Safety Data Sheet

1. IDENTIFICATION OF THE SU	BSTANCE/PREPARATION AND COMPANY
Product name	: HYDRAULIC MINERAL OIL
Product type	: Hydraulic Oil
Number	: HMO20120601-Eng
Company Identification	
Manufacture & Distributor	· SHIMANO NORTH AMFRICA BICYCLE INC
Address	: One Holland Irvine California 92618 II S A
Emergency Phone number	+1-949-951-5003 (Business Hours Only)
Emergency Thome number	
Manufacture & Distributor	: SHIMANO EUROPE B.V.
Address	: High Tech Campus 92, 5656 AG Eindhoven, The Netherlands
Emergency Phone number	: +31-402-612222 (Business Hours Only)
E-mail	: shimano.eu.sds@shimano-eu.com
Manufacture & Distributor	: SHIMANO INC.
Address	: 3-77 Oimatsu-cho Sakaiku Sakai OSAKA 5908577. JAPAN
Emergency Phone number	: 0570-031961 (Business Hours Only)
2. HAZARDS IDENTIFICATION	
Classification [Regulation (EC) No	1272/2008 (CLP)]
Classification	: Aspiration hazard: Category 1
	Hazardous to the aquatic environment, chronic toxicity: Category 3
Hazard Statement	: H304: May be fatal if swallowed and enters airways
	H412: Harmful to aquatic life with long lasting effects
Labelling [Deculation (EC) No 125	
Labelling [Regulation (EC) No 127	2/2008 (CLP)]
Symbol(S)	
Signal Words	: Danger
Precautionary Statements	
Prevention	: P273: Avoid release to the environment.
Response	: P301+P310: IF SWALLOWED: Immediately call a POISON CENTER/doctor/physician.
	P301+P331: IF SWALLOWED: Do NOT induce vomiting.
Storage	: P405: Store locked up.
Disposal	: P501: Dispose of contents/container to appropriate waste site or reclaimer
	in accordance with local and national regulations.
Supplemental Hazard Statement	: EUH210: Safety Data Sheet available on request.
	Hazardous components which must be listed on the label:
	Distillates (petroleum), hydrotreated light paraffinic
	Triaryl Phosphate(contain Triphenyl phosphate)
	2,6-di-tert-butyl-p-cresol
Unclassified Hazard Information	· Please see Section 4 - 8 before use for Prevention /Response /Storage /Disposal
enclassinga nazara miormation	Used oil may contain harmful impurities
Unknwon Toxicity	: 0% of this product is of unknown acute toxicity.
	Free Free Free Free Free Free Free Free

3. COMPOSITION/INFORMATION ON INGREDIENTS			
Substance or Mixture	: Mixture		
Chemical Description	: Lubricating oil.		
Component Information	: Lubricant base oil \geq 97%		
	Additives ≤3%		
Chemical Formula	: Not possible to define.		
CAS registry number	: Trade secret		
Additional Information	: The highly refined mineral oil contains <3% DMSO-extract, according to IP346.		
Classification of components	: Chemical Identity/Hazard Class (category)/Hazard Statement/Conc.]		
according to GHS	Distillates (petroleum), hydrotreated light paraffinic/265-158-7/Asp. Tox. 1/		
	H304/60-100%		
	Triaryl Phosphate(contain Triphenyl phosphate)/		
	273-066-3(contain 204-112-2)/Repr. 2, STOT RE 2, Aquatic Chronic 2/		
	H361,H373,H411/<1%		
	2,6-di-tert-butyl-p-cresol/204-881-4/Aquatic Acute 1, Aquatic Chronic 1/		
	H400,H410/<0.24%		

The specific chemical identities and percentages of composition have been withheld as trade secrets.

4. FIRST AID MEASURES			
General Information	:	Not expected to be a health hazard when used under normal conditions.	
Inhalation	:	Remove casualty to fresh air and keep at rest in a position comfortable for breathing.	
		Cover with blanket to keep warm and rest in a quiet surrounding.	
		Seek immediate medical advice and attention.	
Skin Contact	:	Wash skin with large amount of water using soap.	
Eye Contact	:	Rinse cautiously with clean water for several minutes.	
		Remove contact lenses, if present and easy to do, and continue rinsing.	
		After rinsing for a minimum of 15 minutes, seek medical advice	
		and attention.	
Ingestion	:	Without inducing vomiting, call a doctor for treatment.	
		If mouth has been dirtied, clean with water.	
Most Important Symptoms/Effect		Acute & Delayed	
	:	If swallowed, may irritate mucous membrane of stomach and induce vomiting.	
		Inhalation if mist may cause feeling ill. Skin contact and eye	
		contact may cause irritation.	
Immediate Medical Attention, Spe	cia	al Treatment	

: Treat symptomatically. Call a doctor or poison control center for guidance.

5. FIRE FIGHTING MEASURES

Clear fire area of all non-emergen	cy personnel.
Suitable Extinguishing Media	: Concentrated strong liquid in mist and powder forms, carbon dioxide and foam. Use powder and carbon dioxide may be used small fires only. Effective to use foam to shutdown the air in a large fires.
Unsuitable Extinguishing Media	: Do not use water in a jet.
Specific Hazards Arising from Che	emicals
Hazardous combustion products	may include:
	A complex mixture of airborne solid and liquid particulates and

gases (smoke). Carbon monoxide. Unidentified organic and inorganic compounds.

Fire fighting instructions	:	Water the surrounding equipment to cool them down.
		Cordon off the affected place and its vicinity to all, except the concerned parties.
Protective Equipment &	:	Ensure to wear protective equipment and approach from windward.

Precautions for Fighters

6. ACCIDENTAL RELEASE MEASURES Avoid contact with spilled or released material. For guidance on selection of personal protective equipment see Chapter 8 of this SDS. See Section 13 for information on disposal. Observe the relevant local and international regulations. Personal Precautions, : Avoid contact with skin and eyes. Prepare suitable equipment and materials. Protective Equipment and **Emergency Procedures Environmental Precautions** : Use appropriate containment to avoid environmental contamination. Prevent from spreading or entering drains, ditches or rivers by using sand, earth, or other appropriate barriers. In event of entering in the sea, extend oil fences to prevent from spreading, and sop up with absorbent materials. Use chemicals and/or detergents, they must satisfy technical standards as set by the Ministry of Land, Infrastructure and Transport / Ministry of the Environment. Methods and Material for : Promptly remove all ignition sources and stop leakages. In a small leakage, Containment and Clean Up absorb and recover by use of soil, sand, sawdust and waste clothes. In a large leakage, cordon off the danger zone, prevent from entering and enclose it with sand bank and stop outflow. Cover liquid surface with foam, and recover liquid into containers. : Local authorities should be advised if significant spillages cannot be contained. Additional Advice 7. HANDLING AND STORAGE HANDLING **Technical Measures** : In handling this material over the allocated volume, ensure approval to meet requires of the laws. Keep away from heat, sparks, open flames, hot objects. No smoking. Take measures against static discharge. Ensure to wear clothing and shoes made of conductive materials. When fixing or processing machine, it carries out after removing dangerous objects completely. NEVER suck up (siphoning) this material by mouth. Wear suitable protect equipment if skin or eye contact may cause. Seal containers hermetically without handling in violent such as falling, dropping, or jolting. Ventilation Precautions : see Section 8 Precautions for Safe Handling : Use under normal temperature. Prevent from mixing water and impurity. Avoid contact with halogens, strong acids, alkali and oxidizing materials. STRAGE

- Conditions for Safe Storage : Keep containers tightly closed and in a cool, well-ventilated place away from direct sunlight. It is recommended to lock up storage area. Use properly labelled and closeable containers. Avoid heat, sparks, open flame and static accumulation.
- **Technical Measures** : All electrical appliances shall be explosion-proof types, and they all must be earthed.
- Precautions for Safe Stroage : Avoid contact and storage in same place with halogens, strong acids, alkali and oxidizing materials.
- **Recommended Materials** : Storage in original containers. Do not pressurize empty containers. May cause rupture. Do not weld, heat up, drill or cut containers. May ignite the residue and cause explosion.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

If the American Conference of Governmental Industrial Hygienists (ACGIH) value is provided on this document, it is provided for information only.

Equipment	: Seal or install ventilations for mist occurs. Install eye shower and body shower near working site.
Standard Concentration Control	: Not specified
OSHA, Permissible Exposure Limits (PEL)	: 5mg/m3 (0il mist, mineral)
Occupational Exposure Limits	: Japan Society for Occupational Health(2012)(1) 3mg/m3 (Oil mist, mineral) ACGIH(2012) TWA[Inhalable fraction.](2) 5mg/m3 (Oil mist, mineral)
Protective Equipment Respiratory Protection	 Skin protection not ordinarily required beyond standard issue work clothes. No respiratory protection is ordinarily required under normal conditions of use. Use appropriate equipment in response to the circumstances.
Hand Protection Eye Protection Skin and Body Protection	 : Use oil-proof protective hand gloves under prolonged or repeated skin contact. : Wear safety glasses or full face shield if splashes are likely to occur. : Use oil-proof/long sleeved clothing under prolonged usage.
Appropriate Sanitary Measures	: Remove immediately all contaminated clothing. Contaminated clothing must be laundered before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	: Liquid at room temperature.
Colour	: Red
Odour	: Characteristic mineral oil.
Odour threshold	: Data not available.
рН	: Not applicable.
Pour point	: <-20°C
Initial Boiling Point	: Expected >200°C
Flash point	: ≥ 130°C (COC)
Evaporation rate	: Data not available.
Flammability (solid, gas)	: Not applicable.
Upper / lower Flammability	: Typical 1 - 7 %(V) (based on mineral oil)
or Explosion limits	
Vapour pressure	: Data not available.
Vapour density	: Data not available. Expected >1
Density	: Approx. 0.83g/cm3 (15°C)
Solubility	: Water: Negligible.
n-octanol/	: Data not available.
water partition coefficient (log Pov	v)
Auto-ignition temperature	: Data not available. Expected >320°C
Decomposition Temperature	: Data not available.
Kinetic viscosity	: Approx. 8mm2/s (40°C)

HYDRAULIC MINERAL OIL SHIMANO INC.

Issue :1 Jun, 2012 Revised:23 Oct, 2019 Page: 5 / 7

10. STABILITY AND REACTIVITY			
Chemical Stability	:	Stable under normal condition.	
Hazardous Reactivity	:	Avoid contact with strong oxidizing agent.	
Conditions to Avoid	:	Avoid contact with halogens, strong acids, alkalis, and oxidizing materials.	
Incompatible Materials	:	Data not available.	
Hazardous Decomposition	:	Hazardous decomposition products are not expected to form during normal	
Products		storage.	
		Generates smoke, carbon monoxide, sulfurous acid gas etc. during combustion.	

11. TOXICOLOGICAL INFORMATION			
Basis for assessment:	:	Information given is similar products. Unless indicated othe component of a whol Individual componen Section 3.	based on data on the components and the toxicology of erwise, the data presented is representative of the main le product, rather than for individual component(s). ats contained above cut-off value is described on
Acute Toxicity	:	1 Oral	Expected to be of low toxicity : $LD_{50} > 5000 \text{ mg/kg}$, $Rat^{(3)}$
		2 Dermal	Expected to be of low toxicity
		3 Inhalation(Vapor)	: LD ₅₀ > 5000 mg/kg , Rabbit ⁽³⁾ Data not available
		4 Inhalation(Mist)	Low toxicity: $LC_{50} > 5 \text{ mg/l}$, 4h, $Rat^{(3)}$
Skin Corrosion/Irritation	:	Not classified as a ski may cause defatting of	in irritation (rabbit test).(3) Prolonged/repeated contact of the skin which can lead to dermatitis.
Serious Eye Damage/Irritation	:	Not classified as an e	ye irritation (rabbit test).(3)
Respiratory or Skin Sensitisation	:	No data available cor	ncerning respiratory sensitisation.
	:	Not classified as a ski	in sensitisation (Buehler test; guinea pig).(3)
Germ Cell Mutagenicity	:	The mutagenic poten has been extensively The majority of the s	Itial of the product category 'other lubricant base oils' studied in a range of "in vivo" and "in vitro" assays.
Carcinogenicity		Product contains mir	heral oils of types shown to be noncarcinogenic in
caremogeneity.	•	animal skin-painting as carcinogenic by th (IARC monographs: (studies. ⁽³⁾ Highly refined mineral oils are not classified ne International Agency for Research on Cancer Group 3) ⁽⁴⁾ , ACGIH ⁽⁵⁾ and EU Directives. ⁽⁶⁾
Reproductive and	:	Results of developme	ental and reproductive toxicity studies showed
Developmental Toxicity		no evidence of develo	opmental or reproductive toxicity in rats. ⁽³⁾
Specific target organ		Acute studies do not	indicate any specific organ toxicity
toxicity - single exposure	•	following single expo	sure ⁽³⁾
Specific target organ		The repeat dose toxic	rity has been investigated by dermal and
toxicity - repeated exposure	•	inhalation routes for	neriods between 4 weeks and up to 2 years
toxicity repeated exposure		No systemic offects of	how of ⁽³⁾
Achiration Hazard		Classified as a hydror	nowed.
nspiration Hazaru		masured at A0°C T.	Lat both with Killetit viscosity $\geq 20.3111112/5$
		toxicity hazard.	ס של ו כצמו עלע מז וו עולץ למעזל וועווומוו מזאוו מנטוו

12. ECOLOGICAL INFORMA	ATION
Basis for assessment	 Ecotoxicological data have not been determined specifically for this product. Information given is based on a knowledge of the components and the ecotoxicology of similar products. Unless indicated otherwise, the data presented is representative of the main component of a whole product, rather than for individual component(s). Individual components contained above cut-off value is described on Section 3.
Caution Toxicity	 Poorly soluble mixture. May cause physical fouling of aquatic organisms. The Water Accommodated Fraction (WAF) is applied following tests Fish(Fathead minnow, 96h) LL50 >100mg/L(3) Fish(Fathead minnow, 14d) NOEL >100mg/L(3)
	 Crustacea (Daphnia magna, 48h) Crustacea (Daphnia magna, 21d) Algae(Pseudokirchneriella subcapitata) In a static 4-day microorganism luminescence inhibition study, no significant luminescence inhibition was observed.⁽³⁾
Acute Aquatic Toxicity	: Not expected to be a hazard.
Chronic Aquatic Toxicity	: Not expected to be a hazard.
Mobility	 Generally floats on water. Lubricating oil components have estimated log Koc >3, indicating these components are likely to be adsorbed onto soil and sediment and are not likely to leach to ground water.
Persistence/degradability	: Another lubricant base oil was determined to be inherently biodegradable but not readily biodegradable, with a mean degradation of 31% by day 28.
Bioaccumulative Potential	: Not available as highly refined base oil.
Hazardous to ozone layer	: Not classified because this product not contained substances listed on Montreal Protocol and Ozone Layer Protection Law.

13. DISPOSAL CONSIDERATIONS		
Material Disposal	1 Waste disposal yourself or entrust the industrial waste treatment company	
	who obtained the prefectural governor's permission or municipal corporation.	
	Disposal should be in accordance with applicable regional, national, and local	
	laws and regulations.	
	2 Do not dispose into the environment, in drains or in water courses.	
	3 For landfill disposal, destroy by fire and confirm cinders agreed to Waste	
	Disposal Law.	
	4 In event of burning this material, ensure to carryout work in safe place with	
	guards in position, and select a method that would not cause any harm or	
	damage to others during combustion or explosion.	
Container Disposal	Purify and recycle or performs suitable disposal in accordance with the	
	standard of related laws and regulations.	
	Disposal with remove content completely.	

14. TRANSPORT INFORMATION International Restriction UN class, Shipping Name : Not Dangerous Goods. UN Number : Not applicable. Marine Pollutant : Yes.(contain oil.) Specific safety measures and conditions for transportation 1 Caution: Flammable. 2 Transport remarkably with containers may not cause friction or agitation. 3 Display signage on vehicle and provide with fire fighting equipment, if and when required to transport more than the specified quantity.

- Total piled height of vehicle shall be less than 3 meters.
- 4 Abide by other laws and regulations that are applicable.

15. REGULATORY INFORMATION			
International Information			
EINECS/ELINCS (EC)	: All components listed or polymer exempt.		
TSCA (USA)	: All components listed or in compliance.		
METI (JAPAN)	: All components listed or in compliance.
