Center for Devices and Radiological Health Internal Training Summary Report

Q3 FY17

October 2016 – June 2017

Prepared by: The Division of Employee Training and Development (DETD)

As of: 7/17/2017

The FDA continues to invest in internal and external training opportunities supporting the medical device review process. The Division of Employee Training and Development (DETD) is CDRH's internal resource for scientific, regulatory, leadership training, career development programs, and customized learning opportunities. We help further the Center's mission of regulating medical devices and radiation-emitting products by championing employee growth across the Center's eight offices. Our approach to improving performance combines classroom, experiential, and online learning with mentoring, on-the-job training and specialty programs. We are committed to providing CDRH employees with the knowledge and skills needed to maximize their organizational and individual potential.

Table X provides a summary of internal training conducted in CDRH between October 1, 2016 and June 30, 2017. DETD offered 450 learning events addressing reviewer training, new scientific technologies, law, regulation and guidance updates, and leadership and professional development. This training was designed to improve the device review process and support MDUFA goals and program activities.

Premarket Reviewer Training - RCP

Reviewer Certification Program (RCP) Refresh:

RCP was revised in June 2016, condensed into a 27-hour program consisting of both online and classroom courses that are essential to new reviewers in their first 60 days of hire. While the goals and missions are consistent with the earlier version of RCP, the condensed course design means reviewers will get the most salient core knowledge in a more timely fashion. After completion of the 27 hours of learning, reviewers will enroll in advanced courses designed to further enhance their skills. In this updated format, the components include:

- 15 classroom courses, including a program Orientation and Capstone, totaling 22.5 hours of training
- 5 online courses, totaling 4.5 hours
- 7 Advanced courses, to be taken within a year of employment
- Practical activities and hands-on exercises
- Knowledge assessments

Premarket Reviewer Training - ELP

Experiential Learning Program (ELP):

CDRH offers an innovative learning opportunity for new and experienced review staff. The Experiential Learning Program (ELP) is a collaborative approach to closing the knowledge gap between emerging and innovative technology and the premarket review of the resulting medical devices. The program fosters the premarket reviewers' understanding of how medical devices are developed, clinically tested, manufactured, and utilized.
