PHILIPS

Highlights

High-quality microphone

The built-in stereo high-quality microphones produce far better and clearer recordings than standard microphones found in other devices. The recording sensitivity is increased, thus picking up more voice signal without compromising sound quality.

Metal microphone grille

A well-engineered microphone grille is able to make a good microphone stand out even more. The grille built-in the new Voice Tracer's guarantees crystal clear recordings.

Plug and play

Your VoiceTracer just works - Plug and Play in Windows, Mac OS and Linux.

Integrated fold-out stand

With the integrated fold-out stand on the backside of the Voice Tracer you can conveniently position your voice recorder towards the sound source.

Large display

The high-resolution dot matrix display built-in the Voice Tracer's supports 8 languages and provides clear recording status information.

Rechargeable batteries

The new Voice Tracers come with rechargeable batteries for more than 50 hours of continuous recording. Additionally, you can help protecting the environment by simply recharging the batteries of your device using USB instead of buying new batteries.

4 GB memory built-in

With the 4 GB of built-in memory, your Voice Tracer is able to capture up to 44 days of continuous recording.

Extra long battery runtime

The batteries of the new Voice Tracer's last for up to 48 hours for extra long recording sessions.

microSD-Kartensteckplatz

Virtually unlimited recording capacity thanks to a micro SD memory card slot supporting up to 32 GB of additional memory.
