

VISUAL COMFORT
& Co. Est. 1987

20th

At Visual Comfort we greet our twentieth anniversary
with our broadest collection ever.

Visual Comfort is the premier American resource for signature designer lighting.

Over the past twenty years we have produced lighting with some of the most influential names in design.

We will continue to partner with noteworthy talents moving forward, to enrich our extensive and creative selection of products.

We employ exceptional craftsmanship and skillful engineering in every piece we make. We remain committed to creating lighting products that are useful as well as inspired. And, we are proud to offer you extraordinary quality in fine lighting at a remarkable value.

We constantly pursue lighting craft with defining design innovation.

Together with our Chart House and Studio collections, under Chief Designer, lighting legend

Earle F. (Sandy) Chapman, the Visual Comfort offerings span from traditional to contemporary styles.

Our “living” finishes make the difference for lighting choices that are unique in personality and collectible in appeal. We use authentic and natural materials to give our products their

custom character: brass, bronze, nickel, silver and chrome in antique and polished lusters; classic enamels, ceramic and porcelain; forged irons and honed woods; handblown glass; rock crystal and alabaster; elegant parchment papers, silks and linens.

Our selection is suitable for all types of contract and residential projects, and for every decorating philosophy. Whether you are looking for the work of a particular designer or a general type of light, this catalog will help you survey and compare the range of products we proudly offer. See how the art of lighting can work for you.
