Temps de charge: 1.5 heures / Tiempo de carga: 1.5 hora / 充电时间: 1.5小时

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

TROUBLE SHOOTING: When the battery is completely drained while not in use for a long period of time, try charging it a few times as it will resume its normal charging process. Restart the charging process if the charging indicator does not respond or is turned off after a few minutes.

Dépannage: Lorsque la batterie est complètement déchargée après une période prolongée sans utilisation, essayez de la recharger plusieurs fois car elle reprendra son processus de charge normal. Redémarrez le processus si l'indicateur de charge ne répond pas ou s'éteint après quelques minutes.

Solución de problemas: Cuando se agote la batería luego de haberse usado durante mucho tiempo, intente cargarla varias veces, ya que reanudará su proceso de carga normal. Reinicie el proceso de carga si el indicador de carga no responde o se desconecta tras algunos minutos.

故障排除: 电池长时间不用导致电量完全耗尽时, 尝试充电数次, 因其需要恢复正常的充电过程。如果充电指示灯没有响应或几分钟后熄灭, 重启充电过程。
