## Furniture for every office

We have furniture for every kind of office — from the small to the fully staffed. And everything to make a modern company run smoothly and efficiently, from desks, storage and chairs, down to lamps and desk accessories. Choose between desks of different sizes and shapes, comfortable work chairs that support your back — and finish by creating a unique storage solution for your needs. At IKEA, our office furniture has great design, smart functions and high quality. And it's been tested for office use so you can be sure it can take tough days at work, year after year.

A high standard of accuracy has been sought in the preparation of this buying guide. We apologize for, but will not be bound by or responsible for, errors and omissions in this buying guide.

# GOOD TO KNOW

## Flexible storage to hide away or display

BEKANT storage units on casters are easy to get out of the way when you want to turn the workplace into something else. Small office supplies fit perfectly in the small storage units, and high units can also be used as presentation desks. ROTHULT lock allows you to lock your personal stuff without any key.

## Flexible meeting and conference tables

Our IDÅSEN and TOMMARYD conference and meeting tables have different finishes to suit your workspace. They come in two heights (29½ and 41¾") and can be used individually or in different combinations to seat as many people as needed. Also, they're easy to move around so you can adapt the solution to different situations — a presentation or a workshop, and for working alone or together.

# DESKS AND CONFERENCE TABLES

## Desks for many different needs

BEKANT desks come in many shapes and sizes, so it's easy to find one that perfectly suits your needs. You can choose between everything from a small desk to a corner desk with a generous depth that makes it perfect for computer work. A net for cable management is included and helps you keep the area around your desk free of messy cables.

If you want to have a softer surface, you can choose a linoleum table top that has natural ingredients in it. It's so nice to write on it. It's also kind to your eyes as it doesn't reflect the light.

## Tested for tough treatment

The BEKANT, IDÅSEN, THYGE and SKARSTA desk series have been tested according to the highest standards for professional office use (ANSI/BIFMA X:5.5 for desks and ANSI/BIFMA X:5.5 for conference tables) and meet our strict standards for quality and durability.

That means that the series has undergone a number of thorough tests. And this is how we know that all the desks are durable and can take heavy loads, and that the surfaces resist both scratches and strains. This makes them a reliable workmate that live up to your high demands and can withstand hard work — day after day, year after year.

## Free your creativity

BEKANT conference tables have a built-in solution for cable management. This means that you and your colleagues can use computers and projectors without lots of loose cables tangling around your coffee cups and papers. Focusing on the right things releases creativity.

# GOOD TO KNOW

1. Height adjustable legs allow you to assemble your desk at a height that suits you. If you have the sit/stand underframe you can raise and lower the desk with the touch of a button.
2. The curved shape of the table top gives support to your wrists and forearms when typing.
3. It's easy to keep your desk neat and tidy with the cable management net under the table top.
4. Surfaces in veneer and melamine foil are durable, stain resistant and easy to keep clean.

With BEKANT and IDÅSEN sit/stand underframe you can raise and lower your desk by the simple touch of a button. That helps you to change working positions often and keeps your body active. The positions for sitting and standing are 22-48" for BEKANT and 24¾-50" for IDÅSEN sit/stand desks.

You can use TROLLBERGET or LIDKULLEN active sit/stand support to get a more open posture which is good for your blood circulation and core muscles.

# COMBINATIONS

**Adjustable in height.** With our BEKANT sit/stand desk you can adjust the height of the table top electrically from 22" to 48" to ensure an ergonomic working position. Changing positions between sitting and standing helps you move your body so you both feel and work better.

BEKANT

## Professional and personal

You can choose between GALANT, BEKANT, IDÅSEN and HÄLLAN storage according to your needs and style. They are specially developed to suit all types of professional offices — both when it comes to smart functions and high quality. You can choose, for example, between different heights and widths, storage with only drawers or combined with file storage and drawer units. You can also use some of the pieces in the series as room dividers — a good way to create a calm corner to work in.

## All storage at the office

Everything from binders and paper to printers and computers — not to mention cords and cables. Our storage series solves all of the most important and usual storage needs at the office. In GALANT, all units have built-in cable management and ventilation to ensure there's no risk of your electronic equipment overheating. HÄLLAN cabinets are designed as modules, so you can use one or buy several and create a combination that suits you. It helps you keep track of everything from your handbag, laptop charger and wallet to important papers. Most of the BEKANT storage units have wheels so you can change your workspace into something else when you are done. You can also use ROTHULT smart lock with your BEKANT and IDÅSEN storage to keep your important things safe.

## Tested for a long, hard life at work

All storage units have been tested for office use and meet the requirements for safety, durability and stability set forth in the following standard: ANSI/BIFMA x5.9.

That means that they have undergone a number of tough tests. For example, we've made sure that the surfaces can withstand heavy wear and tear, and that all drawers and sliding doors will run smoothly even after a long time.

# WORK CHAIRS

## Work chairs that make a perfect match

We have comfortable work chairs for all your needs — swivel chairs for your desk, visitor's chairs and conference chairs. And in many different styles, colors and materials, so it's easy to find the perfect match for both you — and your office décor.

Our swivel chairs have features from simple to advanced. How to choose? Start by thinking about what kind of activities you will do and how much time you will spend sitting in the chair. For fulltime work, you might need one with more adjustable features to help you vary sitting positions. Do you have special needs, i.e., want relief for your back, support for your arms and shoulders? What style do you like? Let your answers to these questions guide you to the perfect work chair for you.

## Can take a tough day at work

Our professional chairs have been tested for office use and meet the requirements for safety, durability and stability set forth in the following standards: ANSI/BIFMA x5.1. Check for product specific information on [IKEA-USA.com](http://IKEA-USA.com).

This means we have put the chairs through many different tests and tough challenges. For example, we sized the chair according to both European and American measurement requirements, subjected it to heavy loads and tested the endurance of each part — up to 300,000 times. We did all this to make sure it would be comfortable to sit in, safe to use and capable of enduring fulltime deskwork — for many years.

All Work Chairs in this buying guide (except STOLJAN and NILSERIK) include a free 10-year limited warranty. For details visit [IKEA-USA.com/warranty](http://IKEA-USA.com/warranty)

# GOOD TO KNOW

The human body is made to move, so ideally, your workspace should give you the choice of sitting, standing or leaning, allowing you to change positions often.

## SITTING

1. You should be able to stretch your legs under the table and turn 90° to the left and right. The hips and knees should be at an angle of approximately 95–100° with your feet flat on the floor. If you share the chair with other people, the height adjustable seat allows all of you to sit comfortably.
2. It doesn't matter if you're short or tall. With an adjustable seat depth or a height adjustable backrest you can try different depths and heights and get exactly the support your legs and back need.
3. A chair with tilt function makes it easy to change sitting position, regardless of whether the tilt function is in the seat or the backrest — or in both places.
4. The lumbar region is where we usually feel the first onset of tiredness. A chair with built-in lumbar support relieves pressure on your back.
5. Armrests reduce strain on arms and shoulders. Adjustable armrests reduce strain even more — regardless of how tall or short you are. Make sure that the armrests don't prevent the chair from being drawn close to the desk, and that they don't restrict your movements.
6. If you've been sitting at your desk for some time, it may feel nice to lean back and change your position for a moment. With a headrest on your chair, your head and neck also get some well-deserved relaxation.

## LEANING

A standing support enables a position between sitting and standing, and it's ideal when you have a height adjustable desk.

- Provides freedom of movement for your upper and lower body.
- Activates and strengthens your body's core muscles.
- Gives you an open posture which improves your circulation and metabolic rate.

## STANDING

Don't forget to stand up as well. Alternating between sitting and standing is good for you since it increases circulation and productivity. Check out our height adjustable desks since they're ideal for alternating between sitting, leaning and standing.

# GOOD TO KNOW

**Height adjustable seat** for a comfortable sitting posture regardless of body height.

**Adjustable tilt tension;** increase or decrease the resistance to suit your movements and weight.

**Adjustable seat depth;** easy to adapt for increased support to your thighs and back.

**Synchronized tilt function** in seat and backrest; the chair follows your movements when you lean forward or back.

**Height adjustable backrest;** gives lumbar support and relieves strain on your back.

**Weight compensation mechanism** automatically finds the right amount of tilt tension to open up your body when you lean back.

**Lockable tilt function** for increased stability in different sitting positions.

**Depth adjustable armrest;** adjust the depth according to your needs.

**Height and depth adjustable armrests;** adjust to relieve strain on your arms and shoulders even more.

# SAFETY CASTERS

Chairs should stay where you leave them and not roll away on their own. That's why we put safety casters on our chairs. The casters have a built-in pressure-sensitive brake mechanism so that they roll freely and easily when you sit on the chair — and brake when you stand up. Note that even though the casters don't roll when braked, they can still slide on the floor if the chair is pushed.
