INTERRUPTIBLE GAS RATES PROGRAM

2019–2020 PROGRAM INFORMATION

This folder contains important information and procedures regarding the Xcel Energy Interruptible Gas Rates Program, which your organization is currently on.

FOLDER CONTENTS:

- 2019–2020 Notification Procedure
- Hotline number and script
- Interruptible gas curtailment history for your region
- Special notice for customers without automatic meter reading
- Program information sheet
- Program penalties

The interruptible gas rate is offered to Xcel Energy customers who agree to curtail their gas usage. If Xcel Energy calls a natural gas interruption, it is critical that you limit your natural gas usage to the level agreed upon in your contract with Xcel Energy. Failure to do so will cause Firm Rate customers to experience a loss of natural gas and your company to incur substantial penalties.

Although gas interruptions do not occur frequently, it is important that your employees are prepared.

- Share the information in the enclosed folder with all your employees who are affected when Xcel Energy calls a natural gas interruption.
- Make sure you have an adequate supply of standby fuel on hand.
- **Verify and/or update the information on the “Contact Information Sheet” included in the packet.**
- Use Xcel Energy’s toll-free Interruptible Gas Curtailment Hotline number to obtain information regarding the likelihood of a natural gas interruption. The hotline number is listed on the enclosed materials including a magnet for easy reference.

Xcel Energy utilizes an automated calling system to contact your company in the event of a natural gas interruption. Please refer to the insert in the folder for additional, detailed information about this system.

If you have questions about any piece of information in the folder, please contact your Xcel Energy representative or our Business Solutions Center at **800.481.4700**.

Thank you for your cooperation.

Dear Interruptible Gas Customer,

THANK YOU for your continued participation in our Interruptible Gas Rates program from Xcel Energy. As you prepare for the upcoming heating season, please read the important information below and in the enclosed information packet. Also, be certain to pass this information on to others who manage your energy systems.

- **This fall, we will be holding limited informational meetings**

Please plan to attend one of our information meetings being held this fall at several locations where we will provide a refresher on the program, information about our new notification system, and an outlook on the upcoming heating season. Complimentary breakfast or lunch will be served. Enclosed is additional information about these meetings and how you can RSVP. Watch your inbox for an electronic invitation to these meetings.

- **It is important that we can contact you in the event of a gas curtailment**

This is the last time we will use the enclosed contact sheets. Starting later this fall, we will be implementing a new self-serve, contact management system. There will be more information about the new system at the Fall Meetings. Please take a moment to review the names and contact numbers to ensure we have the latest contact information. **If the information is accurate, you do not need to send it back to us.** If you have changes, please update the form and return it in the enclosed, postage-paid envelope or email your contacts to energyefficiency@xcelenergy.com by **October 15, 2019**. Please be aware that we will use your revised data when we perform a test of our notification system in late October or early November.

- **It's crucial to limit your natural gas usage during an interruption**

When we declare an interruptible gas curtailment, it is very important that you curtail your usage as agreed upon in your contract with Xcel Energy. Failure to do so will cause your company to incur substantial penalties.

We will need your updated contact and mailing information by **Tuesday October 15, 2019**. Email your contacts to energyefficiency@xcelenergy.com, or mail it in the enclosed, postage-paid envelope.

If you have questions, please call your Xcel Energy account manager or our Business Solutions Center at **800.481.4700** or send an email to energyefficiency@xcelenergy.com.

Sincerely,

Xcel Energy

Dear Transport Customer,

This year, we will be launching a new Interruptible Gas notification system. The system will be similar to the one we have used in the past. Please make sure your contact information is up to date. Look for more information to come later this fall.

UPDATE THE ENCLOSED CONTACT SHEET

As a gas transportation customer, you may be asked to hold to your daily nomination during high constraint days or curtail completely. It will be important to reach you during these times. Please review the enclosed **Gas Transportation Contact Information** you provided last year to make certain that the contact information we have on record is still accurate. **If there are any necessary changes, please make them in the space provided and return to us via mail or email to your account manager or BSC representative.**

SELF-SERVE CONTACT MANAGEMENT

If you have any questions, please call your Xcel Energy account representative or our Business Solutions Center at **800.481.4700**.

Thank you for your continued participation in our **Gas Transportation** program.

Regards,

Xcel Energy, Interruptible Gas Programs

Enclosures: 2019 Gas Transportation Contact Information Sheet

PARTICIPATION IN XCEL ENERGY GAS RATE PROGRAMS

INFORMATION SHEET
MINNESOTA | NORTH DAKOTA
WISCONSIN | MICHIGAN

SAVE ON YOUR NATURAL GAS RATES THROUGHOUT THE YEAR

We offer tremendous savings opportunities and choices for our natural gas business customers through our interruptible gas rate savings programs. If you are able to curtail your natural gas use during peak days, you can qualify for reduced natural gas rates throughout the entire year.

During periods of peak gas demands such as bitter cold winter days, our gas customers may require more natural gas than is normally available. By participating in the interruptible gas rate savings programs, you help reduce the amount of gas our customers need, which helps us meet the gas requirements at critical times.

Pay less per therm, when you agree to interruptible gas rate terms

When you join the program, you agree to go off the gas system within one hour of notification, provide and maintain suitable and adequate alternate fuel-capable standby facilities and have access to sufficient standby alternate fuel for curtailment periods. You also must install a phone line to the utility-owned Metretek, a telemetering device that reads your meter on an hourly basis. In return, you will pay significantly less per therm on your year-round gas usage.

Add the optional Limited Firm Service (only available in Minnesota and North Dakota)

With an interruptible rate you also have the additional option to use our convenient, affordable **Limited Firm Service**. This service lets you reserve up to 15 days of gas supply for use during curtailment days. This secure supply supplements your own back-up supply during time of curtailment and is delivered via the Xcel Energy distribution system.

You pay an up-front availability charge and then pay for the gas only if and when you use it. While you still need an on-site, back-up supply, you'll lower your operating costs by eliminating the need for large, on-site, alternative fuel storage.

Note: Call our Business Solutions Center at **800.481.4700** before the heating season begins to reserve your limited firm supply. Our limited firm natural gas supply is not always available and usually only on a first come, first served basis.

You have more choices with Xcel Energy transportation rates

Our **optional natural gas transportation rates** offer the flexibility to purchase your own supply of natural gas — either independently or through a third-party agent — and use the reliability and security of our distribution system to transport it to your facility.

If your daily requirements are more than 500 therms, you can qualify for either the **firm transportation rate** or, for more cost savings, you may choose the **interruptible transportation service**. The firm transportation service remains available during our curtailment periods, whereas the interruptible transportation service is not available during **some** curtailments.

Call **800.481.4700** today to learn more and to sign up and start saving!

By offering these special rates — interruptible, limited firm, or a transportation service — Xcel Energy can meet your low-cost requirements while still meeting your energy needs. To find out what rate is best for you, contact your Xcel Energy account manager or our Business Solutions Center at **800.481.4700**.

Who can benefit?

Many companies qualify for our interruptible gas rate programs.

Types of organizations that frequently take advantage of these programs include:

- Manufacturing facilities
- Water and wastewater treatment facilities
- Food products industry
- Healthcare facilities
- Apartment and commercial properties
- Educational facilities
- Facilities with back-up gas systems

INTERRUPTIBLE GAS RATES PROGRAM

WISCONSIN/MICHIGAN: HOTLINE — 800.336.4010

INTERRUPTIBLE GAS CURTAILMENT SCRIPT

Hello, this is Xcel Energy-Wisconsin calling with urgent information for natural gas interruptible customers. Please press "1" or say "one" to hear the message. Please press "2" or say "two" to hold so you can transfer the call.

Today is _____ (date). At the end of the message, we will request that you acknowledge this message. Effective at (time) _____ a.m./p.m. on (date) _____ a natural gas interruption will take place. You are requested to go off system gas at that time.

Unless your meter is equipped for automatic reporting to Xcel Energy over the telephone, please remember to record the gas meter reading on the cards that were provided by Xcel Energy. If you have questions regarding this interruption, please call 800.336.4010 or your local Xcel Energy representative.

Once again, effective at (time) _____ a.m./p.m. on (date) _____ a natural gas interruption will take place. You are requested to switch to your alternative or standby fuel at that time.

This is important. Please press "1" or say "confirm" to acknowledge receipt of this message. If you wish to hear this message again, please press the # key.

Thank you for your cooperation. Goodbye.

WISCONSIN/MICHIGAN

Release Script

Hello, this is Xcel Energy-Wisconsin calling with urgent information for natural gas interruptible customers. Please press "1" or say "one" to hear the message. Please press "2" or say "two" to hold so you can transfer the call.

Today is _____ (date). At the end of this message, we will request that you acknowledge this message. Effective at (time) _____ a.m./p.m. on (date) _____ the natural gas interruption period is over, and you are released to switch back to using natural gas as your primary fuel at your convenience.

Unless your meter is equipped for automatic reporting to Xcel Energy over the telephone, please remember to record the gas meter reading on the cards that were provided by Xcel Energy. If you have any questions regarding this curtailment release, please call 800.336.4010 or your local Xcel Energy representative.

This is important. Please press "1" or say "confirm" to acknowledge receipt of this message. If you wish to hear this message again, please press the # key.

Thank you for your cooperation. Goodbye.

This is important. Please press "1" or say "confirm" to acknowledge receipt of this message. If you wish to hear this message again, please press the # key.

Thank you for your cooperation. Goodbye.

INTERRUPTIBLE GAS RATES PROGRAM

SPECIAL NOTICE

For customers without automated meter reading

As one of Xcel Energy's interruptible gas customers, your cooperation during a curtailment period is critical. To ensure that your back-up energy source is working effectively during curtailment, we need to obtain meter readings immediately after the curtailment and again when you switch back to Xcel Energy natural gas. **If your gas meter automatically communicates with Xcel Energy, you may disregard this notice.** If you do not have automated meter reading equipment, you will need to take meter readings manually.

Customers with Metretek data collection devices are not required to send in meter-reading cards. The Metretek data collection device is located near your meter, is wired to the gas meter, is about 6x6x2 inches in size and has the manufacturer's name "Metretek" printed on the outside. The device also has a phone line attached. If you can't find a Metretek device near your meter, you will need to manually read your meter.

Enclosed are a number of "Gas Curtailment Meter Reading" cards. When you are notified of a curtailment, we would like you to take meter readings. Take the reading after you switch to your alternative energy supply and again at the end of curtailment when you revert back to Xcel Energy natural gas. Please fill out this card and send it to Xcel Energy within **five business days**.

Fulfillment of the gas curtailment meter testing requirements is very important. Your cooperation in performing these readings will help avoid the need to conduct a curtailment test and will ensure that your company can remain on Xcel Energy's gas curtailment rate.

If you have any questions about this procedure, please contact your Xcel Energy representative or our Business Solutions Center at **800.481.4700**.

GAS CURTAILMENT METER READINGS

Meter number: _____

Customer name: _____

Service address: _____

Please record your meter readings in the appropriate window.

When we issue a natural gas curtailment, a reading of your gas interruptible meter must be taken. Please take a second reading when the curtailment is released.

This card must be postmarked no later than two days after the curtailment release.

INTERRUPTIBLE GAS RATES PROGRAM

PENALTIES

When gas interruptions are called, we are counting on you as an Interruptible Gas Rates program customer to go off system gas and switch to your alternate fuel source. If you stay on system gas, it creates planning hardships that could result in the loss of service to other customers. You may not be called to interrupt every winter; however, exposure to interruptions is always there during cold weather months. Some seasons may result in multiple controls, and other seasons no controls at all.

As a program participant, you receive a discounted charge for gas service 12 months of the year so that Xcel Energy can count on your gas during periods of peak use in the winter season. If unauthorized use of gas occurs during a control period, we are required by tariff to take back some of those savings in the form of penalties.

IN MINNESOTA:

- In addition to the normal rates, penalties equal the higher of \$5-10/therm or an amount equal to any incremental cost incurred by Xcel Energy resulting from a failure to curtail or interrupt with additional, significant penalties for repeated failures to control.

IN NORTH DAKOTA:

- In addition to the normal rates, penalties equal either the amount of any payment Xcel Energy is required to make to its pipeline supplier under the terms of its town border contract as a result of such failure to curtail, or \$5.00/therm of gas used in excess of the volume of gas to which the customer is requested to curtail, whichever amount is greater.

IN WISCONSIN AND MICHIGAN:

- The penalty for unauthorized use is \$2.00/therm UNLESS the interstate pipeline has issued a "Critical Day", or other similar designation, in which case the penalty for unauthorized use is the higher of the actual interstate pipeline penalty or \$10.00/therm.

OTHER POSSIBLE ADDITIONAL PENALTY PIPELINE CHARGES:

- Customers taking service from Northern Natural Gas may incur additional charges of \$11.30/therm or higher.
- Customers taking service from Viking Gas Transmission may incur additional charges of \$1.50/therm or higher.

INTERRUPTIBLE GAS RATES PROGRAM

2019–2020 NOTIFICATION PROCEDURE

1. The Xcel Energy notification system calls with a recorded message informing you to curtail.
(See the Curtailment script included in this packet.)
2. You confirm receiving the message by pressing the number “1” or saying, “confirm.” **Note:** If you receive a call from our Notification System, at least one or all of your interruptible gas rate facilities is affected. If you have multiple facilities on the interruptible gas rate, and your contact information is identical for each facility, you will receive only one interruption call.
3. Switch your equipment to an alternate fuel. **Note:** You do not have to call Xcel Energy back to confirm the switch to an alternate fuel.
4. If you **CANNOT SWITCH** to your alternate fuel, contact your Xcel Energy representative or our Business Solutions Center at **800.481.4700**.
5. When the interruption is over, the notification system will call you with a release message.
(See the Release script included in this packet.)
6. Confirm this message by pressing “1” or saying, “confirm.”
7. Switch your equipment back to natural gas at your convenience.

PLEASE NOTE THAT THE AUTOMATED NOTIFICATION SYSTEM WILL BE CALLING YOU TWICE: ONCE FOR THE START OF THE CURTAILMENT AND ONCE FOR THE RELEASE.

OTHER IMPORTANT INFORMATION:

- If the automated notification system does not receive confirmation that you received the message, it will make several additional attempts to contact you. If unsuccessful, it will continue to call the other contact numbers you have provided.
- There is an Interruptible Gas Curtailment Hotline available, which you can call anytime to listen to a recorded message regarding the status of gas curtailment at Xcel Energy. In Minnesota and North Dakota call **888.852.6748**; in Wisconsin and Michigan call **800.336.4010**.
- **If you signed a Limited Firm contract and supplies are available, you will receive a custom notification message giving you the opportunity to use a contracted Limited Firm gas day.** Customers who purchase Limited Firm contracts have the opportunity to buy-through interruptions on a limited number of days. Limited Firm customers will be contacted daily during extended interruptions and given the opportunity to use Limited Firm gas. Limited Firm service is not available in Wisconsin.
- Despite our efforts to convert all Interruptible Gas customers to the required automated gas meter reading system, some of our smaller Gas Volume Interruptible customers will be given meter-reading cards and asked to take meter readings immediately before and after curtailments. Customers with automated Metretek data collection devices are not required to send in meter-reading cards.
- The Metretek data collection device is connected to the gas meter, and is about 6x6x2 inches in size and has the manufacturer’s name ‘Metretek’ printed on the outside. The device also has a phone line attached. If you can’t find a Metretek device near your meter, please take the readings on the cards provided and drop the card in the mail or scan them and send to your account manager.

INTERRUPTIBLE GAS RATES PROGRAM

CONTACT SHEET INSTRUCTIONS

This sheet accompanies the current contact information we have on file for you. Please correct or update the information and return it by **Tuesday, October 15, 2019**. You may update your contacts on the sheet provided with this packet, and then mail it back to us in the enclosed envelope or respond on your IG meeting RSVP or email energyefficiency@xcelenergy.com. Please use the following guidelines when updating the sheet:

- **Update the “mail to” information to ensure the program communication materials are delivered to the correct address.**
- **You may have up to three contacts, so provide information for only three contacts.** If you only have one or two contacts, please leave the other contacts blank.
- For each contact, provide your work phone number (including extension, if applicable), cell phone, email, and text number.
- Please provide email addresses for all contacts. Email will be our primary communication channel in the future.
 - **NOTE:** This year, it is important that you provide accurate contact information along with an email for each contact. We will be uploading this information into the new notification system for use this upcoming heating season.

When you have completed the contact information sheet, please send it back to Xcel Energy in the enclosed envelope respond to the IG meeting RSVP or email energyefficiency@xcelenergy.com by **October 15, 2019**.
