OZONE CREATES CLEANER, SAFER, CLEARER WATER

Ozone is much more powerful than chlorine and other sanitizers. In ozone systems, the ozone molecules react with dissolved, waterborne contaminants in a series of strong oxidation reactions. (The only residential sanitizer more powerful than ozone is AOP.) Del Ozone Spa is a high-end, modern ozone product for spas. Compact, completely self-contained and easy to install.

PRODUCT DETAILS

- Ozone Sanitizer for Spas up to 2,500 Gallon
- Extreme Compact Size: Only 2.6" × 3.3", 0.6lbs
- Universal 120/220V, 50/60Hz
- Adjustable Ozone Output, 50mg/hr Standard
- Solid State Electronics

SAFER WATER: Ozone is a powerful oxidizer, which destroys dangerous organisms and pathogens.

CRYSTAL CLEAR: Contaminants are destroyed and filtration is enhanced resulting in pure, polished water.

FEWER CHEMICALS: The oxidation process reduces the amount of chlorine needed to maintain a safe residual level.

NO CHLORAMINES: By breaking apart chloramines, the bad chlorine smell, itching and irritation is prevented.

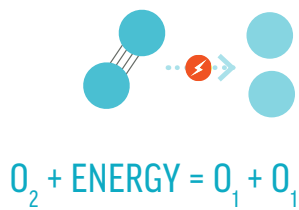

SPECIFICATIONS

APPLICATION	UP TO 1,000 GALLONS
ELECTRICAL	120/ 240 VAC UNIVERSAL 38 WATTS
STANDARD AIR FLOW	15 SCFH
OZONE OUTPUT (NOMINAL)	50 MG/HR
MOUNTING	WALL
DIMENSIONS	2.6" H × 3.3" W × 1.3" D
WEIGHT	0.6 LBS
CERTIFICATIONS	cRUus, TUV, CE

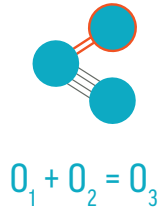

THE SCIENCE OF OZONE

Unlike the Oxygen we breathe (O₂), Ozone is a powerful oxidant made of three oxygen atoms (O₃). The third oxygen atom in Ozone has a weak bond, which breaks off and destroys foreign bodies in the water. Ozone can safely kill pathogens, microorganisms and both organic and inorganic contaminants through oxidation.

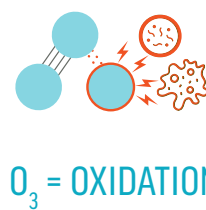

Essentially, this is a natural way to keep a spa clean and clear that is much more powerful than chemical systems alone.

Energy created in the patented APG cell splits molecular oxygen (O₂) into atomic oxygen (O₁)

The single oxygen atoms form a weak bond with free oxygen molecules to create ozone (O₃)

Once ozone contacts contaminants, the weak bond is broken, and the free oxygen atom destroys the foreign bodies & contaminants.

DESIGNING A SAFE, MODERN SPA

Chlorine and other chemicals can keep water actively safe even when the pump is off. By allowing AOP to work at quickly oxidizing organic and inorganic compounds, chlorine is free to work better.

- AOP breaks down chloramines
- Reduces overall chemical demand by more than 50%
- Removes oils, reduces unpleasant odors
- Chlorine and AOP work together to make a better, safer pool

ORDERING GUIDE

CMP P/N	DESCRIPTION	POWER RATING
51002-002-102	DEL OZONE SPA, AMP PLUG, 1/8" × 3/8" CHECK VALVE	UNIVERSAL 120/240V, 50-60Hz
51002-012-101	DEL OZONE SPA, PIGGY BACK PLUG, 1/8" × 1/4" CHECK VALVE	UNIVERSAL 120/240V, 50-60Hz
51002-022-101	DEL OZONE SPA, MINI J&J PLUG, 1/8" × 1/4" CHECK VALVE	UNIVERSAL 120/240V, 50-60Hz
51002-082-101	DEL OZONE SPA, 240 INLINK PLUG, 1/8" × 1/4" CHECK VALVE	UNIVERSAL 120/240V, 50-60Hz
51002-140-101	DEL OZONE SPA, FLYING LEAD, 1/8" × 1/4" CHECK VALVE	UNIVERSAL 120/240V, 50-60Hz
51001-001-101	DEL OZONE SPA, AMP PLUG, 1/8" × 1/4" CHECK VALVE	240V, 50-60Hz
51001-021-101	DEL OZONE SPA, MINI J&J PLUG, 1/8" × 1/4" CHECK VALVE	240V, 50-60Hz
51001-081-101	DEL OZONE SPA, 240 INLINK PLUG, 1/8" × 1/4" CHECK VALVE	240V, 50-60Hz
51001-141-101	DEL OZONE SPA, FLYING LEAD, 1/8" × 1/4" CHECK VALVE	240V, 50-60Hz

DEL Ozone Spa previously sold as UO3, BO3.
