

JOB MANAGEMENT MADE EASY

Do your thing with time-saving apps from Telstra

Looking for a faster way to dispatch, track and manage jobs to your workers in the field? GeoOp does this and more.

With GeoOp you can know where your workers are, assign the right person to the closest job and delight customers with faster service.

Lighten the load with GeoOp and reduce your admin so you can focus on the important aspects of running your business

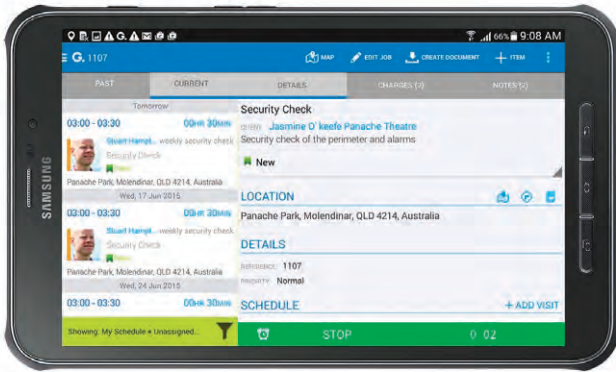

GeoOp can help you improve operational efficiency, productivity and bottom line results.

GeoOp is easy to use, and ideal for:

Increasing cash flow	End to end job management	Increasing efficiency	Speed to execution
Reduce invoice turnaround time from weeks to hours with just one click, or collect payments anywhere, anytime, with an internet connection, without the need to set up a merchant bank account	Have visibility of all your jobs at a glance. Update jobs in near real time so you can always view job status to improve job allocation efficiency and communication back to your customers	Save time and travel costs by making parts, material and pricing lists available for your team to quickly look up and view when away from the office	With a compatible connected tablet or mobile device your workers can complete tasks, order parts and materials, and get customer consent on-site

SUPERCARGE PRODUCTIVITY AND SATISFY MORE CUSTOMERS

GeoOp can help you spend more time on managing and building your business and less time on admin.

Integrates smoothly with backend systems

GeoOp can become a truly seamless part of your existing business processes. It integrates with popular accounting software such as Freshbooks or Xero, as well as GPS location apps such as Google Maps, TomTom and Navman.

Consulting and implementation services

Whether you're a small, medium or very large enterprise, you can use GeoOp as a standalone solution or integrate it with your existing enterprise applications and databases.

We can help you define, design, deploy and manage the solution through our professional consulting and delivery services team.

Mobilise your business with Telstra

We've picked some of the best productivity apps so you can feel confident that you have the right tools at your fingertips.

We can bring all your mobile services together, including apps, on one bill, which includes your hardware, plan and professional services costs. That means one provider and one point of contact.

We've invested in more mobile coverage sites across city and country (>8,200) than any other Australian mobile network so you can enjoy greater and more reliable mobile coverage with fewer dead spots.

So get ready to become productive fast and feel confident that you're unlocking the full benefits of mobility by helping to make your workflow simpler and smarter.

MORE JOBS COMPLETED IN ONE DAY

Instead of being a pen and paper company, Storm Electrical decided to stay ahead of the game and use GeoOp to increase on-time service. GeoOp replaces the manual process of managing field staff.

Customers are being attended to faster as the GPS function can identify the vehicle closest to the job. Managing inventory and accessing job history is easier and stored securely online. And providing compatible connected tablets and mobile devices to field staff has seen an increase in the number of jobs completed in one day. It's removed the need for staff to come back into the office to complete a job. For Storm Electrical, GeoOp has dramatically reduced administration costs and improved cash flow.

SAVING TIME AND MONEY

Fiedler Brothers Plumbing have found GeoOp has saved their guys an hour in time by using the app on their compatible connected tablet or mobile device, to fill out their job cards on site.

This saving in labour time is the equivalent of having another tradesman working. For Fiedler Brothers Plumbing, GeoOp has saved time, money and improved the dispatch of service calls as they know where all their trucks, vehicles and staff are located at a particular time.
