6.2 INTER-WIRE CENTER EXCHANGE SERVICE

INTER-WIRE CENTER STATION SERVICE

Inter-Wire Center Station Service is similar to IWCES except that the Carrier's Customer's exchange service is extended to a second location. The service may be extended to a location within the same wire center serving area as the primary location, or in the serving area of the wire center which provides dial tone.

6.3 RATES AND CHARGES

A. APPLICATION OF NONRECURRING CHARGES

Nonrecurring charges for channels and services described in this section of the tariff include work done up to the point of minimum penetration and are applied on a per design order, per channel basis. Service connection charges contained in Part 22, Section 3, do not apply to these channels or services unless otherwise stated. Extension of network terminating or inside wire used in conjunction with BELL Channel Services is work done on the Carrier's Customer side of the minimum point of penetration and is subject to service connection charges contained in Part 22, Section 3.

- 1) Per channel charges apply for each channel connecting the same terminating points. Specific per channel charges for each part, i.e., local distribution channels, inter-wire center channels, etc., are cumulatively applied for the overall per channel charge.
- 2) Per design order charges apply cumulatively to the parts of the overall channel. However, they apply only once per occasion of a Carrier's request for identical services connecting the same terminating points for resale to its customer. (T)
(T)
- 3) Nonrecurring charges for the Special Digital Channel Type 8806, which provides remote service capability for Switched Digital Service, are in addition to the installation charges shown in Part 22, Section 3. However, the Design Order Charge shown in this Tariff, applies instead of the Design Order Charge in Part 22, Section 3, which is applicable to Switched Digital Service provided within the same wire center serving area as the location of the switch.
- 4) A special billing option is available to Inter-Wire Center Exchange Service (IWCES) or Inter-Wire Center Station Service (IWCSS) customers.

When ordering service, the Carrier for resale to its customer, may choose a reduced Design Order Charge of \$250.00. To qualify for this special billing option, the service must continue unchanged for 12 months at the Carrier's Customer's same address. If (disconnected prior) to the 12 month period, a termination liability applies, which is the difference between the \$250.00 Design Order Charge actually paid and the full Design Order Charge which would have otherwise have been applicable will be charged to the Carrier.

6. CHANNELS (cont'd)

6.3. Rates and Charges (cont'd)

A. APPLICATION OF NONRECURRING CHARGES (cont'd)

4) (cont'd)

This option is limited to Carrier's resale of service to its customers whose telephone service consists entirely of:

- A single exchange line (IWCES, IWCSS or local)
- One local exchange line and one IWCES or IWCSS line

B. INSTALLMENT PAYMENT PLAN FOR NONRECURRING CHARGES

Carriers for resale to its customers may, at the time of ordering, elect to pay nonrecurring charges for BELL Channel Services in consecutive equal monthly installments over a period of three months.

C. APPLICATION OF RECURRING RATES

Recurring rates apply for each channel, service or option described in this section on a monthly basis unless otherwise noted.

D. APPLICATION OF MULTI-POINT CHANNEL RATES

Multi-point channels are bridged and serviced from the wire center. Multi-point circuit legs within a wire center serving area are to be rated as local distribution channels of the same channel type unless otherwise specifically noted in this tariff. Bridging equipment and other multi-point related service options apply, as appropriate, in addition to the rates and charges for multi-point channels.

E. MULTIPLE CHANNEL DISCOUNT

When five or more 2000 or 3000 series type channels of the same type (e.g., 2001) connect the same customer or user locations over a Telephone Company determined Carrier's route, a 10% discount of monthly rates applies to those channels over four.

F. PRICES

The Price lists for DS1 Service in this tariff will be utilized unless market demands require rates and charges to be negotiated with the Carrier's customer on an individual case basis (ICB).

(T)

This tariff is filed under Sec. 196.194, Wis. Stats. Therefore, any contract or amendment to such contract shall be compensatory as determined under Sec. 196.204 (5) and (6) Wis. Stats. Within 20 days after a contract or an amendment to such a contract has been executed, the Telephone Company shall submit to the Commission written notice of the general nature of the contract and the parties to the contract.

The receipt of notification of any contract or amendment to a contract established under this tariff shall not constitute approval of all terms and provisions therein. The Commission retains jurisdiction to investigate on its own motion or upon complaint any contractual term or provision under which the tariffed service is offered, and to take any necessary action pursuant to such investigation, including issuing orders.

F. Prices

This tariff is filed under sec. 196.194 Wis. Stats. Therefore, any contract or amendment to such a contract shall be compensatory as determined under Sec. 196.204 (5) and (6) Wis. Stats. Within 20 days after a contract or an amendment to such a contract has been executed, the Company shall submit to the Commission written notice of the general nature of the contract and the parties to the contract.

The receipt of notification of any contract or amendment to a contract established under this tariff shall not constitute approval of all terms and provisions therein. The Commission retains jurisdiction to investigate on its own motion or upon complaint any contractual term or provision under which the tariffed service is offered, and to take any necessary action pursuant to such investigation, including issuing orders.

21. DEDICATED COMMUNICATIONS SERVICES

EXPEDITED ORDER CHARGE

Ordering and installation of the following services can be expedited for an additional Order Charge:

- Analog Channel Services - Series 1000, 2000, 3000 and 9000 (C)
- Base Rate Service
- 128, 256 and 384 Service^{/1/}
- DS1 Service

If a Carrier's customer desires that service be provided on a due date less than the standard established ordering or provisioning interval, the Carrier's customer may request that service be provided on an expedited basis.

The provisioning of the expedited request is based upon available facilities and is limited to twelve (12) two-point or six (6) multi-point Analog/DS0 circuits at the same location, and a limit of four (4) DS1 circuits at the same location. Expedited order requests do not apply to services that are jointly provided by the Company and an Independent Telephone Company.

If the Company determines that service can be provided on the requested expedited date and spare facilities are available, the following charges will apply:

<u>Description /Billing Code/</u>	<u>Expedite Order Charge</u>
Analog Channel Services and Base Rate Service /EODDO/	\$598.00
DS1 Service and 128, 256 and 384 Service ^{/1/} /EODD1/	598.00

^{/1/} Effective September 6, 2016, customers may not establish new term plans of any length for 128, 256 and 384 Service, and existing term plans may not be renewed. For existing service after any term plan expires, service will be provided only on a month-to-month basis.

/1/ Effective December 1, 2012, Multi-Service Optical Network (MON) Ring Service is not available for new installations. Existing MON Ring customers will be permitted to modify their service by adding new circuits to their existing service, but will not be permitted to add new nodes in new locations. New circuits added to existing locations will utilize the customer's existing Term Payment Plan (TPP) and should be coterminous with the customer's existing TPP. Customers with TPPs that expire may not extend their service contract. In addition, effective December 1, 2016, no Move, Add or Change orders of any type will be accepted for MON Ring Service.

(N)

/2/ Available where facilities and equipment permit.
