## **BLUETOOTH CALLING FUNCTION**

As BSW020 is a Bluetooth Calling watch, the user can make phone calls by using the watch. User does not have to take the phone out to dial number or receive a call. And user can also check the calling record and contacts from the watch.

You just need to keep the connection between the watch and the phone stable when using the phone call function.

BSW020 Bluetooth calling watch comes with an in-built microphone and an in-built speaker for the ease of making phone call through the watch. And you can listen to music and make voice record by using the watch as well.

Please read the following steps to understand how to connect the watch with phone to use bluetooth calling function and other functions.

## Part A - How to connect

- Step 1: After connecting the watch to the FireBolt Invincible APP, you need to go the bluetooth settings of the phone and pair the watch with your phone for bluetooth calling function and phone music function.

Due to different systems of iOS phone and Android phone,so the bluetooth connection for iOS and Android is different as well.Please check the following steps for iOS and Android based on the system of your phone.

## For iOS

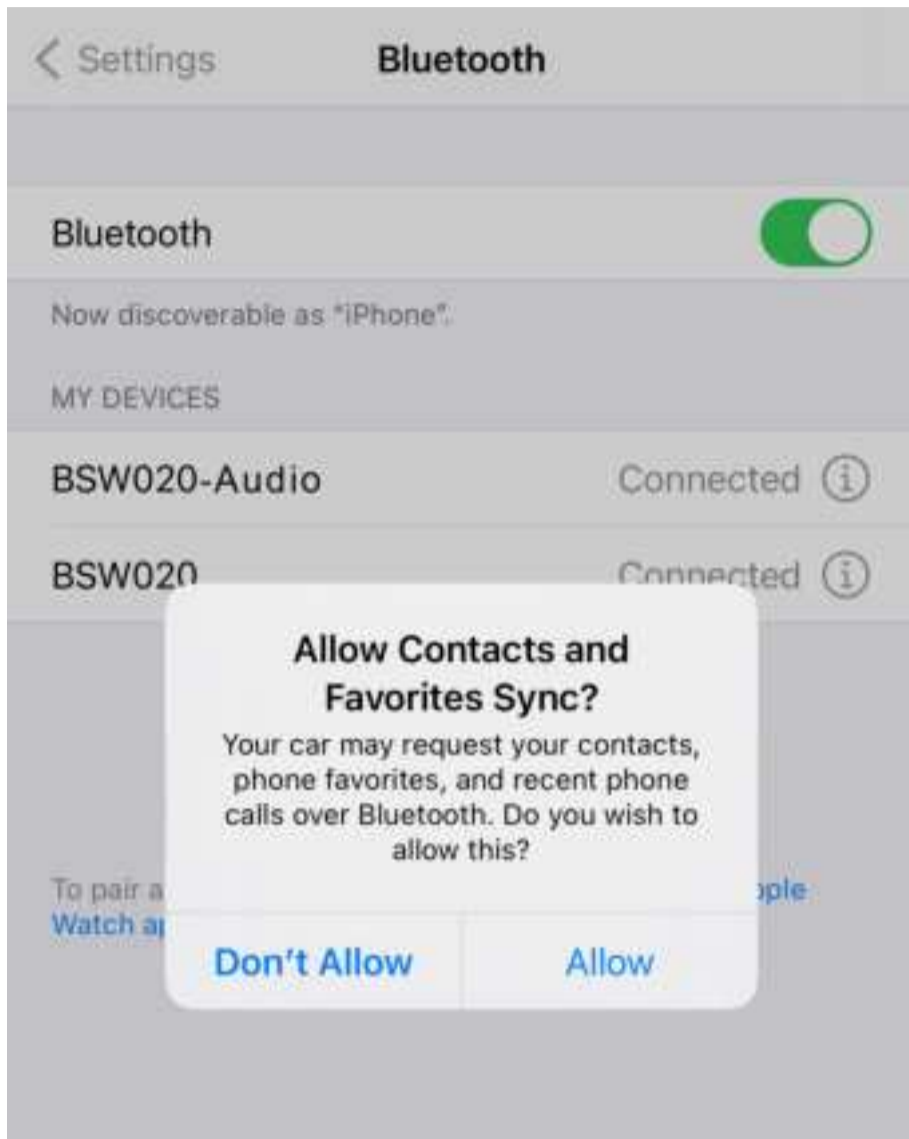

Check bluetooth list of your iOS phone, and find the blue-tooth name as "BSW020-Audio", then click and connect

After connect successfully, the bluetooth name of "BSW020-Audio" will be in "MY DEVICES" list

**Fire-Bolt Invincible**

The smart phone will show a Bluetooth Sync request. Click on Allow to allow contacts and Favorites Sync

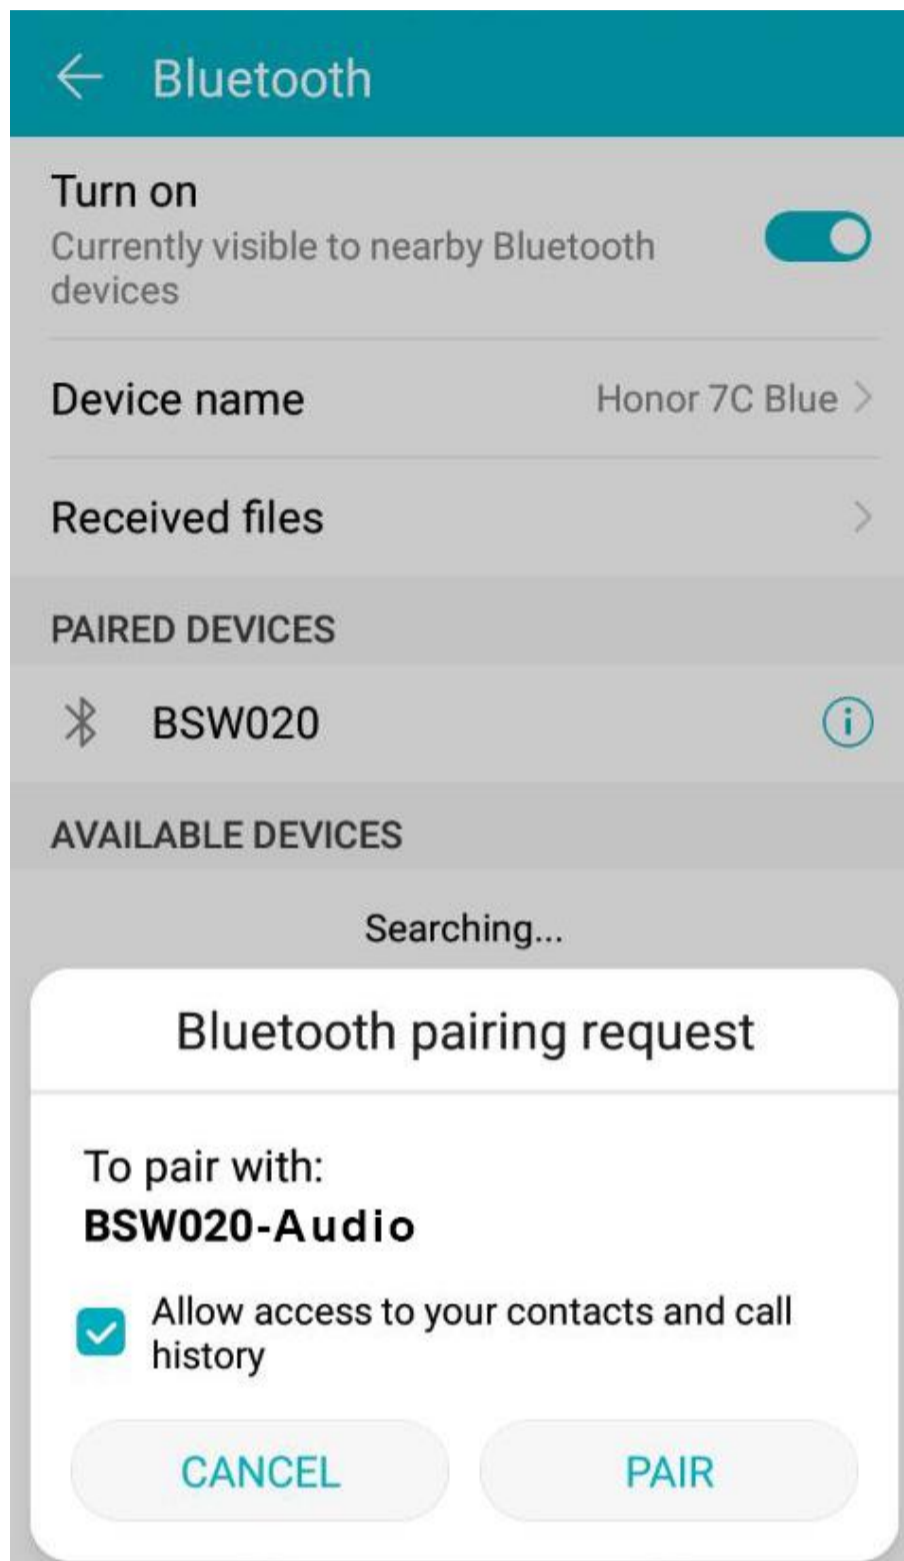

After connecting the watch both with APP and phone,you can swipe down from the main interface to check if the bluetooth icon and phone icon highlight in blue colour.The bluetooth icon and phone icon should be in blue colour after connection

### For Android

Check bluetooth list of your Android phone, and find the bluetooth name as "BSW020-Audio",then click and connect

**Fire-Boltt Invincible**

The smart phone will show a Bluetooth pairing request. Click on Pair to allow contacts and call history

After connect successfully, the bluetooth name of "BSW020-Audio" will be in "PAIRED DEVICES" list

# FIRE⚡BOLTT

After connecting the watch both with APP and phone, you can swipe down from the main interface to check if the bluetooth icon and phone icon highlight in blue colour. The bluetooth icon and phone icon should be in blue colour after connectionn

Note: Please make sure to connect smart watch both with FireBolt Invincible APP and Phone Bluetooth before you use all the functions.

- Step 2: Go back to watch and enter phone call interface to make phone calls

After successfully connecting watch with the phone bluetooth. Then go back to the main interface of the watch

**Fire-Bolt Invincible**

Swipe up to enter all functions interface

Click phone icon at all functions interface to enter phone call dial to make phone calls

After dialing the phone numbers, the watch will make bluetooth phone calls. You can click hang-up icon to stop the phone call. Click the volume icon to adjust

After making the call successfully. Click the volume icon to adjust the volume. Click mute icon to keep mute. Click hang-up icon to hang up the phone call

## Part B - Add contacts

Click contacts icon at all functions interface to enter contact interface. The watch will display No Data and Sync with phone. Then tap "Sync with phone" at this interface to sync the contacts from your phone book

After tapping "Sync with phone" at contact interface, the watch will sync all contacts from your phone

After completing syncing the contacts from your phone, all your contacts will be synced to your watch as well

## Part C - How to disconnect

To disconnect the bluetooth calling, you could simply enter into the bluetooth setting of your phone and "unpaired" the BSW020-Audio device.

## Part D - Switch calls between Phone / Watch Switch Between Watch / Phone During an Active Call:

If your watch is connected to the Phone via Bluetooth, all calls will come on the watch by default. If you want to change the call to the phone during an active call, simply click on BSW020-Audio Bluetooth icon to select. The call will then come on your phone.

## **FCC Statement**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
