iShower²

User Manual
V1- 8/29/14

Table of Contents

1. In the Box

- 1 iShower^2
- 1 Mount and Adhesive
- 3 AA Batteries

2. Getting Started

2.1 Battery Replacement

To replace your iShower^2 batteries, follow these steps:

- Lift the iShower^2 Standing Mount
- Rotate the iShower^2 door lock from the lock to the unlock position
- Remove the battery door panel from the left side
- Replace with 3 AA batteries
- Ensure the batteries are in place and replace the battery door and move the iShower^2

2.2 Power On & Off

To power on the iShower^2:

- Press and hold the power button for 2 seconds until the display reads "HI". You will see the iShower^2 logo blinking.

To power off the iShower^2:

- Press and hold the power button until the display reads "BYE".

2.3 Pairing

To Pair your iShower^2 to your iPhone, iPad, iPod touch or Android device for the first time follow these steps:

- Go to your device settings and turn Bluetooth on. For specific questions on how to pair with your device, please refer to the manual that comes with your device.
- Power On the iShower^2
- Hold the Bluetooth/Pair button for 5 seconds on the iShower^2 to enter Setup Mode. In Set up Mode, the screen will display USE1 Open.
- Press the Play/Pause button to select USE1. The iShower^2 will try to pair for 30seconds. You are now ready to pair with your device.
- Select iShower^2 in your Bluetooth settings. Your device will now complete the pair with the iShower^2.
- Once connection is has been made, the iShower^2 logo will stop blinking and turn solid.

Note: On iPhone, iPad and iPod touch devices the iShower2 will send a pairing request that must be accepted by the user. On most Android devices the iShower^2 will pair once it is tapped on in your Bluetooth settings.

To connect additional iShower^2 users (up to 5) follow these steps:

- Go to your device settings and turn Bluetooth on. For specific questions on how to pair with your device, please refer to the manual that comes with your device.
- Power On the iShower^2

- Hold the Bluetooth/Pair button for 5 seconds on the iShower^2 to enter Setup Mode.
- Use the forward and back buttons to select the proper USE#.
- Press the Play/Pause button to select the displayed user for setup. The iShower^2 will try to pair for 30 seconds.
- Select iShower^2 in your Bluetooth settings. Your device will now complete the pair with the iShower^2.
- Once the connection has been made, the iShower^2 logo will stop blinking and turn solid blue.

2.4 Mount Installation

- Peel off protective cover on back of the mount.
- Clean and dry the surface you are attaching the mount to.
- Place mount at desired location and press firmly.

2.5 Mount Removal

Wear safety glasses while removing the mount

- Insert a putty knife blade (or similar tool) between the mount and the wall. While gently pulling, use the blade to break the bond between the wall and the mount. The adhesive is not reusable.

Note: Be sure the tool you use will not damage the wall.

3. Using the iShower^2

3.1 Navigating between users

To navigate between different users on your iShower^2 follow these steps:

- Press Bluetooth/Pair button, this will enter User Select Mode. The iShower^2 will display the last user connected.
- Use forward and back buttons to select USE#. The iShower^2 will only display users that are paired.
- Press Play/Pause to select user. If a user is in range and Bluetooth is on, the iShower^2 will connect and begin playing audio. If the iShower^2 does not connect, it will display USE# Fail. Make sure your device is within range, on and ready for Bluetooth. Repeat steps to attempt connection.

3.2 Overriding Users

To override users on the iShower^2 follow these steps:

- Choose Selected Use# which you wish to override.
- Hold the Bluetooth/Pair button for 5 seconds.
- Press the Play/Pause button. The iShower^2 will try to pair for 30 seconds.
- Tap on the iShower^2 in your Bluetooth pairing list to pair the new user.

3.3 Play/Pause/Forward/Back

- To play tracks from your iShower^2 press the play button.
- To pause a track from your iShower^2 press the pause button.
- To skip to the next track on your iShower^2 press the forward button.
- To listen to a previous track press the back button.

3.4 Clock

The clock function allows you to get a quick glimpse of the current time on your iShower^2.

To set the clock on your iShower^2:

- Hold the clock button until the display starts blinking the current set time.
- Use the Forward and Back buttons to adjust the desired time.

- Press the clock button to set time.

To Display Clock time:

- Press the clock button to display the time. The time will display for 5 seconds.

- To receive calls from your iShower^2 press the Backwards button.
- To ignore/end a call on your iShower^2 press the Forward button.

Note: You can only receive calls from the iShower^2.

3.6 Reset

- Hold the Play/Pause button and Bluetooth/Pair button at the same time for 10 seconds with the iShower^2 powered on.
- The iShower^2 will display "CLR Pair" 5 times, then power off.
- This will reset the iShower^2 to factory settings. All of your users saved will be erased.

Note: When trying to set up a previously paired Device with the iShower^2, you will need to select "forget this device" from your Bluetooth settings options in order to create a new, clean connection.

4. Problem Solving

The following information covers some of the most common questions with the iShower^2. If you need further assistance please review the iShower^2 FAQ page at http://idevicesinc.com/support or contact a member of our Customer Experience Team at support@idevicesinc.com

Q. Can the iShower^2 be submerged in water?
A. No. The iShower^2 is water resistant, not water proof

Q. Can I stream to multiple iShower^2's at once?
A. No, due to limitations with Bluetooth you are only able to stream to one iShower^2 at a time.

Q. How many users can pair with the iShower^2?
A. You can pair up to 5 users per device

Q. What is the battery life?
A. The battery life is up to 15 hours.

Q. What is the Bluetooth range?
A. The Bluetooth range is up to 200ft.

Q. What happens if I walk out of range and lose my connection?
A. If you walk out of range and your connection is lost you must press the Bluetooth pairing button on the iShower^2 for 5 seconds to re-establish your connection when back in range. Once connected, press play to resume listening.

5. Disclaimer

The iShower^2 is not to be used by children or persons with reduced physical, sensory, mental capabilities or lack of experience and knowledge, unless they have been given instruction or supervision. Do not submerge the iShower^2 as it was built to be water-resistant, not waterproof. The iShower^2 requires 3 x AA batteries. Batteries included.

6. Regulations

FCC COMPLIANCE STATEMENT:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

INFORMATION TO USER:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the distance between the equipment and the receiver
- Connect the equipment to outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/Tv technician for the help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Canada – Industry Canada (IC)

This device complies with Industry Canada license-exempt RSS Standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
