

Leica Cyclone Cloud

Digital reality SaaS platform

Leica Cyclone Cloud is an all-new, centralised, online administration portal for Leica Geosystems' new cloud-based software services. These services are designed to bring speed, scale and simplicity to the digital reality capture market. Access and deploy new and add-on cloud-based services from one portal, with one login and simplified license handling - even manage users and control permissions from anywhere you have an internet connection.

FEATURES AND BENEFITS

- Centralised portal for activation of all your digital reality cloud-based software service products from Leica Geosystems
- Rapid deployment of services with simplified license handling
- Rapid deployment of services to your preferred data centre location for optimal performance - no IT expertise needed
- Secure sharing with anyone from anywhere
- Flexibility on all fronts - pricing, user-rights and hosting
- Fast, easy and scalable thanks to cloud hosting and a subscription-based model
- Cloud services integrate with other Leica Geosystems software - publish directly to your cloud service with simple user account credentials
- Same enterprise-level solutions and dependability, made simple

Leica
Geosystems

Global cloud-based digital reality SaaS platform

A smarter way to access the Leica Cyclone product family from anywhere in the world

Simply log in to connect the field to the office or clients and stakeholders. Easily scale up your services by adding on packages to meet customer and project needs, all this with the simple use of a smart phone, tablet, or your desktop browser.

Leica Cyclone Cloud delivers integrated solution as service products that work in tandem with the Cyclone family of desktop software to seamlessly deliver professional-grade projects.

New and experienced users will appreciate the flexibility that comes with per-service offerings that can be concretely budgeted into projects.

New subscription models offer the same enterprise-level solutions now with a Leica Geosystems-hosted and trusted environment with global access to enable users to collaborate intuitively and efficiently.

SIMPLICITY

Simple admin tools and advanced user management. Managed controls on a per-user basis and set up private communities of users to control who sees what from anywhere in the world. Easily set up a shared site within your cloud service for any projects with drag-and-drop functions for easy data uploads.

SPEED

A fast and easy one-stop-shop for all new and add-on cloud service license activations. Deploy new and add-on services in seconds.

SCALABLE

Subscription pricing provides a predictable, flexible and cost-effective pricing, allowing customers to get the best return on investment, plan effectively and budget concretely. Scale up to the size you need when the work requires it.

LEICA GEOSYSTEMS-HOSTED CLOUD FOR GLOBAL ACCESS

No IT expertise required - dependable enterprise-level security and "up-time" dependability, all in a secure Leica Geosystems-trusted environment.
