10 metres of your mobile phone and there are no obstructions, such as walls or other electronic devices, in between.

If the above suggestions do not solve your problem, please recharge the headset and remove your mobile phone battery for a while. Then start pairing again.

The i.Tech Clip IIe Headset is compliant with and adopts the Bluetooth Specification Version 1.2 Class 2. However, interoperability between the headset and other Bluetooth-enabled products is not guaranteed because it depends on compatibility. For more information on the compatibility between the headset with other Bluetooth-enabled products, please check with the respective manufacturer or visit <http://www.itechdynamic.com>

(page 15)

## Declaration of Conformity (DOC)

We, i.Tech Dynamic Ltd., declare that the following product:

Product Name: i.Tech Clip IIe

Model No.: C51-A05070-XX

Is in conformity with the following essential requirements of Council Directive 1999/5/EC (referred to as R&TTE Directive): Article 3.1a, 3.1.b and 3.2. and the product is manufactured in accordance with Annex II of the above directive.

A copy of the Declaration of Conformity can be found at:

<http://www.itechdynamic.com>

i.Tech declares under our sole responsibility that the headset is in conformity with the provisions of the following Council Directives: 1999/5/EC.

Dispose of the packaging and this product in accordance with the latest provisions.

### Notes on Environmental Protection

After the implementation of the European Directive 2002/96/EU in the national legal system, the following applies: Electrical and electronic devices **must not** be disposed of with domestic waste. Consumers are obliged by law to return electrical and electronic devices at the end of their service lives to the public collection points that are set up for this purpose or designated points of sale. However, such details are defined by the national law of the respective country. This symbol on the product, the instruction manual or the **packaging** indicates that the product is subject to these regulations. By recycling, reusing the materials, or other forms of utilizing old devices, you are making an important contribution in protecting our environment.
