1.3 800 SERVICE (TOLL FREE)

1. Service Description

Toll-Free Service is an inbound service originating on feature group facilities, which terminate on a Business Line. This service enables the Customer to receive toll-free calls at their place of business.

- A) The Company reserves the right to require an applicant for Toll-Free Service to supply the following information when requesting service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company may also require that the Customer submit a new traffic forecast quarterly after service is initiated.
- B) The Company's Toll-Free Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effects upon it or any service rendered by the Company. The Company may terminate or refuse to furnish the Company's Toll-Free Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.

(L) Material relocated to Page 27, Obsolete Services.

1. SERVICE OFFERINGS (CONTINUED)

1.3 800 SERVICE (TOLL FREE) (CONTINUED)

1. Service Description (continued)
- C) The Customer must obtain an adequate number of access lines for Company Toll-Free Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: (1) total call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling period. The Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish Company Toll-Free Service to any Customer that fails to comply with these conditions.
- D) If the Customer requests assignment of a specific Toll-Free Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than ten (10) numbers reserved. Any reservation shall be for no more than fifteen (15) days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after the Company's Toll-Free Service has been in actual and substantial use for a consecutive sixty (60) day period.
- E) Use of numbers: Each Company Toll-Free Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any toll-free telephone number associated with the Company's Toll-Free Service that has not been placed in actual and substantial use during the first sixty (60) day period after service activation may be recovered upon written notice to the Customer. Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved toll-free telephone numbers hereunder or Customers who subscribe to and use the Company's Toll-Free Service or their transferee or assigns, any ownership interest or proprietary right in any particular toll-free number; however, upon placing a number actually and substantially in use, as defined above, the Company's Toll-Free Service Customers do have a controlling interest in this toll-free number(s). The Company Toll-Free Service Customers may retain the use of their toll-free number assignments, even following changes in their toll-free carrier and/or Responsible Organization.

1. SERVICE OFFERINGS (CONTINUED)

1.3 800 SERVICE (TOLL FREE) (CONTINUED)

1. Service Description (continued)

F) If a Customer places an order for the Company to carry Customer's already existing toll-free number service, the Customer shall provide to Company the contact names, telephone number and address of the Customer's Responsible Organization (Resp. Org.). Upon subscription to the Company's Toll-Free Service, the Customer may execute a Letter of Authorization to transfer Resp. Org. responsibility of its toll-free number(s) to the Company's Resp. Org. If the Customer elects to retain a non-Company Resp. Org., the Customer must notify the Company of any changes in the Customer's Resp. Org. in writing within 48 hours of the change. The Customer is responsible for all outstanding indebtedness for services provided by a previous Resp. Org. or toll-free service carrier. The Company assumes no responsibility or liability with respect to any obligations of Customer to such previous service providers existing at the time of transfer to Company.

G) Subject to execution of a Resp. Org. Service Agreement between the Company and the Customer, the Company Resp. Org. will perform the function of Resp. Org. for all Company Toll-Free Service orders unless the Customer requests another Resp. Org. The Company's Resp. Org. functions include 1) search for and reservation of toll-free numbers in the SMS/800; 2) creating and maintaining the toll-free number Customer record in the SMS/800; and 3) provision of a single point of contact for trouble reporting.

(1) Where the Company serves as the Resp. Org. for a Company Toll-Free Service Customer, the Company will, at the Customer's request, subscribe to Toll-Free Directory Listing for the toll-free number(s) assigned to the Customer. A charge for Toll-Free Directory Listings will apply as set forth in this Tariff. In the event that a Customer transfers its toll-free service to another Resp. Org., the Company shall cease to subscribe to Toll-Free Directory Listing Service on behalf of the Customer and the Customer is responsible for assuring that Toll-Free Directory Listing Service is maintained through the new Resp. Org. Customer is responsible for payment of any outstanding Toll-Free Directory Listing charges, including any unexpired portion of any minimum period applicable to such services, and the Company shall have no liability for any interruption or other delay, error, mistake, omission or other defect occurring in connection with the transfer of Toll-Free Directory Listing responsibility.

1. SERVICE OFFERINGS (CONTINUED)

1.3 800 SERVICE (TOLL FREE) (CONTINUED)

1. Service Description (continued)

(2) Where the Company serves as the Resp. Org. for a Company Toll-Free Service Customer, it will, at the Customer's request, subscribe to Vertical Features obtained from Local Exchange Company access tariffs. When a Company Toll-Free Service Customer uses Vertical Features obtained by Company from Local Exchange Company tariffs, a charge will apply. This charge may not be counted toward the attainment of any volume or revenue commitment and will not be discounted.

(3) In the event that a Customer cancels its Company Toll-Free Service, the Customer may elect to retain the Company as its Resp. Org. Where the Company serves as Resp. Org. for a non-Company Toll-Free Service Customer, a charge for Resp. Org. Service will apply as set forth in this Tariff.

(4) In the event that a Customer cancels its Company Resp. Org. or Toll-Free Service, the Customer shall be responsible for all outstanding indebtedness to the Company and any outstanding charges applicable to any services obtained by or on behalf of the Customer by Company.

H) It is the Customer's responsibility to provide answer supervision back to the Company point of connection even when the Company Toll-Free Service is connected to switching equipment or a Customer-provided communications system. In such case, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon delivery of the call to the Customer's switching equipment or communications system and ends upon termination of the call.

1. SERVICE OFFERINGS (CONTINUED)

1.3 800 SERVICE (TOLL FREE) (CONTINUED)

1. Service Description (continued)

l) In accordance with FCC regulations, ANI shall only be used for billing and collection, routing, screening, and completion of the originating subscriber's call or transaction or for service directly related to the originating subscriber's call or transaction.

The ANI shall not be reused or resold without first notifying the originating telephone subscriber and obtaining affirmative consent of the subscriber for reuse or resale.

Unless the originating subscriber has given consent for the reuse or resale, any information provided shall not be used for any purpose other than:

- performing the services or transactions that are subject of the originating subscriber's call;
- ensuring network performance security, and the effectiveness of call delivery;
- compiling, using and disclosing aggregate information; and
- complying with applicable laws.

2. Toll Free Service Termination

Customers who terminate service prior to the end of the selected service term, but after expiration of the 30- (T)
day right of rescission period pursuant to GO 168 Rule 3(f), will be liable for a cancellation charge which shall (T)
be calculated as follows: Cox shall re-rate Customer's usage for services provided up to the date of termination
by charging Customer the difference between the monthly rate for the service term selected by Customer and
the rate for service applicable to the longest term plan for service the Customer could have satisfied prior to
discontinuance and multiplying this difference by the number of minutes of service actually provided to
Customer. All per-minute charges for each month shall be at the per-minute charge based on rate associated
with Customer's highest MOU for the month. Cox bills in six-second increments and rounds up to the nearest
six-second increment. If this Call Plan is terminated prior to the expiration of the selected term, or Customer
fails to meet all of the conditions set forth in this tariff, Cox may, at its option: (i) re-rate Customer's usage as
provided in this Section or (ii) charge Customer the standard rates for service under this tariff up to the date of
termination, which ever is greater.

Example: Customer signs a three-year term agreement. At the end of the eleventh month, the Customer
terminates the agreement and transfers the toll-free service to another carrier. All usage to-date would be re-
rated from the three-year term rate to the month-to-month rate.

Example: Customer signs three-year term agreement. At the end of the thirteenth month, the Customer
terminates the agreement and transfers the toll-free service to another carrier. All usage to-date would be re-
rated from the three-year rate and volume to the one-year rate and volume.

5.2 Cox Dedicated LD Solutions

(L)

Cox Dedicated LD Solutions, a one, two or three-year term dedicated long distance call plan, provides eligible Business Customers a competitively priced long distance product for calls terminated in the continental United States. Calls to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. The call plan is available to new and existing customers that choose Cox Local and Cox Long Distance (both PIC and LPIC). All minutes-of-use (MOU) charges will be assessed based on the cumulative dedicated long distance minutes of interstate and intrastate usage, except for toll minutes to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

If the plan is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth in this tariff, Cox shall re-rate Customer's usage for services provided up to the date of termination by charging Customer the (1) difference between the per-minute rate of the term selected by Customer and the per-minute rate associated with the term plan the Customer did satisfy prior to discontinuance and (2) multiplying the difference by the number of minutes of service actually provided to Customer. If service is terminated within the first year of the plan, the default rate of \$.10/minute will apply to re-rate all usage charges up to the termination date.

Calls that originate and terminate in California are billed in 6-second increments with an 18-second minimum and will be assessed the per-minute rates as detailed below. All minutes-of-use charges will be assessed based on interstate (continental United States) minutes of use.

(L)

5.3 Cox Dedicated LD Enterprise

Cox Dedicated LD Enterprise, a one, two or three-year term dedicated long distance call plan, provides eligible Business Customers a competitively priced long distance product for calls terminated in the continental United States. Calls to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. The call plan is available to new and existing Customers that choose Cox for their Local, Long Distance (both PIC and LPIC) and high-speed internet service. All minutes-of-use (MOU) charges will be assessed based on the cumulative dedicated long distance minutes of interstate and intrastate usage, except for toll minutes to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

If the plan is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth in this tariff, Cox shall re-rate Customer's usage for services provided up to the date of termination by charging Customer the (1) difference between the per-minute rate of the term selected by Customer and the per-minute rate associated with the term plan the Customer did satisfy prior to discontinuance and (2) multiplying the difference by the number of minutes of service actually provided to Customer. If service is terminated within the first year of the plan, the default rate of \$.10/minute will apply to re-rate all usage charges up to the termination date.

Calls that originate and terminate in California are billed in 6-second increments with an 18-second minimum and will be assessed the per-minute rates as detailed below. All minutes-of-use charges will be assessed based on interstate (continental United States) minutes of use.

5.4 Cox Dedicated TF Solutions

Cox Dedicated TF Solutions, a one, two or three-year term dedicated toll free call plan, provides eligible Business Customers a competitively priced toll free product for calls that originate in the continental United States. Calls from Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. Calls from Canada will be assessed at the rate of \$.08 per minute. The call plan is available to new and existing customers that choose Cox Local and Cox Toll Free. The plan covers the 48 contiguous states. All minutes-of-use charges (MOU) will be assessed based on the cumulative dedicated toll free minutes of interstate and intrastate.

If the plan is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth in this tariff, Cox shall re-rate Customer's usage for services provided up to the date of termination by charging Customer the (1) difference between the per-minute rate of the term selected by Customer and the per-minute rate associated with the term plan the Customer did satisfy prior to discontinuance and (2) multiplying the difference by the number of minutes of service actually provided to Customer. If service is terminated within the first year of the plan, the default rate of \$.10/minute will apply to re-rate all usage charges up to the termination date.

Domestic calls originating in the United States are billed in 6-second increments with a 6-second minimum. All calls originating in Canada, Puerto Rico and US Virgin Islands are billed in 6-second increments with a 30-second minimum. Calls that originate and terminate in California are billed in 6-second increments with an 18-second minimum. All minutes-of-use charges will be assessed based on the cumulative minutes of interstate (continental United States) and intrastate usage.

5.9. Dedicated Long Distance Service

(L)

1. General

Dedicated outbound long distance service permits Business Customers, with substantial outbound call volumes, to complete calls to diverse service areas. Dedicated outbound service is distinguished from other services by the existence of a dedicated, special access connection from the Customer's premises to the Company's Point of Presents (POP). The dedicated facility would at a minimum be an Integrated DS-1 that provides a digital connection to the Customer. The Rates and Charges as detailed in Section 3, herein, are provided for On-Net facilities only. Off-Net facility pricing will be provided on a case-by-case basis.

2. Terms and Conditions

Minimum Service Period:

The minimum service period for Dedicated LD service is one year except where special construction is requested and in which case the minimum period may be longer. Special construction agreements require minimum commitment periods and are defined via contractual agreements.

Minimum Facility Requirements:

The Dedicated LD minutes will be carried on an Integrated DS-1 facility. Integrated DS-1 facility allows a Customer to access multiple Company Services on the same facility. These facility arrangements are normally at minimum one-year commitments and are billed in advance of Service and reflect the rates in effect as of the date of the invoice. The non-recurring and monthly recurring charges for the dedicated access facility are in addition to the usage rates detailed below for the dedicated LD product.

Facility Ordering:

In order to prevent interference or impairment of this service and any other service provided on the facility, the Customer must order an adequate number of access paths to handle the expected demand. The Customer should consider the following items when ordering the facility: (1) total call volume, (2) average call duration, (3) time-of-day sensitivity, and (4) busy hour.

Early Termination Charges:

If service is disconnected prior to the expiration of the term, early termination charges will apply for both the dedicated facility and dedicated LD usage.

A. Early Termination of the dedicated facility:

Customers who terminate service prior to the end of the selected service term, but after expiration of the 30-day right of rescission period pursuant to GO 168 Rule 3(f), will be liable for the cancellation charge associated with all costs, fees and expenses incurred in connection with the dedicated facility and shall be calculated as follows:

1. all charges waived by the Company to establish the dedicated facility to Customer, plus
2. any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by Company on behalf of Customer, plus
3. all Monthly Recurring Charges associated with the dedicated facility for the unexpired balance of the current term.

4. Optional Call Plans

Cox Dedicated LD Solutions III

Cox Dedicated LD Solutions III is a one, two or three-year term dedicated long distance call plan that provides eligible Business Customers a competitively priced long distance product for calls terminated in the continental United States, but outside of the Customer's local calling area. Calls to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. The call plan is available to new and existing customers that choose Cox Long Distance (both PIC and LPIC). All minutes-of-use (MOU) charges will be assessed based on the cumulative dedicated long distance minutes of intrastate and interstate usage, except for toll minutes to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

If the plan is terminated prior to the expiration of the selected term, but after expiration of the 30-day right of rescission period pursuant to GO 168 Rule 3(f), or Customer fails to meet all of the conditions set forth in this tariff, Cox shall re-rate Customer's usage for services provided up to the date of termination by charging Customer the (1) difference between the per-minute rate of the term selected by Customer and the per-minute rate associated with the term plan the Customer did satisfy prior to discontinuance and (2) multiplying the difference by the number of minutes of service actually provided to Customer. If service is terminated within the first year of the plan, the default rate of \$.10/minute will apply to re-rate all usage charges up to the termination date.

Calls that originate and terminate in California are billed in 6-second increments with an 18-second minimum and will be assessed the per-minute rates as detailed below. All minutes-of-use charges will be assessed based on interstate (continental United States) and intrastate minutes of use.

Calls that originate and terminate in the State of California will be assessed a sub-minute increment with an initial 18-second increment and subsequent 6-second billing increments.

Calls to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. The call plan is available to new and existing Customers that choose Cox for their long distance (both PIC and LPIC) and high-speed internet service. All minutes-of-use (MOU) charges will be assessed based on the cumulative dedicated long distance minutes of interstate and intrastate usage, except for toll minutes to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

If the plan is terminated prior to the expiration of the selected term, but after expiration of the 30-day right of rescission period pursuant to GO 168 Rule 3(f), or Customer fails to meet all of the conditions set forth in this tariff, Cox shall re-rate Customer's usage for services provided up to the date of termination by charging Customer the (1) difference between the per-minute rate of the term selected by Customer and the per-minute rate associated with the term plan the Customer did satisfy prior to discontinuance and (2) multiplying the difference by the number of minutes of service actually provided to Customer. If service is terminated within the first year of the plan, the default rate of \$.10/minute will apply to re-rate all usage charges up to the termination date.

Calls that originate and terminate in California are billed in 6-second increments with an 18-second minimum and will be assessed the per-minute rates as detailed below. All minutes-of-use charges will be assessed based on intrastate and interstate (continental United States) minutes of use.

Calls that originate and terminate in the State of California will be assessed a sub-minute increment with an initial 18-second increment and subsequent 6-second billing increments.

6. Dedicated Toll Free Service, Cont'd.

(L)

1. General

Dedicated toll free (TF) service permits Business Customers, with substantial toll free call volume, to receive inbound calls from diverse service areas. Dedicated toll free service is distinguished from other services by the existence of a dedicated, special access connection from the Customer's premises to the Company's Point of Presents (POP). The dedicated facility would at a minimum be an Integrated DS-1 that provides a digital connection to the Customer. The Rates and Charges as detailed in Section 3, herein, are provided for On-Net facilities only. Off-Net facility pricing will be provided on a case-by-case basis.

2. Terms and Conditions

Minimum Service Period:

The minimum service period for Dedicated TF service is one year except where special construction is requested and in which case the minimum period may be longer. Special construction agreements require minimum commitment periods and are defined via contractual agreements.

Minimum Facility Requirements:

The Dedicated TF minutes will be carried on an Integrated DS-1 facility. An Integrated DS-1 facility allows a Customer to access multiple Company Services on the same facility. These facility arrangements are normally at minimum one-year commitments and are billed in advance of service and reflect the rates in effect as of the date of the invoice. The non-recurring and monthly recurring charges for the dedicated access facility are in addition to the usage rates detailed below for the dedicated TF product.

Facility Ordering:

In order to prevent interference or impairment of this service and any other service provided on the facility, the Customer must order an adequate number of access paths to handle the expected demand. The Customer should consider the following items when ordering the facility: (1) total call volume, (2) average call duration, (3) time-of-day sensitivity, and (4) busy hour.

Early Termination Charges:

If service is disconnected prior to the expiration of the term, early termination charges will apply for both the dedicated facility and dedicated TF usage.

A. Early Termination of the dedicated facility:

Customers who terminate service prior to the end of the selected term, but after expiration of the 30-day right of rescission period pursuant to GO 168 Rule 3(f), will be liable for the cancellation charge associated with all costs, fees and expenses incurred in connection with the dedicated facility and shall be calculated as follows:

1. all charges waived by the Company to establish the dedicated facility to Customer, plus
2. any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by Company on behalf of Customer, plus
3. all Monthly Recurring Charges associated with the dedicated facility for the unexpired balance of the current term.

Charges for Dialed Number Identification Service (DNIS)

DNIS permits dedicated Customers with multiple toll-free numbers that terminate on the same facilities the ability to determine which toll-free number the caller dialed when receiving toll-free calls. Identification is achieved through out-pulsed digits from the Company network to the Customer's facilities. Customers will furnish the Company with the digits desired for each toll-free number. The Change Charge will apply to any reconfiguration of out-pulsed digits, to the cancellation of this feature, or to the cancellation of the toll-free service number with which the feature has been associated.

Non-Recurring Charge:	\$35.00 per toll free number
Monthly Recurring Charge:	\$ 0.00 per toll free number
Change Charge:	\$15.00 per change

Charge for Real Time ANI Delivery

This feature enables the Customer to have calls to a Company toll-free service number forwarded to their location with the callers ANI (ten digit billing telephone number) as part of the call setup. Customers must have their own equipment for reading ANI digits passed on from the Company network. Full 10-digit ANI is provided whenever passed on from the originating Local Exchange Carrier. ANI is sent via in-band signaling.

4. Optional Call Plan

Cox Dedicated TF Solutions III

Cox Dedicated TF Solutions III is a one, two or three-year term dedicated toll free call plan for toll free calls that originate in the continental United States. Calls from Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. Calls from Canada will be assessed at the rate of \$.08 per minute. The call plan is available to new and existing customers that choose Cox Local and Cox Toll Free. The plan covers the 48 contiguous states. All minutes-of-use charges (MOU) will be assessed based on the cumulative dedicated toll free minutes of interstate and intrastate.

If the plan is terminated prior to the expiration of the selected term, but after expiration of the 30-day right of rescission period pursuant to GO 168 Rule 3(f), or Customer fails to meet all of the conditions set forth in this tariff, Cox shall re-rate Customer's usage for services provided up to the date of termination by charging Customer the (1) difference between the per-minute rate of the term selected by Customer and the per-minute rate associated with the term plan the Customer did satisfy prior to discontinuance and (2) multiplying the difference by the number of minutes of service actually provided to Customer. If service is terminated within the first year of the plan, the default rate of \$.10/minute will apply to re-rate all usage charges up to the termination date.

Domestic calls originating outside of California but within the United States are billed in 6-second increments with a 6-second minimum. All calls originating in Canada, Puerto Rico and US Virgin Islands are billed in 6-second increments with a 30-second minimum. Calls that originate within California are billed in 6-second increments with an 18-second minimum. All minutes-of-use charges will be assessed based on the cumulative minutes of interstate (continental United States) and intrastate usage.

4.1 COX OFFICE SOLUTIONS FLEX

(L)

A. General

The Cox Office Solutions Flex, COSF, offers business Customers a bundled package term plan of one, two, three and five year commitment. The package combines local exchange and toll telephone services with the Cox-Affiliated Company's service for high speed internet access. The services provided with this package are:

- From 3 to 22 measured-rate business access lines,
- Three blocks of toll minutes (pooled among all the business access lines in the bundle), and
- Cox-Affiliated Company's high-speed internet access service.

B. Eligibility:

Business Customers who 1) sign a Commercial Services Agreement for a one-, two-, three-, or five-year term for between 3 and 22 business access lines; 2) select the Company as the provider of both intra- and inter-LATA toll services for each business line; and 3) purchase from Cox's Affiliated Company Cox@Work (San Diego territory) or CoxNet Express.

C. Regulations

- 1) Business Customers who subscribe to COSF may order from 3 to 22 measured-rate business access lines under this bundle. These lines, as well as any additional lines purchased by a Customer will be billed separately at the monthly rate specific in Section 1.1.1.2 of this tariff. Usage charges will also apply, as specified in Section 1.1.4 of this tariff.
- 2) The COSF includes discreet blocks of shared minutes of intra- and interstate toll services. The blocks of minutes are pooled among all lines in the specific group selected by the Customer, although the Customer may be another block of minutes, as specified below. These blocks will be billed as flat monthly recurring charges, will be pooled only on the business access lines subject to the COSF bundle, will expire at the end of each bill cycle, will not aggregate, will have no cash value for refund purposes, will not be transferable or assignable, and will not be applied to calls outside the United States. The table below reflects the standard bundle of minutes associated with a specific number of access lines.

Business Access Lines	Standard Block of Toll Minutes
3-8 Lines	600 Minutes#
9-12 Lines	800 Minutes#
13-22 Lines	1000 Minutes

Customer may upgrade Long Distance minutes to next block of minutes for an additional \$10.00 per month.

- 3) Interstate toll calls in excess of the block selected by a Customer will be billed at six (6) cents per minute per the Company's FFC Domestic tariff. Intrastate toll calls in excess of the block selected will be billed at five (5) cents per minute per the Company's Local and Intrastate tariffs.

Activation charges for telephone service will apply as specified in Section 1.1.1.1 of this tariff, except that all activation charges will be waived for Customers who subscribe to the COSF for three- or five-year terms.
