Minorities Seek Ownership Revision

Broadcast groups petition FCC for reconsideration of new rules

Three minority interest groups have filed petitions asking the FCC to reconsider its recent relaxation of the radio ownership rules.

In a joint filing, the National Association of Black-Owned Broadcasters (NABOB) and the National Black Media Coalition (NBMC) reiterated their charge that the new national and local ownership limits (18 AM-18 FM, and up to two AMs and two FMs in a single market) will make it more difficult for minority entrepreneurs to enter the radio business.

The groups also allege that the agency's elimination of a rule that allowed minority broadcasters to exceed the national limit violated a Congressional order forbidding cancellation of any FCC minority preference program.

Minority Entrepreneurs

The minority "bump-up" rule was replaced with a provision that permits licensees that have reached the new national limit to hold a non-attributable interest in three additional properties, as long as those stations

Petition Points

- Groups believe new FCC rules make ownership difficult for minority entrepreneurs
- New rules will lead to mergers among the most powerful stations
- When whites are given a choice between associating with minorities or whites, they choose whites

are owned by "minority" or "small business" entities.

NABOB and NBMC also believe that the language of the new rule bars 100% minority-owned radio groups from exceeding the limit.

The League of United Latin American Citizens (LULAC) petition contends that the newly relaxed local ownership rules,

FCC Expands Stern Probe To Three Infinity Stations

Commission may fine stations \$315,000 over bits that received no complaints

The FCC's latest Howard Stern indecency probe could result in upwards of \$300,000 in fines against Infinity Broadcasting, according to sources.

Last week the agency ordered Infinity to reveal whether three of its stations — WXRK/New York, WYSP/Philadelphia, and WJFK-FM/Washington — aired the 12 segments of the Stern

show for which Greater Media's KLSX/Los Angeles was fined \$105,000.

Sources told R&R that if the three outlets (all of which carry Stern) did indeed air the cited material, the FCC will slap Infinity with a fine of at least \$315,000 — three times the penalty imposed for broadcast of the offending bits on a single station.

"What incentive or reason would there be to fine [Infinity] less than that amount?," asked one FCC staffer.

(For reasons that are unclear, the Commission failed to ask whether WJFK [AM]/Baltimore, which simulcasts the FM's Talk-Soft Rock format, aired the cited Stern bits.)

Unusual Move

The move against the Infinity stations is unusual in that the Commission took action without having received a listener complaint against any of the three East Coast stations. However, the agency recently made clear

which permit a licensee to own up to four stations in a market (two AM-two FM), will lead to mergers among the most powerful stations, thus making it more difficult for the smallest stations to compete.

The group also charges that allowing broadcasters to exceed the national ownership limit by joint-venturing with small businesses will lead to fewer such opportunities for minority en-

RCS Wins \$100,000 In Key Copyright Case

Court says KWOD violated copyright law by copying music rotation discs

A federal judge has ordered KWOD/Sacramento to pay at least \$100,000 for the station's unauthorized use of the RCS Selector computerized music rotation system.

Following a civil trial in Sacramento this summer, U.S. District Judge David Levi concluded that, in 1988, KWOD owner Ed Stolz pressured a former PD to obtain the Selector discs from another station and then participated in a ruse to obtain authorization codes needed for continued use of the system.

Because the station violated copyright laws, Levi said, he instructed Stolz to reimburse RCS \$100,000 in actual and punitive damages.

Stolz disputed the judge's accounts and promised to appeal the ruling.

Software Evaluation

According to the court decision, Stolz ordered then-PD Jeff Hunter to evaluate various music scheduling software. Since he was not able to obtain an evaluation copy of Selector, Hunter asked Jon Olson, former MD at KDON/Salinas, to install a copy of KDON's Selector discs into the KWOD computers.

Hunter previously was PD at KDON.

Whenever Selector is installed, an access code — obtainable only from RCS — is required to

Bush Signs Digital Royalty Bill

President Bush has signed a measure into law to collect royalties on the sales of digital recorders and blank digital media. Last week's new ruling removes legal obstacles in time for the holiday introduction of Philips Digital Compact Cassette (DCC) and Sony MiniDisc (MD) products.

After signing the Audio Home Recording Act of 1992 (S. 1623), Bush said it would "ensure that American consumers have access to equipment embodying the new digital audio recording technology." He said it would also guarantee that songwriters, artists, and record companies are fairly compensated.

President Bush also noted that the new law sends a mess-

age to "unscrupulous" foreign competitors. "We will not stand by and allow the creativity and ingenuity of our people to be ingeniously copied."

Copyright Resolution

The royalty bill, backed by both the recording industry and consumer electronics manufacturers, was designed to resolve copyright disputes that had prevented most record companies from releasing music on DAT, the only digital tape format previously available. The new law also applies to DAT.

RIAA President Jason Berman hailed the new law as "a major step toward protecting America's musical heritage and its musical future, by pre-

The format kicked off with Wilson Phillips's version of "The Star Spangled Banner." Jay Mitchell is consulting the Gannett outlet. (For more info, see Street Talk, Page 20.)

Howard's Turn At WXRK

Howard Stern joined his current flagship station, Classic Rocker WXRK, seven years ago this month. He had been fired from crosstown WNBC at the end of September '85, in what Stern hinted was a move prompted by higher-ups at WNBC parent RCA. WXRK, then an AOR, hired Stern (along with ex-WNBC newscaster Robin Quivers) for the 2-6pm shift, with the understanding that he'd play 5-6 records an hour but would otherwise "be himself." Howard's words on the occasion:

"It's always been my dream to do AOR radio in New York. It's a very hip format and best reflects my attitude. K-Rock has expressed its desire for us to be as outrageous as ever."

Outrageous he was, and a year later it caught up with him. Watch this space next week.

Philly Format Flip Sparks Protests

Protests over the loss of Philadelphia's only foreign-language FM have delayed the \$3.4 million sale of WIBF/Jenkintown, PA to Jarad Broadcasting Co. But the protests apparently won't stop the format switch to New Rock, set to take place Monday (11/9) under an LMA.

An estimated 50 people turned out Saturday (10/31) to protest the end of Spanish programming. Organizer Wilfredo Rojas said there would be another protest this weekend. He told R&R that if the format switch takes place, his group plans to boycott or picket advertisers and "make it unprofitable to advertise on the new format."

"They can boycott whatever they want," said incoming Jarad GM Dennis Dougherty, who expects the protest to blow over quickly once the change takes place. "I don't think it's any one

station's responsibility to provide ethnic programming in a market the size of Philadelphia," he noted.

Format Not An Issue

FCC Audio Services Division Chief Larry Eads rejected an objection to the WIBF sale from Italian program host Luigi Patitucci, telling him the Commission "does not take format into consideration in making licensing decisions." But that ruling has been appealed by a group of WIBF programmers and listeners, who claim the issue wasn't format at

all. They said the FCC should consider whether the new owner will meet the public service needs of the ethnic groups now served by WIBF.

WIBF GM Doug Henson told R&R he'd notified all of the programmers months ago that a format change was coming. "I've been placing them on other stations," he said, although not all have found new homes. So far, all have gone to AM stations, which the protesters claim don't cover the metro area as well as WIBF.

Current owner Fox Broadcasting Co. is sticking by its decision to cancel the foreign-language programs, although the FCC appeal delayed the sale closing, which had been set for Friday (11/6).

DC REPORT
PAT CLAWSON

DC Power Brokers Ponder Clinton FCC

With Democratic presidential candidate Bill Clinton's victory, Washington power brokers were busy pondering the FCC's fate under a Democratic administration.

Several lawyers and lobbyists speculated FCC Chairman Al Sikes may step down for health reasons before his term expires next June. Sikes, currently recuperating from prostate surgery, is not scheduled to return to work for a month. Most believe Commissioner Sherrie Marshall will depart soon — especially since her initial appointment has expired — and expect Commission stewardship to pass temporarily to Commissioner Ervin Dugan. Few, however, anticipate he'll be named permanent Chairman.

Instead, Washington insiders expect Clinton to use the posts to reward key supporters, possibly two communications lawyers who served him as advisers: Lewis Paper of Keck, Mahin & Kate and Tom Casey of Skadden Arps. Other potential nominees mentioned include Senate Commerce Committee counsel Toni Cook, Al Gore aide Roy Neal, ex-FCC Common Carrier Chief Phil Vermeer, and WKYS/Washington owner Skip Finley, a business partner of Democratic National Committee Chairman Ron Brown.

Casey didn't return phone calls. Paper, who has known Clinton since 1985, insisted he hasn't been approached about any government job. He added that broadcasters need not fear reregulation by a Clinton administration.

"Bill's a pragmatic person who's interested in seeing things work. I don't think he'd pursue regulation for the sake of regulation. He would use regulatory power when it was necessary to achieve some clear public interest goal, but I don't think anybody would go back to the days of the '60s," Casey continued.

Note: Many Washington professionals expect a slowdown on major rulemakings at the FCC until Clinton's team gets into power — a process that probably won't be completed until summer.

Sillerman Finances Escape FCC Scrutiny

The FCC has ducked a demand that it review potential negative impact of highly leveraged debt financing on radio station operations when processing license transfers.

"The Commission is loath to make generic determinations as to the appropriate level of debt for a broadcast licensee. It would involve us in a morass of corporate debt financing decisions and other corporate matters," ruled Mass Media Bureau official Larry Eads.

In a case involving Robert F.X. Sillerman's plans to merge several broadcast properties to create CF Media, the FCC rejected a petition to deny filed by former KRLD/Dallas GM Michael Ewing.

Ewing contended Sillerman's transfer applications didn't provide enough information about who would control the stations or the financial qualifications of these people. He compared Sillerman to a grain futures dealer, charging he engaged in highly leveraged financing and rapid station trading that harms a station's ability to serve the public interest. CF Media denied all of the allegations, attributing them to "personal differences" between Ewing and KRLD owner Carl Brazell.

The Mass Media Bureau rejected all of Ewing's allegations. Further, it said broadcasters are no longer required to spell out the specifics of their lending sources, and the Commission won't consider the amount of debt broadcasters take on. "Essentially, the Commission will not second-guess the financial community's commitments absent a prima facie public interest question concerning the effect of debt on broadcast service," Eads said.

Other market action this week:

- Dealmakers say Colfax Broadcasting, owned by DC's Rales brothers, is buying KQQL/Minneapolis-St. Paul from Jeff Trumper for about \$14 million. That would create a duopoly, since Colfax is also buying WCTS/Minneapolis from the Central Baptist Theological Seminary for \$10 million.

- Southern Starr Broadcasting announced a 5% stock dividend on November 23 to stockholders of record as of November 9. Chairman Robert Long said the company is conserving cash for acquisitions.

- The FCC has waived the one-to-a-market rule for TV magnate Harry Pappas, allowing him to purchase Bob Liggitt's KCML/Hanford, CA for \$550,000. Pappas owns KMPH-TV/Visalia, a UHF station well within Liggitt's city-grade FM signal. Liggitt argued that a waiver was justified on financial distress grounds because the station has lost \$4.2 million since 1987.

Rivals Renew Attack On WDCK Move-In

At least three broadcasters have appealed the FCC's approval of Kerby Confer's Richmond move-in of WDCK (The Duck)/Williamsburg, VA. One appeal came from Confer himself, who's upset the Commission didn't let him move the station closer to the Virginia capital.

WRNL & WRXL/Richmond owner Capitol Broadcasting Company and WTVR-AM & FM/Richmond owner Roy H. Park Broadcasting called for the FCC to reverse its staff action allowing WDCK to change its city of license to Fort Lee, VA. They argued the decision was at odds with decisions in other cases where the Commission refused to allow the removal of a community's only fulltime local service. The move would leave Williamsburg with an AM daytimer and a non-commercial FM.

Confer asked the FCC to reconsider the section of its order requiring WDCK to locate its transmitter nearly nine miles southeast of the site proposed in his original filing. Confer's Keymarket of Virginia Inc. claimed the FCC staff erred in

granting another allocation petition filed after his, then imposing a site restriction on WDCK to avoid short-spacing. Confer noted the action "makes a mockery of Com-

mission procedural requirements" and would deny city-grade service to 104,000 people when WDCK relocates.

No matter which site the Commission approves, it probably won't be Confer who builds the new tower. He's already agreed to sell the Duck to Benchmark Communications (R&R 10/30) for \$4.25 million.

RBDS Set For '93 Introduction

The NAB and Electronic Industries Association jointly announced overwhelming approval of a proposed Radio Broadcast Data System (RBDS) standard by members of the National Radio Systems Committee. A final NRSC vote is expected soon, with release of the FM digital data transmission standard set for January.

With RBDS, FM stations will be able to transmit a data signal in addition to their broadcast signal. The digital data will display the station's call letters or other logo

on an RBDS receiver's LCD screen. The data stream will also allow transmission of paging, traffic and weather alerts, and EBS activation.

Listeners will also be able to tune by format, using one of 22 "Program Type Codes" categorizing the formats of every U.S. radio station. The final code list is unchanged from the one printed earlier in R&R (7/24), despite complaints from some stations that either opposed the idea of format scanning or thought the list was inadequate. "It's hard to encompass everybody," noted NAB Manager/Technical Regulatory Affairs John Marino. He said overall radio industry response was positive, largely because of the ability to display call letters on RBDS receivers.

For AM stations, the RBDS impact is less clear. A limited RBDS system for AM transmission is still under development. However, the call letters and formats of all AM and FM stations, RBDS-equipped or not, can be included in receivers equipped with a special programmable chip (ID-Logic B). Since the RBDS standard is voluntary, there's no way to know how many manufacturers will include the chip. "We hope they'd [include] all of the features," said Marino.

Swaggart: 'Overwhelmingly Financially Qualified'

Jimmy Swaggart Ministries has assured the FCC it is "overwhelmingly financially qualified" to build and operate a new educational FM station in Baton Rouge. It disputed a competing applicant's claims that the ministry has fallen on hard times since founder Jimmy Swaggart's second public scandal involving a prostitute more than a year ago.

JSM filed a balance sheet in August showing assets of \$141 million (mostly in real estate) and liabilities of only \$21 million. But that wasn't good enough for the FCC, which noted most of JSM's assets were non-liquid and that its liquid assets were less than current liabilities. "The balance sheet demonstrates on its face that JSM does not have sufficient net liquid assets on hand to construct and operate the proposed station for three months without revenue," the Commission said in an order requiring JSM to

explain how it would finance the station.

In its latest filing, JSM claimed cash liquid assets of \$680,000, "more than three times the estimated costs of constructing and operating the proposed station." It claimed most of the liabilities cited by competing applicant Real Life Educational Foundation, which included several tax bills, had either been paid or disputed. JSM insisted there was no reason to reopen the comparative hearing which awarded JSM the CP.

Kennedy Moves Up At KC Combo

KBEQ/Kansas City PD/afternoon personality Mike Kennedy has been promoted to Ops. Dir. at Noble's Z-Rock/CHR combo KBZR & KBEQ. In the newly created post, Kennedy will also handle promotion and marketing efforts for both stations and give up his air-shift.

Kennedy told R&R, "Promotion and marketing are intertwined with programming in the '90s, so combining all of these duties into my department makes a lot of sense. Even though I love being on the air, it was tough to do a great afternoon show with all the distractions of being PD."

Prior to joining KBEQ earlier this year, Kennedy was MD/afternoon personality at crosstown CHR KXXR and GM at KEGS/Emphoria, KS.

McCracken PD At WEEP & WDSY

WSOC/Charlotte PD Gerry McCracken has been named PD at Entercom Country combo WEEP & WDSY/Pittsburgh, effective November 12. The position has been vacant since August, when WDSY PD Ron Antill departed.

WDSY VP/GM Joe Armao told R&R, "I took a while making this decision because I wanted to make a statement to Pittsburgh and the Country music community that we're for real and we're gonna kick some butt. And to do that, I wanted to bring in the best Country PD I could find."

McCracken joined Cox Enterprises in 1989 as PD of WHKO/Dayton and transferred to the WSOC PD post just over a year ago. He spent from 1987-89 as OM at WCOS/Columbia, SC and was OM at WXXK/Parkersburg, WV for the previous two years.

At WSOC, APD/MD Paul Franklin has been named interim PD.

Ten-Year 'Quiz'

MCA artist Reba McEntire will be featured on MJI Broadcasting's "Country Quiz's 10th Anniversary Superstar Salute," slated to air during the week of November 9. She celebrated the trivia program's birthday with MJI President/founder Josh Feigenbaum.

Zier To Coach All-Sports WTEM

WODS/Boston VP/GM Bennett Zier has been tapped for the same post at Colfax Communications' all-Sports WTEM/Washington, effective November 17. He replaces Steve Goldstein, who recently was named President of Colfax.

Zier is a 13-year veteran of CBS. Prior to his stint at O&O WODS, he served as VP/Director of Sales at

CBS Radio Representatives.

Commented Zier, "This is an unbelievable opportunity to get in on the ground floor of a new broadcast company. Colfax has a unique opportunity with WTEM, which is the home of the [NFL's Washington] Redskins — one of the great sports franchises. All-Sports is the most exciting format in radio."

Court Rejects Washington Lyrics Bill

A state court last week barred enforcement of Washington's "erotic music" law, which is opposed by a coalition consisting of several labels and artists, the RIAA, and the ACLU.

The law, which took effect in June, added sound recordings to the list of material that may be deemed "erotic" — a designation similar to "obscene" — under the state's "harmful to minors" law. Recordings found to be "erotic" by a state hearing judge could not have been sold to minors and would have had to carry an "Adults Only" label.

Acting on a suit filed in June by the coalition, Superior Court of

Washington Judge Mary Brucker said the measure violated the First Amendment free speech rights of record companies. What's more, Brucker ruled, imposing the obscene material restrictions statewide based on the decision of a single hearing judge constituted an impermissible "prior restraint" that violated state and federal guarantees of due process under law.

RIAA Exec. VP/General Counsel David Leibowitz expects Brucker's ruling to be appealed by the state. It is also possible, he said, that lawmakers who backed the law will attempt to pass a new version in the next legislative session.

Martine Joins Imago Label

Pat Martine has joined the Imago Recording Company as National Director/Promotion, reporting to Imago VP/Promotion Tom Gorman.

"Pat adds considerable enthusiasm and professionalism to the Imago promotion team," noted Gorman.

Martine had been National Director/Promotion for MCA Records before coming to Imago. He also ran his own independent AOR promotion firm, Pat Martine & Associates.

UPDATE

Martin To Program WQXR (AM)/ New York's New Nostalgia Format

Former WPEN/Philadelphia PD Stan Martin is the new PD of the New York Times Company's WQXR (AM)/New York. A Classical outlet since 1944, the station will flip to a Nostalgia format at a date to be announced.

Concurrent with the musical change, the station has applied to the FCC for the new calls of WQEW (AM). The calls are a combination of the current WQXR and longtime NYC Nostalgia station WNEW (AM), which has been sold and will switch to a Business format.

Martin's broadcast experience includes stints at New York stations WHN, WKTU, and WNEW (AM).

WLTE/Minny Promotes Golbuff To GSM

WLTE/Minneapolis LSM Kathy Golbuff has been elevated to GSM at the CBS-owned AC. She succeeds Angela Stinziani, who exits.

VP/GM Rolf Pepple told R&R, "Kathy is highly respected in the media community; this is a well-deserved promotion. She has some very solid and forward-thinking ideas, and we're very excited to have her lead our sales team."

Golbuff joined WLTE 12 years ago as Promotion Director. She's since been an AE and NSM, and last year was upped to LSM.

Def American Forms Two New Labels

Def American Recordings owner Rick Rubin has announced the formation of two new imprints, White Lbls and Ill Labels.

First signees to White Lbls are the London-based techno band Messiah and Belgium's Antler/Subway artist roster, which includes D.O., Lords Of Acid, Praga Khan, Jade, and Channel X.

The first two artists to be associated with Ill Labels are rap acts Art Of Origin and Pretty Tone Capone.

While the White Lbls releases, like other DA releases, will continue to be distributed through WEA, the first 12" releases on Ill Labels will be distributed through Tommy Boy's independent channels.

Fair Tapped To RCA Sr. VP Post

Industry veteran Ron Fair has been appointed Sr. VP, A&R West Coast/staff producer for RCA Records.

Fair will be responsible for producing records, developing label acts, exploring soundtrack opportunities, and talent acquisition.

Most recently, Fair was Sr. VP, A&R/Staff Producer for EMI Records. While there, he was responsible for the creation of the "Pretty Woman" soundtrack, as well as the signings of Go West, Brenda Russell, Wendy Moten, and Rosie Ania.

Cooperman, Doherty Take Executive Positions At Satellite CD Radio

Satellite CD Radio has added Richard Cooperman as Sr. VP/Development and William Doherty as Asst. VP/Operations.

Cooperman, former President of USA Today Sky Radio, "is eminently qualified for the task of the development and implementation of our exciting and desired new service," said SCDR President Robert Briskman.

The FCC recently proposed allocating S-band frequencies for satellite DAB and put SCDR's application on public notice for a 30-channel subscription audio service.

Doherty was formerly Manager/Applications Marketing at COMSAT Mobile Communications. His new duties at SCDR will include overseeing public relations and marketing.

The Specialist in Broadcast CD Music!

Since January '92 more stations began using RPM CD Music services than all the other vendors combined.

SCORECARD:

December 1991: No CD Clients
October 1992: 700+ Worldwide!!

- Broadcast CD Music Libraries. (1100 cuts/\$2495.00)
- Weekly Top Hits U.S.A. on CD. (\$16.95/wk | \$49.95/mo in U.S.)
- CD Christmas Library. (390 cuts/\$295.00 1st 100 sales | \$395.00 thereafter)

Top quality CD music is within the reach of all broadcasters. If you need CD music or if you use another CD service, do us both a favor. Take a look at RPM. Our competitors ridiculous prices are

history. When the competition tried to match rates, their clients got less! We've set a new standard of value and super digital quality. 700+ users agree that RPM CD Music just makes better sense.

MANAGEMENT

How To Get Your Priorities Straight

Effective time-management starts with setting priorities. William J. Bond — author of "1001 Ways To Beat The Time Trap" (Frederick Fell Publishers/\$14.95) — suggests the following techniques for organizing your short- and long-term goals.

Setting Priorities

List everything you must accomplish the following day. Weigh each activity's relative importance — determine which can be delegated, which offer the highest payoff, and which are essential to your goals (and the company's). Use this information to order your to-do list.

Beware: If you rush through this process, your list won't reflect your actual priorities. But don't agonize over which of two equally important tasks deserves higher priority — just be sure both are near the top of your list.

Doing 'To-Do' Duties

Start your high-priority activities in the morning, and *stick with them*. Don't allow lower-priority tasks to eat up your time — delegate them when possible, or work on them for five or 10 minutes. If

these small jobs take up more time than you've scheduled, drop them, and devote a few minutes to them later.

Long-Term Planning

Determine your long-range goals by identifying what makes you happy, where your strengths and weaknesses lie, what the company's trends are, and whether your significant others will cooperate. Then, focus on the daily tasks that will help you reach your long-term targets.

Staying Motivated

Although it's virtually impossible to complete every task on your to-do list, don't fall into the trap of getting the "little things" done ahead of time. It may seem like you're being productive, but you'll only be putting off work on your higher-yield tasks.

To get started, picture yourself completing the project, and imagine the possible rewards. Use this visualization technique whenever you lack motivation. Meanwhile, steer clear of pessimism and perfectionism — both can discour-

age you. Most important, don't be afraid to make mistakes.

Changing Priorities

When circumstances or needs change, priorities should shift, too. You also should alter your priorities when you feel overwhelmed — it's almost impossible to accomplish anything if you allow too many goals to sap your energy.

Radio Newsletter Primer Available

Want to publish a station newsletter, but don't know where to begin?

Learn how to keep listeners and clients updated on events, contests, and promotions by consulting former PD Dan Acree's manual, "How To Budget And Produce A Newsletter For Your Radio Station" (Promotion Publications/\$12.95).

The 44-page handbook offers tips on developing a production schedule, tracking story assignments, managing mailing lists and listener databases, and other newsletter-related tasks. It also recommends cost-effective ways to hire a printer and use the postal service. For more info, call (510) 439-0429.

Making Your Presents Known

With just seven weeks (and counting) 'til Christmas, gifts are on the minds of many people — and businesses. American business gift expenditures topped \$3.2 billion in 1991, an increase of 1.4% over the previous year, according to a survey conducted by NYC-based *Business And Incentive Strategies* magazine.

What are the most popular business gifts? The Top 5 are: apparel/sportswear, clocks/watches, pen sets, calendars/desk sets, and coffee mugs.

Employees are receiving gifts more often than they used to — the number of companies that give gifts to workers jumped 67%-76% from 1990-91. An equal number of firms bestowed presents upon major clients last year. Surprisingly, holiday gift-giving was down 6%, but a 6% jump in year-round gift action offset that slip.

Not all businesses restrict gift expenditures to the tax-deductible \$25 limit. Although 37.4% stick to the official IRS amount, 30% spend \$25-\$49, and nearly 15% spend \$50-\$74.

Perils Of Over-Organization

While the ability to structure things well is a management asset, excessive orderliness can be a liability. According to Allan Mallinger's "Too Perfect: When Being In Control Gets Out Of Control" (Clarkson Potter/\$18), over-organization often indicates rigidity and an unwillingness to listen to new ideas, try new approaches, or act sponta-

neously.

If you think you may be an organizational "neat freak," identify the problems your outlook is causing. Consider how much time you're spending on unnecessary straightening or cleaning — and imagine how that time could be used more enjoyably, creatively, and productively.

'ZINE SCENE

**Sammy Kershaw:
Uncommon Scents**

According to the *Star*, country performer Sammy Kershaw is marketing a men's cologne called "Starclone" that contains what the singer claims is "the essence of his sweat."

Kershaw's stage costumes reportedly contain "special sweat-collecting pads" that are packed in dry ice right after his performances. They're then shipped to the University of Colorado Medical School, where the sweat is mixed with "exotic oils and spices" to form "Starclone." Two-ounce bottles are available for \$18 — but only at his concerts and via phone orders.

Madonnarama!

On the subject of Madonna's "Sex" book, radio giant Rush Limbaugh observes, "Given the controversy raging in the New York public school system regarding sex instruction, I think they have found their first-grade textbook. But where were the condoms? (*Entertainment Weekly*)"

Meanwhile, Madonna's total nudity is hidden only by an artfully poised question mark on the cover of *Entertainment Weekly*. The 'zine also provides a "blow by blow, kink by kink" account of how she created "her masterpiece of media manipulation."

And in *Movieline*, Spike Lee notes that "Madonna sure knows how to work that publicity machine. Of course, I don't have breasts. If I did have titties, I'd be in the No. 1 spot over Madonna."

Finally, the *National Enquirer* features Sandra Bernhard complaining that "Madonna stole my lesbian lover!"

Jeans Scene

Forbes says, "What James Dean did for Levi's jeans, Garth Brooks and the Nashville types are doing for Wranglers," in a story on how the perennial also-ran dungarees have finally outsold Levi's for the first time.

CHERRY ON TOP — "Sex is such an essential part of everyday life . . . That's what I was trying to get across in the feel of this album. I want to come across as sexy and sensual without being Mrs. Open Legs" — Q covergirl Neneh Cherry describes her latest effort, "Homebrew."

Each week R&R sneaks a peek through the nation's consumer magazines in search of everything from the sublime to the ridiculous in music news. R&R has not verified any of these reports.

PIANO FORTE — In its "special New York issue," *Architectural Digest* takes a gander at Arista President Clive Davis's NYC penthouse. Of his grand piano, Davis says, "I don't play piano myself, but I'm fortunate enough to have friends like [Arista act] Barry Manilow who visit and fill the place with music."

Sinead In The Shade

A little girl in NYC asked Sinead O'Connor for her autograph. But when O'Connor saw Madonna's signature in the book, she tore out the page and shredded it, leaving the tyke tearful (*National Enquirer*).

O'Connor speaks about all her notorious actions in a two-page interview in *Time*. One good reason for ripping the Pope's pic: "If I hadn't torn the picture, we wouldn't be having this conversation."

Say Me, Say You

Keith Richards says, "Every other band now seems to have one of me in it. What am I supposed to be? Flattered? I'm not interested in whether a guy leaps around the stage and does a passable imitation of me" (Q).

"I am one of the best five writers to come out of English music since the war," declares Roger Waters in Q. Who else? "John Lennon . . . I really don't know. Freddie Mercury, maybe . . ."

Togetherness

Michael Bolton spent the evening at a Malibu party literally tied to Nicollette Sheridan. She was wearing an ankle-length fringe garment and tied some of it to his wrist to make sure he wouldn't stray (*National Enquirer*).

Bubble Your Pleasure

Metallica's James Hetfield reflects in *People* on the onstage accident that gave him third-degree burns after being "completely engulfed" in flames last August. As for being given morphine, Hetfield says, "I hate drugs. At the same time, if your hand is bubbling, you know that you need to go and get it fixed."

'Zine Fiend

R.E.M. axeman Peter Buck confesses to Q, "I read all the rock press. I think I'm the only one in the band who does. I feel like a child-molester when I go in and buy all these teenage rock mags."

TECHNOLOGY

Laptop PCs To Offer Plug-In Peripherals

Although the laptop computer has become a common fixture in the business world, its growth has been hindered by a lack of hardware compatibility. With the forthcoming industry adoption of a standard hardware interface slot, however, the machines may start to realize their true potential.

When computers equipped with the Personal Computer Memory

Card International Assoc. (PCMCIA) bus — named for the industry group spearheading the standardization effort — arrive in stores later this year, users will be able to plug in utility cards as if they were Nintendo games.

These interchangeable cards offer a wide array of functions. For example, there are cards for data storage utilizing "flash memory" chips or miniature hard drives.

Others provide modem/fax capability, and some will offer laptops access to existing local area networks (LANs) through either radio or direct links.

Standardization also may mean smaller machines. Dell Computer Corp. recently introduced a laptop that's about an inch thick and weighs less than four pounds, made possible in part because its communications functions will all be handled by PCMCIA cards.

Industry consultant Dream IT Inc. expects 1.1 million PCMCIA-equipped laptops to be sold within the next year, soaring to 9.2 million by 1996. Correspondingly, Cupertino, CA-based AP Research projects sales of the utility cards climbing from 400,000 units this year to 10 million in 1995.

PC PITFALLS

Futzing The Workday Away

The recent survey of office productivity conducted by the Sausalito, CA-based SBT software firm found that an estimated 2% of America's domestic gross product (\$97 billion) was spent on unproductive computer time or — as SBT calls it — "futz-ing."

Following are the five most frequent futzes:

Font futzing: Sprucing up copy with fancy typefaces.

Network gnashing: Attempting to link PCs on a network, which initially leads to frequent system crashes.

Office blocking: Writing and rewriting the same thing repeatedly because tinkering is so easy.

Spread web: Creating overly elaborate spreadsheets.

Presentation perfection: Endlessly polishing PC-generated charts, graphs, and other fancy flourishes.

Spy-Proof Cordless Phones

Cordless phones offer users convenience, but often sacrifice privacy in the process. It has become relatively easy — almost a popular pastime, in fact — for an interested party to tap into a cordless conversation.

With this in mind, Cincinnati Microwave Inc. has designed a cordless phone that solves the privacy problem. These new phones operate in the 900 MHz range (20 times the frequency of current models), offering improved clarity at a longer range (up to a half-mile).

The unit's "spread-spectrum" technology encodes the signal between the base and the handset digitally, rendering it unintelligible to humans. As an extra security measure, specially designed microchips randomly change the transmission's frequency during the call, so the signal cannot be monitored for an extended period of time.

The company expects to have the phones on the market in the first quarter of 1993 at a cost of \$250-\$300. For more info, call the firm at (513) 489-5400.

Digital Compact Cassette Player Set For U.S. Debut

Holland-based Philips Consumer Electronics has announced a U.S. street date for its "DCC900" digital compact cassette recorder/player, which debuted on the Japanese market in September. The DCC will arrive in American stores this week at a list price of \$799.

The unit produces compact disc-quality sound and can give you track/artist information in a text display window. Along with playing digital cassettes, the DCC will be able to play existing analog cassettes.

The digital cassettes, which are roughly the size of analog cassettes, will be available in varying lengths from a number of manufacturers. Philips will introduce its 90-minute length blank digital cassette, at a suggested \$9.99 list, concurrent with the DCC900 rollout.

Software support will come from BMG, EMI, MCA, Polygram, and Warner Bros., with 500 titles set to be available at the time of the launch.

Within the next year, the company expects to introduce three auto DCC units, two Walkman-style DCC units, a component DCC unit, and a DCC portable stereo. For more info, phone Philips at (615) 521-3109.

\$10 BILLION BY 2000?

Interactive Software Industry Eyes Bright Future

Within the next two decades, consumers are expected to spend at least 40% of their recreational software dollars on video games, computer entertainment, and other interactive programs, according to SF-based investment firm Volpe, Welty & Co.

The interactive software market currently stands at \$4 billion — consumers now spend \$2-\$3 billion and \$500 million on video games and computer games, respectively. An average yearly increase of

more than 20% would place the industry above the \$10 billion mark by the year 2000.

Meanwhile, today's \$50-\$60 billion "passive" entertainment software industry — prerecorded audio (music, books, etc.) and video — is growing at an average rate of 8%-12% a year.

The introduction of "virtual reality" systems — wherein the "player" actively participates in a three-dimensional, "living" videogame — also is expected to contribute to the industry's growth.

CD Units Add 'Missing' High-End

Ever since CDs came on the scene nearly 10 years back, audiophiles' biggest complaint has been the absence of frequencies over 20 kHz. These usually inaudible tones, left off CDs in the encoding process, can interact with other frequencies to create subtle musical nuances.

With that in mind, Long Beach, CA-based Pioneer Electronics has introduced the "PD-65" (pictured), "PD-52," and "PD-32" players to their Elite line. All three models incorporate the company's exclusive "Legato Link" system, which extrapolates and restores the missing ultrahigh frequencies, completing the musical picture.

Suggested retail prices for the three models begin at \$400. For more info, call the company at (310) 835-6177.

STREET TALK®

'Love Lines' Bleeding!

Malrite CHR Z100/NY night stalker **Chio The Hitman** and **Dr. Judy Kuriansky** — a frequent guest on "Geraldo," "Donahue," "Sally Jessy Raphael," and "A Current Affair" — are now co-hosting a Monday-Thursday, 10pm-midnight show called "Love Lines."

The debut show Monday (11/2) featured **Epic's Spin Doctors** as in-studio guests who helped the hosts answer callers' questions about dating, sex, AIDS, and virginity.

Responding instantly, **Jim "Poorman" Trenton** — the co-host/creator of **KROQ/L.A.**'s remarkably similar "Loveline" show, who's recently been negotiating to syndicate the program — launched an on-air tirade against Z100, angrily accusing the Zoo York station of "ripping off" his concept. A number of faxes expressing Trenton's displeasure were fired off to Z100, along with a few explicit epistles from KROQ listeners.

ST learned that KROQ's management contacted Z100, alerting the New Yorkers to possible trademark violations regarding the name and concept. KROQ officials, however, declined to comment. Z100 allegedly responded a little something like this: "I guess we'll see you in court." Reportedly, **Infinity** Chairman **Mel Karmazin** and the honchos at Malrite are having intense discussions as to who borrowed whose idea and/or name.

Z100 claims that when it signed on the air in 1983, original night rocker **Sean "Hollywood" Hamilton** did a one-hour nightly show called "Hollywood's Midnight Lovelines"

STERN TALK

Bosom Buddies

Under the banner "Stern tactics for Stern times," long-time AOR programmer **Ed Levine** and broadcast marketing veteran **Doug Harris** have announced the creation of "Sternbusters" — a special consultancy designed to assist managers of radio stations whose markets have been invaded by multi-city morning star **Howard Stern**. (Levine is, of course, notorious for having worked with — and against — Stern in NYC, DC and Albany.)

Meanwhile, one of the producers for the tabloid TV show "Hard Copy" claims to have received hundreds of threats from Howard Stern fans after the syndicated show did a story portraying the **Infinity** shocker as a bully.

In a story to be published in *TV Guide*, **Audrey Lavin** claims to have received nearly 250 threatening messages on her answering machine since Stern gave out her private phone number. She labels the callers "nasty, mean yahoos from hell that [Stern] incites."

Finally, **Gold KUDA/Las Vegas** reportedly will become Stern's 10th affiliate beginning Monday (11/9).

Rumors

- When — or should that be *will* — **Charlie Minor** return to **Giant**? ST has a strong hunch it'll be Monday (11/9).
- Will former **KROQ/L.A.** (and more recently crosstown **MARS PD**) **Freddy Snakeskin** return to the **KROQ**? He was heard pulling an airshift last week-end.
- Is the **92Q/Baltimore MD**/afternoon slot a neck 'n' neck race between **WNVZ/Norfolk MD**/night rocker **Tommy Frank** and **92Q** weekender **Mark Feather**?
- Will a new Ft. Lauderdale-based Talk net featuring a number of former **American Radio Network** personalities launch in January?
- Is **Paxson Hot AC WVRJ/Orlando** flipping to **CHR**? **PD B.J. Hunter** denies it, but market rumors persist. **Paxson Group PD Bill Pasha** did not return ST's calls.
- Is ST perennial **Elvis Duran** about to hit the jackpot?

McVay Media Down Under

Country Consultant **Charlie Cook** is now consulting **2SM/Sydney**. It is the first Country station in Australia's largest city. The **WESGO**-owned station is managed by one-time programmer **Mark Spurway**.

New Clients

McVay Media continues to be America's fastest growing program consultancy as they

(note the spelling) with co-host **Dr. George Brothers**. Z100 sources claim that 8/5/83 show predates any **Infinity** use of the "Loveline" name.

Elektra Sr. VP/Urban Promo Ruben Rodriguez will exit the company to devote full attention to his Elektra-distributed **Pendulum** label.

Current Elektra Urban VP/Promo & Mktg **Joe Morrow** has been named acting promo head for the department. ST also hears he's the odds-on favorite to win the post permanently.

15 Minutes Of Fame

because of the content of a Steve & D.C. morning show bit that aired while Todd was on vacation two weeks ago.

Shortly after 15+ minutes' worth of audio of a couple making love hit the air, Todd was called back to the station for damage control. He kept the story out of the local press and off the evening TV news, despite many angry calls to the station as well as reported complaints to the FCC.

However, Chase President Ed Carlick reportedly phoned KASP & WKBQ GM Rich Gray with marching orders to fire Todd — along with morning show producer Rich McMann. ST called Gray, who responded, "No comment, call Ed Carlick." Calls to Carlick went unreturned.

Observers speculate that Todd's dismissal was aimed at showing the FCC that the combo — in the midst of a sale to Evergreen, which will then spin it off to crosstown Legend — took appropriate action in the matter.

Todd told ST, "I was out of town. Had I known they were going to do a bit like that, I would have never let it happen. I was the sacrificial lamb for an unfortunate bit that aired." He noted that "while some listeners found the bit distasteful, most were supportive

Here Comes The Judged

Campaign shoutin' like a Southern diplomat, the public policy-makers at DGC Records took Promo Item O' The Week honors by a hair, courting selected programmers with the rather impolitic bumperstickers pictured above on behalf of Sonic Youth's new "Youth Against Fascism" single.

Unfortunately, even such a dedicated follower of fascism as Dan Quayle knows the word is spelled f-a-s-c-i-s-m . . .

of Steve & D.C." (The duo was removed from the air for two days following the incident.)

Speaking of that takeover, the transfer to Evergreen should be complete by week's end; the LMA to Legend will follow within hours. Expect Rick Upton, PD at Legend's KHTK, to take over programming at WKBQ ASAP.

Rumbles

- In a cost-cutting move, Gold WIBM/Lansing morning man Jim Bosh, PD Reed Kittredge, and GM Mike Topoll are all o-u-t in the wake of the station's being sold by Metro City to crosstown WJXQ.

- In other Lansing news, WILS-FM APD/afternoon driver Rick Walker has been named PD, replacing PD/morning man Allan Gibbs. Walker, who'll retain afternoons, is looking for a new morning host.

- Veteran NYC air talent Paco — fired by Hot 97 last Labor Day weekend for working under the influence of alcohol — has been rehired as host of the station's "Classic Showcase" Sunday night program.

- WDLs/Wilkes-Barre PD Nancy Faye exits.

- AC WIBQ/Utica-Rome becomes WKDY, the market's latest Country outlet. Frank Brosky is the new PD, coming from the Production Dir. slot at CHR WVBS/Wilmington, NC.

- Longtime CHR KHOP (FM104)/Modesto flips to AOR and the positioner "Great Rock N' Roll."

- JET-FM/Erie PD Jim Cook exits. APD/MD Neal Sharpe now will handle all programming duties.

- Former KC101/New Haven PD John Scott takes weekend/swing shifts at WBMX/Boston.

- Gold KSFO & KYA/SF weekender Mike Joseph shifts to similar duties at Classic Rock KUFJ/San Jose.

- Rock CHR KEGL/Dallas grabs Pam Steele for middays. She was formerly with crosstown Classic Rocker KZPS.

- KHMX/Houston MD Geno Pearson exits. Look for music duties to be absorbed by other staffers.

- WSKX/Hinesville-Savannah, GA PD/afternoons Bubba Chavez exits.

- B96/Chicago swingmeister Tim Richards joins WVIC/Lansing as MD/middays. He replaces Dave Savage, who segues to overnights in place of the exiting T.J. Ross.

- Former KODZ/Dallas morning man Richard Stevens (brother of AT-40 host Shadoe Stevens) signs on as host of the satellite-delivered radio show "USA Overnight."

- Veteran AOR personality/voice talent Steve Crowley joins KZOK/Seattle for weekends.

- KBEQ/KC welcomes Jeff "Action" Jackson — most recently with KXKT/Omaha — for afternoons. KBEQ PD Mike Kennedy comes off air.

- WYAV/Myrtle Beach, SC APD Tank Sherman becomes OM. PD Beau Richards and MD/wife Kelly Green remain with the station while pursuing other programming opportunities.

Bruce Bird Dies At 44

Artist manager and former promo exec Bruce Bird died from a cerebral hemorrhage on Sunday (11/1) at the age of 44. Bird worked in promotion at Liberty/UA, Buddah, and as an indie before becoming VP/Promo at Casablanca at the height of its late-'70s success. He formed the MCA-distributed Camel Records in 1982, developing Night Ranger, and segued into Camel Management, which handles Damn Yankees, Vince Neil, and Sassa Jordan, among others.

Bird leaves his wife, Nancy, and four children. Donations in his memory can be made to the T.J. Martell/Neil Bogart Foundation Memorial Labs in New York or Santa Monica.

Stecker Resigns

In a surprising turn of events, KSCS/Dallas PD Ted Stecker resigned his post for personal reasons. He'd been with the station for more than five years.

No PD for Gannett's new CHR KHKS (106.1 Kiss-FM)/Dallas (see Page 1) . . . yet. Fascinating speculation has WYXR/Philly PD John Cook taking the reins, but well-placed insiders deny it.

Here's the KHKS lineup for now:

- mornings, acting PD (and contender for the permanent gig) J.J. McKay, from crosstown KODZ
- middays, Leigh Ann, from crosstown KEGL
- afternoons, Garry D., from KODZ
- nights, Steve Nichols, from crosstown KZPS
- overnights, Len White, a holdover from the former KOAI's NAC staff.

Rumors were also bobbing around town 'bout former KTKS (the station's pre-KOAI CHR identity) morning team **Walton & Johnson** returning for wakeups and former **Y95/Dallas** personality **Billy Burke** exiting **Z90/San Diego** to do afternoons in the Big D.

Perot-Amateur Classic

N/T **WXYZ/Detroit** scored front-page coverage in the *Detroit News* with a spoof **Ross Perot** interview in which the diminutive mogul charged that one of his daughters had been kidnapped by the **Bush** campaign and replaced with a lookalike.

The bit kept listeners going for 25 minutes before afternoon driver **David Newman** revealed that "Perot" was really actor/impressionist **Bob Offenbacher**.

Gannett Classic Rocker KCLX/San Diego and **GM Mike Shields** have parted company. **WUSA/Tampa** President/GM **Jay Cook** becomes interim GM.

KKBT/L.A. PD **Mike Stradford** officially resigns to join **Qwest's** A&R department. **KKBT MD "Big John" Mondis** is upped to interim PD.

Chalk up a new LMA for Jacksonville. **Eagle Broadcasting** (owner of **UC WHJX**) has entered into a one-year LMA (with purchase option) of **Osborn Communications' WBYB**. 'BYB will flip to Black AC, utilizing **SMN's "The Touch"** format. Veteran West Florida air talent **Jack The Bellboy** will join 'BYB for wakeups next week.

Radio Fresno Inc. CHR **KBOS (B95)** Fresno rings in the changes as it moves from receivership into the hands of **Cencal Broadcasting Inc.** PD **Trevor Carey**, GM **Dwayne Murray**, and Promotions Dir. **Brian Rippinberger** all exit. Co-owner **Stephen Miller** is B95's new GM; new to the programming chair is former **KHTN/Merced-Modesto** PD **Fast Eddie Monson**.

KMBY/Monterey PD **Mark Steven**, who's been handling interim PD duties at sister **WLAV-FM**, called the ST "fun-fone" to let you know he's officially been named PD at 'LAV for the foreseeable future. He'll retain his **KMBY** PD title as well, too.

Meanwhile, **KMBY** Promotion Dir. **Marianne Dupree** moves to 'LAV as MD. She replaces **Robert Chase**, who exited when the station flipped from New Rock to AOR last week. And . . . **Mike Roth** is 'LAV's new programming assistant.

Records

- Ex-DGC Nat'l Album Promo domo **Hugh Surratt** will take a nat'l artist development post at **RCA**. He'll be based in L.A., but will divide his time between the coasts.
- **Morgan Creek** Detroit promo rep **Andi Turco** jumps to **Virgin** for regional promo duties in the Motor City. Meanwhile, **Morgan Creek** KC/St. Louis rep **Kevin Morton** exits.
- Former **Elektra** nat'l AOR promo dude **Victor Lentini** sets up shop in Atlanta under the **Get Smart Promotion** banner.

RADIO & RECORDS

1

- **Bob Sherwood** joins **Sony Software** as VP/Sound Technology Marketing.
- **Jay Butler** promoted to **WQBH/Detroit** PD.

5

- **Elektra/Asylum** ups **Rick Alden** to VP/Nat'l CHR Promo.
- **Brent Alberts** officially becomes PD of **WQFM/Milwaukee**.

10

- **Joe Galante** promoted to Division VP/RCA Nashville.
- **KOST/Los Angeles** taps **Jhani Kaye** as PD.
- **Paulette Williams** boosted to GSM of **KMGG/Los Angeles**.
- **Jonathon Brandmeier** hired for wakeups at **WLUP-FM/Chicago**.

15

- **Bobby Applegate** named VP, Dir./Album Promo at **Ariola**.
- **Bob Cole** crowned PD of **KMEL/San Francisco**.

ST hears that **Hollywood** is indeed talking seriously with former **Elektra** Sr. VP/GM **Brad Hunt** about a similar post, based in L.A.

The Great Wide Way

Rush Limbaugh may soon apply his robust talents to the Broadway stage. According to *Daily Variety*, "Will Rogers Follies" producer **Pierre Cossette** (of many a Grammy telecast fame) has invited the Rushster to play the role of Rogers's aviator buddy, **Wiley Post**. Limbaugh has reportedly accepted the invite.

In another Limbaugh accolade, the round mound o' sound was dubbed "The Bore That Roared" by the **Boring Institute**, a prelude to his mid-December enshrinement on the ninth annual "Most Boring Celebrities of the Year" list. Limbaugh was described as "the only person we know who could fly around the world in a self-propelled hot air balloon and never have to touch down."

For the third year, stations consulted by **Jerry Clifton's New World Communications**, along with other outlets, will join in an effort to establish November 22 — the date of **John F. Kennedy's** assassination — as **Stop The Violence Day**. Interested stations can call **Paige Nienaber** at **New World**, (415) 665-8525.

**Operating On
Reduced Power**

If you had a hard time reaching R&R on Tuesday (11/3), 'twas due to a freak windstorm blowing out the power for all of **Century City** — disabling our phones, faxes, computers, etc. — until 1pm PST. We'd like to extend a heartfelt thanks to all our reporting stations (for their extra cooperation) and everyone else who took the time to call back.

Bob Marley

Iron Lion Zion

The music of Bob Marley is timeless. As a man who understood struggle, he touched the hearts of people all over the world with songs that are as relevant now as the day they were written. "Iron Lion Zion" is a rare, previously unheard gem.

Recently discovered in the Marley archives, it is the first track released from *Songs of Freedom*, the Bob Marley retrospective.

Format Flip

Continued from Page 1

KHKS President/GM Brenda Adriance told R&R, "Research told us back in 1991 that there was a void for an Adult CHR when both [then-CHR KHYI, now Country KSNM] Y95 and KEGL were battling it out. We waited for a clear opportunity, saw our window, and launched our 20-35-skewing CHR format.

"While others have been abandoning the format, we feel that CHR hasn't been done properly and it must be more than just a research-driven music machine. It needs to be mass appeal in nature. That means playing a little bit of the best of every type of hit music. Kiss will be a fun, spontaneous, personality-driven station that will have the best elements of a morning show around the clock."

Adriance told R&R a PD hasn't been selected yet. "[Gannett Radio Division President] Gerry DeFrancesco is taking a hands-on approach in securing a PD. We should have that figured out shortly. Also, the airstaff isn't permanent as yet. We've been fortunate to find a number of local air personalities who are doing a fine job of getting us started. We'll also make those decisions shortly."

Granum Commitment

As part of the KCDU switch, former Digital Planet VP/Programming Paul Goldstein has been brought in to replace the exiting Gary Reynolds as PD. For now, the new Oasis has retained the KCDU announcing staff. Tom Miller is serving as acting APD/MD.

According to Granum COO Peter Ferrara, "Smooth jazz is a very popular format with a loyal following in the Dallas market. The Oasis has grown significantly during the past year, which is why we decided to keep it on the air."

VP/GM Skip Schmidt added, "When we made the decision to move the Oasis to 107.5, we decided to hire the best programming talent in the country."

"Paul Goldstein was one of the originators of the incredibly successful 'Wave' format at KTWV/Los Angeles. He's regarded as one of the most creative and forward-thinking programmers. Oasis listeners continue delivering the best smooth jazz to our market."

Goldstein told R&R, "[Granum's] really committed to the format. They're spending a ton of money on television and will do it right."

Goldstein previously held programming and production positions at WNBC (now WFAN)/New York, WPIX/New York, and San Diego stations KPRI and KOGO (now KKLQ).

Among persons 12+ in this summer's Arbitron, KOAI ranked 11th (3.5) and KCDU placed 26th (1.1).

— in upholding a 1990 indecency fine against the same three outlets — that it believes it has the authority to initiate enforcement proceedings without such a listener objection.

Infinity's Washington attorney, Steve Lerman, declined to comment on what the company would say in its response, which is due Thursday (11/5). He did say the filing would be "anticlimactic compared to media speculation."

I told [Stern] that talking about [Sikes's] health was inappropriate. He admitted that as a joke it didn't work.

— Mel Karmazin

There have been rumors that Infinity might file an unusual response — such as pleading its Fifth Amendment right against self-incrimination. Such a move, warned one senior FCC official, "would be a big mistake."

In the days since the Commission announced its action against KLSX, Stern has raged against the agency during his daily show, charging that FCC Chairman Al Sikes has a vendetta against him. Earlier this week, Stern's remarks took an ugly turn when he voiced hope that Sikes, who recently underwent surgery to remove a tumor from his prostate, would die of cancer.

Infinity President Mel Karmazin said he spoke to Stern about the remark and accepted Stern's explanation that the comment was made "in jest."

"I told [Stern] that talking about [Sikes's] health was inappropriate," said Karmazin. "He admitted that as a joke it didn't work." Karmazin added that Stern did not apologize for the remark.

"It's a bittersweet time for all of us at Noble. I hate to see Tom leave," commented Noble Chairman/CEO John Lynch. "Mike Glickenhau has been a top achiever at every level. It is my firm belief that he will be one of Noble's top general managers."

Glickenhau added, "91X is San Diego's top Rock station, and the growth of XTRA Sports has been dramatic. I look forward to the challenge of further developing XTRA Sports into a regional super Sports station."

Royalty Bill

Continued from Page 1

serving creative incentives within the framework of new digital audio techniques."

Under the royalty formula, small fees will be collected by the U.S. Copyright Royalty Tribunal from manufacturers and importers of digital tape recorders and blank digital tapes. The money will be distributed to record companies, recording artists, composers, and music publishers to compensate them for sales lost owing to consumers making their own "perfect" digital copies of music recordings. The law also requires all consumer-model digital tape recorders to prevent multigenerational copying.

Although manufacturers will be paying the royalties, their trade group, the Electronic Industries Association, also supported the legislation, which had been formulated in negotiations with recording industry representatives. "The consumer electronics and music industries have worked together . . . so consumers could record digitally at home," said EIA VP Gary Shapiro.

Brent PD At KOQL

WWMG & WXRC/Charlotte MD Jon Brent has been selected to fill the PD chair at KOQL/Oklahoma City. He takes over for Terry Mason, who left the Entercom Gold outlet several months ago for similarly formatted WGTO/Orlando.

Brent

According to KOQL GM Dave Griffin, "Jon's the complete PD with a wide range of both format and market experience. His specialty is Gold, his passion is winning, and he fits right in with our growing staff."

Brent previously programmed WWMG and has worked on-air at KRQR/San Francisco, KQFX/Austin, KYNO/Fresno, and KOSO/Modesto, CA.

James Replaces James At WWSN

WSUY & WDXZ/Charleston, SC PD Randy James has succeeded Shelly James (no relation) as PD of WWSN/Dayton. Shelly James recently left the Stoner AC to program KLTR/Houston.

According to VP/GM Deborah Parenti-Mann, "Randy's extensive AC programming experience and personable approach should prove to be invaluable assets for WWSN's future growth."

Randy James told R&R, "This station's in good shape, but there's always room for improvement. I hope to be more aggressive in promoting WWSN on the street."

Randy James's prior programming credits include WFMK/Lansing, MI and WYCL/Reading, PA.

RCS

activate the system. A new code must be entered every 90 days for its continued use. Olson said he obtained the first access code directly from the company.

On a subsequent occasion, Olson said Stolz called him to obtain another access code. According to Olson, Stolz arranged for a "conference" call to RCS in New York and listened in quietly while Olson asked for a new access code.

"That is absolutely, categorically false," said Stolz. "The fact is that Jon Olson . . . stated under oath that he did not know me and he wouldn't recognize me if he saw me walking down the street. I think that was an outrageous lie which was intended to try to link my company . . . to the acts of Mr. Hunter and his pals."

Cross-Claim

Stolz filed a cross-claim against Hunter, but Judge Levi threw out the motion, saying "Hunter had no participation in [some] of Stolz's acts and derived no benefit from the infringement."

Hunter, who currently works at KIKI/Honolulu, declined to discuss the decision. Olson left the radio business for a ministry and

couldn't be reached for comment.

Attorney John Adkisson, who represented RCS, said the company would not have sued KWOD had the station been more forthcoming. "Hunter and Olson were very cooperative and told the truth. But we couldn't even get Ed Stolz to admit that he had the unauthorized copy of the software until the eve of the trial."

Judge Levi ordered Stolz to pay RCS \$31,000 — the purchase price of Selector — in actual damages, \$50,000 in punitive damages, and about \$21,000 in assorted other damages. Lawyers for the software company said they will also ask the judge to order Stolz to pay attorneys' fees.

Prior to joining WSOC two years ago, Leiser was WSUN & WWRM's GSM. He previously was Sales Manager at WSB/Atlanta and worked for WUBE/Cincinnati, where he was an announcer, AE, LSM, and GSM.

BRUCE BIRD

1947-1992

**A great friend
who will be
missed.**

Kenny G Leaves Listeners 'Breathless'

Saxman Kenny G's forthcoming Arista LP is titled "Breathless." G produced 10 of the 14 cuts himself, but co-produced "G-Bop" with Walter Afanasieff (of Mariah Carey production fame) and Dan Shea.

Afanasieff also worked with David Foster on the album's two vocal tracks — "Even If My Heart Would Break" (featuring Aaron Neville) and "By The Time This Night Is Over" (featuring Peabo Bryson and co-written by Michael Bolton, Diane Warren, and Andy Goldmark). "Forever In Love" goes to radio this week. The LP will blow into stores November 17.

Cohen Back To 'The Future'

Leonard Cohen returns after a four-year recording hiatus with "The Future," which he produced with Steve Lindsey, Bill Ginn, and Leanne Ungar, among others. Harmony vocals are provided by Jennifer Warnes, whose "Famous Blue Raincoat" LP consisted entirely of Cohen covers. Other featured artists include singer Julie Christensen, percussionist Lenny Castro, and keyboardist Greg Phillinganes. The track "Anthem" features the L.A. Mass Choir.

Among the nine songs are "Waiting For The Miracle," "Tacoma Trailer," and a version of Irving Berlin's "Always." Although the seven-minute cut "Democracy" went to radio last month (in time for the elections), "Closing Time" will be the first official single. The Columbia LP hits the streets November 24.

Money Unplugged

Eddie Money recorded his all-acoustic EP, "Unplug It In," in Houston and Austin clubs. He co-produced it with Monty Bryom, who also played rhythm guitar and sang harmony vocals.

Among the nine cuts are versions of Money's own "Two Tickets To Paradise" and Smokey Robinson's "You Really Got A Hold On Me," as well as "I Just Want To Fall In Love Again" and "Save A Little Room In Your Heart For Me," the last of which goes to radio late next week. The Columbia EP hits the streets Tuesday.

'Something Real' From Mills

Among the many producers who worked on Stephanie Mills's "Something Real" LP are Steve Barri, Vassal Benford, Andre Harrell, Shawn "Puffy" Combs, and Mills herself. Cuts include "Stone Cold Woman," "24-Hour Woman," and the current single ("All Day, All Night"). The complete MCA CD is set to arrive November 24.

Wainwright's 'History'

"History" — the new LP from Loudon Wainwright III — was produced by the artist with Jeffrey Lesser. Wainwright wrote all 14 songs, except "A Handful Of Dust," which he co-wrote with Loudon Wainwright Jr. Songs include "Talking New Bob Dylan," "People In Love," "So Many Songs," and "The Picture." The Charisma/Virgin LP is due November 17.

Amy Grant's Target Marketing

Amy Grant has cut a single exclusively for the Minneapolis-based Target discount chain, which sponsored her 1991 tour. The song is "Let The Season Take Wing," and its title is the theme of Target's holiday promotions. The chain's TV ads feature a snippet of the song and the promise that customers who purchase A&M's "Amy Grant, Home For Christmas" LP at Target stores will also receive a free copy of the single. The offer is good while supplies last.

Spin Doctors . . . Live

"Homebely Groove . . . Live" is the Spin Doctors' second live EP. Of the 10 tracks, two are medleys, three are previously unreleased songs that didn't make it onto their first live EP ("Up For Grabs . . . Live"), and five are tunes from their current/debut LP ("Pocket Full Of Kryptonite"). These include "Little Miss Can't Be Wrong" (the current single), "What Time Is It?," "Refrigerator Car," and "Off My Line." Epic Associated won't be working this EP, but it ships to radio next week and arrives in stores November 24.

Ice Cube's Third

Ice Cube's third solo LP ("The Predator") spotlights the work of several producers, including DJ Pooh, Cypress Hill's DJ Muggs, Sir Jinx, and Bobcat. Das EFX guest on the track "Check Yo Self."

Due November 17 from Priority, the 16-cut disc sports such titles as "I'm Scared," "It Was A Good Day," "Integration," and "We Had To Tear This Mothafucka Up." "Wicked" is the current single.

Sweet 'N' Live

Matthew Sweet's "Good Friend — Another Take On 'Girlfriend'" is a collection of live and/or acoustic tunes, many of them on the Zoo artist's current album ("Girlfriend"). Guitarist Ivan Julian joins Sweet throughout the dozen cuts, and ex-Attractions member Pete Thomas is heard on a new song, "Someone Pull The Trigger."

Selections include an acoustic cover of John Lennon's "Isolation" and a rendition of Neil Young's "Cortez The Killer" recorded live with the Indigo Girls. At present, the set will be available for retail promotion — though a label rep says requests from stations are welcome — but no plans exist to market it commercially.

Sign O' The Times

Veteran Chicago blues guitarist/vocalist Otis Rush has signed to Andrew Lauder's PLG-distributed This Way Up label. Rush is in the studio with producer John Porter.

SCREEN SCENE

Lennox Sings 'Love Song For A Vampire'

The Columbia soundtrack to "Bram Stoker's Dracula" contains one pop song — Arista artist Annie Lennox's newly recorded "Love Song For A Vampire" (produced by Stephen Lipson, who also produced her "Diva" LP). The film's score is by composer Wojciech Kilar.

Directed by Francis Ford Coppola, the film stars Gary Oldman, Winona Ryder, Anthony Hopkins, Keanu Reeves, and Island/PLG artist Tom Waits (who plays the notorious, bug-eating Renfield). The Columbia Pictures film opens November 13. The LP arrives four days later.

Belle & Bryson: 'Aladdin' Sing

Columbia artists Regina Belle and Peabo Bryson perform "A Whole New World (Aladdin's Theme)" the lead track from Disney's newest animated film, "Aladdin." Alan Menken scored the film and co-wrote this song — and two others — with Tim Rice. Menken wrote three other "Aladdin" tunes with the late Howard Ashman, with

Annie Lennox — love bites.

whom he co-wrote the title track for "Beauty And The Beast."

As the voice of the genie, Robin Williams sings one song. Other vocal talents include Gilbert Gottfried (a non-singing parrot), Brad Kane (Aladdin), and "Miss Saigon" star Lea Salonga (Princess Jasmine).

Columbia will take the Belle-Bryson track to radio next week. The complete Walt Disney Records soundtrack arrives November 10. The film opens in New York and Los Angeles the following day and goes wide on November 25.

Aladdin

PEABO BRYSON & REGINA BELLE

A Whole New World.

(Aladdin's Theme)

The forthcoming Walt Disney Pictures movie, "Aladdin," is, quite simply, the most spectacular animated film ever. Opening November 20th in 1000+ theaters nationwide, supported by a multi-million dollar advertising campaign and merchandised (through tie-ins with Burger King, Quaker Oats, and Best Foods) beyond anything you could imagine.

You can expect the song A Whole New World (Aladdin's Theme) to be a major hit as well. Performed by Peabo Bryson (who sang on the #1 hit, Beauty And The Beast) and Regina Belle (a Grammy, Soul Train, and American Music Award nominee), it's a wish come true for every fan of theirs, and anyone who's ever loved Disney.

Music: Alan Menken/ Lyrics: Tim Rice. Produced and arranged by Walter Afanasieff. © 1992 Buena Vista Pictures Distribution, Inc.

Talk Radio's Role In Politics

Roper survey majority calls format 'minor' source of candidate information

A new Roper Organization survey commissioned by the *Columbia Journalism Review* suggests Talk radio plays a small role in informing the public about political candidates.

Just 14% of the 2000 U.S. respondents identified Talk radio as an "important" source of national and local candidate information. However, a majority of respondents called the format a "minor" informational source (53% for national politicians, 55% for local).

Meanwhile, the number of people who considered Talk radio a "primary" source for learning about national and local candidates was 7% and 6%, respectively. More than half (55%) of the respondents said they "almost never" listen to Talk programming, while 17% said they spend "half" to "nearly all" their listening time tuned to Talk.

Ironically, the survey's release coincided with the magazine's publication of an article claiming Talk radio's political influence is "growing — probably at the expense of the mainstream press."

The article's author, CJR Associate Editor Mike Hoyt, backs off that assertion after reviewing the poll. "You could argue that 63% [of the respondents] were influenced by Talk radio in some fashion," he says. "Other than [the poll results] you just get a sense that [Talk radio] is growing. There are more stations and more listeners — that's undisputed. How much weight [do listeners] give [the format]? Maybe not as much as I thought."

More Findings

Other results from the survey included:

- More than half (59%) of the respondents agreed it was "good" for

year than ever before." Conversely, 5% felt that trend was "bad" for the process. Nearly a fifth (19%) believed such appearances had a "mixed" impact, was "neither good nor bad," or "both."

- A plurality (40%) said they get "a better idea" of the candidates when callers ask questions on radio or TV shows, while 20% said they learn more from newspeople's queries. Nearly a quarter (23%) said callers and newsies pose equally useful questions.

- A majority (59%) of those who believe callers present better questions said callers "ask the questions I want to hear." Meanwhile, 30% said caller inquiries are "harder to dodge," and 23% said callers ask questions that are "fairer" than those posed by newspeople.

Talking Points

In case you were wondering, former KFI/Los Angeles afternoon driver **Tom Leykis** netted nearly a four share 25-54 and tied for ninth in his final Arbitron book with the Cox outlet. That summer number was up from a spring three share and an increase of two full shares from Summer '91. Leykis was dropped in September in favor of former L.A. Police Chief **Daryl Gates**.

Feminist attorney (and vocal **Rush Limbaugh** critic) **Gloria Allred** is hosting a Sunday afternoon issue-oriented show on KABC/L.A. The station also adds former KFI/L.A. talker **Joel Roberts** for Saturday evenings . . . Newsman **Mike Pulsipher** exits the CBS Radio Network and returns to KCBS/San Francisco . . . WIP/Philadelphia morning man **Angelo Cataldi** recently signed a new "long-term" contract with the all-Sports outlet. Details were not disclosed . . . **Bill Needle** is named night talker on all-Sports WKNR/Cleveland . . . KMOX/St. Louis 12-year veteran **Art Fleming** exits to focus on other career interests.

KPLY/Reno has dropped its non-sports talk shows to become a play-by-play-intensive, all-Sports outlet. How intensive? For openers, the station will air 70 NFL games and 250 NBA games during the 1992-93 seasons.

All-Sports WSCR/Chicago has joined the *Chicago Sun-Times* in a campaign to raise funds for sports and other extracurricular programs in the city's financially beleaguered schools.

Look for WCBM/Baltimore talker **Lester Kinsolving** in the upcoming made-for-cable movie "The Killer Angels," a historical drama about the Battle of Gettysburg. Kinsolving plays two small roles: Confederate General William Barksdale and a rebel color sergeant.

Kudos to WTAE/Pittsburgh for winning Best Local Newscast honors at this year's Pennsylvania Association of Broadcasters' annual awards. The prize honored the station's morning news block, "Newline."

Passin' Through The 'Turnstile'

Looking for an affordable way to perk up your Saturday schedule? Try the "Turnstile," WFLA/Tampa's Saturday morning show hosted by members of the weekday airstaff.

According to OM Gabe Hobbs, the program gives regular listeners a fix of their favorite hosts and exposes the rest of the audience to personalities they might not hear during the week.

Here's how it works: The station's six weekday talkers host the show on a rotating basis. Subscribing to the widely held belief that listeners don't want to ponder heavy issues on the weekends, the show tends to be more easygoing than the station's weekday pro-

gramming. For example, guitar-slingin' host Lionel occasionally brings in local musicians for chat-and-jam sessions, while morning co-host and Sports Director Tedd Webb talks athletics.

"We approach the show as [if it were a] Saturday morning adult cartoon," Hobbs says. Despite this laid-back tone, the full complement of weekday news and information elements runs during the Saturday show.

More Listeners

Hobbs says "Turnstile" attracts roughly twice the audience of the specialty and parttimer shows that

previously aired in the 9am-noon slot. And since the hosts are not paid extra for the Saturday shifts (roughly nine per year), it's affordable, too. When contracts come up for renewal and new hosts are hired, the station includes a clause requiring the Saturday work. Even without that obligation, however, the station's personalities have been cooperative.

"It was just a matter of explaining that this was part of our game plan to make the station better overall," Hobbs says. "We also explained that it was a good way for them to boost their own audiences and hit their ratings bonus numbers."

Jammin' Z90 Takes San Diego CHR Crown

For the first time in years, San Diego has a new CHR leader — XHTZ (Jammin' Z90). The Califormula outlet rose 4.2-4.4 in the Arbitron Summer '92 book to place seventh 12+. Meanwhile, the market's perennial CHR leader, Edens's KKLQ-AM & FM (Q106), slid 5.6-4.2 to rank ninth.

AccuRatings showed Z90 swelling 6.8-8.2 for second place behind Country KSON-AM & FM (flat at 8.7), as Q106 dropped 8.7-6.0 into fourth place.

Z90: No Cookie-Cutter

Rick Thomas is on his second tour of duty as PD at Z90, which began in Spring 1990, but was interrupted by a four-month stint as PD at KOY-FM/Phoenix. He says, "Z90 is a uniquely programmed station which has been customized to play San Diego's hits. My favorite comment from out-of-towners is that they don't understand our station. That's because Z90 doesn't sound like anything else. We've tried to avoid that cookie-cutter image a lot of stations have which makes them transplantable from market to market."

Being consulted by Jerry Clifton in his own hometown is an added bonus, says Thomas. "When we hooked up with Clifton he taught us a lot of things about our audience. Specifically, we learned the audience hates it when jocks talk up to the vocals, so we limit that. We

Rick Thomas

try to be very flow-conscious, putting ourselves in the listener's head before finalizing our programming elements. Because mix shows have such great TSL, we try to perfect segues in our regular programming to make Z90's presentation exciting, compelling, and fun — yet not irritating."

Thomas observes, "Our signal is our Achilles heel. Our signal may boom up and down the Southern California coast [it's easily heard in parts of Los Angeles on most days] but we have local signal problems in North San Diego and toward the east of the metro. For example, many of our target listeners live in an area called El Cajon. Most of their listening is away from home.

"We have an antenna project in the works, but our tower sits on a large hill just across the border in Tijuana, which presents some logistical problems to getting the work completed. Our studios are in San Diego, and we microwave our signal to the transmitter."

Music, Talents Mesh

"Our music attitude is our strongest element — next to our personalities, who make it all fit together," notes Thomas. "It took us a full year to find the pulse of the market. We can see it react on the request lines, in diary returns, and on the streets. The music is targeted to 18-34 women with a niche target of 20-30-year-old females.

Former Jammin' Z90 morning man Joe Nasty (rear, left) hangs with his morning posse.

"Z90 wins the teens by default, and we're glad to have them. We've discovered that younger kids envy the older kids who drive, have jobs, and can go to clubs. On the other side, the older people want to think younger. If you direct your attitude to the people who are in the 'hip zone,' the people above and below will relate.

"That's why we consider Z90 to be aggressive on playing and adding new music. We're often ahead of the market, but the trick is to be ahead and right."

On music, Thomas says, "The first questions we ask ourselves are: 'Do we think it's a hit with anglicized Hispanics?' 'Is it too male-leaning?' 'Is it acceptable to females?'"

That last qualification begs the question of Z90's rap content — an element arguably in opposition to a female target. "Z90 does play a lot

of rap music, but we play the rap music that has the broadest appeal," explains Thomas. The two biggest music categories for us to examine now are hip-hop and techno. The favorites in these categories are very fluid — often changing on a daily basis. But if you do your legwork at retail and investigate sales at the 'mom and pop' stores, you'll find they've created special sections for this music."

Thomas adds, however, "You can do all the homework you want, but if it doesn't sound good coming out of the speakers, you're in trouble. You have to guess what will sound good, but you have to have a clue to start with. That means personally having the ears, or having employees with ears, who understand the mission and the listeners' needs. That's why we don't hesitate

Defeat No Surprise To Q106 Staff

Nothing is better than walking into a station and inheriting a good book. But that wasn't what Tracy Johnson found when he resigned his consultancy post with Alan Burns & Associates to become PD at Edens's CHR KKLQ-AM & FM (Q106)/San Diego this past July.

"What happened this book didn't shock me or anyone in the company," says Johnson, who's programmed WAPE/Jacksonville, KFRX/Lincoln, and been APD at KCPW/Kansas City. "We were rated on the low end of reality, but we all feel the ratings [5.6-4.2] were within Arbitron's range of reality. I'm told 50,000 18-34-year-olds simply disappeared from this book, so there may have been some return problems."

Self-Defeat

Both Q106 and new crosstown CHR champ XHTZ (Jammin' Z90) were off among 18-34 adults. Q106 dropped 7.8-5.7, while Z90 slipped 5.8-4.8. Q106 also plummeted 4.7-2.7 among 25-54s, while Z90 gained slightly to rise 2.2-2.3. Q106 trailed Z90 in teens 17.0 to 28.4 respectively.

"When I got to Q106, I knew problems had been developing over the past several years. We're just now paying for them," says Johnson. "We've got some image problems, but our cume is intact in all demos. Our core's TSL has been diluted by Z90, [New Rock giant XTRA-FM] 91X, [Hot AC KFMB-FM] B100,

Tracy Johnson

and our single biggest enemy — ourselves, Q106."

While he avoids blaming past PDs for Q106's problems, Johnson cites many factors. "Some of the prior decisions over the past several years were incorrect, but that's the value of 20-20 hindsight. I might have done some of the same things. We've spent the last three months here being fairly inactive, as we're evaluating the research and the market and deciding on options to regroup and regain core loyalty.

"We've earned the negative baggage — we simply have to do better radio. What's taking place won't be

like flipping a switch — it'll be evolutionary. The internal perception of the Q106 sound is that it's highly reactionary. That thinking had closed us down to playing the non-dance hits. Now we're more open to playing the hits from all directions."

VP/GM Bob Bolinger adds, "Q106 sounds good now, but it will sound better as time goes on. We have yet to see the full effect of Tracy's talents. I hired him because he's one of the best in the country, and we're all optimistic. You can't program book-to-book or month-to-month. The questions are: What does the station sound like today, and where are you headed?"

"[Consultant and former Q106 PD] Garry Wall says, 'Put a great station on the air, and they will come.' We've made some mistakes, but our plan is to be the top station in the market — and that's never changed. Years before, our mission wasn't to beat [then-CHR KSDO-FM] KS104, but to put on a compelling station that pulled ratings, satisfied advertisers, and made a lot of money. We've never thought of being competitive as a head-to-head thing. In terms of 12+ shares, eight stations are beating us, and that's eight too many."

Music Monitor

With a manageable eight units an hour of spots, Jammin' Z90 plays plenty of 'Stopless Music' and has lots of opportunity to live up to its other positioner — "San Diego's Hottest Music." Here's what the station sounds like at 5pm, when PD Rick Thomas is at the helm.

- ROB BASE/Joy And Pain
- MARY J. BLIGE/Real Love
- COLOR ME BADD/I Adore Mi Amor
- CLASSIC EXAMPLE/It's Alright
- SHAI/If I Ever Fall In Love
- A LIGHTER SHADE OF BROWN/On A Sunday Afternoon
- DAZZ BAND/Let It Whip
- BOYZ II MEN/End Of The Road
- HIFIVE/She's Playing Hard To Get
- JODECI/Come And Talk To Me
- SALT-N-PEPA/Let's Talk About Sex
- N2DEEP/Back To The Hotel
- SWEET SENSATION/ Hooked On You

Music Monitor

"Q106, A Better Mix Of Music And More Of It" says it all, according to PD Tracy Johnson. "It's self-explanatory, and everyone knows it by heart. We've just got to live up to the statement in all areas." Here's a sample of Q106 at 5pm, when Jo Jo Kincaid is on-air.

- BOBBY BROWN/Humpin' Around
- MADONNA/Like A Prayer
- PM DAWN/I'd Die Without You
- VANDROSS & JACKSON/The Best Things In Life Are Free
- JON SECADA/Just Another Day
- TOAD THE WET SPROCKET/All I Want
- EN VOGUE/Hold On
- SHAI/If I Ever Fall In Love
- JADE/I Wanna Love You
- SOPHIE B. HAWKINS/Damn, I Wish I Was Your Lover
- ARRESTED DEVELOPMENT/Mr. Wendel

On And Off The Block

Johnson acknowledges that uncertainty about Q106's future ownership has contributed to the present situation: "Q106 has been on the block and off the block, but I can now say with certainty that it's no longer being shopped. Recovery will take some time, but our research tells us Z90 is a very beatable station. They're currently beating us with 12-21-year-olds, while we're on top 18-34 and they have little or no 25+ impact.

"Since I arrived at Q106, we've become more mainstream, which has forced the hyperactive listeners to search for the more reactive station. So we're not surprised the actives left us in the summer book. It's a long game — especially in our situation — so it's a marathon and not a sprint. We're hoping to see the beginnings of a turnaround in the fall, but we won't panic if we don't."

Promotionally, Q106's "Rock the Vote" campaign, along with a few movie and concert ticket giveaways, has sustained the station. Johnson says, "We've started giving away \$106 an hour with the 'Free Money Song,' as we now feel comfortable enough with the product to market it."

Building Blocks

Q106's staff has been fairly unstable — particularly in mornings.

Z90

to make a change in the music when we pick up on a new buzz, or to drop something that's not happening. In the active world of CHR, the listeners will tell you what's a smash and what's not a smash."

VP/GM Peter Moore left just days before the ratings were released and was replaced by owner Victor Diaz. Just prior to this article, morning man Joe Nasty exited. Afternoon Billy Burke is now paired with Jillian Bennett, who, until recently, worked with Q106 morning man Magic Matt. Midday personality Jacko came from crosstown UC XHRM and has been at Z90 since its beginning. PD Rick Thomas now handles afternoons, and the night staffers — including evening slammer MC Scrappy, APD/late-nighter Gnarly Charlie, and overnigher Dr. Ed — have been with the station for some time.

Into The 'Hoods

According to Thomas, the street-wise knowledge Z90 applies to music also finds its way into the promotional philosophy. "The streets have all the answers, which is why we don't spend much time in the office. We go out to the people, find out all their needs, and give it to them over the air.

"Z90's philosophy is to be street-active and tie into what the listeners are thinking and doing. Thematic weekend giveaways with top-of-mind events work well for us. We recently joined forces with the San Diego Police Department

CHR

Magic Matt on the air. Mornings Q106

Q106's Magic Matt Alan outdoor campaign is larger-than-life.

Magic Matt Alan, last heard doing afternoons at KIIS/Los Angeles, has had some problems adapting to Johnson's requests for a more music-intensive morning show. Now, however, Johnson feels he and Alan are both rowing in the right direction.

Another important staff change took place about when PD Kevin Weatherly announced he was taking the PD post at KROQ/Los Angeles: Longtime MD Michelle San-

great having another programmer in his position." Johnson also praises APD/afternoon Jo Jo Kincaid: "He's provided a lot of information about the city, since he's been with Q106 from the beginning."

"Overall, I'm happy with Q106, and it's getting better every day. We're putting the building blocks of success back in place as quickly as we can."

Bolinger concludes, "Despite everything, we've never not taken care of business — whether it's recruiting or contesting — because of a lack of funding. Q106 is still one of the market's top billers, with more and more of our dollars coming from local advertising. Our sales staff and clients are focusing more on moving product than on the Arbitron numbers. We've had more client success moving people into locations — from Honda to burgers to furniture stores — than those numbers would ever indicate.

"It's incumbent upon our outside sales efforts to tell the young adult story effectively."

Our research tells us Z90 is a very beatable station.
—Tracy Johnson

tosuosso resigned to join RCA. She's been replaced by KQKQ/Omaha PD Tom Gjerdrum. Johnson says, "Tom has really adapted to the market quickly, and he has a firm grasp on the musical vibe. It's

in tackling unemployment issues with localized job fairs. Joe Nasty has worked with SDPD on community cleanup projects to help reduce graffiti. We've also hosted tailgate parties for disadvantaged kids at Jack Murphy Stadium prior to some Padres games.

"Z90 has worked with Channel 10-TV, and we've gone to some of the roughest areas, like Logan Heights, to work with community leaders. Our ongoing 'Stop The Violence' campaign works well because it's real. I personally go down to the 'hood and find out what's on their minds. Low-income people trying to play it straight see drug dealers living large, and it's confusing. We're working to have the authorities put the drug money

homework and deserved to win this summer, but I believe Q106 beat themselves because they saw we were pulling ahead. When you admit you're getting beaten you freak out, and they did. Plus, there's been no transition period between PDs, and Tracy just got there.

"However, I believe you can't play the Heights ['How Do You Talk To An Angel'] into an Arrested Development album cut ['Mr. Wendel']. There's a niche for what they're trying to do, but they're not there yet. Our two stations will pull farther apart in sound in the coming months, and there will be a much clearer choice.

"Our goal is to win round two. When we got the [ratings] news, the programming department was floating on air, but we quickly realized this is just one round out of 15. To sustain our lead, we're going to be more aggressive — and we're counting on Q106 to get more aggressive as well. Whatever happens, we're going to keep everything finely tuned for the next round."

"We cranked up Z90 two years ago with two CD machines from Circuit City on a card table and a small board from the studios, which were at one time in Tijuana.

"With everyone's hard work, we've proven that if you align yourself with the listeners and find out their wants and needs, it will happen. Z90 is proof. What this station means to our listeners in terms of filling a need is something I truly love. I'm more passionate about Z90 than about any other station in my career."

The streets have all the answers, which is why we don't spend much time in the office.
—Rick Thomas

back into the community. Our feeling is that if you put yourself and your station into the hearts of people, they'll never forget you."

War's Not Over

By no means do Thomas and his staff think Q106 is going to roll over and give away years of winning — especially with new PD Tracy Johnson in place. "We did our

PHOENIX PROFILE

Sunny Outshines Format Incumbent

By Mike Kinosian

Languishing as one of Phoenix's five ACs, KPSN (Sunny 97) opted to pull the plug (5/1) in favor of Oldies. The Summer '92 Arbitron results following the switch proved to be as sizzling as the market's famed temperatures: The Bonneville facility displaced crosstown rival KOOL-FM and vaulted to fourth among 25-54s.

"Many people questioned us for making the change," explains PD Joel Grey. "They thought that if we cut KOOL's six share in half, both of us would have threes. That simply was never our philosophy. Looking at the national averages, I thought there would be room for both stations. We didn't cut the Oldies share in half — we added to it."

Pleased with many of KPSN's non-music elements from its AC period, Grey didn't make too many alterations. "We felt we were doing the right things between the songs. We kept our air talent, station identity [Sunny], and community involvement. This is an upbeat 1992 station that happens to play oldies."

"We'll announce that Tommy James & The Shondells are coming to town, but we'll also mention when Bruce Springsteen tickets go on sale — that's something KOOL would never do. All our personalities have Top 40 backgrounds and love the songs we play. Nothing has changed from our day one game plan."

(Editor's note — That plan has been augmented slightly: Legendary programmer/voiceover talent/air personality Charlie Van

Joel Grey

Dyke came aboard last week [10/19] for morning drive duty.)

Mirror Image

According to Grey, KOOL is definitely reacting to the new kid on the block. "All our liners are over there now. From the first day we went on, our slogan was, 'We Only Play Great Oldies;' KOOL's slogan was 'Oldies 94.5.' Now their new billboard campaign is, 'One Great Oldie After Another.'

"From the beginning, part of our strategy was to play two stopsets

and 15 songs in a row every hour after morning drive. Now KOOL says they play 18 songs every hour. I don't want to get into a war on the number of songs that they play because it's a 'quality versus quantity' issue."

Heavy community visibility ranks high on Grey's list. "We beat the streets like crazy. There are tons of opportunities to be out and about with street fairs and festivals — we've been at every one of them. We have three giant balloons that are up everywhere, and we also take out a Beatles soundalike group for free concerts."

Money Madness

During sweeps time, KPSN was busy doling out cash. "We were quiet last month. But in July we did lots of TV and \$10,000 Thursdays," remarks Grey. "We gave away \$97 every 97 minutes (7am-6pm) in August. The guys at KOOL might think we 'bought' the book. We just told the audience what we were doing; when they came over, they liked our product."

Projecting ahead, Grey jokes, "There are still three stations ahead of us [25-54]. Our philosophy is much like Emmis's. [Grey previously programmed Emmis AC WENS/Indianapolis.] We want to win without hurting anybody along the way.

"I only hope our success didn't come too fast. If we can maintain and [finish] flat this fall, I'll be ecstatic."

Keeping A KOOL Head

Station anticipates it'll regain fringe listeners in fall

It's clear to KOOL/Phoenix PD Tom Peake why his Adams Communications outlet was overtaken by Bonneville's KPSN.

"[KPSN] spent lots of money; we did almost nothing whatsoever," he says. "They also did a big on-air cash giveaway and ran a ton of TV, outdoor, and bus boards. But I don't believe they're making the money they need to, and I don't foresee them pouring more money into the station."

Insisting he wasn't disappointed by KOOL's summer showing, Peake notes, "Our performance was better than we thought it would be. For years, we were the only game in town. All of a sudden, a new competitor comes in and brings a great curiosity factor.

"[KPSN] took some of our fringe listeners, but I was very happy that we maintained our core audience. Sunny's 25-54s seem to be mostly within younger [cells]."

War Games

Has KOOL been reacting to the new upstart? Peake says no,

'Downtown' Julie Brown & Tom Peake

thanks primarily to a role-playing seminar conducted by KOOL executives about two months prior to KPSN's format flip. "The scenario was that a new station had come to town and hired KOOL's manage-

ment team," explains Peake. "We tore KOOL apart and discussed how we'd attack it. Then the scenario changed so that KOOL hired us back.

"Upon our return, we instituted all the changes that were brought up. We made slight music changes and were ready for KPSN. After it went on the air, we didn't need to make major changes. We still have the same announcers playing the same songs and the same jingles."

Peake anticipates that KOOL will regain some of its fringe listeners this fall. "People are going to realize that KPSN doesn't have anything special. "[Newly hired KPSN morning man] Charlie Van Dyke has a great voice, but there's really no big attraction there.

"There's no better place than home — and home is KOOL-FM. Our cume was steady, but our TSL went into the toilet. Two Gold stations can survive here, but they both won't be financially successful. This is a one-Oldies-station market."

URBAN CONTEMPORARY

WQUE-FM: Conquering The Crescent City

Jump into double digits nets station format, market ratings crowns

The Summer '92 Arbitron results have given plenty of Urban stations cause for celebration. One of the biggest parties is at WQUE-FM (Q93)/New Orleans. It soared to first place in the market, toppling longtime format rival WYLD-FM.

Q93 hurdled 'YLD with a 9.0-11.1 12+ jump, while WYLD's 9.6-8.7 slide left it in third place overall. A third Urban station, SMN Touch affiliate KMEZ, placed fifth (tied with AC WLMG), scoring a 6.8.

Pure Personality

WQUE PD Gerard Stevens, officially elevated from the station's interim PD post five months ago, attributes the gain in his first full book to the way Q93 reflects the city's attitude. "A number of stations here have forgotten that New Orleans radio personalities aren't famous. They're regular people — just like the listeners. If you can have your people out there with the listeners, touching those people every day, they're going to listen because they know you as a friend.

"Those things have to be remembered, especially in Urban radio. Urban radio was built on personalities and being part of the community. Without personalities, you

Gerard Stevens

don't have much of anything. You can give away the world. But if you don't have personalities, people aren't interested in you. These people want to be a part of you."

Stevens has been living in New Orleans for three years. "Since I've been here, I've learned that most of the people here know each

“

The city is unique, the people are unique, and the food is unique. So the music has to be unique.

”

other personally. It's like a neighborhood — everybody knows everybody. It's nice. Our strongest point is touching the community. That means working with the people at all times. For example, we're always part of the weeklong Treme' Housing Project Festival, dedicated to cleaning up the area. The reason for the festival is obvious — the large amount of crime in the area, including drive-by shootings and other things. We go out

there every year because we want them to know we're trying to help any way we can. We want them to know we're loyal to them, just as they're loyal to us.

"We're also involved with a number of civic organizations. Because Louisiana and New Orleans in particular are places with high unemployment, we regularly work with the NAACP and other organizations to put on job fairs. People need work, and if we can put businesses together with potential employees, that's a positive contribution. Some of the participating businesses are Marine Drilling, Pepsico, and the FAA. We even have our own booth."

UniQUE Market

Customizing Q93's formatics and music mix to the city also contributed a great deal toward the ratings triumph. Stevens says, "There are heritage things indigenous only to New Orleans. The city is unique, the people are unique, and the food is unique. So the music has to be unique."

Stevens describes the station as "music-intensive; the music only stops twice an hour, and we try not to have more than eight commer-

Q93 air personalities do the party thing at the Tangipahoa Black Heritage Festival. Pictured (l-r): DJ Ro, A.D. Berry, Davey D., and Uptown Angela.

The winners of the Q93 Coca-Cola 3-On-3 Basketball Competition celebrate their victory.

“

Urban radio was built on personalities and being part of the community. Without personalities . . . people aren't interested in you.

”

Stevens also makes it a point for 'QUE to be a part of its listeners' daily lifestyles. "We do things daily in the community. Every day, we do what we call 'Street Hits.' We take our van and some personalities out to meet people and give away prizes. They give away things like T-shirts and music — T-shirts are a big thing here."

Team Effort

Some programmers enjoy personally taking credit for their stations' success; Stevens is not one of them. "Since the book came out, I've had calls from a number of people saying, 'You did it, you won.' I haven't done a thing. I take no credit for our positive movement. You're only as good as the people you surround yourself with. What we have here is a team of people all working together to accomplish a goal.

"When it comes to my airstaff, I'm privileged to have a group of people that believes in what we're trying to do and what this radio station is about. The fact that they believe in the format and our approach is what's important — if they believe, they'll give their all."

cial minutes per hour. The people basically are listening for their favorite songs, and that's all we play — the hits."

After surveying the market, Stevens decided to counter-program against his competition in evenings. He explains, "WYLD was doing its 'Quiet Storm,' we were doing 'Slow Moods' and all kinds of ballads, and KMEZ (the Touch) came into the market doing its version. Everyone wants the older adult crowd, and they think that's the type of programming that'll bring them in.

"So with three competitors doing the same thing, I said, 'Let's get out of this race. Let them fight it out — we'll set ourselves apart by doing something different.' Now in early evenings, we stick to our regular programming, then do our 'All Request & Dedication Party' from 10pm-midnight Monday-Thursday with A.D. Berry.

"On Friday and Saturday nights, we do mix shows with DJ Ro and Uptown Angela. Angela's a native of New Orleans — from the Uptown section, of course. Personalities are part of our station's persona in this city."

Just Say Mo'

According to Stevens, 'QUE's summer surge wasn't precipitated by a major increase in promotional activity. He says it was merely business as usual. "We were consistent with our music and the other things we normally do. Over the summer, we did a 'Mo' Money' movie promotion and everything has continued to be 'Mo' Money'. Our 'Mo' Money Jam' is an ongoing money giveaway whereby the ninth caller knowing the correct song wins \$93 every 93 minutes. That's been an attention-getter for us this summer."

AOR.

ALBUM ORIENTED ROCK

WHJY's Divine Providence

Griffin rocker soars 8.1-9.9, cops 12+ crown again

Back in the format's 12-24 days, it wasn't unusual for an AOR to finish No. 1 12+. But the huge teen numbers that helped inflate rock radio's ratings are, for the most part, history. That's what makes WHJY/Providence's recent success especially noteworthy.

The Merv Griffin outlet improved 8.1-9.9 in the Summer '92 Arbitron, making it Providence's No. 1 station for the fourth time in the past six books. Unlike once-dominant CHR rival WPRO-FM, which routinely used to hit double digits, 'HJY has achieved its lofty ratings without the benefit of significant teen numbers.

"The last figures I heard had us with a 5% teen composition [it's actually 8%], which makes this accomplishment particularly satisfying," reports PD Bill Weston. He's quick to point out, however, that 'HJY does not ignore younger listeners.

"We target 18-34. As much as everybody says, '25-54 — that's where the money is,' I have a GM who knows that if you are dominant 18-34, you'll do just fine 25-54." ('HJY did more than "just fine" in the summer book — the station was No. 1 in 25-54 adults.)

Rocks 'Harder Than Most'

"HJY has always rocked a little bit harder than most mainstream AORs in the Top 30 markets," Weston continues. "You'll still hear Judas Priest at one in the afternoon and Social Distortion at five. We've always subscribed to the notion that to successfully combat a Classic Rock station, you've got to be tempo-driven. We certainly play more than our fair share of Led Zeppelin and the Rolling Stones, but the harder rock is what drives our radio station.

"We did some perceptual research a couple of years ago that

Bill Weston

showed a change in listener behavior at around age 30. That was the point where listeners started to become much more conservative in their musical tastes.

We target 18-34. As much as everybody says, '25-54 — that's where the money is,' I have a GM who knows that if you are dominant 18-34, you'll do just fine 25-54.

"It's generally assumed that about 20% of your cume is responsible for 80% of your average quarter-hours. So it's very important for those 18-30-year-olds to be satisfied, since they're the ones who have the radio on seven hours a day, as opposed to that 33-year-old guy who's going to listen to you 20 minutes on the way to work and 15 minutes on the way home — and maybe share you with the News/Talk station he's recently found. You've got to cater to the ones who are going to account for the biggest amount of average quarter-hours for your station."

Callout Cited

One new weapon in 'HJY's arsenal is callout research, which the station instituted this year. Weston says he insisted the research be conducted by an outside company.

"I refuse to do it in-house. It's the biggest management headache for a PD, and I feel for those stations that have to do it in-house. Quality control, turnover, trying to get interns to do a professional researcher's job, making sure your statistical base is accurate and up to date — c'mon, it's worth it to pay \$7000 to have one of these companies do it.

"We research 25-34-year-old males exclusively. That's the actionable demo. They decide whether or not a record is working. If a record does well 25-34, I think it will certainly have appeal on the younger end.

"The best thing about callout is that it helps you hold onto hits longer. The Spin Doctors are a good example. 'Little Miss Can't Be Wrong' was the second-best testing record of the 30 tracks we tested last week — 16 weeks after we added it.

"Certain records will never die. After about 18 or 20 weeks you make a gut call and say, 'Let's drop it into hot recurrent and get another track in current.' Sometimes you'll look at a test and go, 'What the hell is going on here?' It just doesn't seem to make any sense. When that happens you've got to go with your gut.

"It all comes down to balance. When I sit down Monday, I look at my research data, SoundScan, airplay charts, and requests — and I use my ears. All of those contribute to music decisions."

Needs Help Breaking Records

Without a direct AOR competitor in the market to worry about, Weston keeps an eye on what 'PRO-FM is up to. "They're definitely my main competitor from a cume standpoint. I look at the crossover records they're playing. And I also look at the MTV playlist.

"That's because it's very difficult for AOR alone to break a record. You need MTV, CHR, and other media to really kick a record in. That's because there are so many choices out there. And I'm not just talking radio choices. I'm talking Nintendo, video, laser discs, Madonna's new book. Unless you're a superstar, you need impressions from other media to get to the top.

"A great example was the Tom Cochrane record. You didn't really see sales and requests until MTV and CHR kicked in. The next thing you know, Cochrane's picture is in the 'Life' section of USA Today. The record took on a second life of its own."

WHJY's hyperactive promotion department helps keep the station top-of-mind. One of 'HJY's biggest annual events is its outdoor concert/fireworks show. Over 20,000 people gathered in Downtown Providence to take in the spectacle.

'HJY prides itself on its efforts to help save the environment. Pictured above is a scene from the station's annual Earth Day concert.

'HJY's hottest summer promotion is its annual Dream Machine giveaway. The lengthy contest, held in conjunction with the New England Institute of Technology, culminates with lucky listeners winning vintage automobiles like the one above.

Despite March's traditionally chilly weather, Spring Break is a big deal in Rhode Island's beach country. 'HJY lures listeners to its day-long promotion with traditional activities such as volleyball, a keg toss, and the requisite wet T-shirt contest.

Record companies, of course, would argue that AOR has trouble breaking records on its own because its rotations are so slow. But Weston says AOR shouldn't be expected to shoulder all the risk inherent in the breaking process.

"AOR is always the format that's gone to first to start a project. For example, I was asked to start playing the Cochrane record late last year. It was weeks or months before MTV and CHR came to the party. Should I have taken all the risk and put it in power without any other media support? No — I played it safe and played the song in medium rotation. When I saw indications of support, I put it into power. And I'll take credit for starting it, too!"

It's very difficult for AOR alone to break a record. You need MTV, CHR, and other media to really kick a record in.

Analyzes Rivals

'HJY has been able to maintain its excellent ratings despite the presence of both a Classic Rocker (WWRX) and a New Rocker (WBRU). "A lot of the classic material we play is similar to 'WRX," Weston says. "But our presentation is much better. We have announcers who make the mortar between the bricks much more entertaining. And our promotion and marketing is also much better. We

It all comes down to balance. When I sit down Monday I look at my research data, SoundScan, airplay charts, and requests — and I use my ears. All of those contribute to music decisions.

win hands-down on all three of those fronts.

"Perhaps if 'WRX was a better station, things would be different. But I'd like to think a better competitor would take our level of expertise up a couple more notches. You're as competitive as you have to be, and once you get to the top, you just battle complacency and try to maintain fresh ideas and exciting radio.

"As for 'BRU, it's run by college kids, so they sound kind of amateurish. But they've got 50,000 watts, and they've got a relatively tight playlist. They take care of a particular niche, and they've actually been doing pretty well recently. But they don't have any effect on us or our musical decisions."

Given the station's recent exploits, it's no surprise Weston is bullish on 'HJY's future. "Our music's on target, our jocks are topical, relatable, and entertaining, and the promotion department has really come into its own. The fact that I have a GM who's an ex-professional rock 'n' roll musician certainly doesn't hurt. He knows what rock radio is all about. All the pieces are in place, and I'm really proud of what we've been able to accomplish."

Analyzing The Format's Playlists

Given this format's musical diversity, it's no surprise stations take wildly varied approaches when it comes to shaping their weekly playlists. The statistics on this page, culled from a recent survey of R&R New Rock reporters, should help to crystallize the similarities and differences among the stations.

Individual Highlights

WHTG/Asbury Park, NJ is the undisputed king of currents, playing a whopping 91 in all. That's 41% longer than the average 54-song playlist. WXRT/Chicago and WRAS/Atlanta are distant runners-up with 75 apiece.

The New Rockers with the shortest lists are KROQ/Los Angeles,

ROCKFILE

- Artist: Alice In Chains
- Track: "Them Bones"
- LP: "Dirt"
- Label: Columbia

● Essentials: Seattle's Alice In Chains formed in 1987. The band's fourth release features a lineup of Layne Staley (vocals), Jerry Cantrell (guitar), Mike Starr (bass), and Sean Kinney (drums). Cantrell, Starr, and Kinney originally formed Alice In Chains. An invitation to play guitar with now-defunct funk-rock band Fuck introduced

Cantrell to vocalist Staley, who joined Alice In Chains after Fuck's demise.

● Artist POV: "If you were to ask each of the members of this band what we're all about, you'd get four completely different answers," says Cantrell.

● Label POV: Columbia Dir./Nat'l Alternative Promotion Todd Bisson says, "Alice is the true definition of a band that promotes itself and gets on the air through sales and requests. I hope this proves that metal is not necessarily a dirty sound."

KDGE (The Edge)/Dallas, WZRH/New Orleans, and WVGO/Richmond. Each operates with fewer than 40 currents each week.

Not surprisingly, the smaller the market, the longer the playlist — although there are certainly exceptions, most notably KRZQ/Reno, with an average playlist containing 46 albums.

The following six stations don't designate a light rotation, owing to higher-than-average minimum rotations: KROQ, KRZQ, KKDJ/Fresno, KEDG (The Edge)/Las Vegas, KNNC/Austin, and KTOZ/Springfield, MO.

When you have a playlist that generally features 90+ albums,

you tend to have quite a few adds each week. Thus it's no shock WHTG averages the most adds per week (10). Available add space at KROQ tends to be the most limited;

the station averages three adds per week.

Please note: Each station's playlist length varies weekly. The numbers below represent averages.

Demo Derby: Format Takes Younger Turn

Katz study reveals youthful boosts in audience composition and TSL

The Katz Radio Group has released its new study on Country format shares and audience characteristics, based on 3490 stations in 263 Arbitron markets surveyed during Spring 1992. The youthful trends emerging during the last couple of years continued this spring: Both audience composition and time spent listening (TSL) percentages increased among the younger age cells.

As you peruse the numbers elsewhere on this page, you'll notice upper-demo declines in both TSL and audience composition. (Ed. note: Programming reasons for these occurrences have been debated here; R&R 4/10 and 5/1.) But remember that numbers in and of themselves can be deceiving.

KRG Sr. VP & Director/Research Gerry Boehme notes, "Recent declines in audience composition among older age cells may be a result of Country adding listeners on the bottom end. We've found the older people are still there; the percentages are just decreasing as the base expands among younger demos." He points to the growing 12+ shares as proof.

Regarding the apparent decline in TSL among older demos, Boehme believes these numbers are affected by several factors. "Remember that TSL figures are based on individual station numbers, while Country shares are market shares. TSL figures may decline because a station's new cumers tend not to listen as long or as faithfully to their new station and because many markets now have multiple Country outlets.

"What's happening to Country [TSL] is exactly what has happened to other formats as they fragment, as competition increases, and as the number of outlets in the format grows. I expect TSL to continue to go down as Country grows and continues to attract new listeners."

FM Stations, Listening By Sex

Spring	% Men	% Women	# Of FM Stations
1992	8	52	377
1991	50	50	310
1990	48	52	329
1989	50	50	311
1988	49	314	
1987	49	51	305
1986	50	50	239

Seven-Year Highs & Lows

So, bearing in mind that numbers can be deceiving, here are some of the trends culled from the Katz information.

In the seven age cells analyzed for FM Country radio listening, two hit seven-year highs (another was a tenth of a share away from its seven-year high) while three experienced seven-year lows. Examining the audience composition numbers, you'll find:

- 12-17: This cell hit a seven-year high, tacking on two shares over Spring '91 figures. The cell hadn't advanced beyond 2.9 since Spring '86 and was at a low 2.0 in 1990. Are teens really discovering Country music? Apparently so.

- 18-24: Country radio broke the 12-share barrier for only the second time in seven years and was one-tenth off the seven-year high. This was the second consecutive up-

swing, coming off 1990's seven-year low.

- 25-34: This cell rebounded from a slight downturn from Spring '90-Spring '91, notching a seven-year high of 22.7. This cell has grown every year since 1988 - except 1990.

Katz notes that 18-24 and 25-34 age-cell composition continued to increase after a small dip in 1990, "indicating the influence of younger, more rock-based country artists."

- 35-44: Country radio hit a seven-year low in this demo. Alarming, at least to me, this cell has decreased every year since 1986, except for last year's lone increase.

- 45-54: Interestingly, this cell grew each year from '86 to a seven-year high in '89, only to decline each of the last three years, hitting yet another seven-year low for the format.

- 55-64: Not surprisingly, this cell is at its seven-year low.

Battle Of The Sexes

A demographic breakdown of male and female listening reveals:

- 25-54: An interesting phenomenon is developing as TSL climbs for the second consecutive week among males, while it declines for the third consecutive week among females. The female TSL in this demo hit a seven-year low, despite the two percent increase in female audience composition.

Katz explains this by noting, "The female decline may actually be influenced by new cume listeners who use Country outlets as alternatives to AC-based formats."

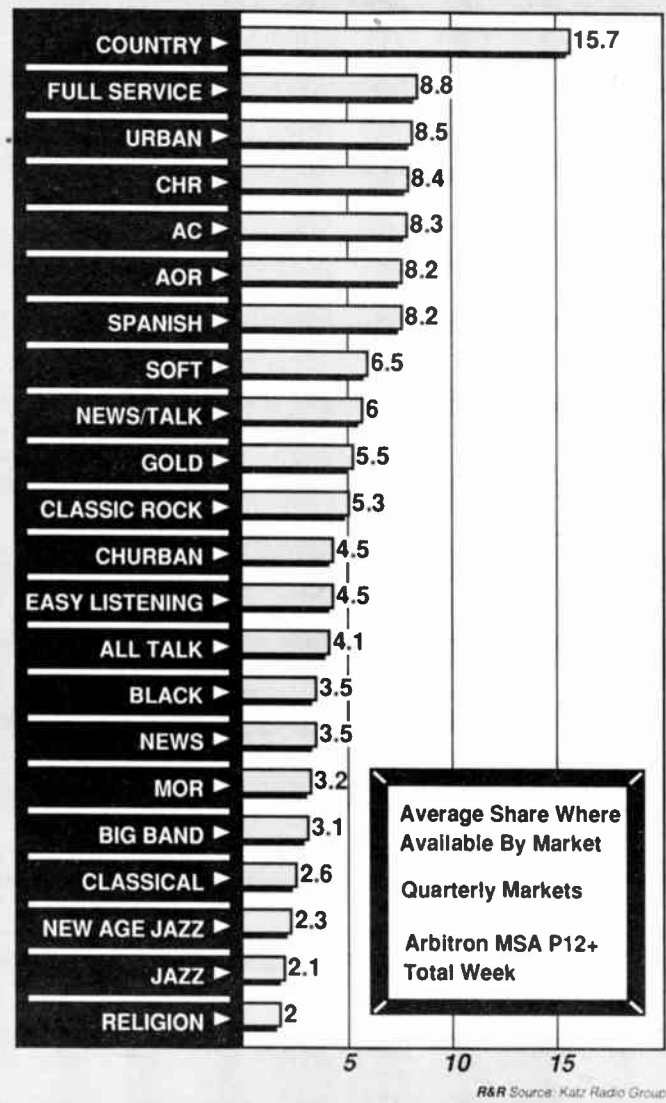

THE ROAD TO REBA — When WCLT/Newark, OH's Michael Jaye took his quest to meet Reba McEntire all the way to Cleveland, destiny brought them together at her concert there.

Country Market Share Leader

The Spring '92 Arbitron ratings for the Continuously Measured Markets, as assembled by Katz Radio Group — which splits AC into three separate formats — shows Country leading the format pack by almost a two-to-one margin.

Here are the average market format shares.

12+ AQH Share

Average Share Where Available By Market
Quarterly Markets
Arbitron MSA P12+ Total Week

- 25-34: Rising TSL levels among both sexes is good news here. Though still below the highs set in 1986, perhaps the increases are coming because new cumers over the last couple of years spend more time with a Country outlet they've recently discovered and less time with their old favorite.

- 35-44: Male TSL has bounced around the last few years, but female listening suffered its second decline. Perhaps most disturbing is the loss of an hour and nine min-

utes per week during the last two years.

- 45-54: A definite downtrend here: TSL for both sexes sustained losses for the third straight week, with male TSL clocking a seven-year low and female TSL at its lowest point since 1986.

- 55-64: TSL for women hit a seven-year low, while male listening continued its odd tendency to add or drop an hour every other year.

DRIVE TIME

A Petty Country Farewell

Alabama and Joe Diffie are scheduled to perform at a special tribute to racing master Richard Petty at Atlanta's Georgiadome November 14, the day before Petty's final race.

The concert will be telecast by TNN and simulcast by Capitol Radio Network to over 200 radio stations nationwide. Alabama's latest LP, "American Pride," features a tribute to Petty called "Richard Petty Fans." The song was adapted by Randy Owen, Teddy Gentry, Greg Fowler, and John Jarrard from an earlier Alabama tune, "The Fans."

Gifted And Giving

Joe Diffie, Exile, Mike Reid, and several others are scheduled to

perform at the "Country Steps In For First Steps" concert December 8. The show will benefit the First Steps program at Nashville's Duncanwood School, a school for children with disabilities. (Both Diffie's son Tyler, who has Down's Syndrome, and the one-year-old daughter of Exile's Mark Jones, who has cerebral palsy, attend Duncanwood.) The WSM/Nashville-sponsored concert will be held at the Grand Ole Opry House, and tickets will be available November 6 at all Ticketmaster locations.

LEAP OF FAITH — Maypop Music writer John Jarrard recently rappelled down the side of ASCAP's new Nashville offices to raise money for the Tennessee School For The Blind's music program. (Jarrard himself is blind.) Pictured at the event are (l-r) Nashville Songwriters Assn. International President Richard Leigh, NSAI Exec. Director Pat Rogers, Maypop VP/GM Kevin Lamb, Jarrard, ASCAP Southern Exec. Director Connie Bradley, and Maypop Director/Creative Services Cliff Williamson.

Gibson Miller Band

NEW ARTIST FACT FILE

Current Single: "Big Heart"

Current Album/Label: "Where There's Smoke"/Epic

Manager: Stan Mores

Producer: Doug Johnson

Background

The Gibson Miller Band actually came together as the result of a brainstorm by Epic/Nashville A&R VP Doug Johnson, who had met members Dave Gibson and Blue Miller separately and been impressed with the talents of both.

Born in Arkansas and raised in Texas, Gibson had made his way to Nashville via Chicago. He played in bands there during the mid-'70s, but decided to head to Nashville in 1982. Within 7 months of moving to Music City, Gibson wrote "Midnight Fire," a hit for Steve Wariner. He would later pen a string of hits, including "Heart Trouble," "If It Don't Come Easy," and "Ships That Don't Come In."

Miller played in bands in his native Detroit for years before landing a background vocal gig on a Bob Seger album; that opportunity led to a stint in Seger's road band. "I was in the band right between the Bob Seger System and what became the Silver Bullet Band," Miller remembers. He later moved to Florida, where he played for several years before traveling to Atlanta at the bidding of Bill Lowery, who owned the Southern Tracks studio there. It was there that Miller met Johnson, who was then an engineer. Traveling back and forth between Atlanta and Chicago doing jingle work, he eventually moved to Nashville to pursue a country deal.

Signing

After bumping into Miller one day in Nashville, Johnson introduced him to Gibson and encouraged them to try their hand at writing together. "We wrote the chorus of this song, 'An Offer Her Heart Can't Refuse,' but I had to leave because it was late," said

Gibson Miller Band

Gibson. "I got a call from Blue the next day saying he went ahead and wrote all the verses. I was worried — not knowing how it would sound — but when I heard it, I couldn't believe it. We have this ability to kind of get into each other's heads when it comes to music."

Johnson was thrilled with the result. He told the two if they assembled a band they'd have a recording deal. They eventually recruited bassist Bryan Grassmeyer, drummer Steve Grossman, and steel player Mike Darty.

Songs

Miller feels the band's debut LP offers something for everyone. "There's edgy stuff like our single 'Big Heart,' ballads like 'An Offer Her Heart Can't Refuse,' upswing numbers like 'Texas Tattoo,' and even some Eagles-style tunes like 'High Rollin'."

Their next LP will contain a song penned by Miller and his wife called "What Are You Waiting For." The tune was recorded by Engelbert Humperdinck for a European album which sold nearly a million records.

• Conway Twitty, George Jones, Vince Gill, and Vern Gosdin donated their time and talent November 5 for a benefit at the Grand Ole Opry House for the 100 Plus Club of Hendersonville, an organization for families of policemen and firemen killed in the line of duty. Over the last 10 years, Twitty has donated over \$275,000 to 100 Plus through his annual "Christmas At Twitty City" event. Proceeds from this year's show also went to Christmas For Kids, a project organized by Professional Drivers For Entertainers, which provides underprivileged children with a Christmas shopping spree.

Country Banquet

A cassette featuring 11 of country's rising artists will soon be available to anyone buying Banquet frozen food items across the country. Tracy Byrd, Darryl & Don Ellis, Cleve Francis, Little Texas, Martina McBride, Neal McCoy, Tim Mensy, Ronna Reeves, Mike Reid, the Remingtons, and Michelle Wright will appear on "Country Music's Rising Stars," a compilation to be offered on select Banquet products as of November 15.

The CMA is co-sponsoring the promotion, which is expected to reach 50 million households. Consumers who receive the tape can "vote" for their favorite artists by calling a telephone number, and the winning artist will be featured in *Country America* magazine.

Music Memo

Radney Foster, who's currently on the charts with "Just Call Me Lonesome," also has two other songs on the charts. He co-penned the current Nitty Gritty Dirt Band single, "One Good Love," with NGDB member Jeff Hanna, and collaborated with Mavericks member Raul Malo for that band's latest tune ("I Got You").

• Confederate Railroad's new single, "Queen Of Memphis," was written by Kathy Louvin ("Keep It Between The Lines"), and the Gibson Miller Band's Dave Gibson. Gibson is also on the charts now with the GMB's debut single, "Big Heart," which he wrote with Freddy Weller and bandmate Blue

Miller (see adjacent New Artist Fact File).

• Cee Cee Chapman's latest release, "Two Ships," was also recorded earlier this year by Michael Johnson, who featured it on his self-titled Atlantic/Nashville debut. Hugh Prestwood wrote the song.

Bits & Pieces

Patty Loveless is on the mend after recent throat surgery. Word has it she'll be back in the studio in no time to begin work on her new Epic/Nashville LP. . . Congratulations to both Tanya Tucker and Dolly Parton on their recent platinum albums. This is Parton's first platinum LP since 1986's "Greatest Hits" album. . . John Michael Montgomery's voice will soon be heard on national McDonald's radio jingles. . . Reba McEntire was featured in a recent issue of *Woman's Day* magazine, while Tracy Lawrence will appear in *US's* January listing of artists to watch in 1993.

Recession Remedies

WMXV sales forward with cross-promotions

The economy — the nation's primary water cooler topic — has been the focus of the last two AC columns, examining its effect on station promotions and PD hiring.

This week, two managers share insights on the changing ad sales front.

Advance Preparation

It took awhile, but as WMXV/New York VP/Sales Mike Valentino declares, "The lagging economy has finally hit New York. Compared to last year, the market's barely flat. Overall, the economy's hit bottom. But we still have another three to six months before people decide if they have confidence.

"Stations that prepared for the recession are doing a little better than those who didn't. We're doing fairly well, but this market's fourth quarter will be relatively weak; some other stations here are really hurting."

WMXV was one of those stations that prepared: Three years ago it began pushing new business development techniques.

"Financial magazine articles back then indicated that we would eventually go into a slump," Valentino recalls. "People were warned

Mike Valentino

to be ready, so we started developing cross-promotional ideas with food, business, and manufacturing industries. By doing that, we've been fairly successful and have developed quite a few dollars on that level. We're looking for businesses that haven't used radio, trying to convince them to give us a

shot because radio is effective. We don't do many promotions. Much of our 'value-added' benefits come off-air."

Valentino downplays using agencies to look for new non-traditional ways of developing media dollars. "They don't really know what's going on three to six months down the road," he asserts. "In fact, it's such a scary situation that half of them don't know if they're going to be in business."

Stations searching for new sources of ad dollars must exercise patience. "Unfortunately, many GMs and sales managers create new business development departments and expect to generate a million dollars overnight," Valentino remarks. "You have to make relationships on certain levels with manufacturers — and that takes time."

Satisfying Skeptics

On the streets, WMXV AEs approach their jobs like marketing consultants. "We talk about other stations and how they might be able to benefit certain clients," Valentino notes. "Rather than downgrade a competitor and praise our station, we try to come up with a marketing plan that will help generate sales.

"Advertisers are skeptical about media people because [they end up talking] to 45 people all telling

Promotional Roundup

KLTR/Houston and crosstown KHOU-TV's "Spirit of Texas Blood Drive" netted more than 800 units of blood for the city's Blood Center.

- **WMMO/Orlando's** free Tuesday night Church Street "Unplugged" concerts included performances by Kansas, Al Stewart, Arlo Guthrie, Donovan, and Survivor.

- **Easter Seals** benefited from KSSK/Honolulu's "Taste Of Honolulu." Those attending sampled food from over 35 participating restaurants.

- **WSNY/Columbus** gave away \$15,000 in the station's "Free Money Birthday Game."

- For the third straight year, **KMJI/Denver** featured "haute couture" with its Canine Costume Contest.

- **WYAV/Myrtle Beach, SC** celebrated its eighth birthday with a Halloween costume party.

- **KIDX/Billings, MT** PD Jack Bell raised \$5000 for Big Brothers & Big Sisters of America by sitting atop a local billboard for 100 hours.

New Ways To Roll In The Dough

KAAK 'food fight' generates dollars, helps community

Big Sky country is a far cry from the Big Apple, but much like his major market counterparts, KAAK/Great Falls, MT GM Roger Gelder must also invent creative ways to generate ad dollars.

Eight people sell KAAK advertising locally, including one concentrating on new business development. "We just concluded a 'food fight' between two of my announcers to see who could raise the most food for our local food bank," Gelder remarks. "The loser had to serve pizza at a listener's home. We tied in a pizza house and were able to make money from this promotion.

"There aren't many new sources of revenue in this size market [Arbitron #258], so you have to go out and be seen. First and foremost, however, we look for ways to help the community."

Oh, Canada

In spite of the national recession, two market conditions give Gelder somewhat of an upper hand. For the past 50 years, the local Air Force base has pumped money into the economy. In addition, Great Falls is situated approximately 130

them they're number one. It takes lots of time, but when you understand your client's business, you'll have something he wants to hear. We want to be experts and speak

intelligently to advertisers about their business. It means absolutely nothing to advertisers when radi people tell clients we have 10 GRPs to sell them."

Roger Gelder

miles from the Canadian border (Alberta). According to Gelder, Canadian trade can account for a significant portion of a local merchant's income.

"There's a high tax system in Canada on goods and services," Gelder explains. "Canadians come here on weekends, stay at a hotel, buy food, gas, and merchandise,

and still save money. It's tough finding motel rooms here on week-ends. As much as 40% of a client's business comes from Canadians. And I hear lots of good news when I talk to mom and pop merchants."

Ultimate Remote

KAAK maintains an active remote schedule, particularly during the summer. "We're booked every weekend," Gelder boasts. "[The remotes] really seem to do well for both us and the client. Retailers ultimately make the decision about whether remotes work. If their cash registers weren't ringing they'd stop buying our product. But our remotes continue being a hot property."

The greatest utilizer of KAAK remotes is the restaurant/bar/casino. "We've done 'Ultimate Cowboy' and 'Ultimate Cowgirl' contests," Gelder notes. "One day a week over six consecutive weeks, we do remotes from a local bar where contestants vie for that honor. These remotes have done exceedingly well. There are lots of cowboys here, but they like listening to stations other than Country."

In This Life

For all I'd been blessed with in this life
There was an emptiness in me
I was imprisoned by the power of gold
With one honest touch you set me free

Let the world stop turning
Let the sun stop burning
Let them tell me love's not worth
going through
If it all falls apart
I will know deep in my heart
The only dream that mattered
had come true
In this life I was loved by you

For every mountain I have climbed
Every raging river crossed
You were the treasure that I
longed to find
Without your love I would be lost

Let the world stop turning
Let the sun stop burning
Let them tell me love's not worth
going through
If it all falls apart
I will know deep in my heart
The only dream that mattered
had come true
In this life I was loved by you
In this life I was loved by you

KEVYN LETTAU

simple life

An exhilarating blend of styles and moods.

NAC CHART 19

"Keikyn Lettau possesses a clarity and brilliance that comes along far too infrequently. ... Keikyn is just a step away from super stardom!"
Lawrence Tanter, Jazz FM, Los Angeles

"Keikyn Lettau is one of a kind! This new collection of songs showcases the broad range of her style and talent. "Simple Life" is already a top seller in Japan and it's in HEAVY rotation on Tokyo's #1 FM station, J. Wave."
Frank Cody, Cody/Leach Broadcast Arch.

Produced by Michael Shapiro and Marcel East. Mixed by Moogie Canazio.

New artists have not yet had a Country Breaker or concurrent airplay from 60% of reporting stations.

MOST ADDED & HOTTEST list the most added songs nationally, and the songs reported "hottest" compiled from all our reporters. The number in parentheses immediately following the songs in Most Added & Hottest indicates the total number of Country reporters adding the song this week or noting that the song is among their five hottest.

BREAKERS

Breakers are those records that have achieved concurrent airplay at 60% of our reporting stations. New & Active records are those receiving airplay at 30-59% of the stations. Records in Significant Action are receiving airplay at 5-29% of the stations. Records do not have to reach Breaker in order to chart.

Songs in New & Active have been reported by at least 50 CHR reporters in the current week. Songs in Significant Action have been reported by 10 or more CHR reporters but fewer than 50. Below the "artist/title (label)" designation, following the word Reports, is the total number of stations reporting the song this week. Moves are designated as Up (upward chart movement), Same (same chart position as last week or continued uncharted airplay), and Down (downward chart movement). Finally, following the word Adds, the total number of stations adding the record this week is listed, followed by a sampling of individual station activity on the song. Complete airplay activity can be found in the Parallels.

Breakers have achieved 60% CHR airplay for the first time. Records not yet achieving Breaker status may accumulate sufficient chart points from high chart positions on stations reporting them to debut on the CHR National Airplay/40.

CHR Rotation Criteria
• Fulltime Adds and/or Ons: four plays in a 24-hour period, three of them before midnight.
• Dayparted Adds and/or Ons: one-two plays in a 24-hour period, both before midnight.

Breakouts are records not included in the regional Most Added listings that are receiving concentrated regional airplay. They have fewer than 50 reports nationally but have five or more adds in the region listed.
