Instrument Panel

Continued

Instrument Panel

■ Odometer

Shows the total number of miles or kilometers that your vehicle has accumulated.

■ Trip Meter

Shows the total number of miles or kilometers driven since the last reset. Meters A and B can be used to measure two separate trips.

■ Resetting a trip meter

To reset a trip meter, display it, then press and hold the **SEL/RESET** button. The trip meter is reset to **0.0**.

■ Outside Temperature

Shows the outside temperature in Fahrenheit (U.S.) or Celsius (Canada).

■ Adjusting the outside temperature display

Adjust the temperature reading up to ± 5°F (U.S.) or ± 3°C (Canada) if the temperature reading seems incorrect.

■ Average Fuel Economy

Shows the estimated average fuel economy of each trip meter in mpg (U.S.) or l/100 km (Canada). The display is updated at set intervals. When a trip meter is reset, the average fuel economy is also reset.

≫Trip Meter

Switch between trip meter A and trip meter B by pressing the **SEL/RESET** button.

≫Outside Temperature

The temperature sensor is in the front bumper. Road heat and exhaust from another vehicle can affect the temperature reading when your vehicle speed is less than 19 mph (30 km/h).

It may take several minutes for the display to be updated after the temperature reading has stabilized.

Use the multi-information display's customized features to correct the temperature.

≫Average Fuel Economy

You can change when to reset the average fuel economy.

■ **Instant Fuel Economy**

Shows the instant fuel economy as a bar graph in mpg (U.S.) or l/100 km (Canada).

■ **Range**

Shows the estimated distance you can travel on the remaining power and fuel. This estimated distance is based on the vehicle's current fuel economy.

■ **Elapsed Time**

Shows the time elapsed since the Trip A or Trip B was reset.

■ **Average Speed**

Shows the average speed in mph (U.S.) or km/h (Canada) since the Trip A or Trip B was reset.

■ **Navigation***

■ **Compass***
Shows the compass screen.

■ **Turn-by-Turn Directions**
When driving guidance is provided by the navigation system* or Android Auto, turn-by-turn directions to your destination appear.
　Refer to the Navigation System Manual
　Android Auto P. 275

▶Elapsed Time

You can change when to reset the elapsed time.
　Customized Features P. 99, 316

▶Average Speed

You can change when to reset the average speed.
　Customized Features P. 99, 316

▶Navigation*

You can select whether the turn-by-turn display comes on or not during the route guidance.
　Customized Features P. 99, 316

2 **Example of customization settings** P. 106

Models with driving position memory system

Customization is possible when you see the driver's ID (**Driver 1** or **Driver 2**) on the screen.
The driver's ID indicates which remote transmitter you have used to unlock the driver's door. The customized settings are recalled every time you unlock the driver's door with that remote.

Put the transmission into P before you attempt to change any customized setting.

Models with On Demand Multi-Use Display™

Customizing is also available from the information screen.
You cannot have **Vehicle Settings** displayed on the multi-information display while the information screen shows the same menu.
2 **Customized Features** P. 316
