SAFETY TIPS

- Use of wireless hands-free system (headphone, headset) with a low power Bluetooth emitter.
- Make sure the cell phone has a low SAR. The highest SAR value for this mobile phone is < 1.6 W/Kg, in accordance with the requirements of the ICNIRP, which recommended the limit for exposure to radio waves is 1.6 watts/kilogram (W/kg) averaged over 1 gram of tissue. For more information, please visit (website) to query.
- Keep your calls short or send a text message (SMS) instead. This advice applies especially to children, adolescents and pregnant women.
- Use cell phone when the signal quality is good.
- People having active medical implants should preferably keep the cell phone at least 15 cm away from the implant.

Warning

Please read the concise rules. The breach of the rules may result in danger or violation of law.

1 Safety information

1.1 Traffic safety first

Please use the mobile phone carefully when you drive a car. Park your car at roadside and then use the mobile phone if the driving condition is bad.

1.2 Turn off in hospital

Please abide by relevant provisions or regulations. Please turn off your mobile phone near medical equipment.

1.3 Turn off in airplane

Wireless equipment has disturbance to the airplane, so the use of the mobile phone in airplane is dangerous and illegal.

1.4 Turn off when refueling

Please don't use the mobile phone in gas station or near fuels or chemicals.

1.5 Turn off near blasting sites

Don't use the mobile phone in blasting sites. Please observe relevant restrictions and carry out rules or regulations.

2 Cautions on mobile phone use

2.1 Interference

All phones may be interfered, which affect phone calls.

2.2 Reasonable use

Use only in the normal position. Do not touch the antenna area unnecessarily.

2.3 Qualified maintenance service

Only qualified personnel may install or repair this product.

2.4 Water-resistance

Your device is not water resistant. Keep it dry.

2.5 Emergency calls

Ensure the phone is switched on and in service. Enter the emergency number and press the Dial icon.

3 Precautions for use of battery

- 3.1 Do not dispose of batteries near or in a fire to avoid dangers.
- 3.2 Do not dispose of batteries in the garbage. Dispose of batteries to assigned battery recycling center.

4 Cautions for children

Keep your device out the reach of children in case of accidental injury caused by incorrect use of the device as toys.

Appearance

➤ **Volume Up/Down key**

Press Volume key to change the volume

➤ **Power On/Off Key**

Short press on the Power key shall lock the screen and a long press on the Power key shall switch on/off the device.

Start to use

1 Insert SIM card

The phone is a Dual SIM mobile phone allowing you to use the facility of two networks.

To insert SIM card(s):

1. Switch off the mobile phone and remove the rear cover.
2. Insert the SIM card correctly in the card slot(s).
3. Finally replace the rear cover of the mobile phone.

Note: SIM card support Micro SIM which is a new kind of SIM for you. You can get it from operator or ask for changing a Micro SIM in a mobile shop.

2 Insert Memory card

1. Power off the mobile phone and remove the rear cover.
2. Insert the Micro SD card into the slot.
3. Finally replace the rear cover of the mobile phone.

Note: Use only compatible memory cards for use with this device. Incompatible memory cards may damage the card or the device and corrupt the data stored in the card.

3 Charge the battery

During charging, the battery indicator on the phone is a thunder icon. If the device is switched off during charging, there will still be a charging indication on the screen that shows the phone is being charged. If the device is overused --when the battery is low, the charging icon might take some time to appear.

When the battery indicator on the screen says 'charged', thunder icon will disappear, which means the completion of charging. During charging, the battery, the device and the charger will get hot. This is

Normal. Unplug the charger from the AC electrical outlet and disconnect the wiring between the phone and the charger after charging. .

Cautions: Charge the phone in a well ventilated place in which the temperature is between -10°C to +60°C. Use the charger provided by the manufacturer only. The use of unconfirmed charger may lead to dangers and violate the manufacturer's warranty clause. If the temperature is too high or too low during charging, the device will automatically send a warning and stop charging to avoid damage to the battery or any danger.

Basic functions

1 Lock and unlock the screen

Press power button to enter sleep mode and meanwhile the screen will be locked; press power button again to wake up and then drag up to unlock.

2 Make it yours

1. Home screen: It is your starting point to access all the features on your phone. It displays application icons, widgets, shortcuts, and other features.

2. Notification Bar: At the top of the screen, the Status Bar displays the time, status, and notifications. If there is a new message, missed call or something in the notification bar, you can drag it down to open notification panel and click the desired one to have a view. When you finished, you can close it by dragging the panel up or pressing "Back".

3 Add Widgets and more icons to Home Screen

Long press blank place on home screen, and then you can modify Wallpaper.

Long press and hold the widget or icon you want to move. Don't release your finger on the icon. Drag the widget or icon to a new location on the screen. Press and hold on an icon and drag the widgets or icon to the trash to remove.

4 Enter Launcher

4.1 Open and Switch Applications

At idle screen touch  enter launcher.

The Launcher holds icons for all of the applications on your phone, including any application that you downloaded on Google Play or other sources.

Scroll the Launcher Up to Down to bring more icons

Touch an application to open it

Press Home icon or Back icon to close the Launcher.

4.2 Switch to Recently Used Application

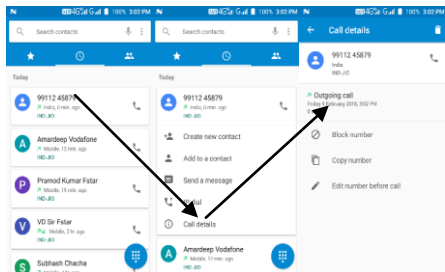

Press Menu key and touch used application interface, then you can back to recent used application.

5 Make a call

Choose  and enter a complete phone number to make a call. Your phone supports smart search.
