Jump Starter

ELITE 1200A SERIES JUMP STARTER

Model: GP37-Plus

Parts and Functional Description

Operation Instructions

Indicator Light

Indicator	1 Stage	2 Stage	3 Stage	4 Stage	5 Stage
Battery Level	20%	40%	60%	80%	100%

How to Charge the GP37-Plus

1. Charged By Wall Charger (100W~240V)

2. Charged By Car Charger

How to Use the Smart Jumper Cable

No Lights on, no beeping: Indicates that the vehicle's battery may be damaged. Confirm the connection of battery clamps is correct, press the "BOOST" button on the jumper cable, wait until GREEN LIGHT is on and then start the vehicle within 30s.

RED LIGHT on with beeping: Indicates the connection is wrong. You need to correct the battery clamps as step 2 mentioned above, then wait until the GREEN LIGHT is on to start the vehicle.

GREEN LIGHT blinking with beeping: Indicates the vehicle's battery voltage is low, press the "BOOST" button on the jumper cable, wait until GREEN LIGHT becomes solid, then start the vehicle within 30 seconds.

LED Flashlight

Package Content

#	Part Name	Quantity
1	Host	1
2	Smart Jumper Cable	1
3	USB to Type-C Quick Charge Cable	1
4	Wall Charger	1
5	Car Charger	1
6	Kit Bag	1
7	User Manual	1

Technical Specification

Input:	15V/1A
Output:	Quick Charge(SV/2.4A,9V/2A) 5V/2.1A,12V/10A
Capacity:	66,600mAh
Start Current:	350A(3s)
Peak Current:	1200A
Size:	157*75*36(mm)
Weight:	540g
Discharge Temp & Charge Temp:	20℃~40℃/ 0℃~45℃
Lifetime:	>1000 Cycles
Full Charging Time:	About 5 Hours

Trouble Shooting

Finding	Cause	Remedies
It has charged for a long time, but the 6th indicator light of this unit is still blinking.	Battery level recognition problem.	Battery level needs to be corrected, unplug the wall charger and discharge the device then recharge it.
No response when pressing the power switch button.	Low voltage protection is started.	Charge the device with wall charger to activate the device.
The unit can not be charged, the first indicator light of this unit blinks at the time.	The unit is over-charged.	Please contact us fiona@gooloo.com
This unit is over heated or swelled.	The unit is over-discharged.	Please contact us fiona@gooloo.com

FAQ

Q1: What is the operating temperature of this unit and how to store it?
A: This unit is Lithium polymer battery, operating temperature is -20~60℃ / -14~149°F. If the ambient temperature is higher than 60℃/149°F, the internal construction of the Polymer Lithium-Ion cells will be changed. It may swell and will be unsafe. So DO NOT store the device in a vehicle for long periods of time, especially in hot weather.

Q2: How to jump start a vehicle with this unit?
A: Make sure the unit is over 60% charged (3 bars on the battery level indicator). If the unit has not been used for more than two months, you should charge it first.

Q3: How do you know if this product cannot start a vehicle?
A: Recharge the device fully, and then try it again. Make sure to wait 30 seconds between each jump attempt. If it still does not work, contact us at: fiona@gooloo.com (Attach your order ID, it is necessary).

Q4: Why this product cannot charge the weak current devices?
A: This product can not be able to charge the weak devices that needs weak current like headphones, smart watch etc. Because it has a minimum load current(400 mA), it will be automatically off after 30 seconds if the charging current is less than 400mA.

Toxic and Harmful Substances

Ph	Hg	Cd	CWV	PBB	PBDE

Warning

1. Read this instruction manual carefully before using this unit.

2. Use caution while using this unit. Injury to self, or damage to the unit or the vehicle battery or device being charged can occur if precautions are not followed.

3. Do not allow use by persons who do not have proper knowledge or ability to operate the device without supervision.

4. Do not use as a toy. Keep the unit away from children to avoid accident.

5. Jump starter is for 12V vehicles only, it would be hazardous to use for other vehicles. It is forbidden to use for other machines such as aircraft, boats, or cord is damaged or if the unit is overheated or swelled or leaking fluid.

6. Do not use the unit in place of a vehicle battery or as a vehicle battery charger.

7. Do not use the unit to start a vehicle while charging the internal battery.

8. Do not use the unit to start a vehicle while charging the internal battery.

9. Use only the jumper cable provided with this unit and charge the unit only using the charger provided with this unit.

10. Do not let this unit over-discharge (do not let the battery run to empty), please charge it regularly, we suggest you had better charge it every 3 months.

11. Make sure the blue plug of the jumper cable is plugged fully into the jumper socket; otherwise, the blue plug could melt or overheat.

12. Make sure all the battery connections are clean before jump starting, and make sure the battery clamps are well connected. If the battery terminals on the vehicle are dirty or corroded, the power of the unit will be lessened.

13. Do not jump start more than 4 times in a row. It could damage the unit by causing it to overheat. Wait at least 30 seconds between attempts. The jumper cable can become overheated and detach as a safety measure.

14. Do not connect the two clamps together.

15. Do not recharge the jump starter's clamps to the battery reversely while pressing the "BOOST" button to avoid accident.

16. Only use it to jump start the vehicle when the battery indicator light of the unit is more than 3 bars.

17. Do not keep the unit connected to the vehicle battery after successfully starting the engine. Remove the product from the vehicle battery within 30 seconds after jump starting the engine. If not, it could lead to damage.

18. Do not recharge this product immediately after using it to start the vehicle, please cool it down for 30 minutes before charging.

19. Do not allow the product to become wet and DO NOT immerse in water.

20. Do not operate the product in explosive atmospheres, such as in the presence of flammable liquids, gases, or dust.

21. Do not modify or disassemble the unit. Only a repair technician can repair this unit.

22. Do not expose product to extreme heat or fire.

23. Do not drop or crush the unit. If the unit has received a sharp blow or is damaged in any other way, a qualified battery technician should inspect the unit.

24. Do not store in locations where the temperature may exceed 70°/158°.

25. Charge the vehicle when the temperature between -20~60°C / -4~149°F.

26. Under extreme conditions, the battery may leak. If a liquid is leaking from the unit, Do NOT handle with your bare hands. In case of skin contact wash with soap and water immediately. If the liquid contacts to eyes, rinse eyes with cold running water for at least 10 minutes and get medical treatment immediately.

27. The unit contains the lithium-based battery. At end of the product life, or if the original purchaser with the product need to be repaired or replaced.

28. The warranty does not cover damage or product failure resulting from normal wear and tear, physical abuse, improper installation, misuse, modification or repairs by unauthorized third parties.

29. We are not liable for any incidental or consequential damage that arises from incorrect use or misuse of this product.

30. Warranty claims are limited to repair or replacement of the defective product and at the sole discretion of GOOLOO.

Made in China

Q3: How do you know if the device is connected to the vehicle correctly?
A: With the battery clamps connected to the vehicle battery, the jumper cable indicator light shines a steady green light, it means it's connected correctly. If the light is flashing red, it means it's connected incorrectly.

Q4: What should I do if this product cannot start a vehicle?
A: Recharge the device fully, and then try it again. Make sure to wait 30 seconds between each jump attempt. If it still does not work, contact us at: fiona@gooloo.com (Attach your order ID, it is necessary).

Q5: What should I do if this product cannot be charged?
A: Charge it with 15V wall charger or car charger for a full overnight period (at least 8 hours). If it still does not work, contact us at: fiona@gooloo.com (Attach your order ID, it is necessary).

Q6: What should I do if this product cannot charge other devices?
A: Try to use another charging cable to charge it again. If it can't work with another cable, the cable we provided is defective. Contact us, we will provide you a new cable. If it still does not work, email us at: fiona@gooloo.com (Attach your order ID, it is necessary).

Q7: Can this product charge other devices while it is being charged?
A: Yes.

Q8: Can this product charge other devices while starting a vehicle?
A: No.

Q9: How long will the charge of the battery remain?
A: 6-12 months, however, we suggest you had better recharge it every 3 months.

Q10: Why this product cannot charge the weak current devices?
A: This product can not be able to charge the weak devices that needs weak current like headphones, smart watch etc. Because it has a minimum load current(400 mA), it will be automatically off after 30 seconds if the charging current is less than 400mA.

Antworten

Q3: Was soll ich machen, wenn das Produkt das Auto nicht starten kann?
A: Laden Sie die Starthilfe wieder und vollständig, versuchen Sie wieder. Stellen Sie sicher, 10 Sekunden zwischen jedem Startversuch zu warten. Wenn es noch nicht funktioniert, kontaktieren Sie uns: devon@gooloo.com, innerhalb von 12-Monatsgarantie (Teilen Sie Ihre Bestell-ID auch mit, es ist notwendig).

Q4: Was soll ich machen, wenn das Produkt sich nicht aufladen lässt?
A: Laden Sie es jeweils mit einer 15V Wand-Ladegerät und Auto Ladegerät für etwa eine Woche nach. Wenn es noch nicht funktioniert, kontaktieren Sie uns: devon@gooloo.com, innerhalb von 12-Monatsgarantie (Teilen Sie Ihre Bestell-ID auch mit, es ist notwendig).

Q5: Was soll ich machen, wenn das Produkt andere Geräte nicht aufladen kann?
A: Versuchen Sie mit einem anderen Ladekabel, wenn es funktioniert, muss das Kabel defekt sein. Maken Sie uns und wir würden Ihnen ein neues Kabel zur Verfügung stellen. Wenn es noch nicht funktioniert, mailen Sie uns: devon@gooloo.com, innerhalb von 12-Monatsgarantie (Teilen Sie Ihre Bestell-ID auch mit, es ist notwendig).
