WHAT'S INCLUDED

1 SyrenPro Main Unit

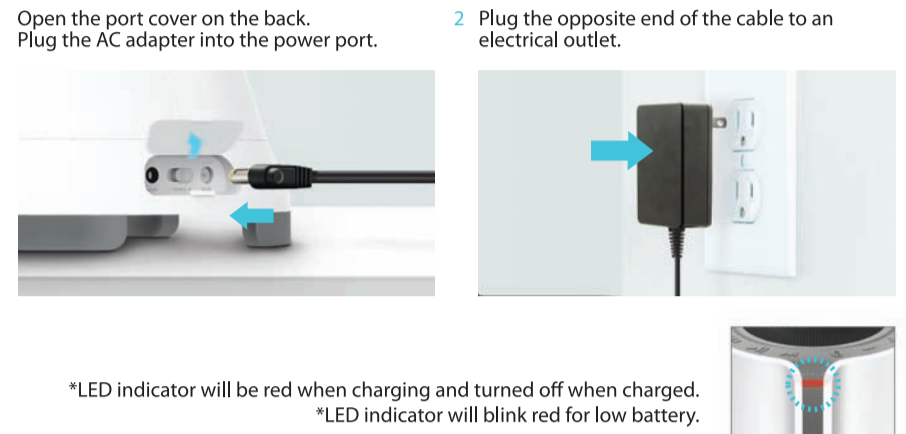

2 AC Adapter

POWERING UP

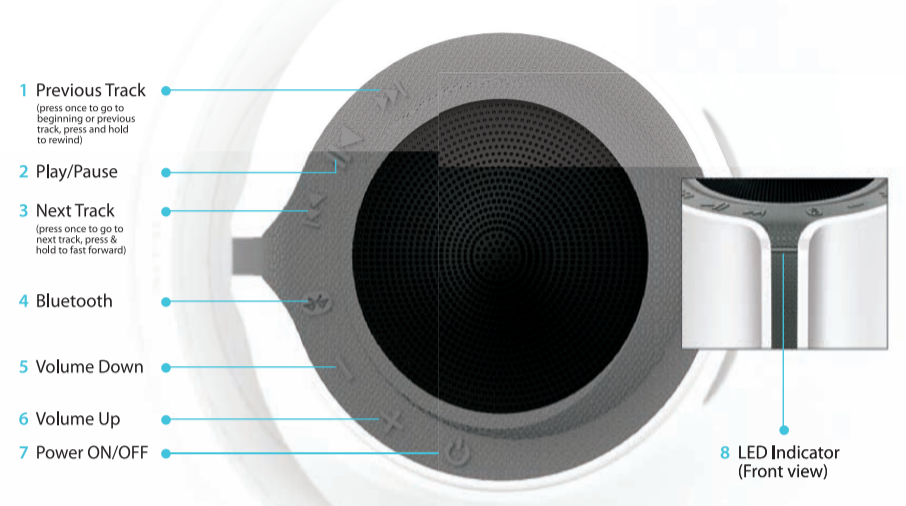

Fully charge SyrenPro before first use.

- Open the port cover on the back. Plug the AC adapter into the power port.
- Plug the opposite end of the cable to an electrical outlet.

*LED indicator will be red when charging and turned off when charged. *LED indicator will blink red for low battery.

CONTROLS

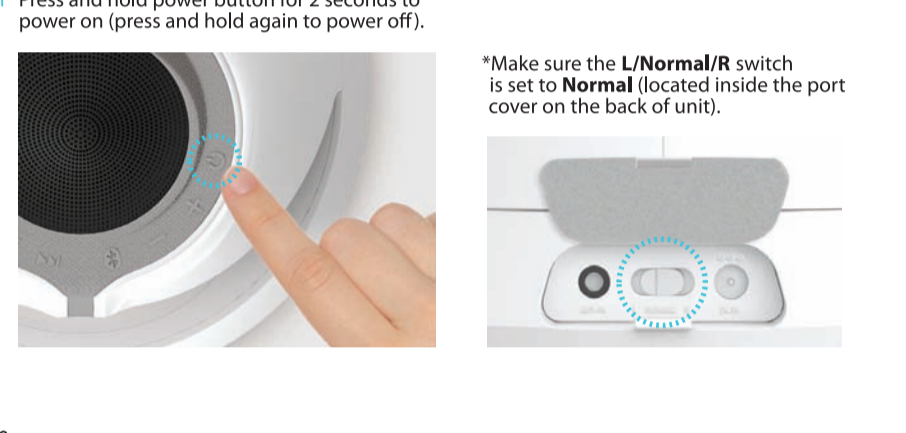

- Previous Track
- Play/Pause
- Next Track
- Bluetooth
- Volume Down
- Volume Up
- Power ON/OFF
- LED Indicator (Red/White)

PAIRING

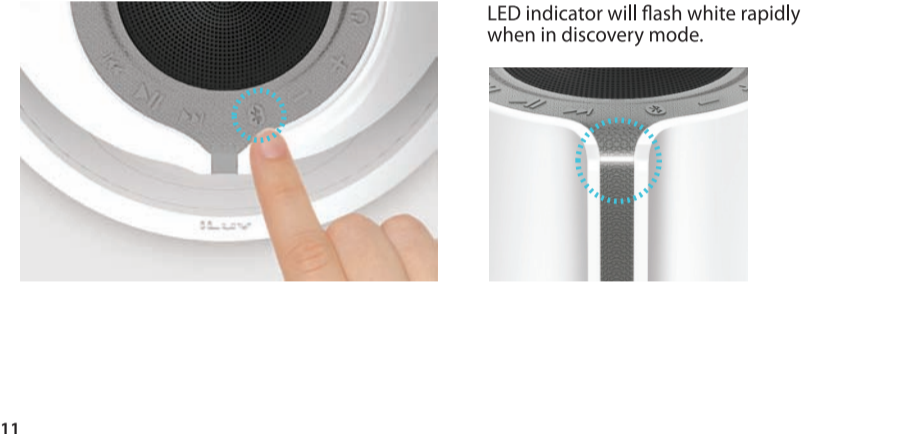

Make sure the AUX-IN cable is unplugged for Bluetooth operation.

- Press and hold power button for 2 seconds to power on (green and hold again to power off).
- Make sure the LED indicator switch is set to Normal (located inside the port cover on the back of unit).

PAIRING

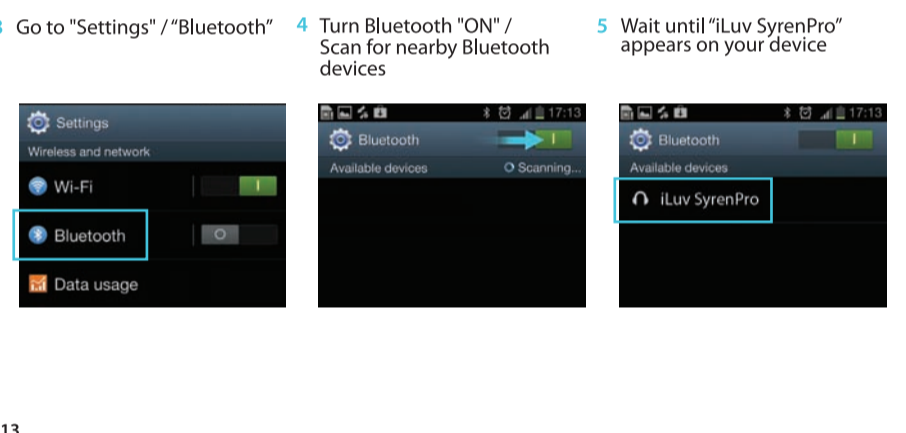

- Press and hold Bluetooth button for 2 seconds to activate discovery mode. The voice prompt will say "Discovering".
- LED indicator will flash white rapidly when in discovery mode.

PAIRING

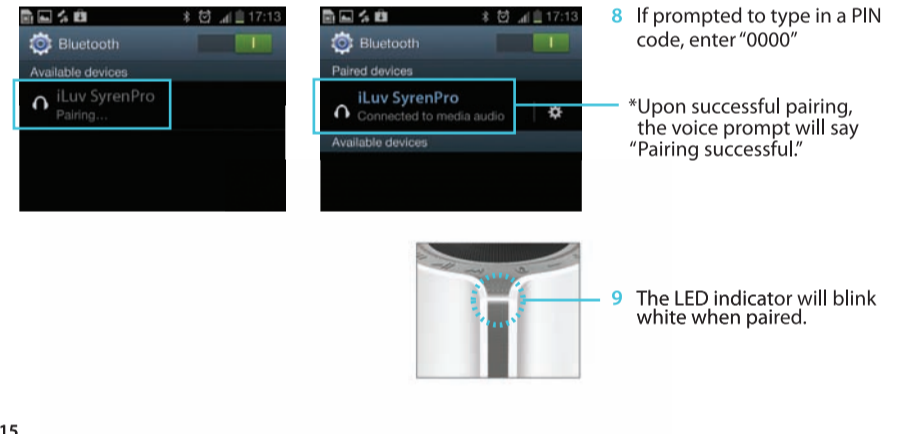

*Android phone settings shown. Your device may vary.

- Go to "Settings"/"Bluetooth".
- Turn Bluetooth "ON".
- Wait until "Luv SyrenPro" appears on your device.
- Turn Bluetooth "ON" / Scan for nearby Bluetooth devices.
- Wait until "Luv SyrenPro" appears on your device.

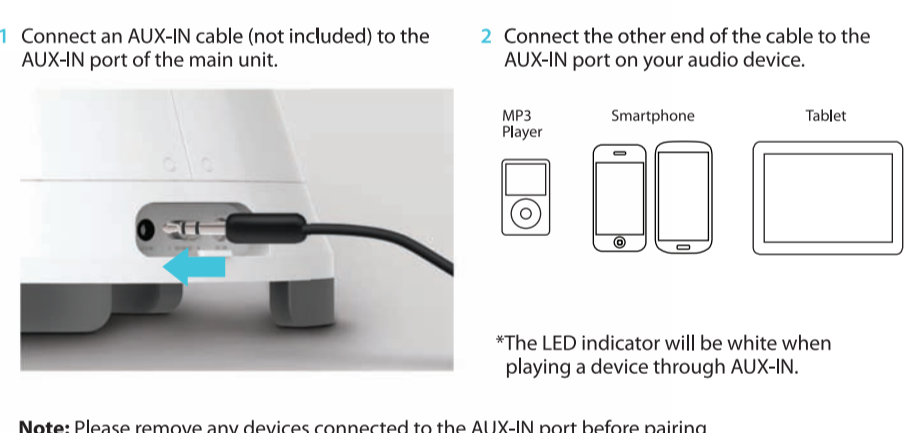

PAIRING

- Select "Luv SyrenPro" and allow it to connect.
- When paired, your phone will show "Luv SyrenPro".
- If prompted to type in a PIN code, enter "0000".
- "Upon successful pairing, the voice prompt will say "Pairing successful".
- The LED indicator will blink white when pairing.

CONNECTING OTHER DEVICES

- Connect an AUX-IN cable (not included) to the AUX-IN port of the main unit.
- Connect the other end of the cable to the AUX-IN port on your audio device.

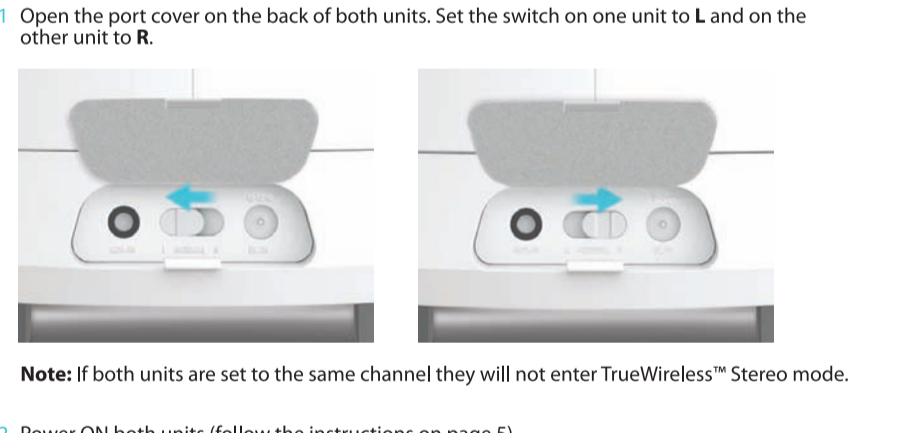

*The LED indicator will be white when playing a device through AUX-IN.

Note: Please remove any devices connected to the AUX-IN port before pairing.

TRUEWIRELESS STEREO™

- Open the port cover on the back of both units. Set the switch on one unit to L and on the other unit to R.
- Both units will begin pairing automatically. The pairing process can take up to 1 minute. When the two units are paired, the LED indicator on the R unit will blink slowly. Once you have the dual tone, you flip your mode device to the SyrenPro™ set to L.
- Pair your phone to the SyrenPro™ unit (refer to previous pairing instructions on pages 13-16).

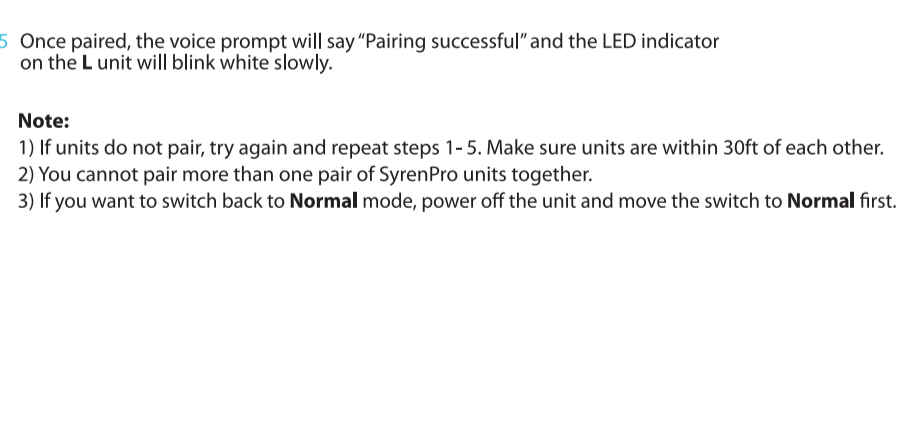

TRUEWIRELESS STEREO™

- Speakers will begin pairing together automatically. The pairing process can take up to 1 minute. When the two units are paired, the LED indicator on the R unit will blink slowly. Once you have the dual tone, you flip your mode device to the SyrenPro™ set to L.
- Pair your phone to the SyrenPro™ unit (refer to previous pairing instructions on pages 13-16).

TRUEWIRELESS STEREO™

- Once paired, the voice prompt will say "Pairing successful" and the LED indicator on the L unit will blink white slowly.
- Note: 1) If units do not pair, try again and repeat steps 1-5. Make sure units are within 30ft of each other. 2) You cannot pair more than one pair of SyrenPro units together. 3) If you want to switch back to Normal mode, power off the unit and move the switch to Normal first.
- Connect the equipment as an outlet or a usual different from that which the receiver is connected.
- Consult the dealer or a representative radio/TV technician for help.
